ACCREDITATION
Adelphi University, an independent, comprehensive institution, is chartered by the University of the State of New York, and is accredited by the Middle States Commission on Higher Education (3624 Market Street, Philadelphia, PA 19104-2680, 215-662-5606) the New York State Education Department; the National League for Nursing Accrediting Commission (61 Broadway, New York, New York, 10006, 212-363-5555); the American Psychological Association; the American Speech Language and Hearing Association; and the Council on Social Work Education. It is a member of the American Council on Education, College Board and the Association of American Colleges/Universities.

HEGIS CODE DESIGNATION
(“HEGIS” stands for Higher Education General Information Survey.)
Federal and state regulations require that students be advised that enrollment in other than registered or otherwise approved programs may jeopardize their eligibility for certain student aid awards. All of the programs listed in this Bulletin with HEGIS codes have been registered and approved. Consult an academic counselor in the Office of Academic Attainment for current status.

The information in this Graduate Bulletin was prepared as of July 30, 2001. Provisions of this publication are not to be regarded as an irrevocable contract between the student and Adelphi University. The University reserves the right to make changes in its course offerings, degree requirements, regulations and procedures, and fees and expenses as educational and financial considerations require.

EQUAL OPPORTUNITY
Adelphi University is committed to extending equal opportunity in employment and educational programs and activities and does not discriminate on the basis of race, color, religion, gender, sexual preference, age, national origin, disability, or status as a Vietnam-era veteran. The discrimination coordinator pursuant to Section 504 of the Rehabilitation Act of 1973 is Donald Flanders, Associate Vice President, Human Resources and Labor Relations, Room 203, Levermore Hall; 516-877-3224. In addition, Mr. Flanders is the coordinator for Title IX and age discrimination enforcement.
About This Book

This Bulletin presents essential information about Adelphi University. At the beginning of this Bulletin we describe our educational philosophy and mission and touch on some of the highlights of University and student life. This introduction is followed by a description of our graduate academic programs and courses of instruction in the College of Arts and Sciences, Gordon F. Derner Institute of Advanced Psychological Studies (IAPS), School of Business, School of Education, School of Nursing, and the School of Social Work. We then include information about application procedures, tuition and fees, and University rules and regulations. Last, we list faculty, recent honorary degree recipients, the Board of Trustees, and Officers of the University.

The Bulletin is a guide to the resources of the University and a summary of the exciting intellectual opportunities that the University provides students and members of the community.

The contents of this Bulletin are subject to change at the discretion of the University.

  - Last Day to Add a Course
  - Last Day to Change Grading Option
  - Application Deadline for January 2002 Graduation

- **Wednesday, September 26**
  - Holiday Observance (no classes after 3pm)

- **Thursday, September 27**
  - Holiday Observance (no classes)

- **Friday, September 28**
  - Classes Resume

- **Friday, October 19**
  - Last Day to Accept Graduation Application for May 2001 (and have name appear in book)

- **Monday, October 22** – **Friday, October 26**
  - Midpoint of Semester

- **Friday, October 26**
  - Last Day to Withdraw

- **Thursday, November 22** – **Friday, November 23**
  - Thanksgiving Recess

- **Monday, November 26**
  - Classes Resume

- **Friday, December 14**
  - Wednesday 1/2 Day Make-up Class for 9-26

- **Monday, December 17** – **Friday, December 21**
  - Final Exam Week

- **Friday, December 21**
  - Last Day of Classes

### Spring 2002

- **Tuesday, January 15** – **Wednesday, January 16**
  - Registration

- **Monday, January 28**
  - Classes Begin

- **Friday, February 8**
  - Late Registration Ends
  - Last Day to Add a Course
  - Final Date for Submission of Graduation Application for May 2002

- **Friday, February 22**
  - Last Day to Drop a Course
  - Last Day to Change Grading Option

- **Monday, March 25** – **Friday, March 29**
  - Spring Break

- **Monday, April 1**
  - Classes Resume
  - Last Day to Withdraw
  - Summer Registration Begins

- **Monday, May 13** – **Friday, May 17**
  - Final Exam Week

- **Friday, May 17**
  - Last Day of Classes

- **Sunday, May 19**
  - Commencement
Summer 2002

First Session
Monday, April 1 – Friday, May 24
Registration

Monday, May 27
Memorial Day (no classes)

Tuesday, May 28
Classes Begin

Friday, May 31
Late Registration Ends
Last Day to Add a Course

Friday, June 7
Last Day to Drop a Course
Last Day to Change Grading Option

Friday, June 14
Last Day to File for August Graduation
Last Day to Withdraw

Monday, June 24 – Friday, June 28
Final Exam Week

Friday, June 28
Summer I Classes End

Summer 2002

Second Session
Monday, April 1 – Friday, July 5
Registration

Thursday, July 4
Independence Day (no classes)

Monday, July 8
Classes Begin

Friday, July 12
Late Registration Ends
Last Day to Add a Course

Friday, July 19
Last Day to Drop a Course
Last Day to Change Grading Option

Friday, July 26
Last Day to Withdraw
Monday, August 5 – Friday, August 9
Final Exam Week

Friday, August 9
Summer II Classes End
An Adelphi Education
Adelphi University:
Liberal Arts and
Professional Education

Adelphi University provides graduate students with excellent practical preparation for professional and scholarly careers in business, the arts and sciences, education, nursing and health management, clinical psychology, and social work. Every profession, every human endeavor, is enhanced by the participation and leadership of people who know how to think critically and act thoughtfully. Adelphi graduate students prepare not only for advanced careers but also for full lives as citizens and working professionals.

With an ethnically diverse student body, recruited from 35 states and more than 50 foreign nations, Adelphi provides a cosmopolitan atmosphere conducive to intellectual questioning, surprise, and growth. That growth is also stimulated by the accessibility of nearby New York City, which in its cultural richness and social complexity provides a real-world laboratory for students’ exploration of the modern world. The pages that follow present in greater detail the many facets of graduate life and learning at Adelphi University.

A Brief History of Adelphi University

Adelphi University’s roots reach back to 1863 and the founding of the Adelphi Academy, a private preparatory school located at 412 Adelphi Street, Brooklyn, New York. The Academy was incorporated in 1869 and its Board of Trustees was charged with establishing “a first class institution for the broadest and most thorough training, and to make its advantages as accessible as possible to the largest numbers of our population.” The school quickly gained a reputation for its innovative curriculum, particularly in physical culture and early childhood education. By 1893, 1,032 students were enrolled in its primary, grammar, three-year subcollegiate and two-year collegiate division.

The appointment of Dr. Charles H. Levermore as the head of the Academy in 1893 was an important moment in Adelphi’s history. Realizing the city of Brooklyn was without a liberal arts college, Levermore seized the opportunity to establish Adelphi College. Through the efforts of Timothy Woodruff, former Lieutenant Governor of New York State and future president of the Board of Trustees, Adelphi College, with 57 students and 16 instructors, was granted a charter — one of the earliest charters granted to a coeducational college by the Board of Regents of the State of New York — on June 24, 1895. Henceforth, degrees issued bore the seals of Adelphi College and of the University of the State of New York and were signed by the officers of the college and by the Chancellor and the Secretary of the University. For the next 25 years, the Academy remained intact yet separate from the College.

Over the course of the next one hundred years Adelphi grew and changed significantly. For more than three decades following 1912, the institution served only women. In 1944, Adelphi’s School of Nursing became the first such school established by a college in New York State in response to the pressing need for nurses created by the United States’ entry into World War II. To mark the opening of two federally funded residence halls for women, First Lady Eleanor Roosevelt delivered an address at Adelphi entitled, “The Challenge of Nursing for Young Women Today.” Within five years, the School — one of the largest college-units of the United States Cadet Nurse Corps — graduated 500 nursing students into active service in the Corps and expanded the College’s enrollment by 1,200 students.
After the war, Adelphi reverted to its original coeducational model to accommodate returning World War II servicemen. The School of Social Work was founded in 1949; doctoral education followed in 1950. Adelphi’s program in clinical psychology was formally organized in 1952 and evolved into the Gordon F. Derner Institute of Advanced Psychological Studies, which has the distinction of being the first university-based graduate school in psychotherapy.

In 1963, after another decade of expansion, Adelphi was granted university status by the Board of Regents. By the 1970s, the Garden City campus, established in 1929, had expanded from its original three buildings — Blodgett, Levermore, and Woodruff Halls — to 21 buildings on 75 acres, including the Leon A. Swirbul Library, now a fully computerized collection of more than 1.7 million volumes and microformat and audiovisual items.

Today, Adelphi University’s colleges and schools include the College of Arts and Sciences, the Gordon F. Derner Institute of Advanced Psychological Studies, the Honors College, the School of Business, the School of Education, the School of Nursing, the School of Social Work, and University College. Uniting these diverse liberal arts and professional programs is their shared tradition of academic innovation and rigor and their common philosophy of education and lifetime learning. Their more than 500 full- and part-time faculty serve over 6,400 undergraduate and graduate degree candidates.

While focusing its rich resources on the needs of its students, Adelphi also seeks to serve its locality, state, and nation through the research and practice of its faculty; the strengthening of ties between the professional schools and community; the staging of distinguished cultural events at its campuses; and most essentially, the education of a generation of future leaders and informed citizens, professionals, and community members.

Graduate Colleges and Schools of the University

College of Arts and Sciences
The College of Arts and Sciences is proud of its distinguished tradition of commitment to liberal learning. The renewed emphasis of present-day educators on the liberal arts reflects the long-held belief that a liberal education best promotes intellectual development and ethical purpose while offering students the greatest number of opportunities, both in work and in life. It is the College’s aim to cultivate insight, effective expression, and the ability to discriminate by means of critical thinking and sound judgment. Instruction in the College proposes to foster a critical and seriously curious cast of mind, and the resourcefulness indispensable to self-realization and leadership. Study of the liberal arts and sciences at the graduate level at Adelphi is guided by more specialized education through major programs in the College’s various departments.

Gordon F. Derner Institute of Advanced Psychological Studies
The Gordon F. Derner Institute of Advanced Psychological Studies is the first university-based professional school in psychology. The Institute offers a B.A. in psychology, a Ph.D. degree in clinical psychology, as well as a respecialization program for those psychologists who wish to retrain in clinical psychology. The Institute also offers a Postdoctoral Certificate in Psychoanalysis and Psychotherapy; and a master’s program in general psychology.

The Institute operates the Psychological Services Center, which offers psychological assessment, counseling, and psychotherapy to all members of the University community.

School of Business
The School of Business prepares leaders to meet the challenges of today’s rapidly changing,
business-oriented world. To this end, the School offers a comprehensive, relevant, professional education in business that is based on a solid foundation of liberal learning. It is the integration of liberal learning with professional education that provides business leaders with the breadth of knowledge and intellectual capacity they need in order to conceive and implement sound business decisions in an imaginative, ethical, and responsible way. The School of Business, with the School of Nursing, now offers a joint degree program in which students earn an M.B.A. degree in Management and an M.S. in Nursing.

**School of Education**

The School of Education is composed of Education Studies; Communication Sciences and Disorders; and Health Studies, Physical Education and Human Performance Sciences. Depending on the program, we prepare our students to teach in various K–12 schools or clinical settings. Our students’ professional preparation enhances their awareness of the foundations of schools, developmental stages of children, adolescents, youth, and adults and provides the skills, strategies, and techniques necessary to implement effective teaching/learning interactions in our complex multicultural society.

**School of Nursing**

Nursing is a profession that draws from humanistic and scientific traditions for its knowledge and skill. The School is committed to excellence in teaching, practice, scholarship, research, and the development of critical thinking. The School educates and prepares graduates to become professional nurses who are accountable to patients, clients, society, and the profession. Together with the School of Business, the School of Nursing offers a joint degree program in which students earn an M.S. degree in Nursing and an M.B.A. in Management. The school is accredited by the National League for Nursing Accrediting Commission, 61 Broadway, New York, New York, 10006, (212) 363-5555.

**School of Social Work**

The School of Social Work prepares professional social workers for the human services. This preparation is done within the context of a broad liberal arts education that emphasizes the importance of intellectual skills and an ethical vision. The curriculum enables graduates to live as informed citizens and to be educated, humane, and skillful professionals.

The School offers B.S.S.W., M.S.W., and D.S.W. degrees; Post-Master’s Certificate Programs are offered in Clinical Social Work, Bilingual School Social Work and Addiction Specialist treatment. The B.S.S.W. and M.S.W. programs are fully accredited by the Council on Social Work Education.

**Extension Centers**

In addition to the main Garden City campus, Adelphi reaches out to the community with programs at a variety of locales and has established extension centers in Manhattan; Huntington, Long Island and Poughkeepsie, New York where the Hudson Valley program offers an M.S.W. degree. Please see the School of Social Work (Section VII) for more information.

**The Manhattan Center**

Adelphi University’s Manhattan Center is located in SoHo, a historic district noted for its cast-iron architecture and home to artists, galleries, avant-garde dance companies and performance artists. The Center, a contemporary facility, encompasses more than 31,000 square feet of classrooms, conference rooms, student lounge areas, a research branch library, and an art gallery.

Graduate course work is offered in social work and education (including elementary edu-
cation, secondary education, special education, bilingual/ESL, reading, speech and communication disorders, and educational administration/technology). The students in these programs are supported by full-time academic advisors and financial aid counselors.

In addition, the Manhattan Center houses a Center for Community Service that provides free services and field placement opportunities to Adelphi students, as well as low-cost services to members of the community. The services include tutoring/literacy support, psychological and educational testing, speech therapy, and individual/group counseling.

The Huntington Center

Adelphi’s Huntington Center is located near all major highways on 20 acres in rural Suffolk county. It is convenient to Route 110, a major Long Island corporate and industrial center.

The Huntington Center offers graduate course work in business administration and in education. Undergraduate course work is offered in social work, and in the ABLE program for adults. Advisors and counselors are readily available to speed the admissions and registration process and to offer guidance in all academic programs.

Student Life at Adelphi

Adelphi University is committed to students’ well being, growth, and success. To this end, a wide range of services, programs, and activities is available.

A broad range of co-curricular activities is offered in comfortable facilities to complement academic life. The Office of Cultural Life and the Student Activities Board bring many world renowned and fascinating speakers to our campus; recent speakers include world leaders such as former Soviet President Mikhail Gorbachev and former Israeli Prime Minister Shimon Peres; authors Alice Hoffman, Jonathan Kozol, Mark Mathabane, and Frank McCourt; journalists and political commentators David Gergen, Robert MacNeil, Anna Quindlen, and Frank Rich; actors Celeste Holm, Rita Moreno, and Ben Vereen; filmmaker Spike Lee; poets Elizabeth Spire and Robert Hass; historian Arthur Schlesinger, Jr.; New York Yankee Manager Joe Torre; and former presidential advisor George Stephanopoulos.

Through the Office of Student Activities and Orientation, Adelphi sponsors a number of trips to New York City theaters, museums, and street festivals, and coordinates a variety of on-campus social events. Adelphi’s department of performing arts also adds to campus life with dance, theater, and music productions in the Olmsted Theatre. Intercollegiate athletics, campus recreation, and intramural activities serve to enhance and enrich student life.

All of these activities—social, artistic, scholarly, athletic—are part of the spirit of learning that unifies course work at Adelphi and sustains a vibrant atmosphere on our campus. If you have suggestions for augmenting student life at Adelphi, or have other issues or concerns, please see the dean of student affairs in the University Center, room 106 (516) 877-3660.

The Ruth S. Harley University Center

The University Center, or “UC,” is known as “the center of it all.” Most major events taking place on campus happen here. The newest addition to the UC is the Cyber Café, which has iMac computers allowing students easy access to the Internet while dining on gourmet sandwiches, coffee, and ice cream. Also housed within the UC are the University bookstore, campus cafeteria, art gallery, an ATM machine, several student organization offices, meeting space, and an interfaith chapel.

On the main floor you will find the Information Desk, which provides a lost and found service, postage, directions, and locker rental
AN ADELPHI EDUCATION

for commuter students. Any questions you may have can be answered here.

Across campus, Post Hall contains a dining facility featuring a Sbarro’s and our newly renovated convenience store and Panther Grill.

The University Libraries

The University Libraries are composed of Swirbul Library, the Science Library, the libraries at the Manhattan and Huntington Centers, and the Library Storage Annex in Hempstead. The Libraries offer facilities, resources, and services in support of the instructional, research, cultural, and student life programs of the University. They are dedicated to providing information and instruction as a central and integral part of the total educational experience of every student.

The University Libraries contain approximately 626,000 volumes, including bound periodicals and government publications, as well as materials in other formats, including approximately 789,000 microforms, 43,000 audiovisual items and approximately 150 electronic databases. The Libraries maintain current subscriptions to periodicals and other serials that are carefully selected to support Adelphi's curriculum and educational mission.

The Libraries are committed to providing state-of-the-art information systems and services. These include an integrated library system, ALICAT III (the Adelphi Libraries Catalog Online, which provides access to the total library holdings), rapidly expanding electronic information resources, a growing number of full-text retrieval systems, and computerized current awareness and document delivery services. Online resources are accessible throughout the campuses and from home and office PCs of faculty and students. Members of the Library Faculty are available to provide instruction in the use of the Libraries and their resources, either on a class or individualized basis.

Swirbul Library houses General Reference Services, Circulation/Reserve Reading, Periodicals, Microforms, Interlibrary and Document Delivery Services, Nonprint Media Services, a Multimedia Classroom, Special Collections, University Archives, the Curriculum Materials Center, and the University’s main Information Commons, containing 63 computer workstations, ports for laptops, two computer classrooms, and a Customer Services Desk to assist users. Among the Libraries, notable special collections are: William Cobbett; William Hone; Americana; the Hugo and Florentina Leipniker Memorial Collection of William Blake; Cuala Press; expatriate literature of the 1920s and 1930s; materials on the origin and development of the English novel; Spanish Civil War Papers; the Siegfried Muller Memorial Collection of Gerhart Hauptmann; and the Robert R. McMillan Collections of the Panama Canal and Political and Presidential Memorabilia. The Aimee Ornstein Memorial Library, which is the result of an endowment established by the Ornstein family, represents an outstanding collection in the areas of banking, money management, and finance. The Library is also a selective depository for official publications of the United States and New York State.

The Science Library, located in the Science Building, contains collections in the areas of physics, chemistry, and biology. Increasingly, the Science Library is becoming a modern, computerized science information center, providing access to electronic resources and document delivery/current awareness research services. Basic collections are maintained in the libraries at both the Manhattan and Huntington Centers in support of the academic programs offered on those campuses.

Adelphi faculty and students have on-site access to a wealth of library resources in the greater New York area; and, the resources of the Adelphi Libraries are supplemented by a variety of cooperative resource-sharing arrangements with other libraries and through interlibrary loan, document delivery services, and electronic information systems.

For more information, visit the Libraries website at http://libraries.adelphi.edu.
Information Technology and Resources

Adelphi’s Office of Information Technology and Resources provides technology related services to both the academic and administrative sectors of the University. The Office of Information Technology and Resources is located on the lower level of the Business Building at the Garden City campus. Students and faculty are provided a wide variety of technologies and services. Users have access to general- and special-purpose computer labs, several midrange Unix enterprise-wide servers, office automation and technical software, as well as consulting, help desk, and faculty support services.

The Office of Information Technology and Resources provides six general-access computer labs at the following locations: the Business Building, 110; the Science Building, 227 and 236; and the Gallagher, Hay, and Information Commons areas located in Swirbul Library. These general-access computer labs are equipped with Pentium PCs, PowerPC Macintoshes, Unix workstations, printers, and scanners. The Hay, Gallagher, Business 110, and Science 227 computer labs are also equipped for instruction. Labs are supervised by student assistants and/or personnel. Normal operating hours of these labs are: Monday through Thursday from 8:00 am. - 12 Midnight; Friday 8:00 am. - 8:00 p.m.; Saturday 10:00 a.m. - 8:00 p.m.; and Sunday from 12 Noon - 12 Midnight. In total, there are 519 Pentium PC, PowerPC Macintosh and Unix workstations located in general and special-purpose labs throughout the campus including physics, biology, education, nursing, mathematics, chemistry, and psychology labs; and a state-of-the-art graphics design lab. In addition, 10 laptops are available to students and faculty for use only within the Swirbul Library. Laptops can be reserved from the Customer Support & Training Desk on the second floor of the library. Data jacks have been provided along the perimeter of the entire Information Commons area.

Internet connectivity is available to any student who resides in residence halls located on the Garden City campus. The Office of Information Technology and Resources provides staff to assist residential students configuring their PCs. Furthermore, 11 smart classrooms are available throughout the campus. The rooms are fitted with a projector, PC, VHS/recording equipment, cable TV, document camera, Internet connectivity, and external data/power ports.

Various software titles are available within the labs for PCs including: Microsoft Windows NT 4.0 as the operating system, Corel WordPerfect Suite 8, Microsoft Office Pro '97 (Word, Excel, PowerPoint), Microsoft Access '97, Visual basic, Dr. Scheme, Visual C++, Acrobat 4.5b, FTP explorer, Turbo Pascal for Windows, Minitab release 12, Turbo Pascal for DOS 7.0, Interactive Algebra Tutor, Code Warrior Programming System, Netscape 4.61 Communicator, QVT net 4.05, Norton AntiVirus v. 5.0, Internet Explorer 5.5, Outlook Express, Yahoo Messenger, Real Player 8, Tera Term Pro 2.3, Quicktime, MS Chat 2.5, Media Player 6.4, SPSS 10, Omnipage 10, Adobe Photoshop, Illustrator 9 and Quark. Titles supported for Macintosh computers include: Macintosh O/S ver. 9.0, Microsoft Word 5.1 and 6.01, Excel 5.0, PowerPoint 3.0, Wordperfect 3.5, Netscape 4.0, HyperCard player, Norton Antivirus, Photoshop, Illustrator, Quark and Telnet 2.6.

In addition to the software titles above, all campus desktop workstations can utilize the software and services provided on several midrange Unix enterprise-wide servers via the campus’ data network. One DS20 Alpha server running Compaq Tru64, Unix ver. 4.0F provides simultaneous login for over 2000 user accounts.

Software on this system includes the FORTRAN, Pascal, C++, G++, and Perl compilers; SPSS statistical package, Oracle database; and Tex, Latex graphics packages. A full range of Internet services such as: ftp, Telnet, News, Gopher, IRC, and pop-server email are supported. Also, one Alpha Server 800, two Alpha
3000 workstations, three NT Web Servers and two Novell Web Servers support the University’s WWW pages, user WWW pages. A Linux server is also on-line supporting real media files.

The Office of Information Technology and Resources offers various support services and training seminars to the Adelphi community. The Help Desk provides initial technical support and assistance to all users. Support requests are logged into an automated database system and routed to the appropriate person. To reach the Help Desk, dial extension 3340 or 3333.

**Center for Career Development**

The Center for Career Development educates students in the skills they will use for a lifetime as they select, enter, change, or advance in a career.

Adelphi graduate students may come to the Center to research a library of timely information about careers and the job market; to review listings of current full-time, part-time, and seasonal employment opportunities and internships sorted into career fields; and to attend workshops in which students learn to develop a job search strategy, produce effective résumés and letters, and prepare and practice for interviews. Individual confidential career counseling is available by appointment and during walk-in hours.

The Center for Career Development coordinates the visits of employers to the Adelphi campus for job fairs and for individual employment interviews with graduating students. The Center provides a credential file service for students and alumni seeking positions in fields that require it.

The Center for Career Development, located in Post Hall, is open year round from 8:30 a.m. to 4:30 p.m., Monday through Friday, with extended hours on some Wednesdays. The Center accommodates all on-campus and off-campus students, including those with special needs. For the complete schedule of career events, call the Career Hotline at (516) 877-6825 or visit the Career Development website at http://students.adelphi.edu/career.

**Academic Advising**

Graduate students are assigned a member of the faculty whose area of expertise is consonant with the student’s area of specialization to counsel on matters of academic performance, progress, and professional aspirations, and in course selection for the coming semester and year. Faculty advisors post office hours of availability. It is the student’s responsibility to contact the faculty advisor to arrange advising appointments at scheduled office hours or at other times.

**Residential Life and Housing**

Limited on-campus housing is available to graduate students. The Office of Residential Life and Housing is located in Earle Hall 100, (516) 877-3650, or visit us on the web at www.adelphi.edu.

**Commuter Student Affairs**

The Office of Commuter Student Affairs provides services and programs for students who commute to the University. The Office helps each commuter explore and take full advantage of the many University-sponsored cocurricular and extracurricular program offerings. Key services provided include a message center, a ride board, public transportation schedules, maps, and emergency road service referral. The office also maintains listings of apartments and rooms near the University. The office is located in University Center 109, (516) 877-6667.

**International Student Services**

Adelphi University has a strong commitment to international education and welcomes students from all over the world. The Office of International Student Services, which is located in the University Center, assists international students in meeting legal requirements for entry into the United States and in maintaining legal status while pursuing full-time study at the University. The Office provides advice regarding the requirements of the Immigration and Naturalization Service,
Internal Revenue Service, Department of State, Social Security Administration, and a wide variety of concerns such as culture customs and educational systems.

In addition, the Office of International Student Services and the International Student Society can help all international students meet the academic, social, and personal challenges before them: registering for classes, making new friends, finding a suitable place to live, learning the procedures and policies of the University, and developing an understanding of American culture through workshops, special events and individual counseling.

The Office is located in room 109 of the University Center, (516) 877-4990 or (516) 877-3661.

Office of Disability Support Services

The Office of Disability Support Services assists students with disabilities in accessing the variety of resources available at Adelphi University. The mission of the Office of Disability Support Services is to provide an increasingly accessible and supportive learning environment for students with disabilities. The Office provides cost-free assistance to Adelphi students with documented disabilities. Such disabilities include but are not limited to physical, learning, psychological, and sensory. Examples of types of assistance available to students with disabilities include accommodative testing arrangements, academic assistance (note-takers, interpreters, etc.), and other accommodations as needed. The Office of Disability Support Services is located in University Center, room 310, and is open Monday through Friday from 8:30 a.m. to 5:00 p.m. The coordinator may be reached at (516) 877-3145 or at dss@adelphi.edu. For more information, please see “Academic Assistance for Students with Disabilities” in the “Rules and Regulations” section of this Bulletin.

ELS Language Center

Before enrolling in regular credit-granting graduate courses, international students may study English in the ELS program. Monthly starting dates for English-language training have been arranged for the convenience of international students. The ELS office is located in Linen Hall. For admissions information, contact ELS at (516) 877-3910.

The Interfaith Center

Religious life and practice are a matter of choice at Adelphi. As a private, nonsectarian university, Adelphi does not promulgate any particular religious belief. The Interfaith Center provides a campus ministry to suit individual needs through spiritual guidance, counseling, educational programs, social events, and opportunities for worship. Participation is voluntary and all are welcome. Students are served by representatives of the Catholic, Protestant, and Jewish faiths.

The Interfaith Center fosters an ecumenical and interfaith presence on campus and introduces interested members of the University community to houses of worship in the area. On the third floor of the University Center they maintain the Interfaith Chapel, the Interfaith Library, and Offices of the Jewish, Catholic, and Protestant Chaplains.

Student Counseling Center

A student often faces many stresses and pressures. The Student Counseling Center (University Center, Room 310, (516) 877-3646) is here to help. We offer a variety of services, including individual and group therapy, consultation and assessment, crisis intervention, and referrals to both on-campus and off-campus resources. Our monthly wellness workshop series offers a forum to discuss a variety of issues that impact a student’s life. The Student Counseling Center also offers education and confidential counseling to students regarding drug and alcohol abuse issues.
A significant on-campus resource is The Center for Psychological Services, which offers psychotherapy and psychological testing to students, staff, and the surrounding community. It is housed in the Hy Weinberg Building and is part of the Derner Institute for Advanced Psychological Studies. Professional and confidential services are provided at no fee to members of the Adelphi community, (516) 877-4820.

**Health Services Center**

The Health Services Center provides high-quality health care and health education to the University community. Registered nurses are available 24 hours a day, seven days a week, during the semester; during semester breaks and throughout the summer, registered nurses are available during daytime hours Monday through Friday. Appointments with the University physicians are made through the Health Services Center. The Health Services Center is located in Waldo Hall, (516) 877-6000.

**Multicultural Affairs**

The Office of Multicultural Affairs, in cooperation with other offices and programs, strives to create an environment that encourages students from diverse racial and ethnic backgrounds to participate actively in campus life by assisting the University in developing special recruitment, retention, and educational strategies. This office also sponsors workshops that allow students to discuss their differences in a safe and comfortable setting.

The Office of Multicultural Affairs provides leadership training and administrative support to all multicultural organizations. The office also provides specialized mentoring services and supplementary advice to students of color during their studies at the University. Its open-door policy provides confidential and ready access for students who are experiencing difficulties for whatever reason or need assistance adjusting to college.

The Multicultural Advisory Committee is comprised of administrators, faculty, and staff members who develop innovative ways to allow all students to learn and respect diversity. The Committee also assists in solving problems that are initiated by an individual or group.

The Office is located in the University Center, Room 109, (516) 877-3661.

**Childcare Services**

Adelphi’s Child Activity Center provides daytime childcare services, Monday through Friday, at Garden City to children, ages 3 years through kindergarten, while students attend classes. The teachers are state-certified, and are highly knowledgeable and responsive to early childhood development. *(Fee required.)*

In addition, the Center is a site for field experiences that are part of academic programs in all professional schools.
Graduate Curriculum and Table of Graduate Degrees

The curricula, or courses of study, of the graduate programs are set forth in later sections devoted to the individual schools: the College of Arts and Sciences, School of Education, School of Business, School of Nursing, School of Social Work, and the Gordon F. Derner Institute of Advanced Psychological Studies.

The University awards the following graduate degrees to students who fulfill all degree requirements. Students are advised that enrollment in other than registered or otherwise approved programs may jeopardize their eligibility for certain student aid awards.

Doctor of Philosophy (Ph.D.)
Psychology:
Clinical (HEGIS: 2003.00)*

Doctor of Arts (D.A.)
Communicative Disorders (HEGIS: 1220.00)
Mathematics (HEGIS: 1701.00)

Doctor of Social Welfare (D.S.W.)
(HEGIS: 2104)

Master of Arts (M.A.)
Art (HEGIS: 1002)
Art Education (HEGIS: 0831)
Biology “7–12” (HEGIS: 0401.01)
Chemistry “7–12” (HEGIS: 1905.01)
Community Health Education (HEGIS: 0837.00)
Early Childhood and Elementary Education (HEGIS: 0802.00)
Educational Leadership and Technology (HEGIS: 0827.00)
Elementary Teachers, N–6 (HEGIS: 0802.00)

* “HEGIS” stands for Higher Education General Information Survey.

Master of Science (M.S.)
Accounting (HEGIS: 0502.00)
Adult Health Nursing (HEGIS: 1203.10)
Bilingual Education (HEGIS: 0899.00)
Biology (HEGIS: 0401.00)
Business (HEGIS: 0506.00)/Nursing (HEGIS: 1203.10)
Joint M.B.A./M.S.
Communication Disorders (HEGIS: 1220.00)
Deaf Studies (HEGIS: 0812.00)
Environmental Studies (HEGIS: 0420.00)
Finance (HEGIS: 0504.00)
Mathematics Teacher Program (HEGIS: 1701.01)
Nursing (HEGIS: 1203.10)
Nursing (HEGIS: 1203.10)/Business (HEGIS: 0506.00)
Joint M.S./M.B.A.
Nursing Service Administration (HEGIS: 1203.10)
Special Education for School Age Learners (HEGIS: 0808.00)
Literacy Education (HEGIS: 0830.00)
Special Education for School Age Learners and Elementary Education (HEGIS: 0815.00)
Teachers of Speech and Hearing Handicapped (HEGIS: 0815.00)
Master of Business Administration (M.B.A.)
- Accounting (HEGIS: 0502.00)
- Management (HEGIS: 0506.00)
- Business/Nursing
- Joint M.B.A./M.S. (HEGIS: 0506.00 Business) (HEGIS: 1203.10 Nursing)

Master of Social Work (M.S.W.) (HEGIS: 2104.00)
- Post-Master’s Certificate Program in Clinical Practice (HEGIS: 2104.00)
- Post-Master’s Addiction Specialist Certificate Program (HEGIS: 2104.00)
- Post-Master’s Bilingual School Social Work Certificate (HEGIS: 2104.00)

The University also awards the following post-master’s advanced certificates, registered with the State of New York, to students who have fulfilled the respective advanced certificate requirements:

Advanced Certificates
- Adult Nurse Practitioner (HEGIS: 1203.12)
- Aging (HEGIS: 2299.10)
- Banking (HEGIS: 0504.00)
- Community Health Education (HEGIS: 0837.00)
- Environmental Management/Policy (HEGIS: 0420.00)
- Educational Leadership and Technology (HEGIS: 0827.00)
- Global Studies (HEGIS: 2210.00)
- Human Resource Management (HEGIS: 0515.00)
- Management (HEGIS: 0506.00)
- Managers of Volunteer Services (HEGIS: 2199.00)
- Nursing Service Administration (HEGIS: 1203.12)
- Physics (HEGIS: 1902.00)

Postdoctoral Certificates Awarded by the Gordon F. Derner Institute of Advanced Psychological Studies
- Respecialization in Clinical Psychology
- Psychotherapy: Childhood and Adolescence
- Psychotherapy and Psychoanalysis

Ruth McShane, Assistant Dean

Philosophy of the College

Long before Adelphi was a University composed of many distinct schools, it was Adelphi College, founded in 1896 and distinguished by its progressive commitment to liberal undergraduate learning. Today the chief heir and champion of that commitment is the College of Arts and Sciences. The Graduate School of Arts and Sciences is a division of the College.

On the occasion of the first Commencement of Adelphi College, William C. Wallace, a graduate of Adelphi Academy, the preparatory school that was the College’s predecessor, commented on the College motto: Vita sine litteris mors est. His remarks could equally illuminate the philosophy of today’s College of Arts and Sciences. “Surely,” he said, “life without learning, without knowledge, is death. Without faithful knowledge of the past, without a living knowledge of the present, without an intelligent hope for the future, wherein would we differ from the meanest thing that lives, moves, and has a being? Without ability to learn the great physical, intellectual, and spiritual truths we are indeed dead.”

Mindful of the cultural inheritance of the past, the College encompasses those realms of inquiry that have characterized the modern pursuit of knowledge.

Knowledge of what others have accomplished is part of what makes a person educated, but only part. What matters more is the transformation of the learner’s mind: the development of those qualities of intellect and independence essential to practical success in the modern world and a full productive life.

The faculty of the College place a high priority on their students’ intellectual development in and out of the classroom, and structure programs and opportunities to foster that growth. Learning at the graduate level will necessarily challenge a student to study and analyze original research or other creative work, develop first-hand facility with creative or research methodologies, undertake collaborative work with peers and mentors, engage in serious internships, and hone communicative skills.

Aware of the expanding number of mature students seeking graduate study, the University schedules graduate programs to be as convenient for the part-time student as possible.

We invite you to explore the graduate study options available in the College of Arts and Sciences. Each department’s programs provide excellent preparation for further study or careers in a particular field. Just as important, as William C. Wallace suggested, they contribute to a life worth living.

* See also School of Education.
Graduate courses are also offered in anthropology, biochemistry, earth science, English, history, languages and international studies, mathematics and computer science, philosophy, and physics. Please consult the course offerings for descriptions of these courses.

Admission Requirements

Also see the section in this Bulletin titled “Admissions.”

Application for Admission

Applicants to graduate programs may enter in January and September, and also in summer session.

Requirements for Advanced Degrees

Curricular and Other Academic Requirements

Students are responsible for observing all requirements and regulations that pertain to the degree they are seeking. Students should, therefore, familiarize themselves thoroughly with the requirements and policies outlined in this Bulletin, as well as the supplemental requirements and policies of the departments in which they are studying. Any exceptions to these policies must be approved by the department and by the dean of the College of Arts and Sciences in writing and filed in the Graduate Office in Science 127. The student is advised not to depend upon oral agreements if exceptions are to be made.

Credit for Graduate Study at Other Institutions

In no case will a master’s degree earned in the College of Arts and Sciences be awarded unless the student has satisfactorily completed a minimum of 24 credits of approved graduate study at Adelphi University; most degree programs require more than 24 credits earned at Adelphi. Once having been admitted to graduate study in the College and undertaken a program of study, students may take courses and transfer credits with a grade of A or B from another university only if authorized to do so by the department and the dean of the College prior to registering for graduate study in the other university. A maximum of 6 graduate credits taken in other approved graduate institutions may be applied toward meeting the requirements of the master’s degree. Any application of transfer credit toward an advanced graduate degree must have the express approval of the department concerned and the dean.

Candidacy for a Second Master’s Degree

Students who have been awarded a master’s degree in one field may be allowed to continue advanced study for another master’s degree, provided that it is in a separate, independent discipline. In so doing, they must apply and meet the admissions requirements of the chosen graduate program.

A maximum of 6 graduate credits earned by the student in completing the requirements of the first master’s degree may be applied toward the second master’s degree. Such application of credit must, however, be designated for specific courses and be approved by the candidate’s advisor and the Dean. Also, the courses for which such transfer of credit is granted must have been taken within five years of the completion of the second master’s degree. At a minimum, the equivalent of a full year of additional graduate study must be successfully completed to qualify for the award of an additional master’s degree.

Admission of Auditors

The admission of auditors to graduate courses is possible only in exceptional cases. Students seeking admission as auditors must
meet admission requirements and complete registration (including full payment of tuition and other fees) in the same way as the candidates for admission to graduate standing.

Students admitted as auditors may request a change in their status, allowing them to earn credit for courses, provided that the request is approved by the instructor and submitted to the dean no later than the fifth meeting of the course.

---

**Academic Advisement and Thesis Research—Master’s Degrees**

**Candidates for the Master’s Degree**

Upon beginning study for the master’s degree, students will be assigned an academic advisor. The advisor will approve the student’s program of studies and advise with regard to degree requirements and academic policies and regulations.

In programs where a thesis is required students must be sponsored by a member of the graduate faculty of their department. The sponsor assists the candidate in the planning of the thesis research and the writing of the final report. Specific procedures for the review of thesis proposals vary with departments and should be clarified by the candidate with the sponsor in advance.

After having written the thesis, the candidate will be examined on the thesis. The examination committee will consist of the thesis sponsor and at least two additional members of the faculty, one of whom is preferably from outside the student’s department. The sponsor arranges for the examination with the approval of the departmental chair and reports the results.

The original copy of the thesis, certified on proper forms as approved in format and content, must be deposited in the Office of Graduate Studies, College of Arts and Sciences, in accordance with the deadlines established by the College. Upon deposit of the thesis, the candidate must arrange for its microfilming and publication.

For further instructions and information on the master’s thesis or dissertation requirements, see Publishing Your Thesis and Dissertation. Copies are available in Science 127.

**Foreign Language Requirement**

Although proficiency in a foreign language is not required for current Arts and Sciences degrees, reading proficiency in a language other than English is strongly recommended for those intending to pursue the Ph.D.

Foreign language examinations are held during the early part of November and April every year. The student must request a departmental chair no later than October 1 or March 1 to make arrangements with the foreign language department concerning examinations. Examinations will consist of the translation into English of foreign language texts of journal articles in the student's major field. No special makeup examinations will be available for a failing candidate; however, candidates may repeat the examinations as regularly scheduled.

The foreign language proficiencies may also be met by presenting satisfactory scores on the graduate language examinations of the Educational Testing Service, Princeton, New Jersey 08540.

Students wishing to enroll in any of the undergraduate courses in foreign languages offered by the University should consult the Undergraduate Bulletin.

Special examinations in computer language and programming must be arranged through the departmental chair with the director of the Computing Center.
Numbering of Courses

Hyphenated courses (e.g., CHE 631–632) are year-long courses. Credits earned for the first half of a year-long course may be applied toward fulfillment of degree requirements only upon satisfactory completion of the second half of the course.

Comma courses (e.g., BIO 611, 612) are courses that extend over two semesters. Degree credit will be granted, however, for satisfactory completion of only one semester’s work in such courses.

Schedule

Most graduate courses are scheduled for late afternoon and evening hours in order to permit part-time (maximum of 6 credits) students to earn an advanced degree while employed or engaged in supervised work in their field.

Grading Policies

The grade of C is substandard for graduate study. Credits earned with a grade of C will not normally be accepted as applicable toward fulfilling degree requirements and may serve as grounds for dismissal from candidacy. Exceptions may be made when, in the judgment of the faculty, the student’s performance in certain other course work or areas of the program has been sufficiently outstanding to offset the work of C quality. The student is held responsible for ascertaining and fulfilling the policy of the department with respect to the acceptability of credits earned with a final grade of C.

The grade of P (passing or satisfactory) is used primarily for field work, clinical practice, student teaching, or individual study. In such courses, use of the Pass/Fail option is at the discretion of the instructor. In other types of courses a Pass/Fail option can be employed only under exceptional circumstances. Permission must be granted by the course instructor, the student’s major department, the department offering the course, and the dean.

A student earning a grade of F is subject to termination of degree candidacy and dismissal from further graduate study.

Students enrolled in thesis or dissertation research and selected other courses may receive a report of IP (in progress) if they are making satisfactory progress. The grade of IP will carry through the term of its contract, after which it will become an I. The use of IP is left to the discretion of the department. A final grade and credits will be assigned upon acceptance of the thesis or dissertation by the student’s advisory committee or upon completion of requirements in the course for which the IP was originally reported.

Independent Study

Permission for Independent Study forms are available from the Office of the Dean of the College. Students should consult with their academic advisor about the regulations governing independent study.

Waiver of Academic Regulations

Requests for waiver of any academic regulation must be made in writing to the Dean of the College. Waiver requests should fully explain the reasons for the petition and include all pertinent documentation. Waiver requests will be considered by the Dean’s Office and the Academic Standards Committee of the College.

The study of art is the study of making. To make is to create, to interpret, and, finally, to understand one’s own vision of the world. To study art and the history of art is to study the very essence of the self and of civilization.

The Department of Art and Art History offers a program of study that leads to the Master of Arts degree in studio art. For admission as a degree candidate, an applicant must have earned a baccalaureate degree from an accredited four-year college and have developed a portfolio of art work in a representative range of media. This work must have been done within the last five years.

Completion of degree requirements may be undertaken on a part-time basis. This degree can also be earned by attending just summers. Information on this option may be obtained from the department.

The art department also contributes course options for the Master of Arts degree for those seeking New York State certification for teaching on the primary and secondary level. Students who successfully complete the program will graduate with a Master of Arts degree from the School of Education. For further information contact the School of Education.

Portfolio Requirement

A formal portfolio presentation is required of all students applying for admission to the Master of Arts program. A portfolio of no more than 12-15 pieces of recent artwork is required. Original artwork is preferred to reproductions. Presenting the portfolio in person is advantageous as this provides the student with an opportunity to meet some of the art faculty and to visit the studio facilities. Slide portfolios are also acceptable for those students from abroad or living at some distance from the University.

Course Requirements

Course requirements for the Master of Arts in studio art total 36 credits. Ordinarily, students will concentrate in a primary area of studio work (up to 15 credits) supplemented by one or more secondary areas of studio concentration. In designing a program of study, students consult with the departmental chair or a graduate faculty advisor.

Requirements for the M.A. in Studio Art

Program Outline

Studio Courses

Students select 36 credits from two or more studio areas in this group. All students must devote nine hours per week to a 3-credit studio course, of which three hours involve instruction and six hours call for individual studio work under supervision.*

- ART 709, 710  Printmaking
- ART 711, 712  Sculpture
- ART 713, 714  Painting
- ART 723, 724  Ceramics
- ART 761, 762  Photography

* A substitution of up to 6 credits in art history may be made for an equivalent number of credits from the above studios.
Advanced Studios

ART 769, 770  Printmaking  
(Prerequisites: ART 709, 710)

ART 771, 772  Painting  
(Prerequisites: ART 713, 714)

ART 773, 774  Sculpture  
(Prerequisites: ART 711, 712)

ART 775, 776  Ceramics  
(Prerequisites: ART 723, 724)

Required Course

ART 793  Major Creative Project  
(one-person show)

Summer Workshop Program

The department of art and art history offers an extensive program of intensive summer art workshops for both graduate and undergraduate students. This program is open to visiting students as well as to those pursuing a degree from the art department. Summer workshops may be used to satisfy requirements for the Master of Arts degree in studio art. See the summer Directory of Classes or contact the art department for a current listing of workshops offered. Permission of the department is required to register for summer workshops as enrollment is limited.

Master of Science in Biology

Preparation for the Health Professions, Teaching, and Scientific Research

Adelphi’s graduate biology program prepares students for doctoral study and entrance into professional schools of medicine, dentistry, and veterinary medicine. The program also qualifies future educators for certification and expands the knowledge base of experienced teachers. Other graduates acquire the tools and skills necessary for successful careers in research, public health, and environmental law.

At Adelphi, students gain a broad foundation in biology, practical experience, and the fundamental skills of scientific research. Laboratory courses emphasize contemporary scientific techniques and integrate technology into the learning experience.

Departmental laboratory facilities include modern equipment for molecular biology, cell and tissue culture, scanning and transmission electron microscopy.

Students use these facilities for graduate research in cellular and molecular biology, immunology, genetics, evolution, and ecology.

Internships are available at local biotechnology companies, research facilities, and hospital research laboratories.

Faculty members work closely with students as mentors, ensuring a personal academic experience and career guidance. Over four decades Adelphi’s biology department has awarded hundreds of graduate degrees to students and achieves consistently high success rates for students entering professional programs.

Premedical Preparation

A master’s degree in biology provides the foundation for professional programs and careers as doctors, dentists, veterinarians, optometrists, podiatrists, and chiropractors. Careful planning is essential as you continue your education and prepare for your future career. Adelphi advisors assist students in course selection, reviewing admission requirements for professional schools, and career planning. For more information on Premedical Preparation, contact the Office of the Premedical Advisor at (516) 877-4140.

Master of Arts in Biology “7–12”

Students seeking a graduate degree and New York State teaching certification for secondary level teaching can complete required coursework for a Master of Arts “7–12” degree through Adelphi’s graduate biology program in conjunction with the School of Education. Students who successfully complete the program are awarded a Master of Arts from the School of Education. For further information, contact Dr. James Dooley, Chair of the Biology Department, or the program director of the Master of Arts degree in secondary education fields in the School of Education.

Courses numbered 600 and above are offered in late afternoon or evening hours; it is possible
to fulfill degree requirements on the basis of either full- or part-time study.

**Admission**

For admission to the graduate program, students must (1) hold a bachelor's degree in biology or allied fields, or its equivalent, and (2) show promise of successful achievement in the field. The Graduate Record Examination is not required for admission. All admitted students enter the biology department as (1) regularly matriculated students or (2) nondegree (special) students. Applicants should contact the director of departmental graduate studies.

**Requirements for the M.S. in Biology**

**A. Research Thesis Option** (33 credits)
1. Three of the following core courses:
   BIO 614, 615, 640, 650, 674.
2. Two laboratory courses.
3. Elective credits:
   Electives may be at the 500, 600, or 700 level. Only two courses may be chosen at the 500 level without specific approval following petition to the Director of Departmental Graduate Studies. With approval of the supervisory committee, up to 12 credits may be selected from graduate offerings in other departments.
4. An average of at least B is necessary for graduation. In general, a degree will not be awarded to any student who receives 3 credits of F or 6 credits of C.
5. BIO 798 and 799 (Thesis Research, based on laboratory or field studies.)

**B. Nonthesis Option** (Scholarly Paper) (36 credits)
1–4 as above plus BIO 796 (Scholarly Paper, a literature review, and critique of a specific field of study in biology.)

**Note:** Students must acquaint themselves with the current copy of the Biology “Guide for Graduate Students.” Copies may be obtained in the Biology Department Office. Requirements for the M.S. in biology are currently under revision.

Master of Science in Environmental Studies

Environmental Studies is an interdisciplinary field of knowledge that encompasses aspects of scientific, political, social, and economic disciplines. A working knowledge of these fields is necessary for the analysis, remediation and protection of a multitude of environmental problems on local, national, or global scales. The Environmental Studies program permits students to become conversant with the breadth of environmental problems and possible solutions while achieving a strong, experience-based concentration in one of the specific disciplines within the field. There are three curricular options open to the student who wishes to pursue the Master’s of Science degree in Environmental Studies. A student can elect a concentration in Environmental Risk Assessment or in The Global Environment; or the student can elect a more integrative approach to the subject drawing on aspects of the two concentrations, Environmental Education.

The Master of Science in environmental studies prepares students for careers or further study in many industrial, regulatory, political, economic, and educational agencies. The grade program is comprised of 36 credits of course work, incorporating classroom, laboratory, field opportunities, and an optional thesis or internship. An optional culmination in a thesis provides additional flexibility for the student with more specific career or educational goals. Full time students can anticipate three semesters of 12 credits each. Field classes, internships, and research are also offered during the summer months. The requirements for a student’s admission to the Master’s program are a bachelor’s degree in environmental studies or a related field and demonstrated promise of successful achievement in the field. Courses required for entry include basic microeconomics, political science, one year of introductory biology, statistics and calculus, and either chemistry through quantitative analysis or organic chemistry, or a year of physics for science majors. Computer literacy is also required. Work experience in related environmental fields will be considered with regard to the above requirements. Graduate Record Examination scores in the verbal and quantitative tests are required for purposes of student evaluation and guidance.
Mathematics and Computer Science

Alumnae Hall 111

Robert Emmett Bradley
Yuly Brodsky
Robert M. Siegfried

Mathematics is the systematic study of structure, process, and relation. The quintessence of rational thinking, it is a discipline in its own right, while also providing the analytical tools and much of the language of the sciences. New developments in mathematics engendered by the computer revolution have informed the associated field of computer science, where structure, process, and relation reappear as system, algorithm, and interface. The concerns of computer science are not only mathematical and electronic, but also philosophical, linguistic, and psychological.

The mathematics department contributes course work toward a Master of Arts “7–12” degree for those seeking a graduate degree and New York State certification for teaching on the secondary level. Students who successfully complete the program will graduate with a Master of Arts from the School of Education. For further information see the chair of the department and the program director of the Master of Arts degree in secondary education fields in the School of Education.

Please consult the course offerings for descriptions of these courses.

Physics

Blodgett Hall, Lower Level

Henry F. Ahner, Chair
E-mail: hahner@adelphi.edu

Professors
Henry F. Ahner
John P. Dooher
Martin H. Garrell
Gottipaty N. Rao

Physics is the study of energy and matter and their interactions. Historically, it has been characterized by the search for simple, unified explanations of phenomena. Its theories, supported by experimental research and expressed in precise, elegant mathematics, yield insight into the nature of the universe.

The physics department contributes course work to a Master of Arts “7–12” degree for those seeking a graduate degree for teaching on the secondary level. Students who successfully complete the program will graduate with a Master of Arts from the School of Education. For further information contact the chair of the department and the program director of the Master of Arts Degree in secondary education in the School of Education.

Please consult the course offerings for descriptions of these courses.
COURSES OF INSTRUCTION

COLLEGE OF ARTS AND SCIENCES

ANTHROPOLOGY

ANT 514 Language and Culture 3 credits
A survey of language, its meaning and its relationship to culture. Language as a type of communicational behavior within a sociolinguistic context is emphasized. Examples are drawn from the verbal and nonverbal models found in art, music, and social organization.

ANT 635 Cultural Anthropology 3 credits
Major concepts, theories, and methods of cultural anthropology. Customs, values, and social institutions from tribal cultures, worldwide. Fundamental course for graduate students without prior background in this field.

ANT 790 Independent Study 3 credits
Reading and research on selected aspects of anthropology. Individual conferences are arranged with the advisor.

ART AND ART HISTORY

ARH 563 Philosophy and Criticism of Art 3 credits
This course examines the philosophy and criticism of art. Through original texts and close analysis of movements and manifestos, students trace the history of criticism and the range of ways in which artists, critics, philosophers, and rulers have approached, defined, and thought about the visual arts from classical to contemporary times.

ART 638 Calligraphy 3 credits
This course will introduce you to the wonders of the broadedge pen. You will study in-depth the elegant style of writing known as “chancery cursive,” commonly called “italic.” You will engage in hands-on practice and receive many exemplars along with personal attention from the instructor.

ART 647 Art of Classical Antiquity 3 credits
Art and archaeology of ancient Greece, with emphasis on the achievements in sculpture and architecture of the high classical period. Relationships among mythology, history, and art in antiquity.

ART 709, 710 Printmaking Studio 3 credits each
Advanced theories, color methods, and their applications and effects on the various print media—etching, aquatint, mezzotint, wood, linocut, and drypoint.

ART 711, 712 Sculpture Studio 3 credits each
Intensive technical study in the methods and techniques of modeling, carving, lost-wax methods, and constructions, using many different media.

ART 713, 714 Painting Studio 3 credits each
Various interpretations of a wide choice of subjects and media providing a natural kind of process whereby individuals can build on their own resources through intelligence, feeling, and observation.

ART 723, 724 Ceramics Studio 3 credits each
Throwing and hand building techniques in stoneware and porcelain; sculptural pottery. Instruction in glazing and firing techniques.

ART 761, 762 Photography 3 credits each
An intensive review of photography and darkroom techniques. Lecture demonstrations acquaint the student with the camera and techniques essential to successful picture taking with print making. With this foundation students explore their design concepts and composition in expressing photographic imagery.

ART 765 Color, Media, and Materials 3 credits
Advanced experimental studies of the major media concentrating on the functions of color, textures, binders, etc., basic to creative and practical applications of various pigments.

ART 769, 770 Printmaking Studio 3 credits each
Prerequisites: ART 709 and 710.
Individually selected problems in developing printmaking skills and techniques.

ART 771, 772 Painting 3 credits each
Prerequisites: ART 713 and 714.
Individually selected problems in studio techniques of painting in a variety of media.

ART 773, 774 Sculpture Studio 3 credits each
Prerequisites: ART 711 and 712.
Advanced work in processes and materials; design of sculpture in selected media.

ART 775, 776 Ceramics Studio 3 credits each
Prerequisite: ART 723 or 724.
Individually selected problems in studio techniques and advanced work in processes and materials.
ART 791 Independent Study 3 credits

ART 793 Major Creative Project 3 credits
Prerequisites: completion of 24 graduate credits in art and open only to students who have been accepted as candidates for the Master of Art.

Designed for students to pursue projects in-depth according to the individual's needs in the areas of painting, graphics, sculpture, ceramics, and art history under the supervision of an assigned professor with department approval. Preparation for one-person show.

BIOLOGY

500-level courses are open to both graduate and undergraduate students.

BIO 504 Physiological Chemistry 4 credits
Prerequisites: BIO 111, 112, 360, CHE 251, and 252; or equivalent.
An introduction to biochemistry emphasizing biochemical control and the relationship to the physiological functions. Two lectures and one laboratory each week.

BIO 506 Introduction to Molecular Biology 4 credits
Prerequisites: BIO 111, 112, 222, CHE 251, and 252 or equivalents.
A comprehensive study of genetics from the perspective of the gene. The course explores the structure, molecular organization, regulation, and interactions of prokaryotic and eukaryotic genes. Lectures and lab exercises introduce techniques of recombinant DNA technology.

BIO/ENV 567 Environmental Pollutants and Disease 3 credits
Prerequisite: permission of the instructor.
Exposure to pollutants causes diseases of the immune system, the central and peripheral nervous system, and the reproductive system. Pollutants also cause abnormal embryonic development and cancer. This course will focus on the pathogenic mechanisms of the pollution-associated diseases in humans.

BIO/ENV 614 Ecological Systems 4 credits
Designed to acquaint students with the fundamental concepts of ecology at the ecosystem level, and the interrelationships of these biological systems with abiotic environment. The interdependency of these systems and the effect of man's manipulation of them are emphasized. Lecture, laboratory, and fieldwork.

BIO 615 Regulatory Physiology 3 credits
Mechanisms of growth, nutrition, and response to environment. Osmotic balance, enzymatic activities, and respiration.

BIO/ENV 624 Scientific Computer Graphics 3 credits
An introduction to graphic software applications for scientific presentation and publication. Packages used include current statistical graphing, illustration, and photo editing programs.

BIO 630, 631 Selected Topics in Biology 3 credits each
Prerequisite: permission of instructor. This course may be elected more than once. Biology Department staff and guest lecturers.
The study of current trends in biological thinking and research. Topics to be covered are stated each semester. Examples from previous semesters are: Membrane Biology, Cellular Immunology, Neurobiology, Scanning Electron Microscopy, Physiology of Reproduction, Developmental Physiology. Lecture only.
S/T: Medical Biotechnology
S/T: Pharmaceutical Biotechnology
S/T: Toxicology (See CHE 470, Principles of Toxicology in Undergraduate Bulletin)

BIO 640 Graduate Genetics 3 credits
Prerequisite: permission of instructor.
Focuses on the storage, modification, and retrieval of genetic information at both the chromosomal and molecular levels. Prokaryotic and eukaryotic systems are examined to illustrate how a genetic approach is being applied to answer questions concerning the mechanisms of inheritance, gene structure and function, cell differentiation and dedifferentiation, and various human disease conditions.

BIO 641 Graduate Genetics Laboratory 1 credit
Prerequisite or corequisite: BIO 640.
A “hands-on” survey of prokaryotic and eukaryotic organisms of genetic interest, coupled with a project of student design.

BIO 650 Graduate Cell Biology 3 credits
Prerequisite: permission of instructor.
Survey of the structural basis of cellular activity at the micro- and ultra-structural levels with readings designed to offer the student an understanding of nuclear and cytoplasmic structure and function.

BIO 660 Graduate Developmental Biology 3 credits
An examination of the process of animal development, with an emphasis on vertebrates. Focus on the cellular and genetic mechanisms of development, beginning with fertilization and continuing with gastrulation, neurulation, and morphogenesis. The molecular basis of differential cell adhesion, cell differentiation and determination, and cell signaling in development will also be examined. Reading and discussion of papers from the primary scientific literature.

BIO 790, 791 Special Research Problems 2–3 credits each
With the permission of the instructor, students may take each course for 2–3 credits, but only a total of 4 credits in BIO 790, 791, 792, 793 are applicable to an advanced degree in biology.
Guided research in approved laboratories.
BIO 792, 793 Directed Readings  2–3 credits each
With the permission of the instructor, students may take each course for 2–3 credits, but only a total of 4 credits in BIO 790, 791, 792, 793 are applicable to an advanced degree in biology. In-depth readings in specific areas of study under individual guidance. Each proposal must be submitted to the departmental Graduate Affairs Committee.

BIO 796 Scholarly Paper  2 credits
Review and critique of a specific field of study in biology, sponsored by a faculty member. Students are required to present a formal seminar of their findings to the department. (Cannot be applied to the thesis option.)

BIO 798, 799 Thesis Research  3 credits each
This cannot be applied to the nonthesis (scholarly paper) degree.
Investigation of an original problem in biology. Students are required to present a formal seminar of their thesis research to the department upon completion of degree requirements.

CHE 571 Biochemistry I  4 credits
Prerequisites: Organic Chemistry
Chemistry of amino acids, lipids, and carbohydrates. The structure and functions of biomacromolecules: proteins, nucleic acids, and polysaccharides; enzyme kinetics and bioenergetics. Laboratory includes the analytical techniques of biochemistry: spectrophotometry, chromatography, and electrophoresis. Three class periods and one laboratory period a week.

CHE 572 Biochemistry II  4 credits
Prerequisites: Organic Chemistry
(CHE 571 is not a prerequisite.)

ENG 600 Chaucer  3 credits
A thorough reading in Middle English of Troilus and Criseyde with attention to bibliography and criticism. A prior knowledge of Middle English is not required.

ENG 605 Shakespeare  3 credits
Aspects of Shakespeare’s work and theater not ordinarily familiar to those who have had only an undergraduate course in Shakespeare. Studies in the problems of Shakespearean biography and criticism.

ENG 608 Major Author Course  3 credits
Intensive study of the works of a major British writer (e.g., Spenser, Blake, Arnold, Yeats) representing any period of British literary history and chosen by the instructor.

ENG 610 Genre Development: The Lyric  3 credits
Concentrated work in the evolution of the lyric in English.

ENG 614 Medieval Literature  3 credits
Intensive study of the major works and types of Old and Middle English literature to 1500, exclusive of Chaucer, in modern English translations.

ENG 617 Seventeenth Century Poetry  3 credits
Intensive study of selected writers of the period exclusive of Milton and Shakespeare.

ENG 620 American Literature  3 credits
Phases of American literature and life explored in-depth from the period 1600–1800.

ENG 622 American Literature III  3 credits
A study of major writers, themes, and forms from World War I to the present. Includes the work of Hemingway, Fitzgerald, Faulkner, Eliot, Stevens, O’Neill, Williams.

ENG 629 History of the English Language  3 credits
A study of the origin, relationships, and evolution of the language. Principles of structure, linguistic change, and vocabulary accretion in Old, Middle, and Modern English.

ENG 799 Thesis (Optional)  3 credits
Open only to candidates for the M.A. in English. Students are assigned to a professor who guides them in the preparation of a thesis.

ENVIRONMENTAL STUDIES/Earth Science

ENV 500 Environmental Studies Introductory Seminar  3 credits
This seminar introduces case studies of current environmental problems and environmental issues. Scientific concepts and methods and technical solutions to problems in specific areas are discussed, as are the limitations of current conceptual and analytical knowledge. Additionally, the cultural, political, institutional, and economic aspects of current and emerging concerns are introduced as they affect the environmental decision-making process. Readings of the current literature, discussions, and reports emphasize critical reading and writing skills. All students without an equivalent preparation will be required to take this seminar.

ENV/ECA 530 Environmental Economics  3 credits
A broad perspective on economic issues with respect to the natural world. Topics include the theory of public goods, the
problem of sustainability, environment and global institutions, and policy approaches.

**ENV/BIO 567 Environmental Pollutants & Disease** 3 credits
A survey of the human health effects of pollution, and the pathogenic mechanisms of disease. Emphasis is placed on understanding the molecular mechanisms which underlie the disease state. Consideration will also be given to issues of risk assessment, occupational exposures, and the links between economics, nutrition, and susceptibility to the health risks of pollution.

**ENV/BIO 614 Ecological Systems** 4 credits
The fundamental concepts of ecology at the ecosystem level, and the interrelationships of these biological systems with abiotic environments. The interdependency of these systems and the effects of human manipulations are emphasized. Lecture, laboratory, and field work.

**ENV/BIO 624 Scientific Computer Graphics** 3 credits
An introduction to graphic software applications for scientific presentation and publication. Packages used include current statistical graphing, illustration, and photo editing programs.

**ENV/BIO 625 Community Ecology and Evolution** 3 credits
This is a seminar covering the concepts of ecological niche theory, its development and applications both to modern community studies and to community ecology through geological time. The intimate relationships between community ecology, geologic history, and the patterns of evolution and extinction of eukaryotes are examined through selected readings from peer-review and first-order synthetic papers, discussions, and analyses.

**ENV/PHY 630 Concepts of Energy Utilization** 4 credits
Conceptual foundation of thermodynamics and the various forms of energy are introduced. Sources and reserves of energy are examined. Technology of power generation and distribution is explored and projected. A thermodynamic and energy laboratory is included.

**ENV/EAS 501 Principles of Earth Science I** 3 credits
Appraisal of the earth's relationship to the universe and analysis of the earth's structure and enveloping gases. Current theories and application of the physical laws as they are encountered in the observation of natural phenomena in the field of geology. One or more field trips required.

**ENV/EAS 502 Principles of Earth Science II** 3 credits
Study of the principles of earth sciences as they apply to paleontologic, meteorologic, and oceanographic phenomena. Term projects emphasize the analysis of experimental models or the data derived from them. One or more full-day field trips required.

**ENV/EAS 564 Oceanography** 3 credits
An introduction to physical and chemical oceanography and topics in marine geophysics, marine geology, and economic aspects of oceanography. Instrumentation and recent developments emphasized. Field trips to be arranged.

**ENV/EAS 657 Meteorology** 3 credits
Chemistry and physics of the atmosphere: observation and measurement of temperature, pressure, wind, moisture, and cloud changes, analysis of frontal cyclonic storms, weather forecasting, preparation of weather maps.

**ENV/EAS 671 Climatology** 3 credits
A survey of the world's weather and climatological patterns in relation to the earth's continents, oceans, soils, vegetation, and human culture and health. Modern climatological classification system, prehistorical climatic regimes, statistical analysis of the nature and causes of climatic change.

**ENV/EAS 674 Hydrogeology** 3 credits
A qualitative approach to hydrogeology with emphasis on the occurrence, movement, and chemical quality of ground water; the relation between geologic and hydrologic environments. Concepts illustrated by examples from Long Island and other parts of the United States.

**ENV/EAS 676 Marine Geology** 3 credits
A systematic survey of the marine environment and its relation to continental shelf and deep ocean geological processes. A supplement to EAS 654 Oceanography (basic course). One or more field trips required.

**EAS 798 Guided Research** 3 credits
Work on a research problem under the guidance of a full-time member of the department. Registration for this course requires prior written permission from the faculty member who will guide the student's work.

**ENV 700 Graduate Seminar** 3 credits
Topics vary each semester and offer an advanced approach to research in conjunction with specific areas of student and faculty concentration in the program. Readings from the current literature, critical analytical and writing skills are emphasized. This may be taken more than once.

**ENV 791 Internship** 3 credits
Departmental permission required. Faculty-directed experience in a particular field of environmental studies.

**ENV 798 Guided Research** 3 credits
Departmental permission required. Individual research, thesis or project related, tied to the selected concentration.

**ENV 799 Thesis Research** 3 credits
Departmental permission required. Taken in conjunction with thesis preparation.
HISTORY

HIS 534 Special Studies in American History I

This seminar covers American history from the Civil War to the twentieth century. This course does not cover every topic, but is instead a thematic exploration of the most relevant historical problems during this era. The goal of this seminar is to introduce graduate students, prospective teachers, and educators, to a variety of problems and questions represented by contemporary writing on American history. By becoming familiar with these questions, students can separate one historical school from another, thus bringing more depth to their ability to prepare data-based questions and shape their own history courses. Students can choose from the total number of topics discussed weekly during class and write three papers, utilizing the suggested primary source material, interpretive essays, and texts, provided prior to each week’s session.

HIS 534 Special Studies in American History II

The course will explore changing conceptions of fundamental aspects of American culture. Special attention will be given to the relationship between ideas and culture, especially with regard to the notions of freedom, natural identity, and individualism. Also, the changing roles of significant institutions—particularly the family, the schools and government—will be studied. Topics this semester parallel those of the first semester, i.e., “The Continuing Debate over the Constitution,” “The Idea of Freedom in America: William James and Frederick Jackson Turner.” Readings will range from William James and John Dewey to Timothy Leary and Christopher Lasch.

LANGUAGES AND INTERNATIONAL STUDIES

Linguistics

LIN 601 Structural Linguistics

Study of descriptive and analytical concepts of structural linguistics. Application of linguistic principles to the problems of reading and to the teaching of English and foreign languages.

Spanish

SPA 531 Caribbean Culture and Civilization

A study of Caribbean culture and civilization through the most representative literature of this region including essays, poetry, and fiction.

MATHEMATICS AND COMPUTER SCIENCE

Mathematics

MTH 630 Foundations of Geometry

(1) Metric and synthetic Euclidean geometry, hyperbolic and elliptic geometries from the axiomatic point of view, models, independence and consistency. (2) Comparison of metric relations in Euclidean, hyperbolic, and elliptic planes, affine and projective aspects of Euclidean geometry, introduction to affine and projective planes.

MTH 790, 791 Guided Reading in Mathematics

Prerequisite: permission of department.
Selected reading in mathematics under supervision of a member of the graduate mathematics faculty.

Mathematics Teacher Program

MTP 604 Discrete Mathematics for Computer Science

This course presents the basic mathematics underlying computer science: Symbolic logic and circuit elements; sets, relations and functions and their applications (for example in relational data bases); graphs, trees and their uses; arithmetic in binary and other number systems; enumeration of combinations and permutations via recursion equations; finite state machines and other automata.

MTP 620 Foundations of Set Theory and Arithmetic

Set operations, power set, ordered pairs, relations, functions, cardinal arithmetic, the Bernstein equivalence theorem. Applications to the integer, rational, real and complex number systems.

MTP 621 Introduction to Mathematic Logic

MTP 623 Theory of Numbers

Prerequisite: MTP 625.
Representation of integers in a given base, properties of primes, arithmetic functions, modular arithmetic, diophantine equations, quadratic residues, quadratic reciprocity law, discussions of famous unsolved problems in number theory.

MTP 625, 626 Introduction to Modern Algebra I, II

Groups, rings, integral domains, and fields. Also studied are notions of isomorphisms and homomorphisms between algebraic structures.
MTP 628 Introduction to Linear Algebra 3 credits
A study of vectors, matrices, and determinants with applications to three-dimensional geometry and its transformations.

MTP 635 Topics in Geometry 3 credits
Topics to be selected by the instructor.

MTP 640, 641 Foundations of Analysis 3 credits each
Prerequisite: MTP 625.

MTP 643 Computational Mathematics 3 credits
Prerequisite: CSC 612 or 602.
A study of errors arising in computation: roundoff errors, truncation errors, propagation of errors. Mathematical concepts including differentiation, integration, sequences, and series are explored computationally.

MTP 650 Introductory Probability and Statistical Inference 3 credits

MTP 656 History of Mathematics 3 credits
Babylonian mathematics and the sexagesimal number system. Greek mathematics from Thales, Pythagoras, and Euclid to Archimedes and Ptolemy. Fibonacci and the Medieval period. Cardan and Tartaglia and the solution of the cubic equation. Newton and Leibniz and the creation of calculus.

Computer Science

CSC 602, 603 Introduction to Computer Programming 3 credits
Introduction to computer programming using an object-oriented language, such as C++. Selection and repetition, arrays, procedures, functions, and polymorphism. Applications to simple problems.

CSC/MTP 604 Discrete Mathematics for Computer Science 3 credits
Mathematical structures used in computer science. Sets, boolean algebra, directed and undirected graphs, networks, partially ordered sets, semigroups, and finite-state machines.

CSC 610 Computer Programming in C++ 3 credits
Prerequisites: CSC 602 and 603, or fluency in a programming language and knowledge of basic data structures.
Introduction to object-oriented programming (OOP) using C++. This course is intended for students already familiar with another programming language such as Pascal or C. The syntax of the language, which implements the usual structures of imperative programming languages, will be introduced. In addition, the C++ implementation of OOP concepts like objects, classes, inheritance, and polymorphism will also be explored. Several programming assignments as well as a software engineering project will be required.

CSC 615 Assembly Language for Microprocessors 3 credits
Prerequisites: prior programming experience and permission of department.
Introduction to machine language and assembly language. Computer architecture, assembly programming techniques, I/O programming concepts, loaders, linkers, assemblers, and operating system interfacing.

CSC 616 Principles of Programming Languages 3 credits
Prerequisite: CSC 602 or 612.
A comparative study of programming languages, with a view toward identifying common general features and respects in which they differ. Intensive study of a high-level structured language such as PASCAL, ADA or PL/I and comparisons with BASIC. Compiled vs. interpreted languages: block structure, variable types, parameter passing.

CSC 675 Computer Hardware and Architecture I 3 credits
Prerequisites: MTP/CSC 604 and CSC 615.

CSC 676 Computer Hardware and Architecture II 3 credits
Prerequisite: CSC 675.

CSC 680 Special Topics in Computer Science 3 credits
May be taken more than once for credit.

PHILOSOPHY

PHI 790 Independent Research 3 credits
Registration only with permission of department.
Independent research in philosophy for students who are interested in exploring the philosophical aspects of work in a field of interest to them. Frequent consultations with the chosen faculty advisor and a substantial written project embodying the work of the semester are required.
PHYSICS

PHY 555 Lasers and Holography 3 credits
Prerequisite: PHY 264; or equivalent.

PHY 605 Astronomy and Space Physics 3 credits
A nonmathematical introduction to modern thinking in astronomy and space physics. Astronomy—how we have been able to learn about the earth, the planets, the sun, the stars, and the galaxies. Philosophical and practical implications. Space exploration—opening new windows on the universe. Application to the study of ecological problems. Numerous observation and laboratory sessions.

PHY 620 Mathematical Methods in Theoretical Physics I 3 credits
Differential and integral calculus of several variables, line and surface integrals, vector algebra and calculus, including Gauss's and Stokes's theorems.

PHY 622 Electricity and Magnetism 3 credits
Prerequisite: PHY 620 or equivalent.
Corequisite: PHY 630 or equivalent.
Rigorous derivation of Maxwell's equations, scalar and vector potentials, solution of Laplace's equation, electromagnetic waves, and the Poynting vector.

PHY 623 Mechanics 3 credits
Prerequisite: PHY 620 or equivalent.
Newtonian dynamics; integrals of motion, orbit analysis, central force problem, motion in electromagnetic field. Rotating coordinate frames. Lagrangian and Hamiltonian methods.

PHY 628 Atomic Physics 3 credits
Special relativity. Experimental and theoretical developments leading up to quantum mechanics. Optical and X-ray spectra, vector model. The Schrodinger wave equation.

PHY 630 Mathematical Methods in Theoretical Physics II 3 credits
Prerequisite: PHY 620 or equivalent.

PHY 682 Thermodynamics and Kinetic Theory 3 credits
Prerequisite: PHY 620 or equivalent.

PHY 690 Electromagnetic Theory I 3 credits
Prerequisites: PHY 622 and 630 or equivalent.

PHY 730 Introduction to Nuclear Physics 3 credits
Prerequisites: PHY 622, 623, and 628 or equivalent.

PHY 756 Special Relativity 3 credits
Prerequisites: PHY 684 and 691 or equivalent.

PHY 770 Quantum Mechanics I 3 credits
Prerequisites: PHY 628, 630 or equivalent.

PHY 796, 797 Independent Reading 1–3 credits each
Prerequisite: permission of department (to a maximum of 6).
A program of reading and individual instruction. Registration for this course requires prior written permission from the faculty member who will guide the student's work.

PHY 798 Guided Research 3 credits
Prerequisite: permission of department.
Work on a research problem under the guidance of a member of the department. Registration for this course requires prior written permission from the faculty member who will guide the student.
Clinical psychology is a combination of scholarly inquiry and professional service. It draws on and contributes to the evolving body of knowledge about the workings of the human mind, while helping patients transform the ways they make meaning and relate to others. To participate in such a complex enterprise, the clinical psychologist requires an unusual balance of qualities, including critical reasoning, erudition, creative imagination, and the empathy and sensitivity to work with patients. An education that aims to produce such a balance of qualities must combine academic learning from across many disciplines with thorough clinical training. Through such a curriculum, the Gordon F. Derner Institute of Advanced Psychological Studies educates clinical psychologists who are both professionals and scholars.

Founded by Gordon Derner in 1951, Adelphi’s clinical psychology doctoral program was conceived as the first to emphasize the model of professional education proposed at the Boulder Conference on Clinical Psychology. The Boulder model proposed that a clinical psychology program must adhere to the following general principles: the clinical psychologist should have a core of knowledge and training common to all psychologists; the program should be of at least four years’ duration, combining academic and clinical training, including an internship; preparation should be broadly directed toward both research and professional goals rather than simply technical skills; courses should be developed in sequence and be complementary rather than overlapping; the faculty should be neither over-dominated by the academy nor simply practical; continued contact throughout the training with clinical material is necessary, with the range extending from the normal to the abnormal population; a sense of professional responsibility and professional obligation must be instilled; cooperative work with persons of related disciplines is encouraged and sensitivity to the social implications of the psychologists’ activities is
essential; and throughout, research issues are to be emphasized. Thus, the program should hold fast to those principles that suggest that the psychologist will be a professional, trained in a research tradition. These principles suggest that the program be divided into the following major areas of instruction: general psychology, psychodynamics of behavior, diagnostic methods, therapy, research methods, professional ethics, and related disciplines.

Programs of Study

The Derner Institute offers the following master's, doctoral and postdoctoral programs:

I. General Psychology (Master of Arts)
II. Clinical Psychology (Doctor of Philosophy)
III. Respecialization in Clinical Psychology (Certificate Program)
IV. Postdoctoral Diploma
   A. Psychotherapy and Psychoanalysis
   B. Child and Adolescent Psychotherapy
   C. Group Psychotherapy
   D. Postdoctoral Program in Marriage and Couple Therapy
   E. Postgraduate Program in Psychodynamic School Psychology

Programs and Degrees

The Master of Arts in general psychology enables students to advance their exploration of human personality, psychodynamics, developmental and social psychology, and psychoanalytic theory. It is a full- or part-time program, designed to serve three broad groups: 1) students who will be able to make use of a master’s degree to advance an already established career direction; 2) students who have an interest in future doctoral level training, but who need additional preparation to apply competitively for such a program; and 3) students who have a general interest in learning more about clinical psychology, but who have no specific clinical career path in mind. Courses for this program are offered at the Garden City campus.

The Derner Institute also offers four doctoral and postdoctoral programs in psychology. Because the doctoral programs are scholar-professional programs and maintain the standard of a contribution to scholarship as a degree requirement, the Doctor of Philosophy degree is awarded. The doctoral program in clinical psychology prepares students who have a primary career goal of community practice, often combined with academic or research positions. The respecialization diploma program prepares doctoral-level psychologists who wish to make a career shift from another area of psychology into clinical psychology for community practice. The postdoctoral diploma programs prepare candidates for community practice in psychotherapy and psychoanalysis, in child and adolescent psychotherapy, or in group psychotherapy.

The clinical psychology doctoral program consists of required courses of study with a balance of research, theory, biological and social bases of behavior, and extensive clinical practice in psychodiagnoses and psychotherapy supervised by a faculty member who is a practicing clinician. The respecialization diploma program serves to prepare nonclinical psychologists, through participation in academic work and intensive clinical training, to develop skills equal to those whose doctorates were earned in clinical psychology. The postdoctoral programs consist of a series of seminars in theory, technique, related areas, and case conferences; personal therapy and supervised practice are basic requirements of this program. The master’s program consists of seminar and lecture courses in general psychology from a psychodynamic perspective.

Clinical facilities for several of the programs are available on campus and in the community at Creedmoor State Hospital, Nassau County Medical Center, South Oaks Psychiatric Hospital, North Shore University Hospital, Queens General Hospital, several clinics, public schools, and other agencies. The Institute-direct-
ed teaching facilities are the Adelphi University Psychological Services Center and the Postdoctoral Psychotherapy Center. Special on-campus facilities include perception, learning, developmental, cognition, social, and applied research laboratories. There is close interaction with several health-related professional schools: Adelphi School of Nursing, Adelphi School of Social Work, Adelphi School of Business, and Adelphi School of Education.

The clinical psychology program has been APA-accredited since 1957 and meets the New York State Department of Education requirements for School Psychology Certification. The doctoral programs qualify graduates for the New York State Psychology licensing examination. Graduates of the postdoctoral program in psychotherapy and psychoanalysis are eligible for society membership in the International Federation of Psychoanalytic Societies.

Courses of Study

Master’s Program

The Master of Arts in general psychology requires completion of a 36 credit course of study composed of 18 core credits and 18 elective credits or a thesis. Two core courses are offered each fall, summer and spring, along with various electives. Students typically complete their degree requirements in one or two years. Concentrations are offered in preclinical and forensic psychology.

Courses of Study

Doctoral and Postdoctoral Programs

Since 1951, the Institute and its precursor programs have accepted as a responsible educational goal in clinical psychology the training of scholar-professionals who have clinical practice as a career goal. In like manner, it has also accepted responsibility to meet the educational goals for students committed to a career of research and teaching. To accomplish these several purposes, a basic core of psychology is required of all clinical doctoral students, covering cognition, psychodynamic theory, developmental psychology, social psychology, statistics, research methods, psychometrics, physiological psychology, and professional ethics. Clinical theory courses and intensively supervised clinical practice are required of the clinical psychology and respecialization students. All of the clinical supervisors have had postdoctoral training, most are graduates of psychoanalytic institutes, and most are Diplomats of the American Board of Professional Psychology. Throughout all years in residence, students attend a weekly colloquium that serves as a forum for guest speakers, films, plenary meetings, and faculty or student presentations.

For the clinical psychology program and the respecialization program, the supervised clinical practice begins in the first year with assignments to a clinical facility for one day a week, along with two clinical courses that include theory and research and a half-day on-campus clinical laboratory. In the first weeks, the practice is generally observational, but the range of activity is increased until full diagnostic and consultative activities are included. In the second year, a psychodiagnostic practicum is conducted in an outpatient service for one semester and an inpatient service for one semester, while courses and seminars in psychotherapy are provided on campus. In the third and fourth years, there are outpatient psychotherapy practice; a weekly case conference is also required. All supervision is arranged so that the supervisor devotes from five to six hours per week to supervisory activities.
with an assigned three students. The respecial-
ization program combines some of the place-
ments to make it possible to have the clinical 
training at the University in a two-year period.

Research and scholarship are emphasized 
throughout the program, with special preparation 
for a scholarly presentation of a research project 
as a culminating academic/professional experi-
ence. This second-year project, consisting of a 
publishable research study performed under the 
guidance of a faculty mentor, is required of all 
students. Final outline for the dissertation is 
usually completed in the third or fourth year with completion of the dissertation within the 
fifth or sixth year.

Admission

Apply to the Derner Institute admissions officer. DEADLINE: Fall Admission, January 15. Fee waived if approved by Financial Aid Committee (the request must include a statement from the financial officer of the applicant’s college). Applications for the master’s program are reviewed on a rolling admissions basis for the fall, spring, and summer terms.

Academic Requirements

Also see the section in this Bulletin titled “Rules and Regulations.”

For the master’s program, an undergraduate degree from an accredited college or university is required. The Graduate Record Examination is not required.

For doctoral programs: Undergraduate courses in general psychology, experimental psychology, statistics, developmental psychology, and
abnormal psychology. Graduate Record Examination including the Verbal, Quantitative, and Advanced Exam. Miller Analogies Test is not required. The program does not have minimum required scores, although most candidates have G.R.E.s considerably above 500 and G.P.A.s well above 3.0. The top group of applicants for the Clinical Psychology program are interviewed in required group interviews.

For respecialization program: A doctorate in psychology. A personal group interview.

For postdoctoral programs: A doctorate in a mental health specialty. Two personal interviews.

**Doctoral Degree Requirements**

Ph.D.: Four years full time on campus and clerkships plus one year full-time internship for clinical psychology. Second-year research project required. Dissertation required, written comprehensive not required, oral comprehensive not required, oral dissertation defense required. Six years average time to completion of program.

**Respecialization Diploma in Clinical Psychology**

Doctorate in psychology other than clinical psychology required, dissertation not required, two years in clinical courses and clerkships plus one year internship required. Three years average time to completion of program.

**Postdoctoral Diploma in Psychotherapy and Psychoanalysis**

Doctorate and state license in an area of mental health, including psychology, psychiatry, social work, or psychiatric nursing, required; dissertation not required; four years part time, including personal analysis, supervision, courses, seminars, and case conferences, required; written comprehensive not required; oral case presentation at end of third year required; supervisory evaluations required. Four years average time to completion of program.

**Postdoctoral Diploma in Child and Adolescent Psychotherapy**

Doctorate and state license in an area of mental health, including psychology, psychiatry, social work, or psychiatric nursing, required; dissertation not required; three years part time, including personal therapy, supervision courses, seminars, and case conferences, required; written comprehensive not required; oral case presentation at end of second year required; supervisory evaluations required. Three years average time to completion of program.

**Postdoctoral Diploma in Group Psychotherapy**

Doctorate and state license in an area of mental health; two years part-time including personal group therapy, supervision courses, seminars, supervised evaluation required. Three years average time to complete the program.

**Minority Considerations**

Special care is taken to recruit and to help provide financial assistance for qualified minority students. A Derner Institute–supported minority student organization participates in recruitment of faculty and students, selection of students, planning of special programs, and minority student orientation and advisement.

**Affirmative Action Program**

A University-wide affirmative action officer and committee on which the Institute has a representative monitor all schools and colleges of the University.

**Financial Aid**

Funding for students in the Gordon F. Derner Institute of Advanced Psychological Studies is available in several forms: loans; on- and off-campus employment; teaching, research, and clinical assistantships; and paid field placements.
Loans

Government loans are available through the University. Financial need must be demonstrated. Apply for state and federally funded low-interest loans through the Office of Financial Aid, Levermore Hall.

Doctoral Teaching, Research, and Clinical Assistantships

For clinical students, upon acceptance for the group interview, the necessary forms for request for financial aid will be given to the applicant. It is not necessary to apply in advance.

All assistantships cover tuition and are considered to be loans from the University to the student. The student can discharge the responsibility of the loan by working approximately 20 hours a week during the academic year. Summer work may also count toward meeting this responsibility. Any portion of the work that is not completed will result in a debt to the Institute, payable after graduation, with modest interest based on the market conditions at that time. Each student is assigned to a faculty member or activity, and will be given the opportunity to work off the debt prior to graduation. Several cooperative community and clinic appointments are also available.

Scholarships and Fellowships

A limited amount of scholarship money is available to New York State residents through the Tuition Assistance Program (TAP). Forms are available in the Office of Financial Aid, Levermore Hall. All students should investigate the possibility of obtaining these funds.

Further information regarding foundations, fellowships, and grants may be obtained by writing or calling a special library called:

The Foundation Center
888 Seventh Avenue
New York, New York

The APA monograph, *Graduate Study in Psychology*, has additional suggestions regarding financial aid. This monograph is available in the IAPS office or in the Swirbul Library. Additional sources of funding may be identified through www.fastWEB.com.

Deferred Payment of Tuition

Tuition can be paid in installments by arranging in advance with the Bursar's Office, Levermore Hall, and paying an additional fee. No student can graduate until all outstanding debts to the University are paid.

Part-Time Employment

Some jobs, mostly outside the field, are available through the Student Placement Office, Levermore Hall. Any job related to psychology must be approved by the Dean, in regard to legality, professional ethics, and necessary supervision.

Assistantships for Clinical Students

The Institute’s practice is to grant financial aid primarily on the basis of need, not merit. A corollary of this approach is that second- and third-year doctoral students as a group receive more funding than first-year students because the more advanced students are usually more indebted.

There are several exceptions to the practice of giving funds based solely on need:

1. The Derner Institute has a commitment to recruit and train minority students. As part of that recruitment, incoming minority students who are financially needy will be offered assistantships as funds permit. If an incoming student, though not a minority member, is both very needy and outstanding, that student also will be offered an assistantship as funds permit.

2. Performance as a teaching assistant is considered when a student’s performance is remarkably poor. If the professor and student have not been able to work out a satisfactory resolution, and if the professor then elects to write a negative evaluation of the student’s performance, then that evaluation
will be considered by the Financial Aid Committee in its deliberations.

3. Occasionally a faculty member will need an assistant with a special skill or area of expertise. If the only student with the qualifications needed is not financially needy, the student may be awarded an assistantship anyway, as remuneration for the work assigned as assistant.

In order to help more students rather than fewer, teaching assistantships will be offered in increments of \(\frac{1}{4}\), i.e., \(\frac{1}{4}, \frac{1}{2}, \frac{3}{4}\), and full.

The procedure for applying for financial aid from the Derner Institute is the following:

Every student applying must fill in the Financial Aid Form and submit a copy to the Chair of the Financial Aid Committee. In addition, students must submit the Derner Institute Application for Financial Aid Form, a copy of their most recent federal income tax return as stipulated on the FAF form, and, if according to information supplied on the FAF, the student is classified as dependent, a copy of the parents’ federal income tax return. The original FAF and the income tax return(s) should be submitted to the Financial Aid Office at Adelphi.

Howard Davis Memorial Fund

A limited amount of money is available for emergency, short-term loans. Specific terms are arranged with the Dean, to whom applications should be directed.

Leave of Absence Guidelines

The continuity of training and education is an important aspect of the program; the faculty generally will not permit extension of leaves of absence beyond a single year. Under special circumstances, a student may petition for an extension of a leave for an additional year; such a petition must be presented no later than the preceding spring. The petition must present a compelling reason for such an extension, and should also include provision for approved professional activities during the leave period. The decision will be based on the specifics of the case, including the student's previous performance in the program, and the professional use that will be made of the leave period. If leave is not granted, the student will be expected to return to full-time status; or will have to reapply and be considered as a new student.
COURSES OF INSTRUCTION

GORDON F. DERNER
INSTITUTE OF ADVANCED
PSYCHOLOGICAL STUDIES

Master’s Courses

PSI 602 Theories of Personality 3 credits
General orientation to theories of personality, including history, development, content, and research on personality theory.

PSI 603 Theories of Psychopathology 3 credits
Nature and causes of mental illness. General concepts of psychopathology. Therapies currently used are discussed, and their relatedness as part of treatment.

PSI 604 History and Systems of General Psychology and Psychoanalysis 3 credits
A tracing of historical roots of psychology from philosophy and physiology from the 17th century to modern times. Emphasis is given to development of experimental psychology and psychoanalysis in Germany, France, Great Britain, Russia, and the United States.

PSI 605 Social Psychology 3 credits
A comprehensive study of the social aspects of human behavior with emphasis on the effects of social and sociocognitive variables upon psychological process. Topics include attitudes and attitude change, attribution theory, social cognition, and aggression. Class meetings focus on research findings, methodology, and the development of theory.

PSI 606 Psychological Research: Methods and Design 3 credits
This course will cover a number of advanced experimental and statistical techniques which have been shown to have specific usefulness in psychological research and will feature a critical analysis of research articles.

PSI 607 Developmental Psychology 3 credits
Basic principles underlying the development of children’s perceptual, cognitive, social, and communicative skills are studied. The process of development is emphasized more than the capabilities of the child at any particular age.

PSI 608 Psychology of Sexuality and Gender 3 credits
Examines the status and development of gender differences. Readings are primarily from the psychological literature, but biology, anthropology, and sociology also contribute concepts and data.

PSI 609 Consciousness and Cognition: Theories of the Mind 3 credits
Topics or issues are selected from cognitive psychology with a view toward the development of proposals for future research. Specific problem areas that could be discussed include concept formation, long and short-term memory, the effects of input and output modality, cognitive factors in information processing, creativity, individual differences in problem solving, and cognition in infrahuman species.

PSI 610 Freud and Psychoanalysis 3 credits
Examination of the development of Freud’s thought from his early explorations of the unconscious and neurosis (id psychology) to the later work on the structure of personality (ego psychology).

PSI 611 Group, Family, and Couples Treatment 3 credits
Students learn to assess the skills of themselves and others in establishing and maintaining relationships in groups. Students will observe their own behavior, the behavior of other group members, and the behavior of the group as a whole to determine the group’s interaction skills and deficits in each group member’s repertoire. Both process and content involved in conducting behavior training in groups will be presented didactically and experientially.

PSI 612 Contemporary Views of Psychoanalysis 3 credits
A look at the work of post-Freudian psychoanalysis and other schools of psychoanalysis which have developed since Freud including object relations interpersonal and self psychology.

PSI 613 Theories of Industrial and Organization Psychology 3 credits
This course will provide an introduction to theoretical and methodological foundations of industrial and organizational psychology including general systems approaches, motivation, theories of intelligence, human learning and introductions to psychometric and experimental procedures; the study of the individual and job measurement and the management of individual behavior in organizations including assessment of attitudes, abilities, skills, vocational preferences and personality assessment, job and task analysis, organizational effectiveness, recruiting selection, placement and personal training, conflict management, organizational structure, dynamics, role making and control systems; the study of behavior processes in organizations including job satisfaction, stress, decision making, problem solving, group influences, leadership, communication, change processes; cross cultural and gender related issues within the organization.

PSI 614 The Psychoanalytic Study of the Organization 3 credits
A half year advanced seminar surveying the field of psychoanalytic studies of the organization. Theoretical, clinical, and experimental data will be reviewed.
PSI 616 Personality Styles and Character Disorders  3 credits
This course will explore the psychodynamics of the various personality styles. Obsessive compulsive, hysterical, depressive, masochistic, narcissistic, schizoid, paranoid, and anti-social style and character disorder will be elucidated. The etiology and treatment of the various character disorders will be examined. Character disorders will be approached from psychoanalytic, cognitive-behavioral, and psychiatric (i.e., Axis II of DSM IV) perspective.

PSI 620 Thesis Seminar  3 credits
An optional course for candidates for the master's degree in general psychology. The student completes an original research review project. Students will meet in a group, each member of which will have the ultimate task of preparation and presentation of a significant review paper.

PSI 791 Independent Study  3 credits
Individual reading and/or research under faculty supervision. Students are guided in the preparation of an appropriate master's level thesis project.

Doctoral Courses

PSI 620 Psychodynamics of Behavior: The Development of Freudian Psychology  3 credits
Examination of development of Freud's thought from his early explorations of the unconscious and neurosis (id psychology) to the later work on the structure of personality (ego psychology).

PSI 621 Clinical Psychopathology  3 credits
Review of psychopathology theory and treatment, focusing on DSM IV, an understanding of dynamics in pathological behavior, and the ability to communicate with patients in a therapeutic manner.

PSI 623 Child Psychopathology  3 credits
This course is divided into three parts:
1. Special diagnostic considerations in work with children;
2. An introduction to psychoanalytic developmental theory, with particular emphasis on object relations theory;
3. Applied clinical issues with children, with special focus on learning disabilities and borderline disorders.

PSI 625 Advanced Clinical Psychology I  3 credits
Theory and history of psychodiagnoses with special reference to the concept and measurement of intelligence. Introduction to the concept of character structure and the different character types and the relevance to psychodiagnoses. Clinical experience in cognitive instruments including Wechsler scales and the Bender Gestalt. Lectures, laboratory, and weekly clinical practicum one day in public school or in community agency.

PSI 626 Advanced Clinical Psychology II  3 credits
Continuation of PSI 625 with emphasis on personality assessment. Integration of diagnostic information with oral and written reports. Lectures, laboratory and, in conjunction with PSI 628, weekly clinical practicum one day in public school or in community agency.

PSI 628 Assessment of Personality  3 credits
Emphasis on interpretation of projective techniques in psychological assessment. Full batteries administered by groups of two students for class use in developing diagnostic hypotheses. Lectures, laboratory, and, in conjunction with PSI 626, weekly clinical practicum one day in public school or in community agency.

PSI 630 Child Diagnostic Interviewing  3 credits
This course will introduce students to clinical and practical issues in dealing with and diagnosing learning disorders.

PSI 632 Initial Intake Seminar  1.5 credits
This course, the first of four in the clinical training sequence, covers procedural and process aspects of the initial interview.

PSI 633 Initial Intake Seminar II  1.5 credits
This course is a continuation of PSI 632.

PSI 640 Research Conference: Methods And Design  0 credits
A continuous weekly research conference of all first-year students.

PSI 642, 643, 742, 743 Psychological Research I, II, III, IV  3 credits each
Year-long intensively supervised research practicum. Student serves as research apprentice to a university or community laboratory or research program to which the student is assigned and participates in a weekly research conference.

PSI 644 Advanced Psychological Statistics  3 credits
Statistical procedures related to simple research designs. Major topics include sampling theory and special applications in determining statistical reliability, chi square, and related non-parametric tests, special methods of correlation, multiple regression, and test reliability and validity.

PSI 645 Design and Analysis of Experiments  3 credits
Advanced statistical techniques of special usefulness in psychological research. Complex analysis of variance designs and analysis of covariance.

PSI 647 Research Design I  3 credits
An examination of the principles of research design as they apply to various types of research from laboratory experiments to quasi-experimental field studies.
PSI 700, 701, 800, 801
Psychotherapy Case Conference I, II, III, IV 0 credits each
Year-long clinical psychotherapy case conferences of Adelphi Psychological Services by small groups of second- and third-year students and a rotation of all psychotherapy supervisors.

PSI 712 Clinical Practice I: Psychodiagnostics 3 credits
Intensively supervised psychodiagnostic testing and interviewing of severe psychoneurotic and psychotic patients. This practicum is given in a mental hospital or clinic to which the student is assigned for two days a week. Practicum includes lectures, conferences, and case presentations.

PSI 713 Clinical Practice II: Psychodiagnostics 3 credits
Intensively supervised psychodiagnostic testing and interviewing in Adelphi Psychological Services or similar outpatient clinic to which the student is assigned for two days a week. Practicum includes lectures, conferences, and case presentations.

PSI 715, 716 Clinical Practicum I, II 3 credits
Two-day a week placement in the field in a clinic or hospital setting.

PSI 720 Modes of Inquiry 3 credits
In this seminar the contemporary understanding of the human psyche is explored by examining sociological, economic, religious, and political thought, and the relationship between these modes of inquiry and the psychodynamic.

PSI 722 Psychoanalytic Psychotherapy II: Processes 3 credits
A study of some central theoretical and clinical developments in psychoanalysis. Contributions of classical, interpersonal, object-relational, and self-psychological models are examined with respect to their varying conceptualizations of, for example, transference, resistance, and cure.

PSI 724 Psychoanalytic Psychotherapy I: Principles 3 credits
The technique of neo-psychoanalytic brief psychotherapy, along with the analysis of the theoretical formulations of the more prominent psychotherapy systems to foster psychotherapy skills.

PSI 729 Trauma 3 credits
This course examines contemporary psychoanalytic, neurobiological, and developmental theories of psychological trauma with particular emphasis on childhood sexual abuse. It also presents psychoanalytic treatment approaches to the traumatized patient.

PSI 734 Developmental Psychology 3 credits
Major aspects of development, including topics such as infancy, childhood, adolescence.

PSI 736 Social Psychology 3 credits
An examination of the social psychological perspective with an emphasis on the types of questions social psychologists ask.

PSI 739 Approaches to Cognitive, Behavioral, and Humanistic Psychotherapy 3 credits
This course discusses psychotherapy theories, techniques and research that develop after, and in some cases as a reaction to, psychoanalysis. Included are behavior modification, interpersonal therapy, BECK's cognitive therapy, existential-phenomenological philosophy and psychology and PERL's Gestalt Therapy. The course focus is practical application with a goal of enhancing and enlarging the psychotherapist's repertoire of skills.

PSI 746 Applied Clinical Research 3 credits
Emphasis on research in psychotherapy. The student is required to produce an original research design of Ph.D. dissertation caliber.

PSI 803, 804 Concentration Case Conference I, II 1.5 credits
Open to fourth-year students, who select a clinical concentration area which expands their clinical development. Each Concentration Case Conference focuses upon a particular treatment modality, e.g., group psychotherapy, or on a different clinical ability, e.g., neuropsychology.

PSI 812, 813, 817, 819 Clinical Practice III, IV, V, VI: Psychotherapy Practicum 3 credits each
Year-long intensively supervised psychotherapy practicum. Students serve as junior staff psychologists on a half-time basis in the Adelphi Psychological Services and also attend a continuous case conference and a psychotherapy seminar.

PSI 815 Clinical Internship 0 credits
A fifth-year placement in a clinic or in a hospital, in which the student functions under close supervision as a member of the psychology staff. The student may choose an approved setting any place in the United States, and serves in a full-time assignment for the year.

PSI 816 Clinical Internship II 0 credits
Students complete the second half of their one-year internship during this semester.

PSI 818, 819 Continuing Doctoral Thesis Supervision 3 credits
Continuous supervised research on student's dissertation topic while continuing academic work.

PSI 820 Special Topics: Cultural Issues in Psychotherapy 3 credits
This seminar focuses on understanding the therapist-patient relationship via cultural phenomena manifested by the therapeutic process. The course addresses several pertinent clinical aspects of doing transcultural psychotherapy: recognizing
the importance of the patient’s cultural hallmarks; uncovering and using this material for therapeutic benefit; and the therapist’s reactions to working with varied populations.

**PSI 820 Special Topics: Child Psychotherapy** 3 credits
An introduction to play therapy. The historical context and various theoretical approaches are represented; contributions of the Kleinians and the British Middle School are stressed.

**PSI 821 Adult Development in the Life Span** 3 credits
This course reviews theories of adult development including stage theory, epigenetic theory and others. Issues in gerontology and the evolution of the structure of the family will be studied.

**PSI 824 Neuroprocessing Behavior** 3 credits
Following a brief review of basic concepts in neuroanatomy, biochemistry, and physiological psychology, students are introduced to specific topics in human neuropsychology. Issues regarding normal and pathological functioning are investigated from an adult as well as a developmental perspective.

**PSI 825 Clinical Neuropsychology** 3 credits
Students are introduced to theories and techniques of neuropsychological assessments. A broad range of assessment instruments are examined in a varied set of clinical presentations.

**PSI 830 Special Topics: Object Relations** 3 credits
This course will consist of an exploration of object relations theory as a conceptual groundwork for contemporary approaches to the psychotherapy process.

**PSI 831 Special Topics: Group Dynamics** 3 credits
This class will stress an analysis of interactional processes and dynamics that are basic to all group functioning, but particularly, to psychotherapy groups.

**PSI 832 Cognition** 3 credits
This course covers basic concepts and problems in cognitive psychology (perception, attention, memory, schemas, decision-making, etc.) as well as clinically relevant areas of cognition research (emotion, the unconscious, repression, etc.). The emphasis is on empirical research and on the integration of empirical research with clinical insights and applications.

**PSI 833 Special Topics: Disorders of the Self** 3 credits
In this seminar the development and pathology of the self will be explored through an intensive study of the core issues of internalization and symbiosis. The major theoretical positions will be compared both in terms of theory and treatment implication. Each student will be required to do a short paper integrating the clinical material with a case that he or she is seeing.

**PSI 834 Multicultural Issues I: Sexuality Orientation, Sexuality and Gender** 3 credits
This course surveys bisexual, gay, lesbian, and transgender issues in psychology and psychotherapy. Adult sexual dysfunction and gender perspectives are also examined.

**PSI 835 History and System of Psychology** 3 credits
A tracing of historical roots of psychology in philosophy and physiology from the 17th century to modern times. Emphasis is given to development of experimental psychology in Germany, France, Great Britain, Russia, and the United States.

**PSI 838 Multicultural Issues II: Race, Class, and Ethnicity** 3 credits
Psychotherapy integration is a new development that considers ways in which treatment can be improved by integrating technical interventions, or by some combination of the two. This seminar examines several approaches to integration, both as to their theoretical presentation and their application to specific case material. Readings include theoretical presentations and case presentations. In addition, students present their own cases with reference to how treatment might be improved by the perspectives gained from other approaches to theory and to intervention.

**PSI 848 Continuous Doctoral Research** 0 credits
Supervised research on student’s dissertation topic. Registration required each semester after completion of all work except dissertation.

**PSI 849 Continuous Doctoral Research** 0 credits
Supervised doctoral research on student’s dissertation topic. Registration required each semester after completion of all work except dissertation.

**PSI 850 Ethics and Professional Issues** 3 credits
Study of the Code of Ethics and other official documents of the American Psychological Association, professional organizations, licensure, legal rights and responsibilities of the psychologist, and use of psychologists in legal proceedings.

**PSI 851, 852 Colloquium I, II** 0 credit each
A weekly forum for presentation of visiting speakers, films, student-faculty plenary sessions, and grand rounds case presentations attended by all IAPS students and faculty.

Professional Philosophy

Few areas of American life are as dynamic and challenging as the world of business and entrepreneurship. The rapid pace of technological change and the growth of international markets and competition are creating rich opportunities for increased productivity and abundance for an ever larger number of people. To seize these opportunities, specific endeavors must be identified, developed, managed, and pursued. The flux and uncertainty of our new global economy, however, means that past practices are no longer a sure guide to future possibilities. The School of Business at Adelphi has fully embraced this challenge of modern economic life by recognizing that growth and abundance depend on the knowledge, understanding, and originality of tomorrow’s business leaders as well as on their energy, ambition, and sense of responsibility. To create the new entrepreneur who can flourish amidst unprecedented change, the School has redefined its educational philosophy, reorganized its curriculum, and reinvigorated its pedagogy. The principles underlying this reform include the belief that the best business leaders are those who enjoy intellectual challenge; have a deep appreciation of the theoretical and the practical; understand today’s reality and tomorrow’s possibility; and see the link between the skills they learn and the character they display.

In addition to the Master of Business Administration (M.B.A.), the School awards other graduate degrees and post-graduate certificates, including: M.S. in Finance; Certificate in Management for Non-Business Majors; Certificate in Management for Women; and the Certificate in Human Resource Management.

The School’s graduate students form a vibrant community whose diversity enriches the learning experience. They come from across the United States and many foreign countries, with undergraduate majors ranging from anthropology and economics to nursing and fine arts, and professional backgrounds ranging from bank officer and senior accountant to military officer and lawyer. Professional clubs and organizations such as the Accounting Society and the Marketing Club bring together students with common interests, and provide forums to exchange ideas and explore career options and professional goals. Guest speakers, internship opportunities, and our Distinguished Executive Lecture Series further serve to enhance the learning environment.

Career-related activities are coordinated by the University’s Center for Career Development. The Center provides assistance with résumé preparation, interviewing skills, and employment search techniques. The Center also oversees the on-campus recruitment process and
aims to prepare students well ahead of that process. Students are encouraged to schedule individual career interviews as they proceed through their studies and to attend the career workshops held throughout the year. On-campus events feature guest speakers from various corporations who discuss career paths and opportunities. In addition, the Center maintains listings of full-time, part-time, and summer positions.

Programs of Study

Degrees
Master of Business Administration (M.B.A.)
  Degree in Management
  Specializations:
    (1) Corporate Finance and Investments;
    (2) Human Resources/Management;
    (3) Marketing and E-Commerce.
Master of Business Administration (M.B.A.) in Management with Master of Science (M.S.) in Nursing
Master of Science (M.S.) in Finance

Advanced Post-Graduate Certificates:
Human Resource Management
Management

Master's Programs
The M.B.A. and M.S. programs share the following unified structure:

Prerequisite Courses
This component of courses helps ensure that all students possess the basic skills and abilities necessary for graduate business study. The number of prerequisite courses needed varies depending upon the student's previous academic preparation and background.

Foundation Core
The foundation core, or common body of knowledge component of courses, is designed to provide a solid foundation in each of the functional areas of business, statistics, economics, finance, management information systems, marketing, management, and business ethics. It also teaches the student to integrate material across the different disciplines. These courses are the "building-blocks" for the more advanced courses.

Advanced Core Courses
This component of courses examines 21st century management issues on a macro and global level, and is designed to enrich the student’s professional and learning experience.

These courses provide every student with the knowledge to compete in a global marketplace, as well as to manage and grow a global enterprise. Whether you manage a firm with 50 employees or you have a multinational corporation with 50,000 employees, you will be competing with organizations from across the world, serving customers in other countries, or sourcing your raw materials from around the globe. The business environment is global no matter where you do business or in what industry. In fact, nearly 60 percent of the commercial activity on Long Island involves export activity. Business leaders need to understand the following:

• The use of financial measures to support and inform decision making, including such tools as activity-based management, planning practices and models, variance analysis, cash flow analysis, operational performance measures, capital budgeting, and risk assessment. Therefore, every student is required to take our ACC 600 course Accounting for Managerial Analysis.

• The complexities of developing, planning, and implementing a vision and mission for the organization, as well as the supporting strategic plan in a dynamic, rapidly changing, and intensely competitive business environment. The major theories of leadership such as trait theory, behavior theory, contingency theory, and transformational leadership, as well as the issues of power, motivation, and management style are addressed in MGT 666 Leadership and Innovation in Complex Systems.
• Understand the best management practices on the continuum from product design, production, and distribution, to the final collection of funds, i.e., the whole design-to-remittance value-creation chain. Every manager needs to implement the best practice in every function of the organization and understand the service, financial, and manufacturing sectors of the global economy. These topics are investigated in OPR 678 Best Practices, Production, and TQM.

• Implement and deploy technology to support global intelligence gathering to achieve cost reduction, to create and enhance the value chain, identify and serve customers, and to achieve cycle time reduction. Every leader needs to appreciate the risk/reward tradeoffs in technology investment, and be able to justify those investments in a capital budgeting and strategic framework. Every student will become familiar with these concepts in MGT 770 Management of Technology.

• Create and participate in business alliances (including joint ventures, partnerships, mergers, licensing, etc.) that require the ability to communicate effectively and persuasively, orally and in writing; to negotiate cooperative agreements, arbitrate disputes, and otherwise interact adroitly on an interpersonal level in the global village. The competencies are developed in BUS 689 Persuasive Communication and Negotiation.

• Financially analyze competitor performance in an industry sector or on an individual basis. Leaders need to distinguish the performance of segments or distribution channels from a competitive financial viewpoint. Everyone should develop the ability to analyze the complexities of the global deployment of resources to maximize value on a risk-adjusted basis. Immersion in these issues occurs in FIN 734 Building Shareholder Value Through Competitive Analysis.

• Meet the challenge of selecting, developing, retaining, promoting, and compensating high performance employees to carry the strategic vision and mission of the organization. This complex challenge needs to be met on a global scale with an understanding of the cultural differences that exist around the world. Our course HRM 765 Developing World Class Human Resources deals with these issues.

• Encourage innovation, creativity, and entrepreneurial activity for the purpose of spinning off a division of your organization, organically growing a new business segment, as well as being prepared to start your own business. Entrepreneurship/Intrapreneurship is certainly the hallmark of our new dot.com economy and everyone needs to have the opportunity to acquire these skills. Our course BUS 662 is available for everyone who has an interest in selecting this course as part of their advanced core.

Specialization and Electives

Depending upon interests and career objectives, students can make the focus of their M.B.A. program as broad or as narrow as they wish. Those seeking a broader course of study can select from advanced elective courses that span the entire spectrum of the business curriculum. Specialization is available to those whose interests lie in one of the more traditional management spheres. These are outlined in greater detail on the following pages. Students opting for a specialization choose their electives from a prescribed list of courses relating to that specific discipline.

Capstone

Strategic management (BUS 679), taken as one of the last three courses in the program, integrates the material covered in the entire program.
The Master of Business Administration (M.B.A.) in Management (33–66 credits)

The M.B.A. program is designed to serve middle-level professionals and others seeking advancement in management careers. To be able to perform with distinction in our global environment, today’s managers must be intellectually well-rounded and have the capacity to understand and appreciate the impact of their decisions on society, and the role that society plays in forming their decisions. They must know how to communicate effectively and must possess a thorough understanding of the legal, environmental, technological, and social issues that affect an organization’s operations. The program’s required foundation, core, and advanced core components integrate contemporary management issues and business fundamentals, thereby enabling students to acquire such knowledge and competencies. Students have the option of specializing in one of the traditional areas of management or pursuing a more general approach by spreading their advanced elective course of study over several functional areas.

The Master of Business Administration (M.B.A.) degree consists of a maximum of 66 credits and a minimum of 33 credits. This flexibility is intended to accommodate students with varied academic backgrounds, including those who have already earned an advanced degree and are now seeking to earn a graduate business degree. The M.B.A. curriculum meets state, regional, and national accreditation standards.

Graduate Prerequisite Courses (9 credits)
(Depending on previous academic background, the following prerequisite course(s) may be required):

Capstone (3 credits)
M.B.A.—Areas of Specialization or Electives

Choosing a specialization is optional. To qualify for a specialization, select three courses from one of the following areas:

Corporate Finance/Investments/Financial Markets
FIN 510 Securities Markets
FIN 634 Corporate Finance II
FIN 713 Seminar in Finance
FIN 737 Advanced Topics in Finance
FIN 738 Investment Analysis
FIN 739 Portfolio Management
FIN 743 International Financial Management

Management/Human Resources
BUS 651 Future Trends in Management
BUS 662 Entrepreneurship/Intrapreneurship*
HRM 762 Human Resource Planning and Policy
HRM 765 Developing World Class Human Resources*
HRM 766 Performance Appraisal and Compensation Administration
MGT 660 Industrial Relations
MGT 791 Management Styles and Team Building
OPR 675 Total Quality Management

Marketing/E-Commerce
MKT 680 Sales Promotion and Direct Marketing
MKT 780 Marketing Research
MKT 781 Sales Management
MKT 782 Advertising Management
MKT 785 New Product Management
MKT 787 Consumer Behavior

* If taken for Advanced Core, these course credits cannot be applied toward specialization/elective requirements.

Other Electives
ACC 601 Financial Statement Analysis
ACC 605 Tax Consequences of Financial Transactions
ACC 704 Federal Taxation
ACC 706 Advanced Cost Accounting
ACC 708 Seminar in Accounting Theory
BUS 652 Government and Public Policy
HHM 771 Hospital and Health Care Policy and Management
HHM 772 Organizations of Systems for the Delivery of Health Care
HHM 773 Health Resources and Manpower Management
HHM 774 Legal Aspects of Health Care
HHM 776 Hospital and Health Care Finance
HRM 763 The Executive Personality-Theory and Assessment
MKT 582 Creative Problem Solving

Joint M.B.A. in Management and M.S. in Nursing Degree Program
(72–74 credits)

Nurse administrators increasingly are becoming integral members of administrative teams within health service organizations and are competing for leadership positions with individuals from non-nursing backgrounds. Their responsibilities have grown in the areas of long-range, strategic, and financial planning; resource management; implementation of outcomes-based approaches to quality patient care; governance of board meetings; and management of multiple patient care departments. This combined 72-74-credit program with the School of Nursing and the School of Business allows the registered nurse holding a bachelor’s degree to complete the Master of Science in Nursing and Master’s in Business Administration. The program incorpo-
rates contemporary management theory; business fundamentals and essential core competencies; and knowledge, skills, and values of advanced professional nursing practice. The objective of this joint degree program is to prepare leaders who facilitate and embody the competencies required to help transform health service organizations and health systems as a whole.

**Admission to Joint Degree Program, M.B.A. in Management and M.S. in Nursing**

Students can apply to the M.S. and M.B.A. programs concurrently. One application and one set of transcripts, references, and other supporting documents should be sent to the Office of University Graduate Admissions. Students may exit the program after completion of the requisite 45 credits for the M.S. in nursing. Students who are currently enrolled in the M.S. program in nursing administration and who wish to enroll in the joint degree program must apply directly to the School of Business prior to enrolling in NUR 770. An additional 27 credits will be required for the M.B.A.

**Admission Requirements**

1. Current licensure as a registered nurse.
2. Possession of a baccalaureate degree in nursing from a professionally accredited program or a non-nursing baccalaureate degree plus a passing score on the NLN baccalaureate comprehensive achievement test.
3. Completion of a basic calculus and a basic statistics course with a grade of B or better.
4. A minimum of two years of practice in nursing prior to taking specialty courses. One year of practice should be in nursing service administration.
5. Official transcripts from all previous colleges or universities attended.
6. Grade point average of 3.0
7. Two letters of recommendation from the applicant’s recent employers.
8. Graduate Management Admission Test (GMAT results).
10. International applicants must have obtained a minimum score of 550 on Test of Foreign Language (TOEFL) within the past two years; a declaration and certificate of finances; and certified English translations of all prior academic records.

**Program Plan***

### Management Requirements (39 credits)

- ACC 500 Financial Accounting
- ECA 520 Macroeconomics
- ECA 521 Microeconomics
- MGT 561 Management Theory and Organizational Behavior
- OPR 573 Management Information Systems
- MKT 580 Marketing Management
- ACC 600 Accounting for Managerial Analysis
- FIN 630 Corporate Finance
- OPR 678 Best Practices, Operation, and TQM
- FIN 734 Building Shareholder Value Through Competitive Analysis
- HRM 765 Developing World Class Human Resources
- HHM 772 Org. Sys. Delivery of Health Care
- HHM 776 Hospital Healthcare Finance

*Course sequences and plans of study for students are developed individually in consultation with the faculty advisor.

### Nursing Requirements (33–35 credits)

#### Required Courses

- NUR 602 Ways of Knowing
- NUR 604 Small Group Phenomena
- NUR 702 Health Issues, Policy and Politics
Specialty Courses
NUR 664  Collective Bargaining
NUR 665  Legal Issues
NUR 666  Ethical Issues
NUR 768  Health Promotion and Disease Prevention Program Development
NUR 769  Roles and Functions of Nursing Service Administrator
NUR 770  Seminar and Practicum in Nursing Administration

Research Courses
NUR 650  Nursing Research I
NUT 750  Nursing Research II
NUR 751  Project Advisement

The Master of Science in Finance (30–51 credits)

Financial institutions are part of a dynamic transformation already in process. They are being subjected to enormous changes in the regulatory environment, the competitive framework, technology, international relationships, the globalization of the economy, and other concerns.

The need for professional training in finance is multifold. The Master of Science (M.S.) in finance meets the needs of the financial community in the United States and abroad by providing them with the professional knowledge, managerial expertise, and analytic skills needed to function effectively.

The M.S. in finance consists of a minimum of 30 credits and a maximum of 51 credits. This flexibility is intended to accommodate students with varied academic backgrounds.

Prerequisite Courses (9 credits)
May be waived by a proficiency exam or prior coursework.
Note: Prerequisite courses must be taken before any other M.S. courses.
ACC 500  Financial Accounting
OPR 501  Computer Applications
OPR 507  Mathematics for Managers

Required Courses (12 credits)
May be waived by prior coursework.
ECA 520  Macroeconomics
ECA 521  Microeconomics
FIN 630  Corporate Finance
OPR 670  Statistical Methods

Advanced Courses (27 credits)
FIN 510  Securities Markets
FIN 634  Corporate Finance II
FIN 734  Building Shareholder Value Through Competitive Analysis
FIN 738  Investment Analysis
FIN 739  Portfolio Management
FIN 743  International Financial Management
ACC 601  Financial Statement Analysis
ACC 605  Tax Consequences of Financial Transactions
FIN 737  Advanced Topics in Finance

Capstone (3 credits)
Must be taken as one of the last three courses in the program.
FIN 713  Seminar in Finance

Certificate Program in Management for Non-Business Majors (24–33 credits)

Adelphi University’s School of Business offers an option in graduate education open to qualified liberal arts and other non-business majors who have earned a Master’s degree. The 33-credit Certificate in Management is designed for men and women who want to advance professionally, update their credentials, and change careers.

Management certificate students acquire a basic foundation in the functions of business; an appreciation for the environment in which business operates; and begin to develop the analytical tools needed for intelligent decision-making by taking the foundation core or common body of
knowledge component of the Master of Business Administration (M.B.A.) degree.

All 33 of the certificate credits are transferable to the M.B.A. degree upon satisfactory completion of all other admissions requirements for the M.B.A. degree.

- ACC 500 Financial Accounting
- BUS 551 Legal/Ethical Environment of Business
- ECA 520 Macroeconomics
- ECA 521 Microeconomics
- FIN 630 Corporate Finance
- MGT 561 Management Theory/Organizational Behavior
- MKT 580 Marketing Management
- OPR 501 Computer Applications
- OPR 507 Mathematics for Managers
- OPR 573 Management Information Systems
- OPR 670 Statistical Methods

Certificate Program in Management for Women
(33 credits)

Although women make up half of today’s labor force, their career aspirations are often unsatisfied because of lack of professional training in management. To address this problem, the Certificate Program in Management for Women has been established by the School of Business of Adelphi University. The program is designed to meet the needs of post-college-educated women seeking opportunities for promotion, and those changing careers.

The graduate curriculum course sequence, admissions requirements, and support services of the Certificate Program in Management for Women are the same as for the Certificate in Management for Non-Business Majors.

The Certificate Program in Management for Women received the First Annual Equal Opportunity for Women Innovation Award of the American Assembly of Collegiate Schools of Business (AACSB).

Certificate Program in Human Resource Management
(15 credits)

American business and industry are becoming increasingly aware of the degree to which an organization’s success depends on the productive well-being of its human resources. Accordingly, the business world has been increasing its attention to the personnel function and to the field of Human Resource Management.

The Certificate Program in Human Resource Management is designed to provide the human resource professional who has earned a graduate degree with the personnel skills and state-of-the-art knowledge needed to perform effectively in this changing and growing field.

The program is open to students with Master’s degrees in any field. All 15 of the program’s credits are transferrable to the M.B.A. degree upon satisfactory completion of all other admissions requirements for the M.B.A. degree.

Human Resource Certificate Courses
(15 credits)

Required courses:
- HRM 762 Human Resource Planning and Policy
- HRM 765 Developing World Class Human Resources
- HRM 766 Performance Appraisal and Compensation Administration
- MGT 561 Management Theory/Organizational Behavior
- MGT 660 Industrial Relations

Admission Requirements

In addition to the requirements for University graduate admission, specified elsewhere in this Bulletin, all prospective students are required to submit:
• Graduate Management Admissions Test (GMAT) results. Scores that are more than five years old are generally not accepted. (Test information and an application can be obtained by writing to the Graduate Management Admissions Test, Educational Testing Service, Box 899, Princeton, New Jersey 08541.)

• Two letters of recommendation written by persons (academic or professional) who are knowledgeable about the applicant’s qualifications for graduate work.

Note: Full matriculation status will only be granted upon satisfactory fulfillment of all the admissions requirements for degree and certificate programs.

To ensure that your application is considered for the term you wish to enter as a fully accepted student, it is suggested that your application and supporting credentials be received by the following dates: Fall Semester—August 15; Spring Semester—December 15.

Additional Requirements for International Students

In addition to the University and School of Business admissions requirements (admissions application with fee, bachelor’s degree or equivalent, official transcripts, essay, and GMAT test score results), international students must submit the following credentials:

• Certified English translations of all prior academic records of studies that have been conducted in non–English speaking countries. Credentials must be certified and include all studies completed to date; grades or examination results; degrees, diplomas, or certificates earned; and length of the school year.

• Total of 550 or better on the Test of English as a Foreign Language Exam (TOEFL), or completion of Adelphi’s Language Institute for English (L.I.F.E.) program level XII, unless there is a demonstrated competence while attending an American institution. (Information concerning the TOEFL exam is available from Educational Testing Service, Princeton, New Jersey 08540.)

• Declaration and certificate of finances. Applicants must file a financial affidavit before an I-20 form can be issued.

Application deadlines for international students are: Fall Semester—May 1; Spring Semester—November 1; Summer Sessions—March 1.

Admission with Advanced Degree

For students who have applied and been admitted as degree candidates to the M.B.A. or M.S. in finance degree programs, and who have earned a postbaccalaureate degree, course requirements may be reduced. The reduction in the number of credits will depend upon the area in which the advanced degree was earned.

Credits taken to fulfill the requirements of a previous degree cannot be used toward fulfillment of the requirements for another degree.

Other Applicants

Students Registered in Other Degree Programs at Adelphi. Graduate students officially registered in other divisions of the University may register for course work within the School of Business only if written permission from the appropriate dean, advisor, or chair is presented at the time of registration. The written permission must indicate that the course work taken within the School of Business will count toward degree requirements in the cognate program. Students registering on a continuing basis under the classification will be considered as visiting students within the School of Business.

Visiting Students. Graduate students officially registered in a business degree program at another accredited university may register for course work within the School of Business if written permission from their appropriate
Additional Information

Convenient Times and Places to Study

Class schedules have been designed to accommodate the schedules of men and women engaged in full-time careers. Courses are offered at both the main Garden City campus and the Huntington Center. Courses for all graduate degree and certificate programs are scheduled Monday through Thursday evenings and Saturday mornings at Garden City and Huntington. Each course meets once a week. Qualified students may also select the fast-track, GOAL MBA, program option. GOAL MBA features an accelerated trimester with Saturday programming, and a choice of two study locations—the main Garden City campus, and the Huntington Center. Switching between campuses is an option in all programs.

Academic Advising

Faculty advisors and mentors are available for academic counseling through all our business programs. Students may meet with advisors from the time of first inquiry through graduation. Considering the individual’s interests, desired area of specialization, and time constraints, the student and advisor together formulate a plan of study matching educational needs with the individual’s career and professional goals.

Advisors/mentors schedule office hours at times convenient for their advisees. Extra hours of service are also added during each registration period.

Career Counseling

The University’s Center for Career Development offers help with career decisions, taking into account both the students’ interests and education and their desired salary and career path. Whether you are a young graduate student, an experienced professional seeking a career change, or someone returning to the work force, counselors will take the time to assess your interests and skills, and help you make the right decision. Annual reports, recruiting brochures, and employment guides are available as handouts or on a lending basis.

The Career Center also holds special receptions for employers and students, as well as career seminars on résumé writing and interviewing. These events are only part of an overall career strategy that the center can put together for you.

Internships

Internships are available to qualified students in some programs. Students are placed in part-time positions corresponding to their field of study and earn academic credit by completing an independent study project with a faculty advisor.

Academic Services

Students receive academic support in their course work through special tutorial sections including a mathematics review course. Computer assistants are available in the Computing Center, located on the lower level of the Business Building.

Lectures and Experts

The School of Business Distinguished Executive Lecture Series keeps students current on the latest developments in economics, banking, finance, marketing, and management.

Professional Societies for Graduate Students

The School of Business has been granted a charter for the Beta Xi Chapter of Delta Mu Delta, one of the oldest national honor societies in business administration. Delta Mu Delta, founded at New York University in 1913, is a
member of the Association of College Honor Societies. To be eligible for membership a student must have a minimum G.P.A. of 3.5; complete one-half of the degree requirements at Adelphi; and show a willingness to serve the community.

Scholastic Requirements
Students who are accepted provisionally must maintain a 3.0 average while completing the course work specified in their letter of acceptance. Fulfillment of these conditions will result in the student being eligible for matriculation as a degree candidate. Failure to comply with the conditions of acceptance may result in dismissal from the program.

Grading System
Each candidate for a master’s degree must complete all graduate course requirements with a minimum grade-point average of 2.75 on a scale of 4.00. A minimum of 2.75 is required for graduation.

A student who fails to maintain a 2.75 cumulative grade point is placed on academic probation and is subject to possible dismissal.

If the student has not withdrawn from a course, or has not completed the course requirements and made no arrangements with the instructor for an Incomplete, the instructor must issue a grade from A to F.

See the section titled “Grading System” in this Bulletin.

Waiver and Substitution Policy
Depending upon the student’s previous academic background, waivers or substitutions for certain courses may be granted, reducing the total number of overall credits needed to complete a degree program. The Office of the Dean and chairpersons will advise as to whether the student qualifies for any course waivers or substitutions upon acceptance into a degree program.

Proficiency Examinations
Students who do not meet the criteria to be considered for course waivers and substitutions, may be granted permission to take a proficiency examination in certain specialized disciplines for prerequisite course requirements.

Transfer Credit Policy
A maximum of 6 graduate credits may be transferred to meet prerequisite and core course requirements provided they have been:
- Taken in an accredited graduate program;
- Completed within the last five years prior to entering Adelphi University, School of Business;
- Completed with a grade of B or better;
- Comparable in content to courses offered by the School of Business.

Minimum Course Requirements at Adelphi
A minimum of 30 credits in residence must be taken at Adelphi University for degree programs.

Graduation with Distinction
Graduate degrees are awarded with distinction to outstanding graduate students who have achieved a cumulative grade-point average placing them in the top 10% of their graduating class. The cumulative grade-point average is based only on graduate courses taken at Adelphi University, School of Business.

Waiver of Academic Regulations
A student in the School of Business may request the waiver of an academic regulation by petitioning the Academic Standards Committee of the School of Business. Petitions should be addressed to the committee and filed with the Office of the Dean of the School of Business. Students are requested to discuss the matter with a member of the dean’s staff prior to submitting their petitions.
COURSES OF INSTRUCTION

SCHOOL OF BUSINESS

ACCOUNTING

ACC 500 Financial Accounting 3 credits
Designed for those with no previous courses in accounting. An introduction to measurement concepts and techniques of financial accounting. These include methods and techniques of recording, summarizing, and reporting financial data, and the problems related to income determination and asset measurement. A detailed explanation of generally accepted accounting principles is presented as a basis for the recording and reporting of financial information. Examination of the problems of income determination and resource and equity valuation.

ACC 600 Accounting for Managerial Analysis 3 credits
Prerequisite: OPR 670.
An introduction to the information needs of management. Emphasizes the usefulness and limitations of accounting information in evaluating alternative courses of action and controlling current operations. Uses a strategic lens to examine the alignment of accounting measures with firm goals. Specific techniques and approaches utilized include operational and capital budgeting, activity-based management, value-chain analysis, and performance benchmarking.

ACC 601 Financial Statement Analysis 3 credits
Prerequisite: ACC 500.
A review of accounting principles and concepts followed in the construction of financial statements. Examination of the techniques used in analyzing and explaining the financial reports of business corporations and other entities.

ACC 605 Tax Consequences of Financial Transactions 3 credits
Prerequisite: ACC 500.
An overview of Federal tax matters as they relate to financial managers. The course will encompass the following topics: (1) tax consequences of various business structures, (2) mergers and acquisitions, (3) international taxation, (4) tax treatment of fringe benefits, (5) debt vs. capitalization, (6) property transactions: determination of basis, gains and losses, (7) retirement planning, (8) stock option rules.

ACC 704 Advanced Federal Taxation 3 credits
Prerequisite: 24 undergraduate accounting credits including a course in federal taxation.
A study of the Internal Revenue Code with particular emphasis on the problems of corporations and their shareholders. Considerable time is spent in the area of corporate reorganizations, multiple corporations owned by related taxpayers, and distributions of corporations to their stockholders. Other areas covered include personal holding corporations and pseudo-corporation taxation.

ACC 706 Advanced Cost Accounting 3 credits
Prerequisite: 24 undergraduate credits in accounting, including a course in cost accounting.
Examines the use of accounting information for management decision-making purposes. Particular stress is placed upon evaluating the impact of accounting systems on the motivation, behavior, and performance of both management and employees. Building on previously acquired knowledge in cost accounting, students examine techniques and procedures involved in dealing with problems of capital budgeting, return on investment, joint product allocations, economic order quantity, transfer pricing, and other highly technical areas.

ACC 708 Seminar in Accounting Theory 3 credits
Prerequisite: B.B.A. in accounting or completion of 24 undergraduate accounting credits.
Discussion of current issues in accounting including statements of the Financial Accounting Standards Board. The role and views of the various national accounting societies, state societies, and other financial bodies are reviewed. Professional development, mandatory continuing education, and other proposals before C.P.A. societies are covered. Registration by permission of the instructor.

BUSINESS

BUS 551 Legal and Ethical Environment 3 credits
Examines the legal framework within which the organization operates. Focuses on law of contracts, sales, negotiable instruments, partnerships, bankruptcy, and consumer protection. Designed to introduce the student to teleological and deontological moral theories in the western philosophic tradition. An examination of the legal and moral dimensions of decision making within the organization. An inquiry into the major theories of philosophy with applications to business problems. Case studies are introduced and analyzed in terms of morality and social justice.

BUS 651 Future Trends in Management 3 credits
Prerequisite: MGT 561.
This course will identify and describe the most important future trends. The new social, political, cultural, educational, economic, and technological forces will be explored in an increasingly interconnected world. Specific topics will include the global economy, information technologies,
entrepreneurship, leadership, team-building, and strategic development.

BUS 652 Government and Public Policy 3 credits
An analysis of the role of government in the economy. An appraisal is made of the antitrust laws, the patent system and other measures designed to maintain and foster competition. Governmental views on merger action and “big business” are analyzed. Governmental programs in the form of grants, subsidies, and policies to promote economic stability are evaluated.

BUS 662 Entrepreneurship/Intrapreneurship 3 credits
Prerequisites: MGT 561, 666, and ACC 600.
Explores the theory, self-evaluation, decision-making process, risk, and reward of entrepreneurship. Students use readings, case analysis, discussion, and business plan preparation to apply their skills and knowledge to practical situations. Students learn to identify and describe strategic position, present prospects, and to formulate plans. Success stories will be presented by guest experts.

BUS 679 Strategic Management 3 credits
To be taken in the last term of student's program.
The course synthesizes the concepts and techniques developed in prior courses in order to construct a rational basis for developing business objectives and strategic plans. Actual business conditions are simulated. Cases are selected from a cross section of industries to provide a variety of experiences. Industry areas represented include both manufacturing and service oriented organizations (small, medium, and large), both public and private. Successful mastery of the subject matter requires an ability to recognize and define problems, within an economic, social, and government context; analyze financial statements; recognize marketing opportunities and develop appropriate plans; and perform those basic mathematical and statistical computations that may be required in organizing and analyzing data.

BUS 689 Persuasive Communication and Negotiation 3 credits
Prerequisite: MGT 561.
A comprehensive study and experience of the research process, this course examines the methodology of formulating and analyzing a problem, identifying and interpreting various forms of data, and of reporting findings through a major research report and oral presentations. Students are required to demonstrate their mastery of the course content by selecting a business problem and carrying out a complete research project in which they are encouraged to employ appropriate statistical and computer-assisted data analysis.

ECONOMIC ANALYSIS

ECA 520 Macroeconomics 3 credits
A detailed treatment of the concept of full-employment equilibrium; determinants of consumption, investment, and government expenditure. Multiplier and accelerator analysis. Policies for full employment, price stability, and maximum growth. Designed to provide students with the tools of aggregate economic analysis and to help apply them to the decision-making process.

ECA 521 Microeconomics 3 credits
Prerequisite: OPR 507.
Analysis of the behavior of individuals and firms under competitive conditions; price determination under perfect competition, monopoly, oligopoly, and monopolistic competition; general static equilibrium and the efficient allocation of resources. Through problem-solving, the course utilizes economic analysis to help improve the process of managerial decision-making.

FINANCE

FIN 510 Securities Markets 3 credits
Analyzes the institutions and operations of securities markets in the United States. Topics include: the analysis of the mechanisms by which securities markets bring buyers and sellers together, establish prices, and execute transactions; the determination of transactions costs; the relationship between speculative activities and securities price movements; and the behavior of stock market prices. Particular emphasis is given to the markets for corporate equities.

FIN 630 Corporate Finance 3 credits
Prerequisites: ACC 500, OPR 670, ECA 524, and 521.
A basic introduction to the financial environment in which corporations must operate. Topics include the nature of securities markets, financial ratio analysis, valuation of securities, and optimal asset and liability management.

FIN 634 Corporate Finance II 3 credits
Prerequisites: ACC 500, FIN 630, OPR 507, and 670.
An intermediate course in finance covering forecasting of financial requirements and capital expenditures. Case studies are used extensively to illustrate the decision-making process.

FIN 713 Seminar in Finance 3 credits
Prerequisites: ECA 520, FIN 630, or permission of instructor.
An examination of domestic and global issues in banking and finance. Students are assigned research projects which are related to current issues. The nature and extent of the project(s) will be determined by the instructor and the student.

FIN 734 Building Shareholder Value Through Competitive Analysis 3 credits
Prerequisites: FIN 630, OPR 507 and 670, ACC 600.
Examines the shareholder value creation process in the context of competitive analysis. Competing concepts of value creation are evaluated including Free Cash Flow, EPS, Market Value Added, and Economic Profit (EVA). The concepts are developed and tested through student teams executing a competitive analysis, conducting a valuation analysis for two publicly held companies, and reporting their results to the class.
FIN 737 Advanced Topics in Finance  3 credits
Prerequisites: FIN 630, 734, OPR 507, and 670.

FIN 738 Investment Analysis  3 credits
Prerequisites: FIN 630, OPR 507, and 670.
Basic valuation theory covering individual companies, industries and the securities markets. Included are bond valuation and determinants of capital market rates; the appraisal of equities (preferred and common) of static, stable-growth, and super-growth firms; the role of leverage, as exemplified in convertible bonds and preferred stock, warrants, and options; and the evaluation of investment return, risk, and performance. Also examined are technical analysis and alternative methods of investment and trading, involving various holding periods. Computer applications are stressed wherever applicable.

FIN 739 Portfolio Management  3 credits
Prerequisites: OPR 507, 670, FIN 630, and 738.
The determination and application of appropriate security selection filters. Techniques for improving and maximizing individual and institutional portfolio performance. Procedures for efficient diversification and concentration. Investment timing and forecasting via economic, monetary, fundamental, and technical indicators and procedures. Specialized portfolio practices and strategies for mutual funds, other types of investment companies, banks, savings and loan associations, casualty and life insurance companies, pension funds, foundations, educational and other non-profit institutions.

FIN 743 International Financial Management  3 credits
Prerequisites: FIN 630.
Analysis of the financial problems, opportunities, and questions that confront the management of international firms. Exploring forecasting in the foreign environment, multinational capital budgeting, affiliate financial structures, and managing international funds movements.

HOSPITAL/HEALTH CARE MANAGEMENT

HHM 771 Hospital and Health Care Policy and Management  3 credits
Prerequisite: MGT 561.
Emphasis on hospital management. Policy-making by community, boards of trustees, medical staff, government, financial intermediaries, and the use of consumerism in the policy process.

HHM 772 Organization of Systems for Delivery of Health Care  3 credits
Prerequisite: MGT 561.
Deals with alternative methods of health care delivery and problem conditions imposed externally and internally in effective compliance; health maintenance organizations, health care corporations, group practices, clinic (free standing as well as for-profit or taxpayer facilities), proprietary, governmental agencies and hospitals, community health groups, union clinics, health related facilities; homes for the aged and infirm, nursing homes, and other health care facilities.

HHM 773 Health Resources and Manpower Management  3 credits
Prerequisite: MGT 561.
The utilization of manpower, its management and direction. Manpower direction is viewed from an operational resource stance rather than that of personnel administration. Course deals with operational performance of individuals, services, and departments and the measurement and levels of quality of performance.

HHM 774 Legal Aspects of Health Care  3 credits
Prerequisite: MGT 561.
Principles of law and administrative regulations in their application to health care agencies, institutions and organizations. Obligations of administrative staff, top management, governing bodies, medical staff, employees, and attending (but not employee) medical staff in health care situations.

HHM 776 Hospital and Health Care Finance  3 credits
Prerequisite: ACC 500.
Fiscal problems in hospital and health care management. Financial reporting, hospital controls, budget making and controls, cash flow, information systems required for management evaluation of alternative courses of action in managing the affairs of hospitals and health care organizations; methods of financing health care operations and construction; effect of financing methods on patient care; the fiscal structure of hospitals and the relationship to various health care delivery systems.
### HUMAN RESOURCE MANAGEMENT

**HRM 568 Human Resource Management**  
3 credits  
Prerequisite or corequisite: MGT 561.  
This course will initially survey the roots and rationale of the development of personnel administration as an increasingly important function of organizational management. It will particularly emphasize a pragmatic study of current policies, goals, functions, principles, and practices of personnel departments in private and public organizations.

**HRM 762 Human Resource Planning and Policy**  
3 credits  
Prerequisite or corequisite: MGT 561.  
This course covers the conceptual and legal issues as well as the major legislation underlying the development of policies in the area of human resource management. Topics include when, why, and how policies should be written. The course will also cover the development and application of human resource planning and the staffing process—recruitment, assessment, and selection of operating and managerial personnel. Interdependency of policy and planning will be examined relative to other human resource activities.

**HRM 763 The Executive Personality: Theory and Assessment**  
3 credits  
Prerequisite or corequisite: MGT 561.  
Applies personality theory to managers and executives and inquires into the so-called management/executive personality syndrome. Heavy emphasis is placed on executive selection-interviewing. Students are trained in interviewing skills, in listening carefully, interpreting objectively, and feeding back. Students are required to do extensive reporting of interview results.

**HRM 765 Developing World Class Human Resources**  
3 credits  
Prerequisite: MGT 561.  
Select, develop, retain, promote, and compensate high-performance employees. Appreciate the special rewards and challenges of developing such employees on a global scale.

**HRM 766 Performance Appraisal and Compensation Administration**  
3 credits  
Prerequisite or corequisite: MGT 561.  
Methods of performance appraisal of operating and managerial personnel and methods of conducting performance reviews will be examined. Emphasis will also be placed on designing and implementing appraisal review systems. The course will examine the rationale and methods of establishing and administering compensation programs. It will also present techniques for developing job analysis and job evaluations and methods of constructing a wage and salary structure. Interdependency of performance appraisal review system and compensation administration will be examined relative to other human resource activities.

### MANAGEMENT

**MGT 561 Management Theory/Organizational Behavior**  
3 credits  
Examines the rationale underlying the methods of designing the structure of organizations, the functions of management, and research findings from the behavioral sciences that serve as a foundation for understanding how people relate. Topics include various managerial functions including planning, organizing, staffing and control. The course focus also includes organizational socialization, needs and motivation bureaucracy, and organizational change. The primary goal is to assist students in developing a basic understanding of essential and effective processes of management and human relations in administration.

**MGT 660 Industrial Relations**  
3 credits  
Prerequisite: MGT 561.  
An examination of government's role in the development of sound policies, principles, and practices of labor and industrial relations. The employment needs and goals of employees are examined to appraise policies, procedures, and programs utilized by management. Focus will be on changing patterns in the employment relationship, collective bargaining procedures, strikes, and impasse machinery. Interdependency of labor and industrial relations will be examined relative to other human resource activities.

**MGT 666 Leadership and Innovation in Complex Systems**  
3 credits  
Prerequisite: MGT 561.  
Leadership is presented from both a theoretical and practical point of view. Since there is no comprehensive theory of leadership, the major theories will be studied: trait theory, behavioral theory, contingency theory, and transformational leadership. Several topics are intertwined with leadership but will be studied as independent topics: power, motivation, and management style. Leadership has many practical aspects. Some of those that will be covered are: stress, dealing with corporate culture, and gender and race issues.

**MGT 770 Management of Technology**  
3 credits  
Prerequisite: OPR 573.  
Focuses on the technology-strategy relationship in technology-based corporations. Emphasis is placed on the role technology exerts on the growth and survival of a corporation in the market place. The relationship between innovation, new product development, and technology is examined. The impact of technology on the integration of product design, manufacturing, quality control, human resources, and environment is studied.

**MGT 791 Management Styles and Team Building**  
3 credits  
Prerequisite: MGT 561.  
Effective management of oneself and others requires an open mind and continual effort to develop and maintain meaningful understanding of major evolving theories. This course has been designed to provide a deeper understanding of the behavioral dimensions of management. Emphasis will be
placed upon developing a pragmatic grasp of the concepts, principles, and practices of participative management.

MARKETING

MKT 580 Marketing Management 3 credits
Deals with managerial strategies and decisions as they relate to the marketing function and includes such topics as product pricing, distribution channels and promotion policy. Attention is focused on concepts involved in the total marketing process including the role of consumer demographics, psychographics, product development, and research, as well as international marketing and the ethical and legal environment. Case studies will be utilized.

MKT 582 Creative Problem Solving 3 credits
Prerequisite: MKT 580.
The purpose of the course is to help develop in the student a general openness to experience from both without and within; a toleration for ambiguity, confusion, and disorder; the strong disposition to be independent rather than conforming; an ability to solve both simple and complex problems imaginatively; and a philosophy of creative living where the emphasis is on doing by effecting improved relationships or conditions in the life of man. Techniques such as synectics, brainstorming, lateral thinking, creative calisthenics, and imagineering will be explored.

MKT 680 Sales Promotion and Direct Marketing 3 credits
Prerequisite: MKT 580.
The course will expose students to the history as well as to the current status and future direction of direct marketing. Fields covered will include database marketing/management, telemarketing, list management, direct mail, and fulfillment, in addition to recent developments such as the Internet and interactive video.

MKT 780 Marketing Research 3 credits
Prerequisites: OPR 507, 670, and MKT 580.
Examines critically the skills and attitudes required to specify, amass, and utilize marketing information as a basic rationale for problem-solving in marketing management. Emphasis on the fields of knowledge that are making contributions to the understanding of marketing behavior; psychology, sociology, and cultural anthropology.

MKT 781 Sales Management 3 credits
Prerequisite or corequisite: MKT 580.
Focuses directly on the management of a sales force. Areas of study include key components such as strategic sales force management; organizing, staffing, and training a sales force; directing sales force operations; sales planning; and evaluating the sales force.

MKT 782 Advertising Management 3 credits
Prerequisite: MKT 580.
An analysis of the entire field of advertising in a managerial context. Examines principal areas of concern to the advertising executive who is responsible for the creation, implementation, and evaluation of advertising strategy. Topics include: formation of objectives in campaign planning, media planning, budgetary control, research, and the administration of the creative climate. The case method is used.

MKT 785 New Product Management 3 credits
Prerequisites: OPR 507, 670, and MKT 580.
New product development is studied as a continuous and planned activity within the firm requiring permanent organizational status. Subject matter includes the meaning, importance, and forms of new products, corporate objectives and planning for new products, organization of the new product activity, activities in each stage of new product development, and the process of new product adoption by consumer.

MKT 787 Consumer Behavior 3 credits
Prerequisite: MKT 580.
Reviews the basic tenets of behavior theory and demonstrates how it can yield increased understanding of consumer behavior. Theories of learning, motivation, perception, personality, and group processes are among those reviewed and applied to consumer behavior.

OPERATIONS

OPR 070 Tutorial in Mathematical Models 0 credits
Students who have insufficient background in mathematics should consider taking this course prior to OPR 507.
Oriented toward gradual development of each student’s quantitative skills. Topics include: factoring, algebraic fractions, simplification of algebraic expression, graphical concepts, solutions to simultaneous equations, and some word problem concepts.

OPR 501 Computer Applications 3 credits
Detailed introduction to concepts of business computing. Designed to provide business and non-business majors with the techniques and information necessary to use the computer as a problem solving tool. A fourth generation data base language is utilized. Focus is on the computer’s role in business—present and future.

OPR 507 Mathematics for Managers 3 credits
See OPR 070.
Designed to assist students in understanding the use of quantitative techniques and models in management decision making. Management interpretation is discussed for certain applications. Topics include elements of algebra; break-even model; linear programming; matrices; differential and integral calculus concepts; optimization applications; and introductory probability concepts.
OPR 573 Management Information Systems 3 credits
Prerequisites: OPR 501 and 507, OPR 670.
An introductory course on the graduate level of business-oriented computer applications and techniques. Designed to impart the concepts and constraints necessary for guiding, understanding and communicating with data processing personnel. System objectives, hardware, programming, feasibility, installation, planning, organization control, and evaluation review on a conceptual level. A simple system application will be developed and run on the computer.

OPR 670 Statistical Methods 3 credits
Prerequisites: OPR 501 and 507.
How to approach the solution of business problems by the use of statistical decision-theory. Problems translated into statistical terms. Among topics presented: identifying statistical population; specifying decision parameters; sample selection; mathematical probability; use of sampling data to measure probabilities of unknown population values; estimating and testing problems; data flow. Also to be considered: comparative experiments and their statistical design; analysis of variance; linear regression and correlation analysis theory; time series theory and applications; index number construction and use.

OPR 675 Total Quality Management 3 credits
Prerequisite: MGT 561.
Introduction to the philosophy and techniques of Total Quality Management (TQM). TQM is the systematic analysis of the performance and dysfunctions of an organization with the goal of improving quality, timeliness, and productivity. Topics include: making TQM a company-wide strategy in the administrative, marketing, and technical areas; Quality Function Deployment as a method of satisfying customers by translating their demands into design targets and quality assurance points; technical measurements of process quality, such as quality control charts; and managing human quality performance and employee involvement.

OPR 678 Best Practices, Operations, and Total Quality Management 3 credits
Prerequisites: OPR 501, 507, and 670, ACC 600.
Understand the best management practices from product design, production, distribution, and collection of funds, i.e; through the whole order to remittance chain. Apply best practice analysis to services, financial, and manufacturing sectors.

Note: Courses and descriptions are subject to change in any semester. Courses may be offered at either Garden City or Huntington.

**Professional Philosophy**

The School of Education has played an essential role in the preservice and in-service preparation of teachers and allied professionals both in suburban Long Island as well as in New York City. The School is organized into three major departments of Education Studies; Communication Sciences and Disorders; and Health Studies, Physical Education and Human Performance Sciences. These departments offer a wide range of programs leading to certification in elementary and secondary education, special education, TESOL and bilingual education, literacy, physical and health education, and speech and communication disorders. All programs include an integration of theory based understanding of the relevant teaching professions and clinical practice in a diversity of settings. In this regard the School has developed partnerships with school districts that provide experiential opportunities for the development of students’ professional practice as well as forging University-School partnerships that aid the educational mission of public and private schools and other educational and human service institutions.

**Important Information**

All of the graduate School of Education programs described on the following pages, with the exception of the M.S. in literacy, are in the process of undergoing New York State Department of Education review in order to meet new regulations governing teacher certification. As these new regulations will go into effect on February 1, 2004, students enrolled in the School of Education programs described in this *Bulletin* must complete all requirements and graduate no later than January 31, 2004, in order to avoid additional coursework. (The M.S. in literacy as described in this *Bulletin* was reviewed and accepted for re-registration.)
by the New York State Department of Education in spring 2000; students undertaking this degree program are exempt from the January 31, 2004, graduation deadline.)

**Department of Education Studies**

I. Department of Childhood and Adolescence Education
   - Master of Arts in Early Childhood and Elementary Education PreK-6: Precertification
   - Master of Arts in Elementary Teachers, Pre-K-6: In-Service
   - Master of Arts in Secondary Biology Education
   - Master of Arts in Secondary Chemistry Education
   - Master of Arts in Secondary English Education
   - Master of Arts in Secondary Mathematics Education
   - Master of Arts in Secondary Physics Education
   - Master of Arts in Secondary Social Studies Education

II. Department of Art Education
    - Master of Arts in Art Education

III. Department of Bilingual Education and ESL
    - Bilingual Education Extensions to Elementary, Secondary, and Special Education and Communication Sciences and Disorders
    - Master of Arts in TESOL (Teaching English to Speakers of Other Languages)

IV. Department of Special Education
    - Master of Science in Special Education for School-Age Learners
    - Master of Science in Special Education for School-Age Learners and Elementary Education

V. Department of Literacy
    - Master of Science in Literacy

VI. Department of Educational Leadership and Technology
    - Master of Arts in Educational Leadership and Technology
    - Certificate in Educational Leadership and Technology
    - Advanced Certificate in Educational Leadership and Technology

**Department of Health Studies, Physical Education and Human Performance Science**

I. Department of Health Studies
   - Master of Arts in Health Education
   - Master of Arts in Community Health Education
   - Advanced Certificate in Community Health Education

II. Department of Physical Education and Human Performance Science
    - Master of Arts in Physical Education Specializations:
        - Adapted Physical Education
        - Exercise Physiology
        - Sports Management

**Department of Communication Sciences and Disorders**

- Master of Science in Communication Disorders
  - Specialization in Speech/Language Pathology
  - Specialization in Audiology
- Master of Science in Deaf Studies
- Doctor of Arts in Communication Disorders
Education Studies

The Department of Education Studies is comprised of graduate teacher preparation programs in childhood and adolescent education, special education, literacy, TESOL, bilingual education and educational leadership and technology. All of these programs, with the exception of literacy and educational leadership and technology, have both precertification and in-service components. Students with undergraduate majors in a liberal arts or science should apply for admission into a precertification program. Students who hold a valid, unexpired New York State teaching certificate in one of the above areas should apply for admission into one of our in-service programs, including the M.S. in literacy.

The programs in the Department of Education Studies are registered with the New York State Department of Education to recommend provisional and permanent teacher certification in the certificate title for which the degree is awarded. All students should apply for certification through Adelphi University in the semester during which they plan to complete graduation requirements. The Educational Leadership and Technology program is registered with the New York State Department of Education to provide S.A.S. (School Administration and Supervision) certification for students enrolled in the Master’s and Certificate programs only. The 15-credit Advanced Certificate program requires S.A.S. Certification for admission.

Grading Policies

The following grading policies apply to all students enrolled in the department of education studies:

1. Students must maintain a B average. If a student receives a grade of C+ or less in a course, it must be counterbalanced with a grade of A. Upon receiving a grade of C+ or less, students will receive a letter of warning from the department chair.

2. Any student who receives a second C+ or less will be put on academic probation and blocked from further registration until receiving academic clearance from an advisor.

3. Any student who receives three grades of C+ or less during graduate work will be dismissed from the program.

4. Upon receiving a grade of C+ or less, students are responsible for notifying and arranging to meet with an advisor.
The Master of Arts in elementary education is divided into two distinct course sequences: an in-service program for students currently holding provisional certification in New York State, and a precertification program for students beginning their professional preparation. Upon application to the program, students’ records will be evaluated and they will be advised of their appropriate course of study.

Precertification Program
(36 credits for M.A. plus 6 additional credits for student teaching)

Students are expected to have completed, as part of their undergraduate work, Adelphi's New York State liberal arts certification requirements. These requirements are: a 36-credit liberal arts and sciences major; 6 credits in social sciences, 6 credits in English, 3 credits in mathematics, 3 credits in natural science, and one year in a language other than English.

Upon admission to the program, students will receive an evaluation of any deficiencies. Students with deficiencies must complete them prior to student teaching and application for New York State certification. It is the student's responsibility to send official transcripts for courses taken elsewhere to the School of Education, Office of Academic Services. All liberal arts undergraduate prerequisite courses must have been completed with grades of C or better to be credited toward certification.

Please note: The Department of Education Studies will not waive student teaching. All students in the precertification program must complete one of the clinical components described in this section in order to graduate.
Clinical Component for Working Teachers  
(6 credits taken concurrently)  
For students who are currently teaching full-time in an early childhood or elementary classroom, the degree requires the following 6 credits to total 36:

- EDU 544 Literal and Methods Practicum  
- EDU 532 Practicum in Early Childhood and Elementary Education

Certification Seminars (0 credits)  
- EDU 611 Child Abuse Seminar  
- EDU 614 Seminar Violence Prevention and Intervention  
- EDU 900 NYSTCE Review Course

In-Service Program (33 credits for M.A.)  
Required Core (12 credits)  
- EDU 601 The Historical, Social, and Moral Foundations of Education  
- EDU 621 Curriculum Development and Issues  
- EDU 780 Educational Research  
- EDU 800 Master’s Seminar in Special Education and Inclusive Settings

Area of Concentration  
(12–15 credits)  
With the approval of the chair, program director, and/or faculty advisor, students may choose from a combination of the following, but at least two courses must be taken in any one area.

- Bilingual Education
- Early Childhood Special Education
- Foundations of Education
- Health Studies
- Liberal Arts and Sciences
- Middle School Education
- Literacy
- Secondary Education
- Special Education
- TESOL

Education Electives (3–6 credits)

Liberal Arts Elective (3 credits)  
- EDU 552 The Philosophical Foundations of Education: Bridging Theory and Practice (if not taken in undergraduate program)

OR  
- Graduate course in College of Arts and Sciences

The M.A. in Secondary Education (Precertification and In-Service)  

The Secondary Education Program is designed for both provisionally certified secondary teachers and liberal arts graduates seeking certification in the following areas: English, social studies, biology, chemistry, physics, and mathematics. The Master of Arts in secondary education program is divided into two distinct course sequences: an in-service program for students currently holding provisional certification in New York State, and a precertification program for students beginning their professional preparation.

Upon application to the program, students’ records will be evaluated and they will be advised of their appropriate course of study.

Precertification Program  
(36 credits for M.A. plus 6 credits—student teaching)  
Students are expected to have completed, as part of their undergraduate work, all subject area requirements in the field they wish to teach. These requirements are: biology (36 credits); chemistry (36 credits); English (36 credits in English); mathematics (36 credits in mathematics, excluding computer science, including two courses in calculus); physics (36 credits);
social studies (36 credits in the social sciences, excluding psychology, with at least 15 credits in history, including two courses in U.S. history and two courses in Western civilization); and one year of a language other than English. Precertification students must have a B or better average in their subject for admission into this program.

Upon admission to the program, students will receive an evaluation of any deficiencies. Students with deficiencies must complete them prior to student teaching and application for New York State certification. It is the student’s responsibility to send official transcripts for courses taken elsewhere to the School of Education, Office of Academic Services.

Please note: The Department of Education Studies will not waive student teaching. All students in the precertification program must complete one of the clinical components described in this section to graduate.

**The M.A. in Art Education**
Diane M. Caracciolo, *Program Director*

Artistic activity is a psychologically integrating experience that naturally calls forth self-direction, learning through the senses and multidimensional ways of knowing. The special mission of art education is to support the development of perceptual sensitivity and depth of expression within a cultural and educational context that is too often disconnected from both the outer world of the senses and the hidden world of imagination and inspiration. The goal of the Adelphi program in art education is to develop art educators who can understand artistic development across the life span and the relationship of the sensory and kinesthetic domains to art-making, awaken and support the exploration of ideas, feelings, and experiences through developmentally sensitive means and materials, appreciate the role the arts can play in opening cross cultural understandings, and maintain a lively commitment to their own artistic practice.

**Program of Study**
(36–42 credits)

**Foundations** (15 credits)
EAR 525 The Historical and Philosophical Foundations of Art Education
EDU 603 Adolescent Psychology
EDU 607 Cognition and Teaching
EDU 780 Educational Research
EDU 670 Special Education: Current Interpretations and Historical Origins

**Pedagogy** (6 credits)
ELY 602 The Reading Writing Connection
ELY 545 Children’s Literature

*OR*
EAR 510 Instruction and Assessment in the Visual Arts

**Graduate Courses in Art** (12 credits)
Select from:
ART 709, 710 Printmaking
ART 711, 712 Sculpture
ART 713, 714 Painting
ART 723, 724 Ceramics

*Courses in this strand may also be chosen from graduate special topics workshops in the summer.*

**Student Teaching** (3–9 credits)
Students will be placed in one of the following courses:
EAR 540 Student Teaching in Art Education (6 credits)
EDU 530 Reflective Practice Seminar in Secondary Education and Special Fields

*OR*
EDU 535 Practicum in Secondary Education and Special Fields (3 credits)

(For working teachers. Students placed in this course may graduate with 36 credits.)
Required Seminars (0 credits)
EDU 611 Child Abuse Seminar
EDU 614 Seminar in Violence and Intervention
EDU 900 NYSTCE Review Course

Note: The Department of Education Studies will not waive the student teaching requirement. All students must complete a student teaching semester in order to graduate.

The M.A. in TESOL
(Teaching English to Speakers of Other Languages)

Eva Roca, Program Director

The 33–36 credit Master of Arts in TESOL is divided into two programs: an in-service program for students currently holding provisional New York State certification, and a precertification program for students beginning their professional preparation. All precertification students must complete a 12-credit core of professional education prerequisite courses, unless these are waived by approved undergraduate equivalents.

Upon admission to the TESOL program, students will receive an evaluation reflecting any deficiencies in the liberal arts and sciences. Students with deficiencies will be advised to fulfill them prior to student teaching and application for New York State certification. The student must submit to the Records Secretary copies of official transcripts of courses registered elsewhere. Specific testing requirements for this certificate are available in the NYSTCE test booklet found in the School of Education offices. Please refer to the certification section of this bulletin for additional program requirements.

Overview of the Program: In-Service
(33–36 credits for M.A.)

Required Courses
ESL Professional Core (15 credits)
EDU 543 TESOL I: Developing the Language Arts Skills
EDU 642 Foundations of Bilingual Education: Theory and Practice
EDU 644 ESL in the Content Areas
EDU 720 Evaluation and Testing in ESL and Bilingual Education
EDU 721 Theories of Second Language Acquisition

Related Courses (9 credits)
ANT 514 Language and Culture
ENG 629 History of the English Language
LIN 601 Structural Linguistics or any other Linguistics course
OR
SPH 602 Speech and Language Development

Education Requirements (6 credits)
EDU 601 The Historical, Social, and Moral Foundations of Education
EDU 780 Educational Research

Clinical Component (3–6 credits)
EDU 700 Practicum in TESOL (3 credits)
OR
EDU 719 Supervised Student Teaching and Seminar in TESOL (3 credits)
OR
EDU 722 Supervised Student Teaching and Seminar in TESOL (6 credits)

Required Seminars (0 credits)
EDU 611 Child Abuse Seminar
EDU 614 Seminar in Violence and Intervention
EDU 900 NYSTCE Review Course

Note: The Department of Education Studies will not waive the student teaching requirement. All students must complete a student teaching semester in order to graduate.

Overview of the Program: Precertification
(33–36 credits with 12 credits prerequisite)

Students in this program must complete the entire in-service program cited above in addition to the following four prerequisite courses:

EDU 607 Cognition and Teaching
EDU 626 Integrated Science, Math, and Technology I, N–6
EDU 627 Reading and Literacy N–6
EDU 629 Social Studies, Literature, and the Arts N–6

Recommended Electives
These courses may serve as substitutes for anyone who has previously completed any of the required courses at the undergraduate or graduate level.

EDU 627 Reading and Literacy N–6
EDU 670 Special Education: Current Interpretations and Historical Origins
EDU 698 Understanding Elementary School Children with Learning and Behavior Problems
EDU 776 Introduction to Whole Language Philosophy: Theory into Action
EDU 779 Methodology: Strategies for Whole Language Teaching
ANT 635 Cultural Anthropology

The M.S. in Educational Leadership and Technology

Patricia Marcellino, Program Chair

The Educational Leadership and Technology program is offered by the School of Education, in cooperation with the School of Business, and the College of Arts and Sciences at both Adelphi University's main campus in Garden City and the Manhattan Center in SoHo. This program is designed specifically for individuals who are seeking entrance into leadership positions in schools such as department chairperson, assistant principal, principal, or supervisor. Its central focus is to bring a multidisciplinary perspective to the atmosphere of educational reform prompted by the establishment of standards-based policies and practices and the accelerated importance of educational technology. Through a combination of theoretical and field-based study, students will gain greater knowledge and proficiency in the management of school personnel and in the role technology plays at every level of educational practice.

Students may choose from three program options:

- A 36-credit Master of Arts degree program. Completion of the degree fulfills the programmatic requirements for the New York State School Administrator/Supervisor (S.A.S.) Certificate.
- A 30-credit Certificate track necessary for New York State Certification in School Administration/Supervision.
- A 15-credit Advanced Certificate, intended for educational leaders who already have a Master's degree and S.A.S. Certification and are seeking to gain additional knowledge and proficiency in the functions and uses of technology within school settings, as well as the implications for school administrators and supervisors. This track alone does not lead to S.A.S. certification.
Note: Documentation of a minimum of three years full-time work as a teacher or other professional in a K-12 setting is required for admission.

Master’s Degree Educational Leadership and Technology
(36 credits)
Sequence of Courses:

Program of Study
Foundations Courses
(18 credits)
- Ethics and Technology 3 credits
- Educational Policy 3 credits
- Management Theory and Organizational Behavior 3 credits
- Computer Based Technologies in Education 3 credits
- Financial Accounting 3 credits
- Technology, Pedagogy and School Reform 3 credits

Field Based and Applied Courses
(18 credits)
- School Leadership 3 credits
- Research and Evaluation in Schools 3 credits
- Technology and School Administration (with practicum) 3 credits
- Supervision in the Schools (with practicum) 4 credits
- Administrative Internship 5 credits

Certificate in Educational Leadership and Technology
(30 credits)
Prerequisite: Requires a Master’s degree for entry.
Sequence of Courses:
- Ethics and Technology 3 credits
- School Leadership 3 credits
- Computer Based Technologies in Education 3 credits
- Educational Policy 3 credits
- Research and Evaluation in Schools 3 credits

Advanced Certificate in Educational Leadership and Technology
(15 credits) (S.A.S. Certification required)
Sequence of Courses:
- Ethics and Technology 3 credits
- Computer Based Technologies in Education 3 credits
- School Leadership 3 credits
- Technology, Pedagogy, and School Reform 3 credits
- Technology in School Administration (with practicum) 3 credits

The M.S. in Bilingual Education

Eva Roca, Program Director

In order to enroll in the 33-credit Master of Science program in bilingual education, students must already hold a provisional New York State certificate in elementary education, special education, or one of the following secondary content areas: biology, Spanish, English, mathematics, physics, chemistry, social studies.

This program consists of 24 credits in bilingual education. In addition, students must choose 9 credits in the professional and clinical components of the base certificate area. All majors will need to complete the required bilingual clinical practice experience.

Specific testing requirements for the bilingual extension are available in the NYSTCE test booklet found in the School of Education offices. Please refer to the certification.
section of this bulletin for additional program requirements.

**Overview of the Program**

(33 credits for M.S. program)

**Bilingual Education Component for Childhood, Adolescent, or Special Education Teachers** (24 credits)

- EDU 543 TESOL I: Developing the Language Arts Skills
- EDU 641 Methods and Materials in Bilingual Education
- EDU 642 Foundations of Bilingual Education: Theory and Practice
- EDU 643 Methods and Materials of Teaching Reading and the Language Arts in the Bilingual Classroom
- EDU 720 Evaluation and Testing in ESL and Bilingual Education
- ANT 514 Language and Culture
- SPA 531 Caribbean Culture and Civilization
- LIN 601 Structural Linguistics
- OR
- SPH 602 Speech and Language Development

**Childhood Education: Professional Education Component**

(6 credits)

- EDU 601 The Historical, Social, and Moral Foundations of Education
- EDU 780 Educational Research

**Clinical Component** (3 credits)

- EDU 505 Bilingual Elementary Education Practicum
- OR
- EDU 527 Bilingual Elementary Education Student Teaching

**Adolescent Education:**

**Professional Education Component**

(6 credits)

- EDU 635 Secondary School Reform: Problems and Prospects
- EDU 780 Educational Research

**Clinical Component** (3 credits)

- EDU 507 Bilingual Secondary Education Practicum
- OR
- EDU 528 Bilingual Secondary Education Student Teaching

**Special Education:**

**Professional Education Component**

(6 credits)

- EDU 780 Educational Research
- EDU 800 Master’s Seminar in Special Education and Inclusive Settings

**Clinical Component** (3 credits)

- EDU 509 Bilingual Special Education Practicum
- OR
- EDU 529 Bilingual Special Education Student Teaching

**Bilingual Extension Programs for Noncertified Students in Elementary, Secondary, and Special Education**

**Elementary Education**

**Precertification** (51–54 credits)

Students at the beginning of their professional training in elementary education should enroll in the precertification M.A. program. Specific testing requirements for the bilingual extensions in elementary, secondary, and special education are available in the NYSTCE test booklet found in the School of Education offices. Please refer to the certification section of this bulletin for additional program requirements.
**Foundation Core** (12 credits)
- EDU 601 The Historical, Social, and Moral Foundations of Education
- EDU 607 Cognition and Teaching
- EDU 670 Special Education: Current Interpretations and Historical Origins
- EDU 780 Educational Research

**Curriculum and Methods Core** (12 credits)
- EDU 626 Integrated Science, Math, and Technology I, N–6
- EDU 627 Reading and Literacy N–6
- EDU 628 Integrated Science, Math, and Technology II, N–6
- EDU 629 Social Studies, Literature, and the Arts N–6

**Bilingual Education Extension for Elementary Education Majors** (24 credits)
- EDU 543 TESOL I: Developing the Language Arts Skills
- EDU 641 Methods and Materials in Bilingual Education
- EDU 642 Foundations of Bilingual Education: Theory and Practice
- EDU 643 Methods and Materials of Teaching Reading and the Language Arts in the Bilingual Classroom
- EDU 720 Evaluation and Testing in ESL and Bilingual Education
- ANT 514 Language and Culture
- SPA 531 Caribbean Culture and Civilization
- LIN 601 Structural Linguistics
- OR
- SPH 602 Speech and Language Development

**Clinical Component** (3 or 6 credits)
- EDU 505 Bilingual Elementary Education Practicum

**OR**
- EDU 735 Elementary Education Student Teaching in a Bilingual Setting

**In-Service** (33–36 credits)
Students currently holding provisional certification in New York State should enroll in the in-service M.A. program, which is revised for the student seeking the bilingual extension as follows:

**Secondary Education – Bilingual Extension**
Students at the beginning of their professional training in secondary education should enroll in the precertification M.A. degree in the secondary area of specialization (biology, Spanish, English, mathematics, physics, chemistry and social studies). In order to qualify for the 15-credit bilingual extension, the student must complete requirements for secondary certification. Only 9 of the 15 credits may be applied towards the precertification M.A. in secondary education. In-service M.A. degree applicants may complete the 15-credit certificate in its entirety since the extension may be considered as an area of concentration.

**Bilingual Education Extension Requirements for Secondary Education Majors** (15 credits)
- EDU 543 TESOL I: Developing the Language Arts Skills
- EDU 641 Methods and Materials in Bilingual Education
- EDU 642 Foundations of Bilingual Education: Theory and Practice
- EDU 643 Methods and Materials of Teaching Reading and the Language Arts in the Bilingual Classroom
- SPA 531 Caribbean Culture and Civilization
Clinical Component (3–6 credits)
EDU 507 Bilingual Secondary Education Practicum (3 credits)

OR
EDU 528 Bilingual Secondary Education Student Teaching (3 credits)

OR
EDU 736 Bilingual Secondary Education Student Teaching (6 credits)

Special Education – Bilingual Extension
Bilingual students at the beginning of their professional training in special education should enroll in the M.S. in Special Education for School Age Learners with a concentration in bilingual education. In order to qualify for the bilingual extension, the student must complete certification in special education and follow the 15-credit course sequence outlined below:

Bilingual Education Extension for Special Education Majors (15 credits)
EDU 543 TESOL I: Developing the Language Arts Skills
EDU 641 Methods and Materials in Bilingual Education
EDU 642 Foundations of Bilingual Education: Theory and Practice
EDU 643 Methods and Materials of Teaching Reading and Language Arts in the Bilingual Classroom
SPA 531 Caribbean Culture and Civilization

Clinical Component (3 or 6 credits)
EDU 509 Bilingual Special Education Practicum (3 credits)

OR
EDU 529 Bilingual Special Education Student Teaching (3 credits)

OR
EDU 728 Bilingual Special Education Student Teaching (6 credits)

Advanced Certification Extension Programs in Bilingual Education

Bilingual Teacher of the Speech and Hearing Handicapped

Susan Lederer, Coordinator

Advanced Bilingual Extension for Teachers of the Speech and Hearing Handicapped
The 15-credit Advanced Certificate in speech-language pathology leads to the bilingual extension to the Teacher of the Speech and Hearing Handicapped (TSHH) certification. It is intended for bilingual master’s degree students in speech-language pathology and practicing professionals. Individuals who do not already hold TSHH certification must complete the requirements for both TSHH and the Bilingual Extension simultaneously. Candidates will be required to pass the language proficiency assessments in both English (ELPA) and the target language (TLPA) of the New York State Teacher Certification Examination.

Bilingual Education Extension
Core Requirements: (12 credits)
EDU 543 TESOL I: Developing Language Arts Skills
EDU 641 Methods and Materials in Bilingual Education
EDU 642 Foundations of Bilingual Education: Theory and Practice
SPH 675 Clinical Practicum in Bilingual Speech-Language Pathology

**The M.S. Program in Literacy**

Carole S. Rhodes, *Program Chair*

**The M.S. in Literacy**  
(36 credits)

This program is designed to offer an integrated, theoretically grounded view of literacy and literacy learning that addresses the needs of students and teachers in diverse communities. To this end we aim to facilitate rigorous scholarship and research; contextualized learning and service in school and community settings; and opportunities for critical reflection on the role of literacy in society and our responsibilities as educators. This program is designed to enhance the professional preparation of classroom teachers as literacy specialists and to prepare them for leadership roles as campus or school district literacy program coordinators or directors. Completion of the coursework will lead to New York State certification as Literacy Specialist (currently titled “Reading Teacher”).

This program is designed to enhance the professional preparation of classroom teachers, interventional literacy teachers, clinicians, supervisors, and directors or coordinators of literacy in school districts. Those students completing the program of study will be recommended for certification as a literacy specialist (currently titled “Reading Teacher,” K-12).

Students who complete the current program and graduate by January 2004 will be under the current New York State regulations. Admission to this program requires prior NYS teaching certification.

**The Center for Literacy and Learning**

Carole S. Rhodes, *Director*

The Center for Literacy and Learning provides an important practicum component for graduate students enrolled in the literacy programs. Under the supervision of our faculty, students have the opportunity to strengthen their ability to assess and address the literacy needs of children. All graduate students must complete two semesters of practicum in the Literacy Center in order to qualify for New York State Certification in Literacy. Practicum courses may not be waived. Garden City students must take their practicum courses at the Center for Literacy and Learning on the Garden City campus.
Specific Requirements for All Majors in Literacy:

Core Sequence (24 credits)
ELY 600 Literacy and Research: Inquiry I
(This course should be taken as the first course in the core sequence)
ELY 602 The Reading Writing Connection
ELY 603 Literacy in the Middle and Secondary Schools
ELY 750 Assessing and Addressing Literacy Needs I
(Prerequisites: ELY 600, ELY 602, ELY 603)
ELY 751 Assessing and Addressing Literacy Needs II
(Prerequisite: ELY 750)
ELY 753* Practicum in Literacy I
(Prerequisite: ELY 751)
ELY 754* Practicum in Literacy II
(Prerequisite: ELY 753)
ELY 810 Literacy and Research: Inquiry II
(Students must have completed a minimum of 24 credits prior to registration for this course)

*Advanced application and permission of the program chair is required.

Directed Electives (6 credits)
ELY 521 Literature for Young Adults
OR
ELY 545 Children’s Literature
AND
ELY 653 Language, Literacy and Culture
OR
SPH 602 Principles of Language Development

Free Electives (6 credits)
May be taken from other education studies departments.

Note: Students enrolled in the Master of Science in Literacy prior to fall 2000 should substitute the appropriate courses in the above curriculum. Please speak to an advisor. There will be no additional credit requirements for graduation incurred if students in the former program graduate prior to February 2, 2004.

Master of Science Programs in Special Education

Alan Cohen, Program Chair

Special education is a dynamic field dedicated to the realization of human potential. It is the mission of the special education programs to facilitate the development of values, attitudes, and professional knowledge required of educators who work proactively to induce change, as well as reactively in response to emerging social needs and educational issues.

Two master’s degree programs in special education are offered. The M.S. in Special Education for School Age Learners leads to New York State certification in special education. This program has a precertification track for students holding a bachelor’s degree in an area other than elementary and/or special education and an in-service track for those students already provisionally or permanently certified in one of these areas. In addition, this master’s programs offer the opportunity for interested students to work toward the New York State Bilingual Education Extension to Special Education. (See the Bilingual Education section in this Bulletin for further information.)

The second M.S. program leads to dual certification in special education and elementary education. These programs are open to students possessing a bachelor’s degree in an area other than education. Prior course work must be analyzed to determine any need for prerequisite study in the liberal arts.

Important Note: These programs are currently under review by the State Department of
Education. The program of study published here must be completed in its entirety no later than January 31, 2004 in order to achieve certification in K-12 special education.

The M.S. in Special Education for School Age Learners—Precertification and In-Service Programs
(33–36 credits, excluding prerequisite courses)

Before degree candidacy may be declared, holders of an undergraduate degree in an area other than elementary education must enroll in the following five courses, if they have not been part of earlier education:

- EDU 601 The Historical, Social, and Moral Foundations of Education
- OR
- EDU 642 Foundations of Bilingual Education: Theory and Practice
- EDU 607 Cognition and Teaching
- EDU 626 Integrated Science, Math, and Technology I N–6
- EDU 627 Reading and Literacy N–6
- OR
- EDU 643 Methods and Materials of Teaching Reading and Language Arts in the Bilingual Classroom
- EDU 900 NYSTCE Review Course (0 credits)

In-service students (those holding provisional certification in a teaching field) are not required to take the above prerequisite courses, and begin with the following special education core:

**Required Special Education Core**
(24 credits)

- EDU 670 Special Education: Current Interpretations and Historical Origins
- EDU 698 Understanding Elementary School Children with Learning and Behavior Problems

Additional Requirements (6 credits)

- EDU 780 Educational Research
- SPH 602 Speech and Language Development
- EDU 611 Child Abuse Seminar (0 credits)
- EDU 614 Seminar in Violence Prevention and Intervention

Clinical Component (3–6 credits, see advisor)

- EDU 732 Student Teaching in Special Education
- OR
- EDU 734 Practicum in Special Education
- OR
- EDU 733 Student Teaching: Special Methods and Practice in Elementary Education and Special Education (6 credits)

The M.S. in Special Education for School Age Learners and Childhood Education—Dual Certification (51 credits)

This program is offered to students who wish to become certified in both special education and elementary pre-K–6 education. Although no
previous course work in education is required, students are expected to have completed, as part of their undergraduate work, Adelphi’s New York State liberal arts certification requirements. These requirements are a 36-credit liberal arts and sciences major; 6 credits in social sciences; 6 credits in English, 3 credits in mathematics, 3 credits in natural science, and one year in a language other than English.

Upon admission to the program, students will receive an evaluation of any deficiencies. Students with deficiencies must complete them prior to student teaching and application for New York State certification. It is the student’s responsibility to send official transcripts for courses taken elsewhere to the School of Education, Records Secretary. All liberal arts undergraduate prerequisite courses must have been completed with grades of C or better to be credited toward certification.

### Health Studies, Physical Education and Human Performance Science

Ronald S. Feingold, Chair

### Philosophy
Health education, physical education, and human performance science are disciplines or programs of study that relate to individuals at every stage of life: pre-school, children, adults,
and the aging. The impact of health education, physical education, and human performance science on individuals can be significant and critical to many of the current issues facing society. For example, health education, physical education, and sport can provide stability in the face of the breakdown of the traditional family unit and the number of at-risk-youths. Furthermore, health, fitness, and nutrition education continue to be of major importance to society given the need to develop a healthful lifestyle that will enhance the quality of life and reduce soaring medical costs.

In light of the diversity of aims and applications that characterize today’s health and physical education programs, the department has recently committed its resources to the development of programs with multidisciplinary perspectives. The department prepares professionals to work with many different populations such as pre-schoolers, the adolescent, the adult, the elderly, the differently-abled, the athlete, and the injured. Instead of the specialist teaching only about sport skills and specific health-related knowledge, we envision the health and physical education professional teaching about “lifestyle,” including areas related to wellness, physical activity, nutrition, stress reduction, personal living skills, multicultural awareness, cooperation, and sharing through games, dance, sport, physical activities, and discussion. While the schools are an essential site for this education, the development of departmental goals and objectives requires the interaction of professionals beyond the school setting, including the home, community, and work-site. Corporate fitness, and wellness centers, recreation, park and community centers, YM/YWCA, hospitals, senior citizen centers, and retirement homes are but a few of the settings where reinforcement and development of goals may be established.

Students with a Baccalaureate in Disciplines Other Than Health Studies and Physical Education

Although the baccalaureate in health studies or physical education is recommended for admission to candidacy, it is not required. When candidates have a deficiency in their academic background, they may be required to complete additional courses.

Twelve credits in professional education courses plus supervised student teaching (or one year of teaching experience) are also required if a candidate desires New York State teacher certification. See GATE programs below.

The M.A. in Health: Teacher “K–12” (36 credits)
Candidates for the Master of Arts in school health education should have an undergraduate background in health or health-related areas. Where deficient in the following areas, candidates are required to complete course work in addition to the requirements of the graduate program: human biology (anatomy and physiology), human growth and development (child or adolescent psychology), and health-related courses.

Graduate Alternative Teacher Education (GATE) Program (57–60 credits)
(M.A. in health education for students without initial certification.)

GATE provides an alternative track for both initial and professional certification. Students without prior certification in health education may enter the Master of Arts program in health education. In such cases, prior course work and experience will be evaluated with respect to its comparability with required course work. Where there are weaknesses additional course work may be necessary. (Note that the required courses were selected with regard to the implementation of the New York State Standards. If students have strengths or course work that are
Specialization Core: Health Education Content (39–42 credits)

Corequisites
HED 501  Dynamics of Substance Abuse
HED 505  Multidimensional Aspects of Stress
HED 506  Health and Nutrition
HED 571  Health Issues for Elementary Teachers
HED 601  Contemporary Health Issues
HED 604  Aspects of Human Sexuality
BIO xxx  Anatomy/Physiology

Required Content
HED 603  Mind/Body Dimensions in Health
HED 607  Health Promotion for Youth
HED 621  Teaching Human Sexuality
HED 650  Health and Cultural Diversity
HED 701  Substance Abuse Prevention
HED 702  Intervention Techniques
HED 703  Dynamics of Teaching Health
HED 626  Field Work (1 credit)
HED 627  Project Seminar (2 credits)

Education Foundations (18 credits including HED 703)
HED 703  Dynamics of Teaching Health
EDU 601  Education and Society
EDU 780  Education Research
OR
HED 602  Research and Technology in Health Education
EDU 607  Cognition and Teaching
HED 538  Student Teaching in Health Education

Special Workshops and Seminars (non-credit)

Fees are required for each non-credit workshop/seminar. Workshops and seminars include: Project Adventure (ropes course); Child Abuse; Violence Prevention; and Anatomy/Physiology.

Note 1: Evaluation of and credit for comparable course work may reduce certification credits needed; however, M.A. degree requires a minimum of 36 credits in 500 level courses and above. Student teaching (EDU 530) does not count towards the M.A. degree.

Note 2: Field Experience Requisite — Students who do not have appropriate prior experience working with children based contexts will be required to do so during the first year of the program. These experiences will be selected and scheduled through close advisement with the students’ advisor and the Coordinator of the Teacher Preparation Program.

Note 3: Some courses in the program may be taken for non-credit with permission.

The M.A. in Health Education (36 credits)
(For students who already have initial teacher certification in health education.)

Required Courses (27 credits)
HED 603  Mind/Body Dimensions in Health
HED 607  Health Promotion for Youth
HED 621  Teaching Human Sexuality
HED 650  Health and Cultural Diversity
HED 701  Substance Abuse Prevention
HED 702  Intervention Techniques
HED 703  Dynamics of Teaching Health Education
HED 626  Field Work (1)
HED 627  Project Seminar (2)

Electives in Health Education or Other Fields (9 credits)
HED 504  Comprehensive Health Education for Secondary Students
HED 505  Multidimensional Aspects of Stress
HED 506  Health and Nutrition
PED 508  Technology in Health and Physical Education
HED 520  Special Topics in Health Education
The M.A. in Community Health Education (37 credits)
(Does not lead to initial certification)

The Master of Arts in community health education is a 37-credit program designed to prepare community health education specialists.

This program prepares students to meet the expanding need for health education professionals capable of working with the community in a variety of public, private, and professional settings.

Course Requirements for the Community Health Education Program*
Core Courses (12 credits)
(Prerequisites for community health courses)
HED 601 Contemporary Health Issues
HED 603 Mind/Body Dimensions in Health
HED 605 Issues in Community Health
EDU 780 Educational Research
or
HED 602 Health Research

Community Health Courses (16 credits)
HED 650 Health and Cultural Diversity
HED 654 Mass Communication in Health
HED 703 Dynamics of Teaching Health
HED 750 Community Health Education: Planning and Implementation
HED 751 Fieldwork Internship in Community Health Education

Electives (Health or Health Related) (9 credits)

General Electives in Health
HED 505 Multidimensional Aspects of Stress
HED 506 Health and Nutrition
HED 520 Special Topics
HED 620 Special Topics in Health Education
HED 621 Teaching Human Sexuality
HED 653 Environment and Health

* Certain courses may be waived at the department’s discretion and replaced by electives approved by the department.

Advanced Certificate Program in Community Health Education (19–28 credits)

This advanced certificate program is designed to give students who have already attained a master’s degree in health studies or related fields the opportunity to specialize in community health education.

Entrance Requirements
Completion of a master’s degree in health education or related field.

Required Courses (19 credits)
HED 605 Issues in Community Health
HED 650 Health and Cultural Diversity
HED 654 Mass Communication in Health

Note: Required and elective courses listed above are for students seeking professional certification in health education. Students will be reviewed as to their experience and course work. Where they have a comparable course at the undergraduate level, they will be waived from that requirement and allowed to take additional electives at the advanced level in health education or in related fields, such as community health, exercise science, nutrition, environmental health, or physical education.
HED 703  Dynamics of Teaching Health  PED 550  Special Workshop—Adapted
HED 750  Community Health  PED 550  Special Workshop—Exercise
Education: Planning and  Science
Implementation
HED 751  Fieldwork Internship in  PED 550  Special Workshop—Teaching
Community Health Education  Special Workshop—Sports
Management
PED 550  Leadership Development
(Meets violence prevention
requirement)

**Elective Courses** (9 credits)

Pertinent to the area of community health
education.

The number of credits required in the certifi-
cate program is 28; however, a student may be
exempted from up to 9 credits, depending on
previous graduate experience.

**The Master of Arts in Physical
Education**

*Professional certification for students who
already have initial teacher certification in physi-
cal education.*

(33–36 credits, of which 21 credits must be in
physical education.)

**Required Courses:** (18 credits)

PED 508  Technology in Health and
Physical Education  PED 620  Clinical Aspects of Work
PED 641  Social Foundations in
Physical Education  PED 621  Lab Investigations in Work
PED 650  Research and Design  PED 623  Adult Fitness Programming
PED 652  Curriculum Analysis  PED 624  Nutrition and Physical
PED 653  Motor Learning  Activity
PED 656  Teaching Analysis  PED 625  Medical Aspects of Sport
PED 626  Theory of Prescribed Activity
PED 628  Cardiac Rehabilitation
PED 630  Psychology of Sport
PED 632  Sports Management
PED 636  Athletic Administration
PED 637  Organization and
Administration in Physical
Education
PED 660  Sport in American Culture
PED 641  Social Foundations in
Physical Education
PED 643  Movement Experience for the
Elementary School Child
PED 652  Curriculum Analysis
PED 658  Neuromuscular Human
Performance
PED 670  Physical Education for the
Mentally Retarded
PED 671  Physical Education for the
Exceptional Child
PED 672  Foundations of Physical
Education/Physically
Handicapped
PED 673  Evaluation/Special Physical
Education
PED 676  Physical Education for the
Physically Handicapped
PED 680  Advanced Topics in Physical Education
PED 792  Internship (1–3 credits)
PED 794-795  Field Work: Physical Education /Mentally Retarded
PED 796-797  Field Work: Physical Education /Physically Handicapped
PED 799  Advanced Practicum

PED 626  Theory of Exercise Prescription
PED 628  Cardiac Rehabilitation
PED 658  Neuromuscular Aspects

Recommended Departmental Electives in Adapted Physical Education

PED 670  Physical Education for the Mentally Handicapped
PED 671  Physical Education for the Exceptional Child
PED 672  Foundations of Physical Education/Physically Handicapped
PED 673  Evaluation/Special Physical Education
PED 676  Physical Education for the Physically Handicapped
PED 680  Motor Development
PED 658  Neuromuscular Aspects

Recommended Departmental Electives in Elementary Physical Education

PED 643  Movement Experience /Elementary School Child
PED 680  Innovative Activities for Elementary School
PED 509  Health Related Fitness Education
PED 680  Pre-school Physical Education

Recommended Departmental Electives in Sports Management

PED 630  Psychology of Sport
PED 632  Sports Management
PED 636  Athletic Administration
PED 637  Organization and Administration in Physical Education
PED 638  Sport in American Culture
PED 639  Sports Law
PED 680  Computer Applications
PED 680  Sport Marketing
PED 680  Sport and Media
LES 670  Facilities Management

Recommended Departmental Electives in Adapted Physical Education

PED 670  Physical Education for the Mentally Handicapped
PED 671  Physical Education for the Exceptional Child
PED 672  Foundations of Physical Education/Physically Handicapped
PED 673  Evaluation/Special Physical Education
PED 676  Physical Education for the Physically Handicapped
PED 680  Motor Development
PED 658  Neuromuscular Aspects

Recommended Departmental Electives in Exercise-Physiology/Sports Medicine

PED 618-9  Advanced Exercise Physiology
PED 620  Clinical Aspects Work Physiology
PED 621  Lab Investigations
PED 623  Adult Fitness Program
PED 624  Nutrition & Activity
PED 625  Medical Aspects/Sport

Recommended Departmental in Electives Coaching

PED 500  Organization and Principles of Coaching
PED 501  Scientific Foundations of Coaching
PED 502  Care and Prevention/Injuries

Please note that the required and elective courses listed above are for students seeking professional certification in physical education. Each student will be reviewed as to his or her experience and course work. Where they have a comparable course at the undergraduate level, they will be waived from that requirement and allowed to take additional electives at the advanced level in physical education or in related fields, such as exercise science, sport management, adapted physical education, or health education.
| PED 624 | Nutrition and Physical Activity |
| PED 638 | Sport in American Culture |
| PED 639 | Sports Law |
| PED 630 | Psychology of Sport |

**Graduate Alternative Teacher Education (GATE) Program**

(66 credits)

(M.A. in physical education for students without initial teacher certification.)

GATE provides an alternative track for both initial and professional certification. Students without prior certification in health education may enter the program. Their prior course work and experiences will be evaluated in regard to comparability. Where there are weaknesses additional course work may be necessary. *(Note that the required courses were selected with regard to the implementation of the New York State Standards. If students have strengths or course work that are not listed in the corequisite category, substitutions may be made.)*

**Specialization Core: Physical Education Content**

(51 credits)

(48 credits PED-Specialized; 3 credits for PED 656 counted as EDU)

| PED 461 | Kinesiology |
| PED 463 | Physiology of Exercise |
| PED 495 | Foundations and Technique/ Tumbling/Gym |
| PED 495 | Foundations and Techniques/ Sports I |
| PED 495 | Foundations and Techniques/ Sports II |
| PED 495 | Foundations and Techniques/ Rhythms and Dance |
| PED 505 | Professional Seminar |
| PED 508 | Technology in Health and Physical Education |
| PED 509 | Health Related Fitness Education |
| PED 641 | Social Foundations in Physical Education |
| PED 643 | Movement Experience for the Elementary School Child |
| PED 650 | Research & Design |
| PED 652 | Curriculum Analysis |
| PED 653 | Motor Learning |
| PED 656 | Teaching Analysis (counts as EDU credit for NYS) |
| PED 671 | Physical Education for the Exceptional Child |
| PED 792 | Internship in Physical Education |

**Education Foundations**

(18 credits including PED 656)

| EDU 516 | Curriculum and Methods of Instruction |
| EDU 601 | Historical, Social and Moral Foundations of Education |
| EDU 607 | Cognition and Teaching |
| PED 536 | Student Teaching and Seminar (6 credits) |

**Special Workshops and Seminars**

(non-credit)

Fees are required for each non-credit workshop/seminar. Workshops and seminars include: Project Adventure (ropes course); Child Abuse; Violence Prevention; and Anatomy/Physiology.

**Note 1:** First Aid and CPR or PED 467 is required prior to EDU 516, PED 792 and/or EDU 536.

**Note 2:** Evaluation of and credit for comparable course work may reduce certification credits needed; however, the M.A. degree requires a minimum of 33 credits in 500 level courses and above. Student teaching (EDU 536) does not count towards the M.A. degree.

**Note 3:** Field Experience Requisite — Students who do not have appropriate prior experience working with children in physical activity based contexts will be required to do so during
the first year of the program. These experiences will be selected and scheduled through close advisement with the students' advisor and the coordinator of the teacher preparation program. 

Note 4: Some courses in the program may be taken for noncredit with permission.

Specializations

Adapted Physical Education
(36 credits)

The department offers a course of study leading to an M.A. “K–12” degree in physical education with a specialization in adapted physical education. The program is designed to prepare teachers for working with the special student (mentally and/or physically disabled) in the outdoor, pool, or gymnasium environments. Besides receiving an M.A. in physical education, the graduate of the program will receive a Certificate in Adapted Physical Education from Adelphi University. Students who already have a master’s degree in physical education may wish to obtain the certificate without pursuing another degree. In this case, the student is required to complete the specialization requirements (minimum 15 credits).

Required Core (12 credits)
PED 650  Research and Design of Experiments
PED 652  Curriculum Analysis
PED 653  Motor Learning
PED 656  Teaching Analysis

Required Adapted Specialization
(18 credits)
PED 670  Physical Education for the Developmental and Learning Disabled
PED 671  Physical Education for the Exceptional Child
PED 672  Physical Education for the Physically Challenged

PED 673  Evaluation of Special Populations
PED 680  Advanced Topics in Physical Education (Motor Development and/or Sensory Improvement)
PED 792  Internship

Electives (6 credits)
PED 550  Workshops in Physical Education
PED 676  Physical Education Recreation for the Physically Disabled
PED 680  Advanced Topics in Physical Education: Innovative Activity Programming
EDU 667  Research and Practice in Early Childhood Special Education
EDU 670  Special Education: Current Interpretations and Historical Origins
EDU 675  Understanding Students with Severe Disabilities
EDU 678  Classroom Management
EDU 680  Understanding Adolescents with Learning and Behavior Problems
EDU 682  Counseling Parents of Exceptional Children

Exercise Physiology (36 credits)
Optional emphasis in adult fitness/cardiac rehabilitation, research, or sports medicine. (See advisor for specific program of studies.)

Prerequisites (6 credits)
PED 461  Kinesiology
PED 463  Physiology of Exercise

Core (15 credits)
PED 618  Advanced Exercise Physiology I
PED 619 Advanced Exercise Physiology II
PED 620 Clinical Aspects of Work Physiology
PED 623 Adult Fitness Programming
PED 650 Research and Design of Experiments

**Emphasis (9–15 credits)**
PED 550 Workshops in Physical Education
PED 621 Laboratory Investigation in Work Physiology
PED 624 Nutrition and Physical Activity
PED 626 Theories of Exercise Prescription
PED 628 Cardiac Rehabilitation

**Electives (3–9 credits)**
Besides courses listed above, additional electives follow:
PED 550 Workshops in Physical Education
PED 625 Medical Aspects of Sport
PED 654 Biomechanics
PED 658 Neuromuscular Aspects of Human Performance
PED 680 Advanced Topics in Physical Education

**Core Courses (12 credits)**
PED 632 Introduction to Sports Management
PED 633 Sport in American Culture
PED 650 Research and Design Experiments
PED 680 Computer Applications

**Sports Management Electives (9–15 credits)**
PED 500 Organization and Principles of Coaching
PED 630 Psychology of Sport
PED 636 Athletic Administration
PED 637 Organization and Administration in Physical Education
PED 639 Introduction to Sports Law
PED 680 Advanced Topics in Physical Education: Sport Marketing, Sport and Media, Public Relations
LES 670 Leisure/Recreation Facilities Management

**Business Electives (3–9 credits)**
BUS 651 Future Trends in Management
BUS 662 Entrepreneurship
MGT 561 Management Theory/Organizational Behavior
MGT 666 Leadership
MGT 770 Management of Technology
MKT 580 Marketing Management
MKT 582 Creative Problem Solving

**Internship (3–6 credits)**

**Sports Management (36 credits)**
Optional emphasis in the school/college or professional/business sector.
Special Workshops (noncredit)
Drug Abuse, Child Abuse, First Aid Certificate
First Aid and CPR or PED 467 is required prior to PED 792 and/or PED 536.

Note: Evaluation of and credit for comparable course work may reduce certification credits needed; however, an M.A. degree requires a minimum of 33 credits in 500/600 level courses. EDU 536 Student Teaching does not count towards the M.A. degree.

Physical Education Certificate in Advanced Studies
Fifteen credits beyond the master’s degree, 6 of which must be in approved advanced courses. (This is an Adelphi certificate.)

Communication Sciences and Disorders

Stephen A. Cavallo, Chair

The communication sciences department offers Master of Science (M.S.) and Doctor of Arts (D.A.) degree programs in communication disorders (speech-language pathology and audiology concentrations) and a Master of Science degree in deaf studies. The graduate programs provide advanced academic and clinical education in normal communication processes; disorders of speech, language, and hearing; and assessment and intervention strategies for individuals with communication disorders.

The M.S. program in communication disorders provides students with the academic education and clinical experiences required for New York State licensure and the Certificate of Clinical Competence (CCC) issued by the American Speech-Language-Hearing Association (ASHA). Additional coursework and clinical practicum experiences required for New York State certification as a Teacher of the Speech and Hearing Handicapped (TSHH) and the Bilingual extension to the TSHH are provided.*

*Please note: New teacher certification requirements go into effect in fall 2002. Students who graduate after January 2004 are subject to new teacher certification requirements.

Our graduates are employed in a variety of settings, including hospitals, rehabilitation centers, clinics, schools, universities, and private practice.

The department offers one of the few professional doctorates in communication disorders in the country. The Doctor of Arts program is designed to prepare professionals to assume leadership roles in the discipline as clinical administrators and supervisors, university teachers, and clinical researchers.

Hy Weinberg Center for Communication Disorders

Bonnie Soman, Director

Supervised clinical experiences and research are conducted at Adelphi University’s Hy Weinberg Center for Communication Disorders. The Center serves children and adults who present with a variety of communication problems. Students enrolled in the M.S. degree program participate in a wide range of clinical activities, including diagnostic evaluations and both individual and group therapeutic intervention.

Housed at the Hy Weinberg Center for Communication Disorders are clinical and research laboratories containing instrumentation systems for the study of normal and disordered speech and hearing. These laboratories enhance the quality of research, clinical training, and services provided at the Center. Student clinical training emphasizes the application of current theoretical principles to the organization and administration of clinical procedures.
Master’s Degree Programs in Communication Sciences and Disorders

The M.S. degree in communication disorders is designed to provide academic and practicum experiences basic to the development of clinical competence in the evaluation, diagnosis, and treatment of disorders in speech, language, and hearing. Students may choose a concentration in either speech-language pathology or audiology.

All applicants to the Master’s degree program in communication disorders must take the Graduate Record Examination. Students admitted to the M.S. degree program in communication disorders who did not have adequate undergraduate preparation are required first to complete a minimum of 21 credits in the undergraduate prerequisite courses listed below or their equivalent as approved by the department. All Master’s level students accepted provisionally pending completion of undergraduate-prerequisite courses must receive grades of B or better in all prerequisite courses in order to matriculate. Prerequisite courses are typically offered during the day at the Garden City campus. Provisional students may take prerequisite courses at other institutions only with prior approval of their academic advisor.

SPE 138 Sound and the Auditory Mechanism
SPE 140 Anatomy and Physiology of the Speech Mechanism
SPE 142 Phonetics
SPE 144 Development of Speech and Language

OR

SPH 602 Speech and Language Development
SPE 350 Speech-Language Pathology I

OR

SPE 351 Speech-Language Pathology II

AND

SPE 352 Clinical Audiology

SPE 355 Observation of Speech and Hearing Rehabilitation and Diagnostic Evaluations

All students must take academic coursework at the program site (i.e., the Manhattan Center or the main campus in Garden City) to which they were admitted. (Exceptions are granted only with prior approval of the student’s academic advisor.) Students enrolled at the Manhattan Center may be required to take their in-house clinical practice in Garden City.

All students are expected to acquaint themselves with department and University requirements and regulations (see Graduate Student Advisement Manual) and to consult closely with their academic advisors in order to fulfill both academic and practicum requirements leading to the Certificate of Clinical Competence of the American Speech-Language-Hearing Association and New York State licensure.

The Master’s program in communication disorders (speech-language pathology concentration) is a 56-credit program that is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association. The audiology concentration is a 53 credit program.

Students must complete a series of supervised clinical practica, both at the Hy Weinberg Center for Communication Disorders and in at least two of our outside clinical facilities. Students must earn a grade of B– or better in SPH 660 prior to enrolling in an outside practicum. During their course of study, students are limited to one outside clinical placement during the summer session. All students should expect to do their outside placements during daytime hours. For students whose undergraduate education did not include supervised clinical practice, it may be necessary to enroll in additional clinical practica in order to meet the clock hour requirements mandated by the American Speech-Language-Hearing Association. Audiology students complete several
in-house practicum assignments (per consultation with the student’s academic advisor).

Students pursuing NYS Teacher of the Speech and Hearing Handicapped (TSHH) certification in addition to NYS license and ASHA Certificate of Clinical Competence (CCC) must consult with the coordinator of clinical practicum in the schools to develop a program of study.

In addition to the course work and practica requirements for the M.S. degree, students must attend the Hy Weinberg Memorial Lecture Series offered each semester on the Garden City campus. Notification of dates of the lecture series will be available at the beginning of each semester; it is the responsibility of the students to attend these lectures.

Students concentrating in audiology should be aware that audiology courses may be offered during the first summer session and that it will be necessary to take the courses at these designated times.

To be eligible for graduation, Master’s level students must pass a departmental comprehensive examination, which is offered two times (during the fall and spring semesters). Students planning to graduate in August are eligible to sit for the comprehensive exam in the spring semester. Applications for this examination must be approved by the student’s academic advisor during the semester prior to taking the examination. Students approved to take the comprehensive exam may pick up a copy of study questions in the department office during the first week of the semester.

**Grading Policies**

**Academic Courses**

The following grading policies apply to all students enrolled in M.S. degree programs:

1. If a student earns two grades of C (C+, C, or C–) within the first 24 credits of graduate course work (SPH courses), the student will be dismissed from the program.

2. If a student earns a second grade of C (C+, C, or C–) after the first 24 credits of graduate academic course work (SPH courses), the student will be required to retake one of the courses in which a grade of C was earned. The student must earn a grade of B– or better in this course.

3. If a student earns any additional grades of C (C+, C, or C–) in graduate academic course work (SPH courses), the student will be required to retake those courses or take an additional 3-credit academic course, to be determined by the student’s academic advisor. The student must earn a grade of B– or better in these courses.

4. If a student earns a grade of F in a graduate course, the student will be dismissed from the graduate program. Appeal procedures can be obtained from the department.

Grading policies 1–3 above exclude courses taken outside of the Department of Communication Sciences and Disorders, and any 500 level courses within the Department. If a student receives a grade of C (C+, C, or C–) or F, the student is responsible for notifying and arranging to meet with his or her academic advisor.

Students must maintain a B average in academic course work.

**Clinical Practicum**

1. If a student earns a practicum grade of C (C+, C, or C–) the practicum must be repeated, and a grade of B– or better earned. A second grade of C (C+, C, or C–) will result in dismissal from the graduate program.

2. If a student earns a grade of F in a practicum course, the student will be dismissed from the graduate program. Appeal procedures can be obtained from the department.

3. Letter grades are assigned for the following clinical practicum courses: SPH 660, 666, 667, and 668.
4. The following clinical practicum courses are graded on a Pass/Fail basis: SPH 661, 662, 663, 664, 665, and 669.

SPH 670 | Research Seminar
Master’s Degree Program:
Concentration in Deaf Studies

Traditionally, professionals working with the deaf and hearing impaired have had a background emphasizing education with additional coursework in speech and hearing. Adelphi University has created an innovative program that combines education with speech and hearing, psychology, and the social sciences so that the student may become a more successful and competent professional.

Students who complete the academic and practical experiences and who fulfill department and University requirements will be prepared to function independently in their professional areas of specialization. They will also be eligible for permanent certification for the Teacher of the Deaf and Hearing Impaired and will have completed the requirements for the Master of Science degree.

Prerequisite course work and/or experiences will be programmed to provide students with the basic foundation needed to work with the hearing impaired. Students entering the master’s program in deaf studies are required to satisfy any deficiencies before becoming eligible for degree candidacy.

Although full-time graduate study is encouraged, it is possible to pursue the Master of Science degree in all department programs on either a full- or part-time basis.

Course Requirements
Prerequisites for the deaf studies program include:
SPE 144 Development of Speech and Language
SPE 352 Clinical Audiology
Education courses by advisement.

A student will be required to complete a 36–40-credit program leading to the Master of Science degree. See advisor for specific program of study.

SPD 521** Beginning ASL Sign Language
SPD 522** Intermediate ASL Sign Language
SPD 523** Advanced ASL Sign Language
SPD 528 Technology in Deaf Education
SPD 600 Auditory Disorders
SPD 601 Amplification Systems
SPD 604 Language Development of Deaf/Hearing Impaired
SPD 605 Aural Habilitation of Deaf/Hearing Impaired
SPD 610 Adapting Elementary Education Instructional Methods for Deaf/Hearing Impaired
SPD 611 Adapting Intermediate Instructional Methods for Deaf/Hearing Impaired
SPD 620 Perspectives on Deafness
SPD 621 Approaches to Teaching the Multiple Disabled Deaf/Hearing Impaired
SPD 630 Student Teaching
SPD 631 Student Teaching
SPD 640 Supervision and Administration in Deaf Education

** Sign language requirements can be waived by passing a competency examination.

Elective Courses by Advisement
EDU 533 Computer Applications in Education
EDU 670 Special Education: Current Interpretations and Historical Origins
ELY 777 Whole Language Summer Institute: Examining Current Issues

SPD 650 Workshop in SKI*HI (offered as needed in summer)
The Doctor of Arts in Communication Disorders

Adelphi University instituted the first Doctor of Arts degree in communication disorders in the country. This professional doctorate represents a distinctive trend in graduate education, and is designed to meet the needs of those who wish to prepare for specialized positions in the discipline of speech-language pathology.

The Doctor of Arts degree was conceived to emphasize the professional and clinical aspects of the discipline. Its primary objective is to offer the advanced training needed to prepare leaders in the field of communication disorders. As the profession has expanded and matured, the demand for doctoral-level personnel in clinical settings has grown rapidly.

Students are expected to have completed a master’s degree or its equivalent before admission to the Doctor of Arts program. Students who have not completed course work basic to this doctoral program will have to make up deficiencies. Admission is contingent upon the student’s record of undergraduate and graduate performance. The GRE and three letters of recommendation are required. Students’ speech, hearing, and language must be adequate to meet professional standards.

Degree Requirements

A student must obtain a minimum of 60 credits beyond the master’s degree, or its equivalent. Of these 60 credits, a maximum of 12 post-master’s credits may be transferred from other educational institutions upon approval of the doctoral faculty. The student must apply for the doctoral candidacy examination upon completion of 30 credits of required course work. A qualifying written and oral examination will be given to determine candidacy. It will be permissible for a student to retake this candidacy examination once. After the candidate has completed all requirements, there will be an oral defense of the doctoral dissertation.

The Doctor of Arts is a part-time program. Consistent with University policy, students must complete all requirements for the D.A. degree within ten years. Requests for an extension may be considered on an individual basis. Students must submit a formal petition for an extension to the Doctoral Program Committee. No more than two one-year extensions will be granted.

Students are expected to follow the policies and procedures outlined in the department’s Doctoral Program Advisement Manual.

Continuous Registration

All doctoral students are expected to register for at least one course each semester during the academic year (fall and spring). Exceptions to this policy require approval of the academic advisor. Registration for SPH 799: Continuous Matriculation is required for every semester in which a student does not register for a course. Continuous registration allows for the continuity of training and education, secures student status within the department, and maintains campus privileges. Failure to maintain continuous registration will result in dismissal from the program.

Students seeking a leave of absence must formally petition the Doctoral Program Committee for approval. Leaves of absence will be approved only under extraordinary circumstances.

Language Requirements

Students will be expected to pass an oral foreign language examination administered by a faculty member designated by the languages and international studies department. Students may take their examination in any language appropriate to future professional plans. Students may elect to pass a sign language examination to fulfill the language requirement.

Research Requirements

A doctoral dissertation is required, based on substantive research on a topic related to clinical problems, symptom analysis of communica-
tion impairments, or remediation of communication disorders. An oral defense of the doctoral dissertation is required.

**Course Requirements**

*The following courses are required:*

- **SPH 710** Advanced Anatomy, Physiology, and Theories: The Auditory Mechanism
- **OR**
- **SPH 711** Advanced Anatomy, Physiology, and Theories: The Speech Mechanism

- **SPH 720** Experimental Phonetics
- **SPH 721** Instrumentation
- **SPH 740** Seminar in Current Issues and Research Trends in Speech Pathology and Audiology
- **SPH 741** Seminar in Current Issues and Research Trends in Speech Pathology and Audiology
- **SPH 800** Advanced Seminar in Differential Diagnosis of Communication Disorders
- **SPH 801** Theoretical Foundations of the Remediation of Language Disorders in Children and Adults
- **SPH 805** Proseminar in Audiology
- **SPH 860*** Clinical Practice in Hospitals and Rehabilitation Centers
- **SPH 861*** Clinical Practice in Educational Settings
- **SPH 862*** Clinical Practice in Community Service Centers
- **SPH 863*** Clinical Practice in Supervision Administration
- **SPH 864** Practicum in College Teaching
- **SPH 895** Doctoral Thesis Seminar
- **PSI 644** Statistics I

* Minimum of 6 credits in three different areas.

An advanced composition course on scientific writing is required. The particular course will be selected according to the student’s needs.

If doctoral students receive a grade of C+ or lower in a course, they may no longer continue in the program.

**Elective Courses**

- **SPH 700** Language and Thought
- **SPH 712** Neurological Bases of Speech
- **SPH 713** Otolaryngological Aspects of Speech Pathology and Audiology
- **SPH 831** Seminar in Prosthetic Amplification
- **SPH 832** Management of the Acoustically Handicapped
- **BIO 602** Physiology for the Health Sciences
- **BIO 606** Neurophysiology
- **BIO 630** Selected Topics in Biology
- **PSI 620** Psychodynamics of Behavior: The Development of Freudian Psychology
- **PSI 622** Advanced Psychological Tests and Measurements
- **PSI 645** Statistics II
- **PSD 630** Physiological Psychology (only for students who have had the academic background)

**Admission**

All students seeking admission to graduate study at Adelphi University, whether they wish to become candidates for a graduate degree or not, must formally request admission before registering for graduate courses, in accordance with the procedures for University Admission to Graduate Study described in this *Bulletin*.

Students who suspend enrollment for one year (two semesters) must apply for readmission and may be subject to any new or additional program requirements in effect at the time of their readmission.
Graduate Admissions Grade-Point Average Requirements
The School of Education, in determining the admissions status of prospective students, will require the minimum cumulative undergraduate grade point averages as listed below. Admission to the School is competitive and the requirements for admission to specific programs may be considerably higher than those stated.

<table>
<thead>
<tr>
<th>Minimum Cumulative Undergraduate G.P.A.</th>

</table>

Readmission Policy
Students who suspend enrollment for one year (two semesters) must generally apply for readmission and may be subject to new or additional program requirements in effect at the time of their readmission. Readmission requirements vary across programs. Please check with program chair.

Admission of International Students
See the sections in this Bulletin titled “Admissions” and “Expenses and Financial Aid.”

New York State Certification Requirements
Mary Ellen Williamson, Senior Coordinator of Certification and Student Records

Students completing a New York State registered teacher education program, should apply for certification through Adelphi University using a white form with blue lettering. Applications for certification are completed in the semester prior to graduation and may be obtained through the School of Education offices or the Office of the Registrar, Levermore Hall — lower level.

All teacher certification candidates recommended by Adelphi University for New York State certification must successfully complete the degree program requirements, including any deficiencies in the liberal arts and sciences, a seminar on child abuse identification and reporting, a workshop in school violence and intervention, and student teaching. All teaching certification candidates must take and pass the New York State Teachers Certification Examinations (NYSTCE) required for their particular area of certification.

Effective July 1, 2001, new legislation will require all prospective school district employees, and all individuals who apply to the Education Department for certification, to be fingerprinted for a criminal history background check in order to be cleared for employment or certification.

Please note: Although you may already hold a valid certificate in another teaching area, the necessary parts of the NYSTCE are now required for all applicants seeking certification in an additional area. Also, only U.S. citizens can obtain permanent certification and only those who file a Declaration of Intention may be issued provisional certificates. For the most updated requirements you may contact the New York State Education Department at http://www.nysed.gov/tecr/.

New York State Teacher Certification Examinations (NYSTCE) registration bulletins are available in all School of Education offices and the Office of the Registrar. The purpose of these bulletins is to provide general information concerning, preparation for tests, test registration, registering for alternative testing arrangements, dates of test, score reports, and forms.

Academic Advisement
Mary Botta, Coordinator of Education Studies Advisement

Education studies advisors are available for academic counseling throughout the year. Upon acceptance as a degree candidate to the Master’s program, students are assigned an academic
advisor who will assist in planning the student’s program of study, approve courses, and generally inform the student of degree requirements, academic policies, and regulations. The assigned advisor generally remains the student’s advisor throughout the program of study.

Students may meet with an academic advisor from their first inquiry through graduation. Academic advisement is available midweek during the day and evening for our Garden City campus students. In addition, advisement is available midweek, as well as Saturday and Sunday for those students who attend our weekend program at Adelphi’s Manhattan Center. *It is the student’s responsibility to arrange advising appointments during scheduled office hours.* Extra office hours are added during each registration period.

**Note:** The NYS Department of Education is in the process of changing all certificates for teacher education, therefore, every program in the department of education studies will be affected by these changes.

While we provide academic advisement for our students and will make every effort to keep all students aware of programmatic changes, ultimately it is the student’s responsibility to meet all current degree requirements.

**Supervised Clinical Experience**

Michele Reich, *Director School and Community Partnerships*

A supervised clinical experience, consisting of either student teaching or a practicum for teachers who are currently in the field, is provided for students completing their certification programs. Each experience is a full-time, daytime responsibility and includes a weekly seminar at Adelphi University. Specific course prerequisites for student teaching or the practicum vary in each program and are listed in the course description section of this *Bulletin.* General requirements include a satisfactory health examination, a satisfactory speech and hearing evaluation, acceptable academic and personal qualifications, satisfactory faculty recommendations, and a satisfactory student teaching portfolio. Education studies students must take the LAST (Liberal Arts and Sciences Test) and ATS-W prior to student teaching. Secondary majors must take the Content Specialty Test in addition to the LAST and ATS-W. In general, graduate students may not register for the clinical experience until they have completed all of their program requirements. Graduate students must have a 3.0 overall G.P.A. to be eligible for student teaching or a practicum.

Applications for the clinical experience must be filed by June 15 for the following spring semester and February 15 for the following fall semester. Information pertaining to the clinical experience, including applications and details about the portfolio, may be obtained through the Office of School and Community Partnerships.

**Teaching Internships**

Michele Reich, *Director School and Community Partnerships*

The School of Education offers students with outstanding undergraduate and/or graduate school records in fields other than education positions as paid graduate interns in local public schools. Students enroll in the master’s program in their area of certification and serve as interns for a full academic year in the schools. The internship experience satisfies the student teaching component of NYS certification requirements. Internships are available in elementary education, secondary education, special education, and TESOL. Please consult the appropriate program director and/or the director of School and Community Partnership for further information.
The Child Activity Center

Alice C. Brown, Director

This Center, located on Adelphi’s campus, houses a part- and full-day program for children from three through five years of age. Graduate students in the School of Education may participate in field experiences at the Center, thereby enhancing their knowledge of child development and early childhood curriculum.

Independent Study

Approval for independent study can be granted by the Dean of the School of Education.

Waiver of Academic Regulations

Graduate students may petition the Dean of the School for the waiver of an academic regulation of the School of Education.

Regional Labor Market

Students are advised to go to the New York State Department of Labor website (http://www.labor.state.ny/us) where they can find useful information regarding occupational projects for New York State and Regions in New York State as well as wage information (annual average hourly rates from the Occupational Employment Survey for New York State). Students interested in working in the New York City area, can call or write the Labor Market Analyst in charge of the Bronx, Kings, Queens, Richmond, and New York district: James Brown, NYS Department of Labor, Research, and Statistics Division, PO Box 669, Mail Stop 8D, New York, NY 10014-0669, (212) 352-6666.

Students interested in working in the Nassau/Suffolk area are encouraged to call or write to the Labor Market Analyst in charge of the Nassau and Suffolk districts: Gary Huth, NYS Department of Labor, Research, and Statistics Division, 303 W. Old Country Road, Hicksville, NY 11801, (516) 934-8559.
**COURSES OF INSTRUCTION**

**SCHOOL OF EDUCATION**

**ART, EDUCATION, AND LITERACY**

**Art Education (EAR Courses)**

**EAR 510 Curriculum and Methods of Art Education**  
3 credits  
This course introduces art education students to the creation of developmentally appropriate lesson plans in a variety of visual arts media for grades Pre-K–12. Topics such as assessment and New York State Learning Standards in the Arts will be addressed. Students are required to complete 30 hours of fieldwork in Pre-K–12 schools.

**EAR 525 The Historical and Philosophical Foundations of Art Education**  
3 credits  
This course examines the nature of aesthetic experience as a unique and powerful way to know the self and the world. It attempts to uncover the connection between art and education and help prospective art educators articulate a rationale for the role of the arts in education. Students are required to complete 20 hours of fieldwork in PreK-12 settings.

**EAR 540 Student Teaching in Art Education**  
6 credits  
Prerequisites: All required education and art courses must be completed prior to the student teaching semester.  
This course provides the capstone experience in the art education program. Students are required to spend eight weeks in a Pre-K–6 setting and eight weeks in a 7–12 setting. The placement is full-time, five days a week for one semester. Students work with a cooperating art teacher and a supervising University art educator who teaches a reflective practice seminar one evening each week during the student teaching semester. Prospective student teachers must apply for their placement in the semester prior to student teaching. Information pertaining to application materials and deadlines is available through the Office of School and Community Partnerships.

**Education (EDU Courses)**

**EDU 502 Reflective Practice Seminar in Early Childhood and Elementary Education**  
3 credits  
Corequisites: EDU 531 and 544.  
Taken concurrently with EDU 531 this seminar provides student teachers with the opportunity to reflect critically and analytically on their student teaching experiences. Students attend a weekly seminar and are expected to complete a reflective practice journal or project.

**EDU 503 Reflective Practice Seminar in Secondary Education**  
3 credits  
Corequisite: EDU 530 or 540.  
Taken concurrently with EDU 530, this seminar provides student teachers with the opportunity to reflect critically and analytically on their student teaching experiences. Students attend a weekly seminar and are expected to complete a reflective practice journal or project.

**EDU 505 Bilingual Elementary Education Practicum**  
3 credits  
The practicum consists of an eight-week supervised teaching experience in the teacher’s own bilingual elementary education classroom. This experience will fulfill the required field experience towards New York State Certification in elementary education as well as the bilingual certification extension. A seminar is required and meets for the entire semester.

**EDU 507 Bilingual Secondary Education Practicum**  
3 credits  
The practicum consists of an eight-week supervised teaching experience in the teacher’s own bilingual secondary education classroom. This experience will fulfill the required field experience towards New York State Certification in secondary education content areas as well as the bilingual certification extension. A seminar is required and meets for the entire semester.

**EDU 509 Bilingual Special Education Practicum**  
3 credits  
The practicum consists of an eight-week supervised teaching experience in the teacher’s own bilingual special education classroom. This experience will fulfill the required field experience towards New York State Certification in special education as well as the bilingual certification extension. A seminar is required and meets for the entire semester.

**EDU 511–518 Curriculum and Methods of Instruction in Secondary Education and Special Subjects**  
3 credits  
These courses (511-English; 513-Mathematics; 516-Physical Education; 517-Science; 518-Social Studies) introduce secondary education and special subject students to issues in curriculum and methods in the content area. Building upon the general concepts and approaches taught in EDU 621, these courses look specifically at the curriculum in each subject area and particular forms of pedagogical knowledge and methods appropriate to teaching in each subject. Where appropriate, integrative and interdisciplinary approaches across content areas are explored. Students are required to complete 30 hours of field work in secondary schools.

**EDU 527 Bilingual Elementary Education Student Teaching**  
3 credits  
Fieldwork for teachers who have already student taught in monolingual elementary school classrooms. Student teaching at this level requires a full five days per week for eight weeks during one term. The student will have experience in a bilingual elementary school setting at both the primary and
intermediate grade levels. A student teaching seminar must be taken for the entire semester.

**EDU 528 Bilingual Secondary Education Student Teaching** 3 credits
Fieldwork for teachers who have already student taught in a monolingual secondary classroom. Student teaching at this level requires five full days per week for eight weeks during one term. The secondary education bilingual placement will be arranged with a bilingual cooperating teacher in the secondary field of concentration corresponding to the student’s specialization. A student teaching seminar will be taken for the entire semester.

**EDU 529 Bilingual Special Education Student Teaching** 3 credits
Fieldwork for teachers who have already student taught in a monolingual special education classroom. Student teaching at this level requires five full days per week for eight weeks during one term. The special education bilingual placement will be arranged with a bilingual cooperating teacher in the special education field. A student teaching seminar will be taken for the entire semester.

**EDU 530 Student Teaching in Secondary Education** 6 credits
Prerequisites: 18 credits in education, including EDU 601, 603, 607, 621, 635, 510–518; 3.0 G.P.A.; satisfactory health and speech evaluations; satisfactory personal and professional qualifications; satisfactory faculty recommendations; and a satisfactory student teaching portfolio. Corequisite: EDU 503.
This course provides the capstone experience in the secondary education program. Students are required to spend eight weeks in a 7–9 setting and eight weeks in a 10–12 setting. In art, placement is at the K–6 and 7–12 levels. The placement is full time five days a week. Students work with a cooperating teacher, who is chosen by the School District and a supervising professor from the University. Emphasis is placed on the implementation of teaching and curriculum approaches taught in the previous courses and preparing students to plan and execute instructional activities, to create productive learning environments, and to monitor and assess student learning.

**EDU 531 Student Teaching in Early Childhood and Elementary Education** 6 credits
Prerequisites: 24 credits in education including EDU 601, 607, 621, 626, 627, 628, 629, 670; 3.0 G.P.A.; satisfactory health and speech evaluations; satisfactory personal and professional qualifications; satisfactory faculty recommendations; and a satisfactory student teaching portfolio. Corequisites: EDU 502 and 544.
This course provides the capstone experience in the elementary education program. Students are required to spend eight weeks in a N–3 setting and eight weeks in a 4–6 setting. The placement is full time five days per week. Students work with a cooperating teacher, who is chosen by the School District and a supervising professor from the University. Emphasis is placed on the implementation of teaching and curriculum approaches taught in the previous courses and preparing students to plan and execute instructional activities, to create productive learning environments, and to monitor and assess student learning.

**EDU 532 Practicum in Early Childhood and Elementary Education** 3 credits
For students who are currently employed as full-time teachers in Early Childhood and Elementary Education classes. Corequisite: EDU 544.
Students currently teaching in the field are required to complete this supervised practicum. Students are observed during an eight-week period and are required to attend the weekly seminar for the entire semester.

**EDU 533 Computer Based Technologies in Education** 3 credits
Topics in this production based course will include 1) use, design, and construction of electronic databases; 2) basic skills with Internet and web page construction; 3) desktop publishing and presentation graphics; 4) education production tools; 5) educational assessment tools; and 6) educational software. These components will emphasize the use of interface equipment including digital cameras, scanners, message pads, etc. Students must be able to use a word processor.

**EDU 535 Practicum in Secondary Education and Special Fields** 3 credits
For students who are currently employed as full-time teachers in Secondary Education and Special Fields. Corequisite: EDU 544.
Students currently teaching in the field are required to complete this supervised practicum. Students are observed during an eight-week period and are required to attend the weekly seminar for the entire semester.

**EDU 543 TESOL I: Developing the Language Arts Skills** 3 credits
Survey of the current theories of first and second language acquisition as they relate to the acquisition of the reading, writing, listening, and speaking skills. Applications of current theories of literacy development will be used to design instructional materials.

**EDU 544 Literacy and Methods Practicum** 3 credits
Corequisites: EDU 502 and 531 or with 532.
Taken concurrently with elementary student teaching or practicum, this course is designed to complement the clinical experience by stressing curriculum and pedagogical approaches in reading across content areas. Using an integrative approach, students are encouraged to develop strategies for teaching reading and writing skills across different curricula areas.

**EDU 552 The Philosophical Foundations of Education: Bridging Theory and Practice** 3 credits
An introduction to the philosophy of education. The course prepares students to become reflective and critical practitioners who understand the relationship between theory and practice. Through an examination of various schools of
philosophical thought as they apply to education, students are encouraged to develop their own philosophical orientations. Emphasis is placed upon concepts of freedom, knowledge, values, curriculum, pedagogy, and human nature.

EDU 601 The Historical, Social, and Moral Foundations of Education 3 credits
This course introduces students to the social and philosophical foundations of education. Through an examination of the sociological, historical, political, and philosophical aspects of schooling, students are prepared to understand the role of schools in society and how various factors affect teachers, students, and schooling. Students examine the relationship between culture and schooling and the ways in which different cultural groups are educated in our society. Emphasis is placed on inequalities of race, class, gender, and culture within the educational system and how these inequalities may be ameliorated by teachers. Additionally, the course emphasizes the education of students with special needs, including disabling conditions and students whose first language is not English. Through an examination of school organization and philosophy, students are introduced to different ways of organizing schooling, including middle school organization and philosophy.

EDU 603 Adolescent Psychology 3 credits
An introduction to adolescent development as an educational and cultural phenomenon. Through an examination of the affective and cognitive development of children from adolescence through young adulthood, the course prepares students to understand the developmental patterns of the children and adolescents they will teach and how these patterns affect learning. The course deals with a continuum of development, including both normal and special development, and thus introduces students to issues relating to the developmental and educational needs of students with disabling conditions.

EDU 604 Human Development: Childhood Through Adolescence 3 credits
An introduction to child development as an educational and cultural phenomenon. Through an examination of the affective and cognitive development of children from early childhood through young adulthood, the course prepares students to understand the developmental patterns of the children and adolescents they will teach and how these patterns affect learning. The course deals with a continuum of development, including both normal and special development, and thus introduces students to issues relating to the developmental and educational needs of students with disabling conditions.

EDU 607 Cognition and Teaching 3 credits
This course introduces students to learning theory, theories of cognitive development, and how teachers should develop pedagogical and curricular strategies in light of them. Through an examination of recent advances in cognitive science and learning theory, the course addresses important issues relating to teaching and learning. It deals with a continuum of cognitive development and approaches to learning, which includes both regular and special educational issues. Thus, students are prepared to create a productive learning environment, to understand the learning needs of both children with normal development and students with disabling conditions. The course also examines cultural differences in learning and different approaches to teaching children from different cultures. It also explores the ways in which children whose first language is not English learn in their second language and how teachers need to become aware of these patterns. Additionally, it examines recent feminist approaches to learning in order to prepare students to meet the educational needs of both boys and girls. Finally, it relates psychological development to learning theory by placing specific emphasis on the relationship among maturation, developmental stages, and learning. Specific attention is placed on adolescence and how this stage affects learning.

EDU 621 Curriculum Development and Issues 3 credits
An introduction to general approaches to curriculum theory and design and to instructional methods. Through an examination of the nature of curriculum across disciplines, interdisciplinary approaches to curriculum design, the construction of lesson plans and unit plans, and various methodological strategies, including the art of questioning and the integration of critical thinking into teaching, students are introduced to the most significant aspects of classroom organization and practice. Emphasis is placed on different models of curriculum design, planning, and teaching. Special emphasis is placed on a multicultural curriculum, as well as methods of assessment, including alternative assessment. Twenty hours of field placement in an elementary or secondary school are required.

EDU 626 Integrated Science, Math, and Technology I, N–6 3 credits
An introduction to integrated curriculum and instruction in science, mathematics, and technology. Through an approach that emphasizes the process of learning mathematics, science, and technology, as well as integrating them across curriculum areas, students are prepared to teach mathematics and science at the elementary school level. This course concentrates on mathematics and its integration with science, technology, and other curriculum areas. Twenty hours of field placement in an elementary school are required. EDU 626 may be taken before or after EDU 628; or they may be taken together.

EDU 627 Reading and Literacy N–6 3 credits
An introduction to curriculum and instruction in the teaching of reading and writing. Through an integrated approach that examines the connections between reading and writing, students are prepared to teach children literacy skills. Although the course introduces students to a variety of theories and methods in reading and writing instruction, its overall theoretical bent is that of whole language- and literature-based approaches to reading and writing. Twenty hours of field placement in an elementary school are required.

EDU 628 Integrated Science, Math, and Technology II, N–6 3 credits
An introduction to integrated curriculum and instruction in science, mathematics, and technology. Through an approach
that emphasizes the process of learning mathematics, science, and technology, as well as integrating them across curriculum areas, students are prepared to teach mathematics and science at the elementary school level. The second semester of this two semester sequence concentrates on science and its integration with mathematics, technology, and other curriculum areas. Twenty hours of field placement in an elementary school are required. EDU 626 may be taken before or after EDU 628; or they may be taken together.

EDU 629 Social Studies, Literature, and the Arts N-6 3 credits
An introduction to curriculum and instruction in the social studies, literature and the arts. Through an integrated curriculum approach students are introduced to the major issues in social studies, literature, and arts education at the elementary level. Students are expected to develop integrated curriculum units that thematically tie together issues in history, sociology, politics, and anthropology with both literary and artistic materials. Twenty hours of field placement in an elementary school are required.

EDU 630 Practicum in Middle Schools 3 credits
Students in the elementary precertification program will extend their student teaching at the 7–9 level; students in the elementary in-service program will do an additional practicum at the 7–9 level. Students in the secondary precertification program will extend their student teaching at the 5–6 level; students in the secondary in-service program will do an additional practicum at the 5–6 level.

EDU 635 Secondary School Reform: Problems and Prospects 3 credits
An introduction to problems and issues related to teaching middle school, junior high, and high school. Through an examination of historical and contemporary reform efforts, students are encouraged to think about the limits and possibilities of secondary school improvement. The course covers diverse topics including curriculum tracking and ability grouping, race, class, and gender issues, the history of secondary education, the structure and organization of secondary schools, policy issues and recommendations, and issues in curriculum and pedagogy.

EDU 641 Methods and Materials in Bilingual Education 3 credits
This course examines both curriculum and methods currently used in bilingual multicultural classrooms. The opportunity to develop materials in the major content areas will be provided through an interdisciplinary approach which includes teaching in the areas of mathematics, science and social studies and the communication arts in the native language. The course fosters multicultural awareness and focuses on issues which encompass gender, race, ethnicity, and disabling conditions in the schools. Classroom techniques, diagnostic instruments, and commercial and teacher-made materials in the first and second language will be evaluated and discussed.

EDU 642 Foundations of Bilingual Education: Theory and Practice 3 credits
This course provides an introduction to the philosophical, sociological and historical perspectives on bilingual education. The course introduces nationwide bilingual education and English as a second language program models and strategies and addresses pressing issues, such as the teaching of students with disabling conditions, community involvement and equity in education. The legal mandates having an impact on the national development of instructional programs for children for whom English is a second language will be examined.

EDU 643 Methods and Materials of Teaching Reading and Language Arts in the Bilingual Classroom 3 credits
The course examines first language teaching methods and models, and effective, integrative instructional practices in the teaching of reading and language arts to the bilingual child. The course will focus on first language development and the transferability of reading skills to the effective reading of English in the bilingual education school program. Children’s literature in the first language will be surveyed and analyzed in relation to its folklore and richness and will be used as a vehicle to increase parental participation in the classroom and at home.

EDU 644 ESL in the Content Areas 3 credits
Prerequisites: EDU 543 and 721.
This course examines current theory, methods, and materials for teaching English as a Second Language through content area instruction in pre-K to 12th grades to students of different cultural and linguistic backgrounds. Emphasis on application in instruction design, evaluation, and classroom management.

EDU 670 Special Education: Current Interpretations and Historical Origins 3 credits
Designed to develop an awareness of the problems and needs of the school population which falls into this category. This includes children with intellectual deviance, children with physical disabilities, the neurologically impaired, the learning disabled, and the emotionally and socially maladjusted. Attention is given to incidence, characteristics, prevention, implications for education, counseling and guidance procedures.

EDU 676 Student Assessment and Educational Testing 3 credits
Prerequisites: a course in general psychology and EDU 607; or equivalent.
Basic concepts of measurement theory; of intelligence, personality, aptitude, and achievement tests. Specific emphasis on tests and assessments for exceptional children. Theories of alternative assessment considered.

EDU 678 Classroom Management 3 credits
A course designed to (1) define, specify, and measure the behaviors teachers recognize as necessary in the repertoire of the special child; (2) equip teachers with an understand-
ing of the basic principles of behavioral change; (3) provide the teacher with a humanistic philosophical approach to behavior modification; (4) give practice in the application of learning principles in effecting beneficial change of the academic study and social behaviors of students. (Accepted as human relations course by the New York City Board of Education.)

EDU 679 Families, Cultures, and Children: Understanding Children with Special Needs 3 credits
Focuses on the impact of families and cultures on the cognitive, linguistic, and affective growth of children from birth through the secondary level. This course emphasizes the effect of the background of children with disabilities on their development and learning. Collaboration among families, schools, support groups, and referral agencies for enhancement of the education and transitions of normally developing, at-risk, and special education populations is studied. Educational impact of various cultural attitudes of families with children whose development deviates from the norm is emphasized.

EDU 693 Psychology and Education of the Gifted, Talented and Creative 3 credits
An introductory course concerned with the nature, problems, needs, and educational settings of the gifted. Problems and issues in the field will be highlighted.

EDU 694 Methods and Materials for the Teaching of Gifted Children 3 credits
Reviews the conceptual structures and theories related to the education of the gifted child by examining curriculum development, instructional methods, resources, guidance, parental involvement, and will utilize lecture, selected readings, discussions, and visitations to classrooms of the gifted.

EDU 698 Understanding Elementary School Children with Learning and Behavior Problems 3 credits
Prerequisite or corequisite: EDU 670.
Examines current theories and practices related to the education of children with mild to moderate disabling conditions. These children have been referred to as being learning disabled, emotional/behavioral disordered, or educable mentally retarded. The course highlights the similarities among these children as well as their differences.

EDU 700 Practicum in TESOL 3 credits
Prerequisites: 24 credits in TESOL program, 3.0 cumulative G.P.A., satisfactory health and speech evaluations, satisfactory personal and professional qualifications, satisfactory faculty recommendations and students teaching application.
The Practicum consists of an eight week supervised teaching experience in the teacher's own ESL classroom. This experience will fulfill the required field work towards New York State Certification in TESOL. A seminar is required and meets for the entire semester.

EDU 719 Supervised Student Teaching and Seminar in TESOL 3 credits
Prerequisites: 24 credits in TESOL program; 3.0 cumulative G.P.A., satisfactory health and speech evaluations, satisfactory personal and professional qualifications, satisfactory faculty recommendations and students teaching application.
The 3 credit supervised student teaching experience is provided for students who are completing their preparation for teaching in TESOL and hold previous certification in another area. Provision is made for a variety of experiences in approved school situations. Attendance at a weekly seminar and individual conferences with the student teaching supervisor is required.

EDU 720 Evaluation and Testing in ESL and Bilingual Education 3 credits
Prerequisite: EDU 780.
This course examines essential concepts in the area of testing first- and second-language proficiency. Commercial tests, standardized tests, criterion reference tests, and teacher–made tests currently used to assess first- and second-language proficiency are analyzed. The course examines the role of language and culture in the assessment process of children for whom English is a second language, and explores the relationship between assessment and the creation of effective instructional programs for second language learners.

EDU 721 Theories of Second Language Acquisition 3 credits
This course relates theory and research regarding first language acquisition to the process of acquiring a second language. The course also presents specific cognitive, social, and educational aspects of bilingualism.

EDU 722 Supervised Student Teaching and Seminar in TESOL 6 credits
Prerequisites: 24 credits in TESOL program; 3.0 G.P.A. cumulative G.P.A.; satisfactory health and speech evaluations; satisfactory personal and professional qualifications; satisfactory faculty recommendations; and a student teaching application.
Supervised student teaching is provided for students who are completing their preparation for teaching in the field. Provision is made for a variety of experiences in approved school situations. Attendance at a weekly seminar and individual conferences with the supervisor of student teaching is required.

EDU 728 Bilingual Special Education Student Teaching 6 credits
The Special Education Bilingual placement will be arranged with a bilingual cooperating teacher in the special education field. Student teaching will be conducted in English and the target language in special education will require five full days per week for a period of 16 weeks. A student teaching seminar will be taken concurrently.
EDU 732 Student Teaching in Special Education 3 credits
Prerequisite: minimum of 18 credits in special education including EDU 670, 698 or 675 or 680, 676, 770, and 771. Attendance at a weekly seminar is required.
An eight-week program of supervised full-time teaching five days per week. This course is required of all students who are specializing in this area. Students who do not hold provisional or permanent certification in another area must either take EDU 733 (Dual Certification in Elementary Education and Special Education) or student teach for 16 weeks.

EDU 733 Student Teaching: Special Methods and Practice in Elementary Education and Special Education 6 credits
Prerequisite: minimum of 18 credits in special education including EDU 670, 698 or 675 or 680, 676, 770, and 771 and a minimum of 12 credits in elementary education including EDU 627 and at least 2 other methods courses (EDU 621, 626, 629).
Required of all students for dual certification in elementary and special education and for those seeking special education certification without any prior student teaching experience. Student teaching requires five full days per week for 16 weeks. The first eight weeks are in elementary education and the final eight weeks are in special education. Attendance at a weekly seminar is required.

EDU 734 Practicum in Special Education 3 credits
For teachers who are currently employed as teachers of Special Education.
Students currently teaching special education are required to complete this supervised practicum. Students are observed during an eight week period and are required to attend the weekly seminar for the entire semester.

EDU 735 Elementary Education Student Teaching in a Bilingual Setting 6 credits
Prerequisite: minimum of 18 credits in education including EDU 627 and at least 2 other methods courses (EDU 635, 626, 628, 629). Attendance at a weekly seminar is required.
Student teaching at this level requires a full five days per week for a minimum of 16 weeks during one term. The student will have experience in a bilingual elementary school setting at both the primary and intermediate grade levels. A student teaching seminar must be taken at the same time.

EDU 736 Bilingual Secondary Education Student Teaching 6 credits
Prerequisite: minimum 13 credits in education including EDU 510–519 and all credits in teaching area for certification. Please see program director for specific information.
The Secondary Education Bilingual placement will be arranged with a bilingual cooperating teacher in the secondary special field of concentration corresponding to the student's specialization. Student teaching will be conducted in English and the target language at the secondary level and will require five full days per week for a period of 16 weeks. A student teaching seminar will be taken concurrently.

EDU 737 Student Teaching Practicum and Seminar: Teacher of Children with Speech, Language, and Hearing Disabilities 6 credits
Attendance at weekly seminars is required.
A program of supervised teaching four full days per week for a minimum of 16 weeks.

EDU 738 Student Teaching Practicum and Seminar: Teacher of Children with Speech, Language, and Hearing Disabilities 3 credits
Attendance at weekly seminars is required.
A program of supervised teaching two full days per week for a minimum of 16 weeks. This practicum is for those students who have earned a certificate of qualification for teaching; a provisional certification or a permanent certification for teaching in another discipline.

EDU 743 Legal Issues for Teachers 3 credits
Problems and issues of high interest to the classroom teacher. Guest speakers and an independent project are part of the format. Topics may include such issues as child abuse, free speech, equity and segregation, religion in the schools, and censorship.

EDU 760, 761 Elementary Internship/Student Teaching 3 credits each
This two-semester course is required for elementary school interns in the Adelphi Internship Program. Students are observed in their classroom by both mentor teachers in the school and University supervisors. Students are required to attend weekly seminars in general and specific problems of teaching.

EDU 762, 763 Internship Student Teaching Secondary Schools 3 credits each
This two-semester course is required for secondary school interns in the Adelphi Internship Program. Students are observed in their classroom by both mentor teachers in the school and University supervisors. Students are required to attend weekly seminars in general and specific problems of teaching.

EDU 764 and EDU 767 Internship Student Teaching TESOL 3 credits each
This two-semester course is required for TESOL secondary school interns in the Adelphi Internship Program. Students are observed in their TESOL classroom by both mentor teachers in the school and university supervisors. Students are required to attend weekly seminars in general and specific problems of teaching.

EDU 765, 766 Internship Student Teaching Special Education 3 credits each
This two-semester course is required for special education school interns in the Adelphi Internship Program. Students are observed in their classroom by both mentor teachers in the school and University supervisors. Students are required to attend weekly seminars in general and specific problems of teaching.
EDU 770 Designing Instruction for Learners with Mild and Moderate Disabilities 3 credits
Prerequisites: EDU 670, 676, and a course in the psychology and education of exceptional children.
Corequisite: EDU 771.
Problems, principles, and procedures of teaching exceptional children. Methods of organization of instruction, sequential and diagnostic teaching, and selection of appropriate materials are integrated with the field experience. The development of instruction from assessment is emphasized.

EDU 771 Individual Evaluation in Special Education 3 credits
Prerequisites: EDU 670, EDU 676, and a course in the psycho-educational needs of exceptional children.
A laboratory course designed to explore existing and experimental diagnostic tools to aid in educational planning for exceptional children. Students will select, administer, and interpret various psycho-educational tests (formal and informal) relative to specific age groups and developmental processes. Long- and short-range goals and prescriptions will be developed.

EDU 772 Internship in Diagnosis and Prescription in Special Education 3 credits
Prerequisites: EDU 770 and 771.
Students will broaden their knowledge of psycho-educational assessment and remediation of learning problems. Provision is made for the testing of exceptional individuals, interpretation and writing of reports, and for developing prescriptions based on findings.

EDU 780 Educational Research 3 credits
This course introduces students to reading and conducting educational research. It provides students with an understanding of different research methods and their limitations, as well as with a critical understanding of how to analyze and critique existing research. Students are introduced to issues in assessment and evaluation, including alternative assessment strategies. Students will focus on research studies on important issues in teaching and learning, including special education, multicultural education, teaching students of varying abilities, gender and education, parental and community involvement, and other issues.

EDU 790 Independent Study 1–3 credits
With special permission from Program Director and Dean.

EDU 800 Master’s Seminar in Special Education and Inclusive Settings 3 credits
Prerequisites: EDU 780 and a minimum of 27 credits in graduate program.
This course is the capstone course for in-service students in elementary and secondary education (and precertification students who have student teaching waived), and all special education students. The purpose of this course is to enable students to tie previous course work to the analysis of policy, curriculum, and pedagogical issues in education. Students are required to complete an original research project, portfolio, or series of papers on an issue related to their teaching area. This course is offered on the Garden City campus only. All off-campus students required to take this course must come to Garden City.

The courses below are required for some programs in the School of Education.

ANT 514 Language and Culture 3 credits
ANT 635 Cultural Anthropology 3 credits
ENG 629 History of the English Language 3 credits
LIN 601 Structural Linguistics 3 credits
SPA 531 Caribbean Culture and Civilization 3 credits

Literacy (ELY Courses)

ELY 521 Literature for Young Adults 3 credits
This course is designed to engage students in a study of the literature of interest to adolescents or young adults. The integration of literature across disciplines can be greatly enhanced when teachers are knowledgeable about historical and current trends in young adult literature as well as the literary theories that can serve as lenses for examining such texts. Literary theory and pedagogy will inform all aspects of our study of literature and related media. Students will explore ways to encourage young people in middle and secondary schools to read critically and appreciate a variety of literary works. The integration of literature into all content areas will be emphasized.

ELY 540 Introduction to Balanced Literacy 3 credits
Prerequisite to all balanced literacy courses. (May be taken concurrently with another whole language course, under advise ment.)
Explores theories derived from research and practice in language communication as they affect literacy and literacy factors as well as factors relating to all school curricula. The major course objective is to enable students to understand literacy learning and develop a conceptual framework for teaching within the guidelines of accepted whole language philosophy.

ELY 545 Children’s Literature 3 credits
This course is a survey of children’s literature. Students will be introduced and read to in a variety of genres, study authors and examine the work of illustrators with an emphasis on selection criteria and implementation of interdisciplinary teaching and learning in the elementary classroom. An in-depth consideration of trends and issues in children’s literature will be explored, as will topics related to political and social themes. The development and expansion of children’s language through engagement with quality children’s literature will be emphasized.
ELY 560 Assessment and Evaluation in Literacy Development  3 credits
An assumption is made that meaningful assessment is the teacher-generated assessment emerging from the results of instruction and observation. Performance-based assessment in a whole language classroom includes the systematic observation, recording, and interpreting of language behaviors across the disciplines. Assessment techniques include the use of running records, holistic writing scoring, journal entries, miscue analysis, reading and writing conferences, and strategic maps to develop reflective portfolios and biographic profiles.

ELY 600 Literacy and Research: Inquiry I   3 credits
(This course should be taken as the first in the sequence.)
This is an introduction to the foundations of literacy instruction with emphasis on literacy research and will focus on current topics such as: literacy standards and assessment, literacy and technology, curriculum, learners with special needs, and historical perspectives of literacy instruction. The underlying goal of this course is to encourage teachers to be reflective practitioners and critical consumers of research. Students will begin to develop electronic professional portfolios to enhance self-reflection and to document their learning throughout this program.

ELY 602 The Reading-Writing Connection  3 credits
Language and literacy development in young children is examined in everyday contexts in school and in the home. The reciprocal relationship between writing and reading and the spoken language competence children bring with them to school is emphasized. Literacy is considered within the framework of a contextualized construct with emphasis on the process approach to developing writing ability.

ELY 603 Literacy in the Middle and Secondary Schools  3 credits
This course aims to help middle and secondary teachers facilitate classrooms where reading and writing are effective tools for learning, where collaboration and communication are valued and enhanced in the learning process, and where young people are encouraged to develop critical perspectives and strong voices. Attainment of literacy is central to knowledge construction in all middle and secondary school curricula. Students will examine issues of literacy in different subject areas and the varied demands on readers and writers as the range of literate activities changes according to context. This course is designed to enable inservice teachers and literacy specialists to improve the literacy of students in the middle and secondary schools.

ELY 653 Language, Literacy and Culture  3 credits
Current research from diverse fields such as sociolinguistics, language learning and development, and the anthropology of education, has widened our understanding of what it means to be literate. Current paradigms define literacy broadly as a set of socially organized practices shaped by culture, class, and gender, as well as our educational, political, and economic systems. This course is designed to facilitate critical reflection on how multiple literacies are shaped by social forces from birth through schooling, and beyond.

ELY 750, 751 Assessing and Addressing Literacy Needs 1 and 2  (6 credits taken over two consecutive semesters)
Prerequisites for ELY 750: ELY 600, 602, 603
Prerequisites for ELY 751: ELY 750
This two course sequence will concentrate on assessment of reading and writing ability with the purpose of enhancing literacy instruction for all learners as well as providing interventional assistance to help struggling readers and writers. Both formal and informal assessment strategies will be closely examined with the goal of helping learners to attain the appropriate standards of literacy ability. Students will work with individuals at various ages who are struggling readers and writers. Special emphasis will be given to strategies that enhance literacy development for learners with diverse needs including students with handicapping conditions, English language learners, and reluctant learners. The course will entail the development of a collaborative literacy portfolio to enhance self-reflection, setting goals, choosing instructional strategies, and reporting on progress.

ELY 753, 754 Practicum in Literacy I and II:  3 credits each
Permission of program chair is required for enrollment in these courses. Prerequisite for ELY 753 is ELY 751; prerequisite of ELY 754 is the successful completion of ELY 753. ELY 753 and 754 may not be taken concurrently.
This two-course sequence consists of supervised application of diagnostic and interventional techniques in a clinical or classroom situation. Students will apply and interpret formal and informal assessment strategies so as to individualize instruction for struggling readers and writers. Students will have the opportunity to work with individuals and small groups. Both elementary and secondary clinical experiences are available.

ELY 777 Literacy Summer Institute: Examining Current Issues  3 credits
An opportunity for study of research and methods with scholars in whole language. Daily general sessions include presentations by whole language authorities who share their knowledge and expertise with participants. Daily workshop sessions focus on bridging the gap between theory and practice. Workshop leaders and presenters share their work experience using the whole language philosophy across the curriculum, from preschool through secondary school.

ELY 779 Balanced Literacy Perspectives  3 credits
Prerequisite: ELY 540.
Designed to bridge the gap between research in literacy development and proper instructional practice. Students learn strategies for creating multifaceted classroom curriculum in environments that foster literacy. Primary emphasis is in authentic reading/writing/speaking/listening language experiences extended across disciplines.
ELY 810 Literacy and Research: Inquiry II  3 credits
Students must have completed a minimum of 24 credits prior to registering for this course.
This capstone class will culminate with students engaged in an in-depth investigation or action research project related to literacy teaching and learning. Students will propose and implement a project of their own design relevant to their interest or teaching situation. Projects may include such topics as: addressing the literacy needs of special learners, developing innovative and interdisciplinary literacy curriculum, application of technology in the literacy curriculum, or initiatives designed to facilitate educational change in literacy education. Continual collaborative discussion of students’ summative electronic portfolios will be emphasized.

HEALTH STUDIES

HED 501 The Dynamics of Substance Abuse  3 credits
Examines the problem of substance abuse by studying its psychological, legal, and pharmacological aspects. Various methods of prevention and rehabilitation will be explored. After taking this course, pre-service teachers will have the knowledge and skills to teach to the health education standards related to tobacco, alcohol, and other drug education.

HED 504 Comprehensive Health Education for Secondary School Educators  3 credits
This course is designed to prepare educators with the skills and knowledge necessary to develop and teach a comprehensive health education program for students. Course work in drug education, HIV/AIDS, child abuse, and violence prevention will satisfy NYS Certification mandates for secondary school teachers. Students will learn how to develop and implement intermediate and commencement level learning experiences based on current NYS standards in health, physical education and family and consumer sciences.

HED 505 Multidimensional Aspects of Stress  3 credits
Investigation of theoretical and practical aspects of human stress and stress management. Using a multidimensional model of health and an experiential approach to learning, students will analyze stress from both a professional and personal perspective. Stressors involving cultural, socioeconomic and environmental factors will be addressed. After taking this course, pre-service and in-service teachers will have the knowledge and skills to teach to the health education standards related to stress and mental health education.

HED 506 Health and Nutrition  3 credits
Students will examine recent nutritional theory and information as they impact on the health of the individual and the society. Topics will include nutritional needs throughout the life cycle, dietary needs of people with specific health problems, common eating disorders, the relationship between dietary patterns and disease, the relationship between culture, socioeconomic factors, lifestyle and nutrition, and nutrition education methods. After taking this course, pre-service and in-service teachers will have the knowledge and skills to teach the health education standards related to nutrition, eating disorders, and body image education.

HED 520 Special Topics  3 credits
An in depth examination and analysis of a specific health issue. Topics chosen will change periodically to reflect contemporary concerns. Examples of courses taught in the past include environmental health, women’s health issues, and death and dying.

HED 530 Student Teaching  6 credits
Prerequisites: All coursework in health education must be completed prior to student teaching.
This course provides the capstone experience in the health education program. Students are required to spend 8 weeks in a K–6 setting and 8 weeks in a 7–12 setting. The placement is full-time, five days a week. Students work with a cooperating teacher, who is chosen by the department, and a supervising professor from the University. Emphasis is placed on the implementation of teaching and curriculum approaches taught in previous courses and preparing students to plan and execute instructional activities to create productive learning environments and to monitor and assess student learning.

HED 537 Student Teaching in Health  3 credits
Students are required to spend 7–8 weeks in a health education setting. The placement is full-time, five days a week.

HED 538 Student Teaching in Health Education  6 credits
Prerequisite: Department approval
This course provides the capstone experience in the health education teachers program. Students are required to spend 16 weeks in a K–12 school setting. The placement is full-time, five days per week. Students work with a cooperating teacher, who is chosen by the school and the University, and a supervising professor from the University.

HED 571 Health Issues for the Educator  3 credits
Study of the cognitive issues and educational methods in health education appropriate for the classroom teacher. Course work in drug education, HIV/AIDS, and child abuse and violence prevention will satisfy NYS Certification mandates for elementary school teachers. Students will learn how to develop and implement elementary level learning experiences based on current NYS standards in health, physical education and family and consumer sciences.

HED 601 Contemporary Health Issues  3 credits
Investigation of critical health issues affecting individuals, families, and communities. Detailed analysis of causes and prevention strategies will draw from social science, medical, epidemiological, and education research. Topics studied include alcohol, tobacco, and other drugs, human development, environmental health, personal health and safety, cancer prevention, and basic nutrition. Students are taught to adapt what they learn to that classroom setting.
HED 602 Research and Technology in Health Education 3 credits
This course provides students with an understanding of different research methods and how to analyze and critique existing research. Students are introduced to issues in assessment and evaluation. Students will focus on research studies and issues in health education. Students will utilize the latest technology to analyze data and present information.

HED 603 Mind/Body Dimensions in Health 3 credits
This course is a philosophic and speculative study of health. Students will examine the interaction of the mental and physical dimensions of health as they relate to human adaptation. Psychosocial factors that affect health, such as, cultural influences, socioeconomic conditions, social environment and normalcy are explored.

HED 604 Aspects of Human Sexuality 3 credits
Analysis of the multidimensional aspects of human sexuality in relationship to human development and personal and social well-being. Students are introduced to current concepts related to sexually transmitted disease, family planning, cultural and environmental influences on sexuality, parenting, abuse and violence in sexuality, and sexuality among the disabled and elderly. Awareness and insights will be useful to a variety of professionals.

HED 605 Issues in Community Health 3 credits
An analysis of characteristics and developments in the health system, with specific focus on elements that impact on prevention issues.

HED 607 Health Promotion for Children and Adolescents 3 credits
This course is designed to educate students about the theory and concepts surrounding health promotion and risk reduction programs for youth. Students will explore health issues such as sexuality education, chronic and communicable diseases, puberty and HIV/AIDS, sexual orientation, tobacco, alcohol and other drugs, nutrition, physical fitness, body image, child abuse and abduction, mental health and violence. Students will also be investigating issues related to working with adolescents and youth living in urban areas.

HED 620 Special Topics in Health Education 1 credit
This course fulfills the fieldwork internship requirement for health education majors.

HED 621 Teaching Human Sexuality 3 credits
The socio-cultural, psychological, biological, and ethical dimensions of teaching comprehensive sexuality education. Theoretical and practical applications of sexuality education throughout the life span will be explored. After taking this course, pre-service and in-service teachers will have the knowledge and skills to teach to the health education standards related to sexuality education, including parenting, family planning, abstinence-education, and comprehensive school health.

HED 626 Fieldwork Internship 1 credit
This course provides students with a fieldwork placement where they can complete their supervised observation hours.

HED 627 Project Seminar 2 credits
This course provides students with an opportunity to dialogue and receive advisement about their master’s project, the culminating experience in the degree program.

HED 650 Health and Cultural Diversity 3 credits
Prerequisites: HED 601, 602, 603, 605.
Critical examination of health issues confronting various minority groups in American society, including the analysis of the impact of culture and ethnic identity on the understanding and treatment of particular health related problems.

HED 653 Environmental Health 3 credits
Students will develop a working knowledge of today’s topical issues in environmental health. In addition, students will be able to incorporate the various activities and methods learned to enrich their instruction in environmental health.

HED 654 Mass Communication Skills 3 credits
Prerequisites: HED 601, 602, 603, 605.
The analysis, application, and evaluation of the mass communication process, incorporating electronic and non-electronic forms of media for community health education programs. Upon completing this course, students will have the knowledge and skills necessary to plan health education programs for various populations.

HED 655 Health and Cultural Diversity 3 credits
Prerequisites: HED 601, 602, 603, 605.
This course provides students with an opportunity to dialogue and receive advisement about their master’s project, the culminating experience in the degree program.

HED 670 Substance Abuse Prevention 3 credits
Prerequisites: HED 601, 602, 603, 604, 605.
Exploration of the individual and societal factors contributing to substance abuse. Analysis of theories of drug use and susceptibility to drug dependence, and educational intervention to prevent misuse and abuse will be addressed.

HED 702 Intervention Techniques for Health 3 credits
Prerequisites: HED 604 and 650 (701 preferred).
Designed to prepare professionals to identify and cope with health-related problems among various populations. The impact of social and cultural environment on interpersonal communication is examined. Course work will include the development of counseling skills and referral resources for crisis intervention.

HED 703 Dynamics of Teaching Health 3 credits
Prerequisites: HED 601, 602, 603, 604, 605.
Analysis of effective teaching strategies for use in various health education settings. Emphasis on the development of innovative methods that are learner-centered. After taking this course, students will have the knowledge and skills necessary to develop curriculum and teaching strategies and assess their impact on students.
**PHYSICAL EDUCATION**

**PED 500 Organization and Principles of Coaching** 3 credits
Principles and philosophy of sport as an integral part of physical education, equipment, selection of personnel, in addition to local, state, and national regulations.

**PED 501 Scientific Foundations of Coaching** 3 credits
Kinesiological, physiological, and psychological applications to sport and coaching, including skill analysis, training and conditioning, and motivation. Anatomical and Physiological foundations.

**PED 502 Care and Prevention of Injuries** 3 credits
Physiological and anatomical concepts relative to injury, including the physical examination, protective taping, equipment and facility evaluation, theoretical basis of conditioning, and emergency care.

**PED 505 Professional Seminar** 3 credits
Contemporary trends and issues in physical education, exercise, and sport. Literature review and analysis of issues from a variety of perspectives. An overview and examination of standards and their historical development in New York State. The role of physical education and its connection to societal issues. Issues relative to the profession, teaching, fitness, sport, and social interactions will be presented in a seminar format. The course is viewed as a culminating experience for those pursuing the study of physical education.

**PED 508 Technology in Health and Physical Education** 3 credits
Overview of applications and software relative to teaching health and physical education. Includes portfolio development, Excel, Power Point, Fitnessgram, heart rate monitors, nutrition analysis, and links to teaching curricula.

**PED 509 Health Related Fitness Education** 3 credits
Overview of the various curricula and pedagogical applications to teaching of health related fitness and nutrition concepts. Applications are made both to elementary and secondary schools. Physical Best certification included as one of the programs.

**PED 536 Student Teaching in Physical Education** 6 credits
Prerequisites: EDU 516; or permission of department.
This course provides the capstone experience in the physical education teachers program. Students are required to spend eight weeks in a K–6 setting and eight weeks in a 7–12 setting. The placement is full time five days per week. Students work with a cooperating teacher, who is chosen by the School and the University and a supervising professor from the University.

**PED 550 Workshops in Physical Education** 3 credits
Specialized, in-depth workshops relative to teaching, special physical education, sports medicine, exercise physiology, or sports management. Includes leadership in violence prevention.

**PED 618,619 Advanced Exercise Physiology I, II** 3 credits each
The study of physiological function in both homeostatic and non-homeostatic environments as applied to exercise physiology. Specifically, metabolism, the cardiorespiratory system, neuromuscular system, renal system, endocrine system, and gastrointestinal function will be studied in relation to chronic and acute exercise as well as during adverse thermic and barometric environments.

**PED 620 Clinical Aspects of Work Physiology** 3 credits
Prerequisites: PED 463; or permission of department.
Familiarization with laboratory techniques in work physiology, including electrocardiography, stress testing, and testing and exercise prescription.

**PED 621 Laboratory Investigation in Work Physiology** 3 credits
Advanced study of the physiology of muscular exercise. Lecture and laboratory sessions will focus on the cardiovascular, respiratory, and neuromuscular exercise.

**PED 623 Adult Fitness Programming** 3 credits
Principles and practices of adult fitness programming. Emphasis is upon fitness evaluation and exercise programming and modification.

**PED 624 Nutrition and Physical Activity** 3 credits
Exploration of the interrelationship between nutrition and physical activity, obesity, and the role of activity in weight loss.

**PED 625 Medical Aspects of Sport** 3 credits
A critical examination of the literature and research. Training, ergogenic aids, nutrition, injuries, and work in the heat are among the topics discussed.

**PED 626 Theories of Exercise Prescription** 3 credits
Prerequisite: PED 461.
An introduction and overview of therapeutic exercise including basic principles of exercise prescription and evaluation. Emphasis is placed upon orthopedic rehabilitation and exercise prescription techniques.

**PED 628 Cardiac Rehabilitation** 3 credits
Prerequisites: PED 463 and 621.
Principles and processes of restoring and maintaining optimal well being for the cardiac patient. Program designs, medical surgical management, patient education, exercise prescription guidelines, testing methodology, pharmacology, and coronary risk factor reduction.
PED 630 Psychology of Sport 3 credits
Selected psychological factors that influence participation in sport and physical education; personality, dynamics, motivation, aggression, competition, with emphasis on research and theoretical implications.

PED 632 Introduction to Sports Management 3 credits
A general overview of the application of management theory to athletics and sports organizations and an introduction to problems in sports management.

PED 636 Athletic Administration 3 credits
Application of administrative theory to intercollegiate and interscholastic athletics including budgeting, facility management, personal relations, marketing, personnel management, Title IX, and ethical concerns.

PED 637 Organization and Administration in Physical Education 3 credits
An investigation into the processes of appropriate organization, administrative techniques, and procedures useful in efficient management.

PED 638 Sport in American Culture 3 credits
An examination of the nature and place of sport in American life; an analysis of the interrelationships between sport and institutions, social systems, and culture; and an exploration of the impact sport has on the individual coach, participant, and spectator.

PED 639 Introduction to Sports Law 3 credits
A general overview for the administrator, coach, or teacher. Students gain knowledge of the variety of state and national laws applying to sports through assigned readings and case analyses.

PED 641 Social Foundations in Physical Education 3 credits
In meeting the New York State Standards, the course presents an overview of social theory applied to physical activity. Interactions between males and females, cultural awareness, and diversity issues presented.

PED 643 Movement Experience for Elementary School 3 credits
A comprehensive study of movement in relation to motor and perceptual motor development in children. Includes movement activities for the elementary school child, curricula, and program development.

PED 650 Research and Design of Experiments 3 credits
Survey and critical analysis of different types of research in physical education; analysis of techniques and designs; statistics.

PED 651 Seminar in Current Issues in Physical Education 3 credits
Critical issues at the local and national levels. Survey of literature and analysis of current practices.

PED 652 Curriculum Analysis 3 credits
Major issues in curriculum planning, the present status of physical education programs, and experimental development in curriculum. Overview of New York State Standards presented.

PED 653 Motor Learning 3 credits
Psychological and physiological factors affecting the acquisition of motor skills. Emphasis on the role of teachers in facilitating learning.

PED 654 Biomechanics 3 credits
Prerequisite: PED 461.
Body framework and architecture and neuromuscular considerations as applied to human movement. Analysis of movement and its applications to teaching coaching of motor skills.

PED 656 Teaching Analysis 3 credits
Analysis of effective instructional techniques and aids. An examination of models and tools for the behavioral analysis of teaching and their application to physical education. Includes experiences in observing, recording, describing, and analyzing the teaching act.

PED 658 Neuromuscular Aspects of Human Performance 3 credits
A study of the neuromuscular system, its structure, nervous control function, and its role in establishing adaptations to exercise, training, and other stresses.

PED 644 Clinical Training 3–6 credits
Field work at Veterans Administration Hospital. Experiences include: work with the physically disabled; the developmentally disabled; geriatric health care; and general rehabilitation. 1,000 hours required for certification.

PED 670 Physical Education for the Developmental and Learning Disabled 3 credits
Characteristics and needs of the developmental and learning disabled; programs of physical education and recreational activities; methods of teaching basic motor skills and movement perception.

PED 671 Physical Education for the Exceptional Child 3 credits
The need and physical capacities of the special child for physical, emotional, and social adjustment. Overview of state and national standards and regulations.

PED 673 Evaluation of Special Populations 3 credits
Techniques and methods of assessment and appraisal of disabled students in physical education. Techniques of assessment in fitness, body mechanics, and motor patterns.
**SCHOOL OF EDUCATION COURSES  119**

**PED 676 Physical Education Recreation for the Physically Disabled**  
3 credits  
The organization and administration of recreational activities for the disabled. Adapted programs for the physically, mentally, and emotionally disabled are reviewed. Curriculum and design for special recreational programs and camping are developed (at Human Resources Center, Albertson).

**PED 680 Advanced Topics in Physical Education**  
Prerequisite: permission of department.  
3 credits each semester  
A series of seminars involving intensive literature review and discussion in an area related to: adapted physical education, motor learning, biomechanics, fitness education, medical aspects of sport, exercise physiology, and sport management.

**PED 791 Independent Study**  
Prerequisite: permission of department.  
Comprehensive investigation of an area of special interest.

**PED 792 Internship**  
Supervised field experience.  
3 credits

**PED 793 Thesis Research**  
Prerequisites: PED 653, 654, 656, and permission of department.  
3 credits each semester  
Designed to provide students with the opportunity to implement and evaluate innovative concepts and procedures in teaching and curriculum design related to the training of competent physical education teachers.

**Leisure Studies (Recreation)**

**LES 670 Leisure/Recreation Facilities Management**  
3 credits  
A survey course designed to introduce the student to the operation of special facilities such as golf courses, rinks, coliseums, camps, beaches, pools, and sport complexes. The administrative, supportive, and maintenance services unique to the operation and organization of such recreational facilities will be reviewed.

**COMMUNICATION SCIENCES AND DISORDERS**

**Speech-Language Pathology and Audiology**

**SPH 600 Speech and Hearing Science**  
3 credits  
An overview of speech production. Specific topics include speech articulation and acoustics, resonance models of the vocal tract, basic instrumentation, basic principles of spectrographic analysis, practical experience with speech instrumentation and measurement techniques.

**SPH 602 Speech and Language Development**  
Open to non-speech pathology majors and graduate speech pathology majors only with permission of department.  
3 credits  
The study of patterns of speech and language acquisition in normal children. Topics include theories of speech and language acquisition; techniques for psycholinguistic analysis; milestones in the development of syntax, semantics, phonology, and pragmatics; cultural/linguistic diversity; and general principles for the facilitation of speech and language development in children at risk for delays/disorders in speech/language development.

**SPH 603 Language Disorders in Children I**  
3 credits  
An in-depth study of communication disorders exhibited by children birth to five years of age with developmental disabilities. Language assessment techniques and remediation strategies are discussed in terms of normal developmental models. Multicultural/multilingual and technology issues are considered.

**SPH 605 Advanced Aural Rehabilitation**  
3 credits  
Lectures and demonstrations are structured to acquaint the student with the history, theories, clinical approaches, materials, and research related to speech reading, auditory training, and speech conservation for the deaf and hearing impaired. Topics include ASL, deaf culture, auditory verbal approaches, and total communication.

**SPH 606 Advanced Audiology I**  
3 credits  
This course integrates theoretical and practical aspects of audiologic assessment. The standard audiometric battery is presented in detail, preparing students with the skills necessary to interpret basic clinical findings. Current
ASHA guidelines for audiometric assessment and screening of adult and pediatric populations is discussed. An overview of selected topics in audiology, with discussion of other specialized diagnostic audiometric tests, will also be provided.

**SPH 607 Advanced Clinical Audiology II**  
*Prerequisite: SPH 606.*  
Advanced study of the following topics on auditory disorders of the ear and hearing: auditory deprivation; sensorineural hearing loss/presbycusis; noise trauma (industrial audiology/hearing conservation); auditory phenomena (recruitment, adaptation, tinnitus). In addition, demonstrations and discussion of the rationale, methods, and interpretation of behavioral site-of-lesion tests, including central auditory testing, will be provided.

**SPH 608 Application of the Microcomputer to Diagnostics and Remediations of Communicative Disorders**  
*Prerequisite: SPH 606.*  
Addresses current diagnostic and therapeutic applications of the microcomputer to the speech- and language-impaired individual. Lectures, videotapes, and software demonstrations are presented to illustrate the various applications. Specific needs of special populations such as the developmentally disabled, autistic, and neurologically impaired are addressed. Students learn to review available software critically.

**SPH 609 Psychoacoustics and Instrumentation**  
An examination of the bases of normal auditory perception; a discussion of the processes underlying auditory phenomena are integrated with a demonstration of techniques and instrumentation used to measure these phenomena; topics covered include basic electronics, calibration, measurement of sound, perception of loudness and pitch, binaural hearing and masking; laboratory exercises will be provided. A one hour/week lab is required.

**SPH 610 Speech Disorders in Children**  
An in-depth examination of the nature of normal articulatory/phonological development, the nature of speech disorders and differences (foreign/regional accents) in children and the nature of assessment and therapy. Emphasis on the application of theory to clinical decision-making process.

**SPH 611 Motor Speech Disorders**  
Study of disorders of neuromotor origin that affect speech production; a review of anatomy and physiology of the central nervous system and detailed study of physiologic correlates of the dysarthrias and the apraxias. Topics include: dysphagia, augmentative communication, and laryngectomy.

**SPH 613 Advanced Speech Science**  
*Prerequisite: SPH 600.*  
Advanced study of speech production and perception; topics include a detailed study of the physiologic and acoustic characteristics of speech, segmental and suprasegmental features of speech, current models of speech production and perception, practical laboratory experience with basic speech instrumentation and clinical speech measurement techniques.

**SPH 620 Fluency Disorders**  
*Prerequisite: SPH 600.*  
Study of theoretical issues; current research; development and symptomatology of stuttering, cluttering, and other related pathologies; evaluation procedures and therapeutic approaches for preschool, school-age, and adult populations.

**SPH 624 Language Disorders in Adults**  
Focuses primarily on the disorders of neurogenic origin that affect language performance, specifically acquired aphasia, the dementias, and disorders of traumatic origin. Neurological bases of these disorders, language assessment techniques, and remediation strategies are considered.

**SPH 630 Voice Disorders**  
*Prerequisite: SPH 600 and 613.*  
A review of normal ventilatory, laryngeal, and supralaryngeal function for voice production; an overview of clinical voice disorders: their classification, diagnosis, and management. Experience is provided using and interpreting objective clinical measurement techniques in the evaluation of the phonatory function.

**SPH 634 Diagnostic Procedures in Speech-Language Pathology**  
Survey of the representative tests and measurement techniques for the various speech and language pathologies. Emphasis will be on developing an understanding of the rationale of the various assessment approaches, as well as acquainting students with the diagnostic process, including report writing, interviewing, and interpretation of test results.

**SPH 636 Dysphagia: Evaluation and Management**  
The study of disorders of swallowing in the pediatric and adult populations. Intensive review of the anatomy and physiology of the normal swallowing mechanism; abnormal swallowing problems and their symptoms; assessment of deviant swallow patterns and clinical management.

**SPH 638 Language Disorders in Children II**  
A description and discussion of a range of developmental disorders in older language learners between the ages of 5–21 years. Specifically, developmental disorders are discussed in terms of language production and comprehension aspects in relation to normal developmental issues. Language assessment techniques, including authentic assessment and remediation strategies will be discussed in terms of normal developmental models and cultural/linguistic diversity.

</table>
SPOH 711 Advanced Anatomy, Physiology, and Theories: The Speech Mechanism  3 credits
A detailed study of the peripheral speech mechanism, current theories of ventilation, phonation, and supralaryngeal function; an examination of select aspects of the human nervous system as related to speech production.

SPOH 712 Neurological Bases of Speech  3 credits
Includes study of the central and peripheral nervous systems, the sensory coordinating motor systems, the endocrine coordinating system, and the neural integration of the systems associated with speech.

SPOH 713 Otolaryngological Aspects of Speech Pathology and Audiology  3 credits
The anatomical and physiological functions of the speech and hearing mechanism as it relates to the production and reception of speech.

SPOH 720 Experimental Phonetics  3 credits
Phonological, acoustic, and physiological parameters involved in speech perception, phonetic, phonemic, and acoustic analysis and synthesis.

SPOH 721 Instrumentation  3 credits
Theoretical principles and procedures in the selection, operation, calibration, and maintenance of instrumentation in the communication sciences; review of the electronics fundamentals and basic circuit design. Direct experience is provided with laboratory instrumentation and clinical measurement techniques common to contemporary clinical practice in the speech and hearing sciences.

SPOH 740, 741 Seminar in Current Issues and Research Trends in Speech Pathology and Audiology  3 credits each
Readings and discussion on current issues and research in the field.

SPOH 799 Continuous Matriculation

SPOH 800 Advanced Seminar in Differential Diagnosis of Communicative Disorders  3 credits
An exploration of current techniques and methodology involved in the differential diagnosis of disorders of speech, language, and hearing. Current philosophical issues in assessment will also be considered.

SPOH 801 Theoretical Foundations of the Remediation of Language Disorders in Children and Adults  3 credits
An analysis of theoretical models and concepts (information theory; developmental psycholinguistics; theories of phonology, semantics and pragmatics; behavioral models) that are relevant to the development of therapy programs for various language impairments.

SPOH 805 Proseminar in Audiology  3 credits
A review and synthesis of current audiological practices will be presented for the speech-language pathologist. Topics covered will include: behavioral and physiological techniques in auditory assessment; trends and techniques in the fitting of prosthetic amplification; pediatric, community, and industrial audiology; aural rehabilitation of children and adults. Faculty and guest expert presentations will provide the bases for discussion on these topics. Oral and written presentations will be made by students.

SPOH 831 Seminar in Prosthetic Amplification  3 credits
A doctoral level study of theoretical, technical, and clinical issues in prosthetic amplification. Topics include: hearing handicap assessment; binaural amplification; Vanderbilt Report; acoustic coupling consideration; hearing-aid related legislation; dispensing issues.

SPOH 832 Management of the Acoustically Handicapped  3 credits
Linguistic development of the hearing-handicapped encountered in language learning. Rationale for approach to treatment will be emphasized.

SPOH 860–863 Clinical Practice  2 credits each
Students perform supervised clinical practice in a variety of professional settings.

SPOH 864 Practicum in College Teaching  2 credits
Students teach undergraduate courses under direct supervision of faculty.

SPOH 895 Doctoral Thesis Seminar  3 credits
Selection, preparation, and design of a research project for potential submission as a thesis topic proposal. Continuous course enrollment is subsequently required on a noncredit basis until the thesis topic proposal has received departmental approval.

Deaf Studies

SPD 521, 522, 523 Beginning/Intermediate Advanced ASL Sign Language  3 credits each
Emphasis is on the development and expansion of receptive and expressive American Sign Language skills and finger-spelling. Deaf culture issues will be emphasized. Placement in courses other than beginning will depend on satisfying completion of the previous course or permission of the instructor.

SPD 528 Technology in Deaf Education  1 credit
Introduces teachers to the application of computer software used in the field of deaf education. Evaluation and adaptation of FM units will be studied. This course will be given either on the Adelphi campus or in a school for the deaf.
SPD 600 Auditory Disorders 3 credits
Evaluation of testing procedures appropriate for the diagnosis of hearing impairment will be discussed. Diseases and syndromes leading to deafness/hearing impairment will be the focus of this course. Degrees of hearing loss in relation to specific disorders as well as differential diagnosis of types of hearing impairment will be explored.

SPD 601 Amplification Systems 3 credits
(Section 1: Deaf studies majors)
Evaluation of various types of amplification systems and hearing aids will be discussed as they relate to the learning and instructional process. Hearing aids, auditory trainers, and other amplification systems will be studied.

SPD 601 Amplification System 3 credits
(Section 2: Audiology Majors)
This course will provide a background on the effects and management of hearing impairment using amplification. State and Federal hearing legislation, including current ASHA guidelines on amplification systems will be discussed. An in-depth presentation of amplification systems will be conducted to include discussion of assistive, personal, and implantable types. Circuit options and components of personal hearing aids will be studied in detail. Laboratory exercises will be performed in the areas of electroacoustic analysis, otoscopic examination, and earmold acoustics/impressions/modifications.

SPD 604 Language Development of Deaf/Hearing Impaired 3 credits
The study and evaluation of the language of hearing children will be compared to that of the deaf/hearing impaired child. Various language systems will be discussed including natural language, whole language, and ASL. Assessment, diagnosis, and therapy techniques will be explored.

SPD 605 Aural Habilitation of Deaf/Hearing Impaired 3 credits
An overview of speech, speechreading, auditory training, and auditory oral skills in the deaf/hearing impaired child will be presented. Emphasis will include speech/language systems used in educational settings. Therapy techniques will be explored.

SPD 610 Adapting Elementary Education Instructional Methods for Deaf/Hearing Impaired 3 credits
Current teaching methods and strategies appropriate for the deaf/hearing impaired child will be explored. Specific techniques encompassing individual philosophies will be demonstrated. The functional adaptation of theory and research will be applied to the elementary deaf/hearing impaired student.

SPD 611 Adapting Intermediate Instructional Methods for Deaf/Hearing Impaired 3 credits
Adaptation of curriculum and instructional strategies will be emphasized. Methods and resources appropriate for the deaf/hearing impaired student will be explored and demonstrated. Focus will be on selecting and modifying materials appropriate for this population.

SPD 620 Perspectives on Deafness 3 credits
Cultural, social, and educational issues relating to deafness from infancy through adulthood will be explored. The focus will be on an orientation to various cultural perspectives relating to deaf children and adults.

SPD 621 Approaches to Teaching the Multiple Disabled Deaf/Hearing Impaired 3 credits
Various methodologies for teaching deaf students with additional handicaps will be explored and demonstrated. The course will assist teachers of deaf/hearing-impaired students in developing appropriate skills for teaching with secondary handicaps.

SPD 630, 631 Student Teaching 6 credits each
Students will be placed in schools for the deaf. Supervised internship will be provided. Students will be responsible for attending a weekly student teaching seminar.

SPD 640 Supervision and Administration in Deaf Education 3 credits
Students will explore the similarities and differences in the administration of schools for the deaf as compared to public schools. Issues such as funding, hiring practices, and budgeting will be discussed.

Professional Philosophy

The mission of the Adelphi University School of Nursing is to educate nurses who will be influential in the transformation of health care in the 21st century. As a constituent of the University, the School of Nursing is committed to the study of liberal arts, sciences, and nursing.

The scope of professional nursing requires specialized knowledge and skills, based on theory, research, and practice. Nurses are accountable to clients, society and the profession for the quality of care provided. The curriculum is planned to allow students to build progressively on knowledge previously gained and to develop skills at advancing levels of practice. Baccalaureate education in nursing is the foundation for professional practice. Students at the Master’s level are prepared for advanced nursing practice and for the pursuit of doctoral study.

The Post-Master’s Certificate and Continuing Education programs are offered to meet the ongoing educational needs of nurses in the community.

Programs of Study

A. Master of Science

1. Concentration in Advanced Nursing Practice
   Adult-Health Nursing
2. Concentration in Nursing Service Administration

B. Post-Master’s Certificate Program

1. Nursing Administration
2. Adult Health Nurse Practitioner

C. Doctor of Philosophy

D. Joint MS/MBA Degree Program

The Master of Science (M.S.) program prepares advanced practice nurses for the roles of nursing administrator and nurse practitioner in adult-health nursing. Planned educational experiences include study of people in health and illness and practice of nursing intervention with individuals, families, groups, and communities. Through this rich and cohesive curriculum, students emerge as leaders able to solve problems, make decisions, and initiate change.

The 45–48-credit program leading to the Master of Science consists of 9–12 credits of foundation courses, 30 credits in the nursing major, and 6 credits of research and master's project guidance. The program provides a foundation for doctoral study, is accredited by the National League for Nursing Accrediting Commission (61 Broadway, New York, New York, 10006, (212) 363-5555). The School holds membership in
the Council of Baccalaureate and Higher Degree programs of the National League for Nursing, the American Association of Colleges of Nursing, and the National Organization of Nurse Practitioner Faculties.

**Degree Requirements for the Master of Science**

Candidates for the degree of Master of Science must satisfactorily complete a program of study of 45–48 credit hours and submit a master’s project. Candidates must also fulfill all requirements of the curriculum in which they are enrolled.

The required Master’s Project is a scholarly paper for which a number of options are available. These include a project proposal that does not require implementation for graduation; completion of a qualitative or quantitative research project; an evaluation research project; or an educational or administrative project.

Degree requirements must be completed within five years after matriculation. At the end of the five-year period, the student’s record is reevaluated in terms of the curriculum in effect at the time and is advised of any additional requirements for graduation. The responsibility of fulfilling degree requirements rests with the student. The period of matriculation begins at the end of the semester in which the student becomes a degree candidate.

**Concentration in Advanced Nursing Practice**

The advanced nursing practice concentration entails in-depth study of adult-health nursing. The curriculum integrates theoretical knowledge and practical skills while exploring the issues and forces within the health care delivery system that affect the roles of the advanced practice nurse. Students have opportunities to work with advanced practice nurses and other health professionals in a variety of clinical settings.

**Adult-Health Nursing Component**

(46–48 credits)

Through study of the many facets of physical illness and nursing care, this component prepares students to become nurse practitioners in adult-health nursing. The program emphasizes scientific inquiry as a tool for building clinical knowledge and testing the validity of the theoretical assumptions underlying nursing practice.

**Program Plan***

**Adult-Health Nursing—Nurse Practitioner**

**Required Courses**

NUR 602  Ways of Knowing  
NUR 603  Educational and Counseling Interventions  
NUR 702  Health Issues, Policy, and Politics in Health Care

**Specialty Core Courses**

NUR 761  Advanced Practice Roles and Functions  
NUR 762  Advanced Pathophysiology  
NUR 763  Clinical Pharmacology  
NUR 764  Advanced Health Assessment

**Specialty Courses**

NUR 633  Adult-Health Nursing I: Theory and Clinical  
NUR 638  Adult-Health Nursing II: Theory and Clinical  
NUR 640  Summer Clinical Practicum  
NUR 658  Adult-Health Nursing III: Theory

* Course sequences and plans for students are developed individually in consultation with the faculty advisor.
Internship
NUR 742   Adult Health IV: Theory and Clinical Research Courses

NUR 650   Nursing Research I  
NUR 750   Nursing Research II  
NUR 751   Project Advisement

Concentration in Nursing Service Administration

(45 credits)

The concentration in nursing service administration prepares nurse managers who can function in a variety of health care settings. Topics include nursing theories, group dynamics, communication, and professional issues and trends. To prepare to serve as leaders in improving health care services, students study leadership roles in the health care field. Through the program’s research component, students gain practice in analyzing and implementing research findings.

Program Plan*

Required Courses
NUR 602   Ways of Knowing  
NUR 604   Small Group Phenomena  
NUR 702   Health Issues, Policy, and Politics in Health Care

Specialty Courses
HRM 568   Personnel Management  
HRM 765   Developing World Class Human Resources  
MGT 561   Management Theory/ Organizational Behavior  
ACC 500   Financial Accounting  
HHM 776   Hospital and Health Care Finance  
NUR 664   Collective Bargaining  
NUR 665   Legal Issues  
NUR 666   Ethical Issues

NUR 768   Health Promotion and Illness Prevention Program Development  
NUR 769   Roles and Functions of the Nursing Service Administrator  
NUR 770   Seminar and Related Practicum in Administration

Research Courses
NUR 650   Nursing Research I  
NUR 750   Nursing Research II  
NUR 751   Project Advisement

* Course sequences and plans for students are developed individually in consultation with the faculty advisor.

Joint M.S./M.B.A. Degree Program

(69–71 credits)

Nurse administrators increasingly are becoming integral members of administrative teams within health service organizations and are competing for leadership positions with individuals from non-nursing backgrounds. Their responsibilities have grown in the areas of long-range strategic and financial planning, resource management, implementation of outcomes-based approaches to quality patient care, governance of board meetings, and management of multiple patient care departments. This combined 69–71-credit program with the School of Nursing and the School of Business allows the registered nurse holding a bachelor’s degree to complete the Master of Science in nursing and Master’s in business administration. The program incorporates contemporary management theory, business fundamentals and essential core competencies, knowledge, skills, and values of advanced professional nursing practice. The objective of this joint degree program is to prepare leaders who facilitate and embody the competencies required to help transform health service organizations and health systems as a whole.
Program Plan*

Nursing Requirements
(33–35 credits)

Required Courses
NUR 602 Ways of Knowing
NUR 604 Small Group Phenomena
NUR 702 Health Issues, Policy and Politics

*Course sequences and plans for students are developed individually in consultation with the faculty advisor.

Post-Master’s Certificate Program

Designed for students who already hold a master’s degree in nursing, the Advanced Certificate program provides an educational route to respecialize in an area other than that studied in their master’s program. The program aims to strengthen the administrative or clinical capability of master’s-prepared nurses who are planning or are already involved in a role expansion or role change. Some examples are: the clinical specialist who is moving into an administrative or nurse practitioner role; and the nurse whose major was teaching and who wishes to become a nurse practitioner.

The program is individualized for each applicant. It is a part-time course of study that includes 24–30 credits of master's courses, at least 12 of which must be taken at Adelphi University. The certificate is awarded upon successful completion of required courses. Prior graduate courses are evaluated for possible advanced standing in the certificate program.

Areas of study include nursing administration and nurse practitioner in adult health nursing.

Grading System

The grading system is consistent with the grading system used in master’s degree courses.

The Doctor of Philosophy  
(HEGIS:1203.10)  
Not accepting new students for the 2001/2002 academic year.  

Doctoral education in nursing at Adelphi, has its primary goal, the preparation of nurses who can develop, test, and apply nursing and related theory in clinical, educational, and administrative settings. New theory developed through synthesis and analysis, and tested via scientific research, is essential for advancing the scientific base of the profession and promoting excellence in nursing practice. Through the stimulation generated in an intellectual atmosphere where faculty and students mix freely in an exchange of knowledge and ideas, scholarly creativity comes from fruition.  

The objectives of the doctoral program are as follows:  
1. To prepare nurses who will define, articulate, and influence the nature and direction of nursing practice, nursing education, and nursing administration.  
2. To prepare nurses who will actively participate in the profession of nursing and in the multidisciplinary community of scholars.  
3. To prepare scholars and researchers who will contribute to the growth of nursing knowledge and practice through the development, testing, and use of nursing theory.  

The curriculum builds upon this theoretical and experiential foundation in four basic areas of concentration: the science of nursing, the pro-
profession of nursing, and selected areas of study according to individual need and prescription.

Progression through the program is marked through the following milestones: matriculation in the program as a degree student; candidacy; proposal acceptance; and, finally, completion of the dissertation, and the oral defense.

Admission to All Programs

In order to be admitted to the master’s program in nursing, the applicant must be a currently licensed registered professional nurse or be eligible for licensure endorsement, holding the baccalaureate degree from a professionally accredited baccalaureate program. The student’s preparation must include upper division theory and practice in parent-child, adult health, psychiatric, and community health nursing. Applicants are required to have completed a basic statistics course earning a grade of B or better. Applicants must also meet all prerequisites for their chosen specialty.

The applicant must have had at least two years of clinical practice in nursing prior to taking specialty courses. For students in the advanced practice majors, one year of practice should be in the intended area of specialization, or its equivalent. Each applicant must have a 3.0 grade-point average or B average, personal qualities necessary for advanced graduate study, and promise of successful professional development in the chosen field of specialization.

In order to be admitted to the Post-Master’s Certificate program, the applicant must be a registered professional nurse and provide evidence of an earned master’s degree in nursing.

The faculty reserve the right to require additional supportive data or prerequisites if any question arises from the evaluation of an applicant.

In addition to the University admissions requirements set forth elsewhere in this Bulletin, applicants for admission to the graduate programs must submit the following:

- Two letters of reference from the applicant’s most recent employers. Applicants to the advanced practice components are also required to provide a letter of reference from a supervisor of the applicant’s clinical practice.
- The application fee.

Applicants for the Post-Master’s Certificate program should submit only the following:

- Application forms.
- Evidence of having received a master’s degree in nursing, i.e., diploma or transcript.
- Application fee.

Admission to Joint Degree Program, M.B.A. in Management and M.S. in Nursing

Students can apply to the M.S. and M.B.A. programs concurrently. One application and one set of transcripts, references, and other supporting documents should be sent to the Office of University Graduate Admissions. Students may exit the program after completion of the requisite 45 credits for the M.S. in nursing. Students who are currently enrolled in the master’s program in nursing administration and who wish to enroll in the joint degree program must apply directly to the School of Business prior to enrolling in NUR 770. An additional 24 credits will be required for the M.B.A.

Admission Requirements

1. Current licensure as a registered nurse, or eligibility for licensure endorsement.
2. Possession of a baccalaureate degree in nursing from a professionally accredited program or a non-nursing baccalaureate degree plus a passing score on the NLN baccalaureate comprehensive achievement test.
3. Completion of a basic statistics course with a grade of B or better.
4. A minimum of two years of practice in nursing prior to taking specialty courses. One year of practice should be in nursing service administration.
5. Official transcripts from all previous colleges or universities attended.
6. Grade point average of 3.0.
7. Two letters of recommendation from the applicant’s recent employers.
8. Graduate Management Admission Test (GMAT results).
10. International applicants must have obtained a minimum score of 550 on Test of English as a Foreign Language (TOEFL) within the past two years; a declaration and certificate of finances; and certified English translations of all prior academic records.

**Advanced Standing**

The transfer of credits earned at another institution is allowed only for comparable graduate courses completed with a grade of B or higher within five years preceding the date of entrance to the School of Nursing of Adelphi University. Evaluation of advanced standing is made by the School of Nursing. A maximum of 12 graduate credits may be accepted as applicable toward the M.S. degree.

**Matriculation**

Students are considered matriculated when they have been accepted into the program as a degree student and enrolled in at least one course. Students in the master’s program have five years to complete their requirements.

**Textbook and Study Guide Expenses**

Students can expect to spend between $200 and $300 per semester for the purchase of textbooks and School of Nursing Study Guides. Textbooks are also available at the Reserve Desk in the Swirbul Library.

**Leave of Absence**

In every spring or fall semester in which students do not register for a course, they must request a leave of absence in writing. The student must then formally request readmission to the graduate program at the end of the leave.

A student returning from a leave of absence will need to update her/his academic program. Readmitted students must meet the admission and degree requirements in effect at the time of readmission. This will include an assessment of her/his clinical status, and may include additional classroom and clinical hours or other requirements, in order to meet state and national current standards.

**Grading System**

Credits earned with a grade of A or B are automatically applied toward degree requirements when the course in question is applicable toward such requirements. The minimally acceptable grade in all required courses is B–. In the master’s program C– is the minimally acceptable grade for electives. Required courses with a grade of C+, C, or C– may be repeated once with permission of the instructor and academic advisor. Failure to meet the above grading requirements will result in dismissal from the program.

For further information on the University grading system, and on Withdrawals (Ws) and Incompletes (Is), see the section titled “Grading System” in this Bulletin.

**Note:** A course with a grade of I prohibits a student from registering for the next requisite course in the course sequence.

Students with two or more Incompletes may not register for future course work until at least one Incomplete is removed.
General Information

Health Regulations for Nursing Majors

Maintenance of high standards of health is the responsibility of every citizen. Students in nursing programs have an additional responsibility in protecting themselves because they come in contact with a variety of individuals who are physically sick. Therefore, each candidate, prior to registration for clinical courses, is required to present evidence of having completed the immunizations and examinations listed on the University medical form. The health requirements are listed below:

- Annual Physical
- Annual Mantoux (with CXR if positive)
- MMR Titers showing immunity
- Tetanus within 10 years
- Hepatitis B Vaccine Series or
- Hepatitis B Declination Statement
- Varicella Titer (this is now required by some of the hospitals)

Health forms are provided by the School of Nursing and must be submitted to the University Health Services Center before each fall semester. Failure to submit a health form will result in suspension from clinical experiences.

Insurance

All students are required to have accident and health insurance in order to participate in a clinical practicum. All students must carry professional malpractice insurance, which is provided at low cost through a group policy.

School of Nursing Learning Center

The School of Nursing Learning Resources Center includes a learning laboratory, a computer laboratory, a seminar room with demonstration bed, and a small auxiliary laboratory for physical assessment skills. The skills laboratory simulates the hospital setting with all appropriate and supportive supplies and equipment. These include advanced patient care mannequins and simulators, injecta-pads, intravenous training arms, ostomy models, and many other innovative educational devices. In addition to regularly scheduled classes held in the nursing laboratory, open laboratory skills sessions are held regularly with a clinical coordinator, providing all students with an opportunity for reinforcement of clinical learning.

School of Nursing Organizations

The School of Nursing Acting for Progress (SNAP) is an organization composed of all students and faculty of the School of Nursing, was formed to bring its constituents together to consider and discuss problems, issues, and concerns affecting the members of the School of Nursing. The organization stimulates interest and involvement in professional and social issues and provides a conducive environment for informal socialization among its members.

Honors in Nursing

Sigma Theta Tau International, Inc.

The School of Nursing's honor society is the Alpha Omega Chapter of Sigma Theta Tau International, Inc., the International Honor Society of Nursing. The purposes of this organization are to:

- Recognize the achievement of scholarship of superior quality.
- Recognize the development of leadership qualities.
- Foster high professional standards.
- Encourage creative work.
- Strengthen commitment on the part of individuals to the ideals and purposes of the profession of nursing.

Graduate students who have achieved a grade-point average of 3.5 on the graduate level and who have successfully completed one-quarter of the graduate program may be considered for membership.
Financial Aid

**Sigma Theta Tau Scholarship**

Each year, the Alpha Omega chapter of Sigma Theta Tau International, Inc. offers a Nursing Scholarship Award. Eligible are full- or part-time master’s students who are members of Alpha Omega who have a minimum grade-point average of 3.5, and who demonstrate accomplishment and leadership in professional endeavors and community activities. The Alpha Omega chapter of Sigma Theta Tau also offers annual research awards. Master’s students who are active members of Alpha Omega chapter may apply.

**Employer Tuition Reimbursement**

**Employer Billing**

If a company will pay the University directly regardless of the student’s grades, an authorization from the employer must be submitted to the Office of Student Financial Services at the time of registration. The student will be required to pay all tuition and fee charges not covered by their employer at the time of registration. Students may participate in this program as long as payment is not contingent upon successful course completion.

**Employer Deferment**

Students who will be reimbursed by their employer only after a grade is received must present an official letter of intent from their employer, specifying the tuition and fees covered. The student will be required to pay all remaining tuition and fees and the $75 reimbursement deferment at the time of registration.

Students should ask their employer or union about participation in either of these programs.

**Waiver of Academic Regulations**

Students may petition the dean of the School of Nursing for a waiver of an academic regulation of the school.

---

**COURSES OF INSTRUCTION**

**SCHOOL OF NURSING**

**NUR 602 Foundation A: Ways of Knowing**

3 credits

Examines various theoretical and conceptual frameworks basic to advanced nursing practice. The course explores ways of developing knowledge through such processes as scientific inquiry, critical thinking, logic, and intuition. The relationship of critical thinking and theory development to practice, research, and education is emphasized.

**NUR 603 Foundation B: Educational and Counseling Interventions**

3 credits

Focuses on the role of the advanced practice nurse as a provider of education and counseling in practice settings. Students examine the impact of the changing focus of health care—from treatment to prevention and health promotion—on nurses’ psychoeducational role. In addition, students practice basic communication skills required to fulfill the role, review research that has demonstrated the beneficial outcomes of patient education and counseling, and examine their practice to determine where and how to incorporate psychoeducational interventions. Problem-based self-directed learning is used to promote critical thinking and generate discussion about pertinent theories, problems, and issues.

**NUR 604 Foundation C: Small-Group Phenomena**

3 credits

Provides students with an opportunity to synthesize concepts, principles, and theories into a knowledge base for planning, leading, and evaluating small-group events. Students explore systematic approaches for diagnosing complex group problems and determining interventions.

**NUR 633 Adult Health Nursing I: Theory and Clinical**

5 credits

Prerequisites and Corequisites: NUR 602,761,762,763,764.

This five-credit theory and clinical course is grounded on elements of holistic care and is the first of four comprehensive courses that focus on the primary care management of adults through the life span. Students gain beginning experience with differential diagnosis and the teaching and counseling roles of the nurse practitioner. Theory and clinical practice related to selected cardiac and respiratory disorders; hematological problems; common emergencies; infection; dermatological problems; eye, ear, nose, and throat disorders; and health promotion strategies are emphasized. Attention is also given to critical thinking inherent in the use of assessment data essential to health care maintenance and disease prevention. Legal, ethical, and cultural aspects of advanced nursing care are considered and pertinent research is included. This course consists of three hours of lecture and two credits of clinical including 120 hours of clinical practice.
NUR 638 Adult Health Nursing II: Theory and Clinical  5 credits
Prerequisites and Corequisites: NUR 602, 633, 761, 762, 763, 764.
This five-credit theory and clinical course is designed to expand the student’s knowledge obtained from Adult Health I and is the second of four comprehensive courses that focus on the primary care management of adults through the life span. The course provides the student with increasingly complex problems meant to test the student’s ability to distinguish subtle from obvious alterations in the health status of the adult. Theory and clinical practice related to selected women’s health issues, gastrointestinal disorders, endocrine disorders and genitourinary problems are stressed. Attention is given to critical thinking essential to health care maintenance and disease prevention. The teaching and counseling roles of the nurse practitioner, and leadership strategies applied to population-based care are continued. Legal, ethical, and cultural aspects of advanced nursing care are considered and pertinent research is included. This course consists of three hours of lecture and two credits of clinical including 140 hours of clinical practice.

NUR 640 Summer Clinical Practicum  2 credits
Prerequisites and Corequisites: NUR 602, 633, 638, 761, 762, 763, 764.
This two-credit concentrated clinical course presents practice opportunities for students to further enhance their skills in, and knowledge of, the nurse practitioner role. Attention is given to clinical skills acquisition, nurse practitioner role refinement, client case presentation, and further time management in the primary care of adult clients. Further refinement and improvement in the student’s critical thinking, diagnostic reasoning, and health management skills are provided. The teaching and counseling roles of the nurse practitioner, leadership strategies, legal issues, ethical issues, and cultural aspects of advanced nursing care are incorporated. This course requires 100 hours of clinical practice and meetings with course instructor as scheduled.

NUR 650 Nursing Research I  3 credits
Prerequisite: basic course in statistics.
Focuses on selected aspects of the research process, including review of literature, problem definition and hypothesis formulation, basic research design, and sampling theory. Based on a process of scientific inquiry, students explore and critically analyze theory and research findings related to their areas of interest.

NUR 653 Adult Health Nursing III: Theory and Clinical  5 credits
Prerequisites and Corequisites: NUR 602, 633, 638, 640, 761, 762, 763, 764.
This five-credit theory and clinical course is designed to further expand the student’s knowledge base obtained from Adult Health I and II and is grounded on elements of holistic care and includes the primary care management of adults through the life span. The course provides the student with increasingly complex problems and opportunity for further refinement and improvement in the student’s critical thinking, diagnostic reasoning, and health management skills are provided. Differential diagnosis of common health problems, including psychosocial disorders, aging issues, musculoskeletal disorders, and neurological disorders are included. The teaching and counseling roles of the nurse practitioner, and leadership strategies applied to population-based care are emphasized. Legal, ethical, and cultural aspects of advanced nursing care are considered and pertinent research is included. This course consists of three hours of lecture and two credits of clinical including 140 hours of clinical practice.

NUR 664 Collective Bargaining  1 credit
Focuses on the areas of professional liability as it relates to negligence, intentional torts, and client consent. The roles of the nurse practitioner and nurse manager are explored as they relate to patient advocacy and risk management.

NUR 665 Legal Issues  1 credit
Addresses three critical areas in current professional practice: the moral foundations of professional practice; the elements of ethical decision-making; and maintaining ethical practice climates in health care delivery systems.

NUR 702 Foundation E: Health Issues, Policy, and Politics in Health Care  3 credits
Focuses on selected trends and issues in health care and their interrelationship with nursing practice. Main emphases are on the analysis of issues and strategies to influence these trends so that nurses can make a greater contribution to the health care delivery system.

NUR 742 Adult Nursing IV: Theory and Clinical  4 credits
Prerequisites: NUR 602, 603, 633, 638, 640, 653, 761, 762, 763, 764.
In this four-credit culminating internship experience, students focus in-depth on the implementation of the advanced nurse practitioner role. This course is the final integration and synthesis of advanced practice in adult health. There will be integration of professional role and practice issues, and updates on legislation and health policy affecting nurse practitioners. During this practicum, students apply the knowledge and skills that were acquired throughout their course of graduate study as they assess, plan, implement and evaluate holistic health care for adults. Theory and clinical experiences focus on the comprehensive management of clients with multiple health problems. All necessary clinical experiences specified for Adult Nurse Practitioner are completed and a certification review and mock certification exam are included in this course. This course consists of two hours of theory and two credits of clinical including 200 hours of clinical practice.
NUR 749 Seminar/Clinical II  
2 credits  
Prerequisite: NUR 633, 635, 638, 640, 653, 742, 602, 603, 761, 762, 763, 764.  
This course is for students who require additional clinical hours to complete the internship experience.

NUR 750 Research II  
3 credits  
Prerequisite: NUR 650.  
This course continues the study of quantitative and qualitative nursing research begun in Research I. Knowledge and skills related to critiquing nursing research studies are further enhanced as students compare studies in an area of interest and cluster present knowledge within that area. The processes of planned change and nursing research utilization are also explored, with an emphasis on the interrelationship between them. Students have the opportunity to discuss their current/proposed research in seminar sessions.

NUR 751 Project Advisement  
0 credits  
(Fee course—equal to 3 credits)  
In this noncredit individual advisement, students work with their master’s project advisor towards completion of the master’s project. Students are expected to register for advisement for each semester in which they seek guidance. Students cannot register for one semester and use that time in a subsequent semester.

NUR 761 Role of the Nurse Practitioner  
2 credits  
Prerequisite: None.  
This two-credit course examines role development of the professional nurse and emphasizes leadership in advanced nursing practice. Analysis of the social, cultural, economic, and political contexts in which nurse practitioners provide holistic care are studied. The course draws on both historical development and current changes in nurse practitioner education and practice. Discussion related to relevant research, and the legal and ethical implications of nurse practitioner practice is included.

NUR 762 Pathophysiology for Nurse Practitioners  
3 credits  
Prerequisite: None.  
This three-credit course uses a systems approach to examine concepts in pathophysiology as a basis for advanced nursing practice. Building on knowledge of normal anatomy and physiology, the student will learn to demonstrate an understanding of pathophysiological principles such as clinical manifestations and alterations in physiological function in organs and systems. Utilizing these concepts of pathophysiology, the foundation of nursing management of primary health care patients during acute phases of illness, as well as during recovery and rehabilitation, will be explored. Analysis and interpretation of laboratory data will be undertaken, relative to pathophysiological principles and concepts. This course consists of three hours of lecture.

NUR 763 Advanced Pharmacology  
3 credits  
Prerequisite: NUR 602, 762.  
This three-credit theory course in clinical pharmacotherapeutics focuses on the pharmacotherapeutic use of medications for primary health care management by advanced nurse practitioners. Emphasis is placed on the clinical critical thinking process used to prescribe drugs in the management of specific illnesses. The New York State laws for advanced practice nurse prescriptive authority will be addressed. This course builds on prior knowledge of drug classification, actions, interaction, and adverse drug reactions. Core concepts include pharmacodynamics, pharmacokinetics, pharmacotherapeutics, health related information, medication compliance, and issues that pertain to the prescribing of medication in advanced nursing practice.

NUR 764 Advanced Health Assessment  
4 credits  
Prerequisites NUR 762, 763, and an undergraduate human assessment course within five years or the equivalent course in CEU credits.  
This four-credit course will critically review and analyze health assessment as a model for the development of diagnostic reasoning skills. A regional approach to physical examination will be introduced and practiced and used to develop critical thinking and clinical decision making skills. The course builds on basic health assessment skills and emphasizes advanced assessment skills, lab work, interpretation, validation, documentation and analysis of assessment findings. A synthesis of the physical, psychosocial, cultural, developmental, occupational, and spiritual assessments will lead to a statement of the wellness/illness status and risk appraisal of the individual. Legal and ethical components of client interaction are included, as well as communication and leadership skills. This course provides 2 hours of theory and 2 hours of clinical laboratory experience.

NUR 765, 766 Clinical Specialization I, II  
4 credits each  
Prerequisites: NUR 761, 762, 763, 764.  
These courses provide the opportunity for applying practical and theoretical knowledge to develop clinical knowledge via the application of critical thinking and diagnostic reasoning. The courses involve a total of 600 hours precepted clinical experience in the specialty area.

NUR 768 Health Promotion and Illness Prevention Program Development for Nursing Administrators  
3 credits  
This course is an overview of the planning and implementation of health promotion projects as part of an overall program. Students will be introduced to the planning process, including program implementation, evaluation, and documentation. This course is designed for nurse administrators who are responsible for the implementation of health promotion and illness prevention programs. Students will work individually and in small groups to draft proposals for health promotion or illness prevention programs.
NUR 769 Roles and Functions of the Nursing Service Administrator 4 credits

Through observation and dialogue with nursing service administrators in diverse practice settings, and through analysis of scenarios, students explore dimensions of the role of the nursing service administrator and identify knowledge and skills required to fulfill the role. Problem-based, self-directed learning is used to promote critical thinking and generate discussion about pertinent research findings, theories, problems, and issues.

NUR 770 Seminar and Related Practicum in Administration 8 credits

Prerequisites: all specialty courses.
Provides seminar and practical experience in the observation, participation in, and critical analysis of various roles and functions of nursing administrators.

NUR 870 Dissertation Advisement (Fee Course—equal to 3 credits) 0 credits

This advisement is the final educational requirement for dissertation preparation and is continuous until completion of the research project. It provides one-to-one guidance necessary in development of the research project and in final preparation of the dissertation.

The School of Social Work is accredited by the Council on Social Work Education (C.S.W.E.) at both the baccalaureate and master’s level.

Professional Philosophy

Social work is a profession that seeks to ameliorate human suffering. This commitment is based upon the assumption that people, individually and collectively, have innate strengths and that strategies to enhance and restore a capacity for social functioning are both capable of discovery and teachable. Multidisciplinary knowledge from the arts and sciences is essential to the education of social workers, for the profession requires practitioners who have been exposed to a breadth of ideas and information. Social work education is grounded in the perspective that environmental influences affect the development and well-being of people and must be taken into account when assessing behavior and life situations.

Social work education at Adelphi University integrates knowledge from a variety of disciplines in all courses throughout the curriculum. Rather than being taught selected facts and theories as single truths, Adelphi students grapple with opposing ideas, consider a broad range of facts and theories, and finally, learn to select and apply knowledge to ameliorate social problems.

Programs of Study

- Master of Social Work (M.S.W.) Program
- One Year Residency (M.S.W.) Program
- 16 Month Accelerated (M.S.W.) Program
- Part-time M.S.W. Program
- B.S.S.W.—M.S.W. Advanced Standing Program
- Adelphi/Hudson Valley M.S.W. Program
- Bilingual School Social Work Program
- Doctor of Social Welfare (D.S.W.) Program
- Post-Master’s Certificate Program in Clinical Social Work
- Post-Master’s Certificate Program in Bilingual School Social Work
- Post-Master’s Addiction Specialist Certificate Program
Master of Social Work Program

The Master of Social Work program provides the preparation necessary for advanced professional social work practice from a multimethod perspective. The degree is 64 credits. The first half of the curriculum (32 credits) is general foundation knowledge that is essential to all forms and levels of practice. The second half of the curriculum (32 credits) offers one area of concentration, which prepares students for advanced, contemporary, direct practice.

Organization and Structure of the Curriculum

All students entering the first year of the Adelphi University M.S.W. program are required to take the same ten courses. Eight of the ten are academic courses and two are supervised field internships in which students apply theories learned in class to direct practice with clients.

The ten required first-year classes are distributed as follows: two consider social welfare policy; two analyze theories of human behavior; two present theories of social work practice; one teaches about diversity, oppression, and cultural influences in social work practice; one teaches the methods of empirical research; and two provide supervised field instruction.

In the second year of their M.S.W. program, all students at Adelphi University must complete ten courses, two of which are supervised field internships. The eight remaining second-year classroom courses are distributed as follows: two courses in advanced social work practice; one course in assessment and diagnosis from a social work perspective; one course in advanced social work research; one course in the organizational context for professional practice; a capstone seminar; and two electives.

The social work practice methods sequence teaches the theoretical models, empirical bases, values, and skills that are required for direct work with individuals, families, groups, and communities. These courses are reinforced by the field internship or practicum as students put to use their newly gained knowledge about how to assess needs, set goals, and intervene with clients to achieve those goals.

The human behavior and social environment courses provide foundation knowledge about the biological, psychological, and social determinants of human behavior that are essential to assessing the needs clients have, understanding their situation, and selecting intervention strategies. The social work practice methods and human behavior and the social environment courses are interrelated: a method of practice could not be taught without understanding the complex underpinnings of human behavior.

The social work research courses inculcate a scientific approach to practice and provide the tools required to systematically evaluate social work practice and services, build the professional knowledge base, critically evaluate the professional literature as well as that of ancillary disciplines, and assess the effectiveness of one’s own practice.

The social welfare policy and organization courses impart knowledge about the social policies, programs, and organizations that provide services and shape professional practice. They teach the theory, empirical data, values, and skills necessary to the development, design, implementation, and evaluation of social programs.

Field instruction provides students with the opportunity to work directly with people in a different field instruction setting in the first and second year of the M.S.W. program. In the first year, students complete a minimum of 600 hours of field instruction with an emphasis on developing foundation practice skills for work with individuals, families, groups, and communities. In the second year, students complete a minimum of 600 hours of field instruction in advanced, direct social work practice. Advanced Standing students may, in certain instances, be required to complete additional hours of field instruction if the candi-
date’s program is determined to vary significantly from Adelphi’s B.S.S.W. field curriculum. One Year Residency (O.Y.R.) students are required to take a 4 credit professional seminar SWK 601 concurrent with the foundation practice courses and complete 900 hours of field instruction in the second year concurrent with Advanced Social Work Practice course work.

Students are expected to work normal agency hours and are responsible for adhering to agency policies and practices. Although the School does offer field internships with evening hour assignments, all students are required to be available for a minimum of one full day or two half days during weekday daytime hours. Field instruction, unlike other academic courses, continues during January intersession and students are advised to factor possible housing expenses into their financial plans. In addition, students will need to arrange for transportation to and from the field agency.

The model presented below is the standard program for students who maintain full-time status over two years. While some students take courses on a part-time basis, the sequencing of courses and requirements is universal. All students must complete requirements within four years of matriculation and fulfill residency requirements by enrolling in ten or more credits in two successive semesters.

#### Second-Year M.S.W. Program
(32 credits)

In their second year, students are in a contemporary, direct practice concentration. They are required to take Advanced Social Work Practice with Individuals and either Advanced Social Work Practice with Groups or Advanced Social Work with Families and Couples. Students may take the other practice course as one of their two electives if they choose.

OR
Admission Requirements

The requirements for admission to the M.S.W. program are based on academic background, values consonant with the profession, and paid and/or volunteer human service experience. The requirements include the following:

1. A baccalaureate degree from an accredited college or university with a strong background in the liberal arts and sciences.

2. Personal characteristics and qualifications related to successful professional performance based upon criteria set forth in the National Association of Social Workers Code of Ethics.

3. A minimum undergraduate grade-point average of 3.0 on 4-point scale. If the undergraduate average falls between 3.0 and 2.5, the following criteria are used to determine whether an exception can be made:
   a. Subsequent graduate education reflects a G.P.A. of 3.0 or higher.
   b. Substantial paid or volunteer work experience.
   c. Unusual circumstances and/or unique personal qualifications which suggest professional promise and subsequent contribution to the profession.

4. International students must have a TOEFL score of 585.

Candidates for the Advanced Standing program must have obtained an undergraduate degree from a C.S.W.E.-accredited social work program within the past five years, and are required to have achieved grades of “B” or better in their social work courses. In some cases, additional courses may have to be taken if the candidate’s program varies significantly from Adelphi’s B.S.S.W. undergraduate curriculum.
Application Procedure

Each candidate is required to file an application provided by the University’s Office of Graduate Admissions or the School of Social Work.

Applications for all programs are processed on the basis of a rolling admissions policy. However, it is strongly recommended that applicants for the Advanced Standing program and transfer students file applications by March 1. The School reserves the right to limit applications as necessary.

Candidates must submit at least three reference letters. Preferred sources are supervisors in the social agencies in which they have been volunteering or employed, college instructors, or others unrelated to the applicant who are equipped to evaluate their readiness for graduate study. Candidates must arrange for the forwarding of their college transcripts and submit a personal statement of how their interest in social work developed and the life experiences that may have influenced this professional choice. Please refer to the questions posed on the application. Any candidate may be interviewed to secure additional information or to gain impressions as to personal qualifications.

Applications are reviewed by the coordinator of admissions and the admissions committee. All Advanced Standing and O.Y.R. applicants are interviewed by a member of the faculty.

For additional information please contact Ms. Marcia Edwards, Coordinator of Admissions for the School of Social Work (516) 877-4384/4360.

Admissions Procedures

Each step of the admissions process is designed to contribute information about the qualifications of the candidate. The application form, other supporting documents, and the interview are used to elicit relevant objective, as well as subjective, data. Data are obtained from the following sources:

1. The application form provides information such as prior educational experience and paid or volunteer work experience.
2. Educational background data, including transcripts, provide insight as to the quality of educational institutions attended, continuity of participation in the educational process, scholarly potential as revealed in grade-point average, and prior areas of study.
3. Material on employment background and volunteer activity sheds light on the quality of the applicant’s work history in relation to readiness for professional education.
4. Information on organizational affiliations in school and community gives evidence of leadership experience, interests, and commitment to social issues.
5. The personal statement provides evidence of the motivation of the applicant, the role of significant life experiences on the choice of the social work profession, and on the applicant’s skill in writing and conceptualizing.

References

Letters of reference are particularly valuable when received from employers or supervisors in social work settings or from college teachers who can report on learning patterns and academic potential. (References from close friends and family members are not appropriate.) Letters of reference also help to assess the candidate’s potential for growth or readiness for professional social work education.

Personal Interview

A personal interview is a requirement for transfer applicants, for graduates with bachelor degrees from C.S.W.E.-accredited undergraduate schools other than Adelphi, for O.Y.R. applicants, and for any candidates who show evidence of potential problems or special needs that the School would like to attend to in support of the candidate (e.g., grades between 2.5 and 2.9, insufficient liberal arts and science background). The interview is used to evaluate the
applicant and to secure any additional information necessary to arrive at an overall assessment of the applicant’s capacity and readiness to undertake professional social work education.

**Decision-Making Process**

On the basis of review by members of the admissions committee and the coordinator of admissions, a decision is made and forwarded to the University admissions department. The University then notifies the applicant of the School’s decision.

**Tuition Assistance**

The School of Social Work has various tuition assistance programs to assist M.S.W. students with the cost of their graduate education.

**Need Based Scholarships**

The School awards a limited number of scholarships to full-time, incoming students based on financial need. Application for aid is made at the point of application to the program.

**Elizabeth A. Doherty Memorial Scholarship**

Kathleen J. Esposito, the sister of the late alumna and adjunct, Elizabeth A. Doherty, established a memorial scholarship in 2001, its mission consistent with Elizabeth’s lifetime commitment to social work, counseling, and assistance to those in need. Only students who plan to enter the field of drug and alcohol addiction and who demonstrate both commitment to women’s issues are eligible. To qualify, applicants must be studying for a graduate degree in the School of Social Work and be in financial need.

**The Rita Paprin Memorial Scholarships**

The family and friends of the late social work professor, Rita Paprin, established a memorial scholarship in 1983, its mission consistent with her lifetime commitment to changing social policies. Students who have demonstrated a strong commitment to social policy development and social change are eligible. To qualify, students must have completed at least 12 credits and be enrolled in either our bachelor’s, master’s, or doctoral program.

**The Patricia Hochfelder Memorial Scholarship**

The Beldoch and Hochfelder families of the late alumna, Patricia Beldoch Hochfelder, established a memorial scholarship in 1986, its mission consistent with her lifetime commitment to social justice. Current minority students with outstanding academic records and in financial need are eligible. To qualify students need to have demonstrated their commitment to the values of equity and social justice as evidenced by work they have done in the community or social work agency directed toward social change and advocacy.

**Agency Tuition Remission**

Students employed in a social work agency which is affiliated with the School’s field education program may be eligible for agency tuition remission. To qualify, the student’s agency must designate accrued tuition remission credits to the employee consistent with the University’s policy for agency tuition remission.

**Graduate Assistantships**

The School has a number of graduate assistantships available. These grants are applied directly to the student’s tuition. Students receiving an assistantship work with a member of the faculty on research and/or administrative projects.

**Bilingual School Social Work Scholarship**

The School of Social Work is a participating member in the Bilingual Scholarship Program offered by the New York City Board of Education. These full tuition scholarships are available for bilingual students interested in working for the N.Y.C. Board of Education upon graduation. The School offers the courses man-
dated by the New York State Education Department for State Certification. In addition, the School also provides an appropriate bilingual/bicultural internship. The scholarships are awarded directly by the N.Y.C. Board of Education.

Transfer Students from Accredited Schools of Social Work

Applicants wishing to transfer to Adelphi after successfully completing the foundation level at another accredited school of social work may be accepted into the advanced level of the M.S.W. program. The applicant is required to file a complete application and include a field evaluation from the school. A personal interview is also required. Applicants who wish to transfer credits for courses taken on a part-time basis at another accredited School of Social Work may do so consistent with the School’s policy on transfer credits.

Transfer Credits

Students who have taken a graduate course in an accredited graduate program similar to an Adelphi social work course may request a transfer of credit. A transcript, a course description, a course outline and bibliography must be submitted to the assistant dean for academic affairs. The course should have been taken within five years of matriculation with a grade of “B” or better. The assistant dean, in consultation with the sequence chair, assesses the degree to which the course corresponds to the Adelphi course. If the graduate credit is approved for transfer, the student does not have to take another course in its place. A placing out exam may be required at the discretion of the assistant dean.

Students who completed a graduate course that counted toward a baccalaureate degree cannot receive transfer credit for that course. Only courses completed for graduate credit can be transferred.

Course Waivers

Course waivers are granted selectively on an individual basis. Students who have taken an undergraduate course similar to an Adelphi social work course may request a course waiver. A transcript, a course description, a course outline and bibliography must be submitted to the assistant dean for academic affairs. The course had to have been taken within five years of matriculation with a grade of “B” or better. The assistant dean, in consultation with the sequence chair, assesses the degree to which the undergraduate course corresponds to the Adelphi course. If the course does correspond, the student will then be required to take a placing out exam. If the student passes the exam (i.e., receives a grade of 80 or a “B”), the course is waived and the student must take another course in its place. Graduate credit cannot be granted for previously taken undergraduate courses.

M.S.W. One-Year Residency (O.Y.R.) Program

The O.Y.R. program is a 64-credit program designed for practitioners with a minimum of three years of social-work related, paid experience under direct M.S.W. supervision. This program may be completed on a part-time basis. During the foundation year, O.Y.R. students enroll in a 4-credit seminar (SWK 601). Foundation practice courses are supported by students’ concurrent employment in their human service agency. All O.Y.R. students are required to complete one year “in residence” during which they meet a 900-hour field instruction requirement.

Part-Time Program

Students may schedule courses and field internships to complete the M.S.W. program in three to four years. Evening and weekend courses are available. Students may also complete courses during the summer session. Field instruction requirements may be completed on
an extended basis (14 hours per week) beginning in the fall, spring, and summer sessions.

B.S.S.W.–M.S.W. Advanced Standing Program

Students who complete the four-year baccalaureate degree in social work from a C.S.W.E.-accredited program are eligible to apply for admission to the graduate program and, if accepted, can complete the Master of Social Work degree in one year. In the second semester of the senior year, social welfare majors may apply for admission into the Advanced Standing program. Eligibility for the program requires a better-than-average record in the social welfare major including field instruction performance. Applicants must have a minimum overall grade-point average of 3.0, with grades of B or better in all social work practice courses as well as positive recommendations from faculty advisors and classroom professors. Applicants for advanced standing with a B.S.S.W. from a School of Social Work other than Adelphi will be interviewed by a member of the faculty.

Bilingual School Social Work Program

The Bilingual School Social Work Program is a 70-credit program leading to the M.S.W. degree and a Certificate in bilingual school social work. This certificate is recognized by the New York State Education Department. This program is designed for bilingual individuals interested in working as a bilingual social worker in a New York State primary or secondary school setting. Sixty-four credits are taken within the M.S.W. program and 6 credits are taken within the School of Education. This program can be completed either full-time or part-time with the two education courses taken after completion of the M.S.W. degree requirements.

Adelphi/Hudson Valley M.S.W. Program

The Adelphi/Hudson Valley program offers individuals living in Hudson Valley an opportunity to begin their graduate education in social work in a convenient location as either full-time or part-time students. The program is designed to meet the needs of those interested in pursuing the Master of Social Work (M.S.W.) degree as well as those wishing to explore their options in the field of social work. Criteria for admission are identical with those in Garden City.

All programs offered as part of the regular graduate programs are available to Hudson Valley students as well. All first-year and selected second-year courses are offered at the Hudson Valley program site in Poughkeepsie, New York. The remaining second-year courses are taken at the main campus of the Adelphi School of Social Work on Long Island. Field placements for both first- and second-year students are arranged in agencies in the Hudson Valley area. Typically, second-year students attend classes on Long Island one day a week and spend three days a week in the field in Hudson Valley.

All courses offered in the Hudson Valley use the same outlines, bibliographies, and assignments as the courses offered on the main campus. The scheduling of courses and their mode of delivery follow the same pattern as those offered in Garden City. Uniform exams or assignments related to sequences are also used in the Hudson Valley program.

Admission to the Hudson Valley program is handled centrally by the Admissions Office in Garden City, using the same criteria and procedures governing applicants to the main campus. All decisions regarding admission are made by the Coordinator of Admissions in Garden City in concert with the Admissions Committee chaired and composed of full-time faculty.

For further information contact:

Eileen Chadwick
Adelphi/Hudson Valley Program
Manhattan Center M.S.W. Courses

The School of Social Work offers courses toward the M.S.W. degree at the Manhattan Center, located in Manhattan’s SoHo district. Students have the opportunity to begin the master’s program on a full or part-time basis and can complete the foundation year by taking classes during the fall and spring in Manhattan and taking two courses during the summer in Garden City. The remaining degree requirements are taken at the Garden City campus with the exception of the advanced practice courses. On-site support services include academic and field advisement, full computer and library facilities.

Doctor of Social Welfare

The Doctor of Social Welfare program prepares students for leadership positions in social work practice, in university-based teaching and research positions, and in human service administration. Students learn to be scholar-practitioners and are equipped to further individual and social development for significant change. The curriculum is integrated to provide a balanced array of courses that will prepare students to meet the challenges of an increasingly complex world. Course work encompasses clinical practice, policy, administration and research. Students are taught to think critically, to evaluate a broad spectrum of clinical, administrative and policy interventions, and to create new knowledge as well as to use existing knowledge creatively.

Organization and Structure of the D.S.W. Curriculum

The D.S.W. program is designed to meet the needs of students who continue to work during their course of study. Classes are usually offered one afternoon and evening a week. Students take two courses (6 credits) per semester for eight semesters to complete 48 doctoral-level credits. In addition, eligible students must pass a Candidacy Exam and complete a dissertation focused on research and scholarship.

D.S.W. Course of Study*

First Year

*See pages 152–157 for D.S.W. course descriptions.

Second Year

Fall

SWK 850  Comparative Approaches to Social Work Research: Quantitative

SWK 882  Comparative Approaches to Social Work: Qualitative

Spring

SWK 845  Comparative Perspectives on Social Provision
Candidacy Exam

Third Year
Fall
SWK 846 Social Work Practice with Families: Theory and Research
SWK 854 Seminar on Proposal Development

Spring
SWK 849 Mental Health and Women: International Policy and Practice Issues
SWK 851 Methods of Data Collection and Analysis

Fourth Year
Fall
SWK 811 Social Work Education: Issues and Processes
SWK 848 Social Work Practice with Groups: Theory and Research

Spring
SWK 853 Research Seminar in Social Work
SWK 880 Writing for Professional Publication

Admissions Requirements

Admission to the D.S.W. program is predicated on the possession of a Master of Social Work degree, three years of successful post-M.S.W. professional experience, and demonstrated capacity to engage in advanced study. Each candidate is interviewed by one or two members of the doctoral faculty.

Exceptions to these requirements will be considered when applicants demonstrate equivalent attainments or compensating strengths. For example, an applicant has not yet completed three years of post-master’s professional experience, but will be employed in an appropriate professional position while pursuing doctoral studies; or an applicant has made a substantial contribution to professional knowledge by publishing in professional journals. Applicants who do not fulfill the prototypical admission requirement may be required to complete additional course work beyond the 48 credit hours.

The School of Social Work also considers the following criteria when evaluating applicants for acceptance into the doctoral program. Candidates must show significant evidence of:

- skill in written communication;
- ability to analyze professional issues and problems and to conceptualize appropriate responses to these issues and problems;
- ability to complete the required course work, as evidenced by prior academic performance or the results of objective advanced academic aptitude tests;
- ability to identify and conceptualize a dissertation research problem and to carry the research through to completion;
- ability to complete degree requirements in a timely fashion.

A high score on the TOEFL Exam (Test of English as a Foreign Language) is required of international students to demonstrate sufficient proficiency in language skills to carry out graduate work.

Application Procedure

Applicants for admission should:
1. Secure and fill out the form, Application for Admission to Graduate Studies;
2. Arrange for three letters of reference, using the provided forms to be sent to the above address;
3. Include a “career statement,” presenting your reasons for seeking the D.S.W. degree and describing how it fits into your professional career history and your future career plans;
4. Submit examples of your professional writing, either published or unpublished;
5. Mail your completed application form, application’s essay form, and non-refundable application fee ($50) in the enclosed pre-printed return envelope. Your application fee, in the form of a
check or money order, should be made payable to Adelphi University. All the above materials should be sent to:

Office of Graduate Admissions
Adelphi University
Levermore Hall
1 South Ave
Garden City, NY 11530

When the application is complete (all the above items having been received), the Director of the Doctoral program will communicate with the applicant to set up an admissions interview on the Adelphi University campus with one or two members of the doctoral faculty.

Applications should be completed preferably by April 1 for admission into the class beginning the following September. Admissions interviews will be held in March, April, and May. The Admissions Committee will meet to select a class to begin the following fall semester. Applicants will be notified of admission decisions in the latter part of April or early May. Applications received after the deadline will be considered if seats are still available.

Financial Aid
A limited amount of financial aid for doctoral students is available through research and teaching assistantships; they are awarded on a competitive basis.

Relationship to University Admissions
The decision to admit a student to the doctoral program rests with the Director of the Doctoral program. The relationship with University Admissions is consultative and procedural. For example, in the instance of international applicants or applicants attending special undergraduate programs in the United States, the University Admissions Office can provide help in evaluating the equivalency of academic courses.

The following materials are sent to the applicant by the University:
- Bulletin
- School of Social Work Cover Letter
- Application Form
- Data Card
- Reference Letter Forms

Official letters of acceptance or rejections are sent by the Office of University Admissions upon notification by the director of the division of Doctoral Studies.

Transfer Credit
Graduates of Adelphi School of Social Work’s post-master’s certificate program in clinical social work may petition for required course credit based upon School policy. Such petitions must be submitted during the fall semester of the first year in the D.S.W. program.

For additional information on the D.S.W. Program, contact the office of the doctoral program (516) 877-4386.

Post-Master’s Certificate Program in Clinical Social Work
The School of Social Work provides a non-credit post-master’s certificate program in clinical social work that is open to professionals holding a master’s degree in social work or an allied discipline. The program is designed to provide qualified social work practitioners with an opportunity to advance knowledge and sharpen skills in response to clients’ different needs. The program consists of five required core courses, one elective, and four continuing case seminars. It is organized over two academic years, including a summer session.

In addition to a master’s degree in social work, two years of post-master’s professional practice experience is required for admission into the program.

Additional details are available in a special bulletin. Graduates of the certificate program may be eligible to apply for 6 advanced credits in the Doctor of Social Welfare program. Applications are evaluated by the Admissions Commi-
mittee and results are recorded in the applicant’s file following successful completion of candidacy.

**Post-Master’s Addiction Specialist Certificate Program**

The Addiction Specialist Program is designed for human service practitioners who are interested in enhancing their knowledge and skill in working with clients with drug and alcohol problems. The program is committed to the belief that substance abuse and addiction are disorders that markedly affect individuals, families, and society. Clients require the services of professionals who have advanced specialized training and understanding in substance abuse and addiction treatment and prevention. Students, taught by experienced clinician-teachers, will learn cutting edge skills and concepts that can be integrated immediately into direct practice.

Practitioners with M.S.W. degrees or professionals with related graduate-level degrees are eligible to enroll. This curriculum establishes the practitioner as a specialist in working with addiction and, for most students, satisfies all educational requirements for the Credentialed Alcohol and Substance Abuse Counselor Certification (CASAC). Post-master’s and post-baccalaureate practitioners also can choose to take selected courses for CASAC recredentiating credits or for knowledge and skill enhancement. The program is organized over two academic years including a short summer session. Classes are held one evening per week and provide some opportunity for informal discussion and networking.

**Post-Master’s Certificate Program in Bilingual School Social Work**

This 16 credit post-master’s program is designed for bilingual M.S.W. graduates, who are seeking N.Y. State Certification in Bilingual School Social Work. To apply, please submit your application, your M.S.W. final transcript, and an essay describing your interest in bilingual school social work and in securing the certificate.

This program is also available to current Adelphi M.S.W. students. For more information, please contact Ms. Marcia Edwards, Coordinator of Admissions for the School of Social Work, at (516) 877-4384/60.
COURSES OF INSTRUCTION

SCHOOL OF SOCIAL WORK

M.S.W. Courses

Social Welfare Policy and Organization Sequence

SWK 500 Issues in Social Welfare I: History and Philosophy of Social Welfare  3 credits
This introductory course in social welfare policy focuses on four major themes: the development of social work as a profession; the emergence of social welfare institutions in the United States; the experience of oppressed populations in the United States; and the changing role of government in the provision of social welfare. These themes are examined with an emphasis on the philosophical, economic, social, and political forces that shaped the development of social work and social welfare in the United States. The course covers the period of time from the post-bellum or Reconstruction era to the present.

SWK 501 Issues in Social Welfare II: Inequality, Inequity, and Social Justice  3 credits
Prerequisite: SWK 500.
This course develops students’ ability to analyze, design, and enact social policies based on an understanding of the factors that contribute to the existence of contemporary social problems, especially economic and social inequality and the oppression of specific population groups. The course focuses on: frameworks for social policy analysis and development; conceptualizing, defining and developing solutions to social problems; the relationship between social constructions of the problems of oppressed groups and the “realities” of their conditions; major political perspectives on the role of government in redressing inequality; the role of social movements in defining and reducing social problems; and how social workers can contribute to the achievement of social justice in the United States.

SWK 710 Social Work Assessment and Diagnosis  3 credits
Prerequisite: SWK 511.
This course provides an understanding of psychopathology from a social work perspective. Concepts of mental health and mental illness are viewed from a historical and holistic perspective incorporating the impact of socio-economic, gender, racial, ethnic, and cultural factors. The course discusses classification of mental illness, for example anxiety states, mood disorders, personality disorders, substance abuse, dementia and schizophrenia, as set forth in the Diagnostic and Statistical Manual (4th edition). Emphasis is placed on the explanatory power of theories to inform practice on behalf of people with mental illness.

Human Behavior and the Social Environment Sequence

SWK 510 Human Behavior Theory for Social Work Practice I  3 credits
Prerequisite: SWK 510.
This is the first of two courses that stresses critical thinking in regard to theoretical perspectives on human behavior. The course presents the bio-psycho-social perspective with a particular emphasis on multiculturalism. This is followed by an exploration of the various social systems that impact human behavior. This exploration includes an analysis of a variety of theories and application to the social systems students address in practice. The course introduces theories about and perspectives on the human life span and begins a discussion of the life cycle, which is continued in SWK 511, covering conception through middle childhood.

SWK 511 Human Behavior Theory for Social Work Practice II  3 credits
Prerequisite: SWK 510.
This course builds on the foundations acquired in SWK 510 and continues with a multicultural perspective on the human life cycle. It begins with a brief review of the theoretical perspectives covered in SWK 510. It introduces ego psychology and functional and dysfunctional ego mechanisms as well as providing an exploration of concepts relating to stress and coping. It continues the discussion of the human life span in SWK 510 in the context of social systems and relevant theory. The period beginning with adolescence and ending with death is examined.

SWK 557 Social Work Research I  3 credits
Prerequisite or corequisite: SWK 500.
This course provides students with the basic tools needed to analyze, design, and enact social policies based on an understanding of the factors that contribute to the existence of contemporary social problems, especially economic and social inequality and the oppression of specific population groups. The course focuses on: frameworks for social policy analysis and development; conceptualizing, defining and developing solutions to social problems; the relationship between social constructions of the problems of oppressed groups and the “realities” of their conditions; major political perspectives on the role of government in redressing inequality; the role of social movements in defining and reducing social problems; and how social workers can contribute to the achievement of social justice in the United States.

Social Work Research Sequence

SWK 557 Social Work Research I  3 credits
Prerequisite or corequisite: SWK 500.
This course provides students with the basic tools needed to analyze, design, and enact social policies based on an understanding of the factors that contribute to the existence of contemporary social problems, especially economic and social inequality and the oppression of specific population groups. The course focuses on: frameworks for social policy analysis and development; conceptualizing, defining and developing solutions to social problems; the relationship between social constructions of the problems of oppressed groups and the “realities” of their conditions; major political perspectives on the role of government in redressing inequality; the role of social movements in defining and reducing social problems; and how social workers can contribute to the achievement of social justice in the United States.

SWK 510 Human Behavior Theory for Social Work Practice I  3 credits
Prerequisite: SWK 510.
This is the first of two courses that stresses critical thinking in regard to theoretical perspectives on human behavior. The course presents the bio-psycho-social perspective with a particular emphasis on multiculturalism. This is followed by an exploration of the various social systems that impact human behavior. This exploration includes an analysis of a variety of theories and application to the social systems students address in practice. The course introduces theories about and perspectives on the human life span and begins a discussion of the life cycle, which is continued in SWK 511, covering conception through middle childhood.

SWK 511 Human Behavior Theory for Social Work Practice II  3 credits
Prerequisite: SWK 510.
This course builds on the foundations acquired in SWK 510 and continues with a multicultural perspective on the human life cycle. It begins with a brief review of the theoretical perspectives covered in SWK 510. It introduces ego psychology and functional and dysfunctional ego mechanisms as well as providing an exploration of concepts relating to stress and coping. It continues the discussion of the human life span in SWK 510 in the context of social systems and relevant theory. The period beginning with adolescence and ending with death is examined.

SWK 710 Social Work Assessment and Diagnosis  3 credits
Prerequisite: SWK 511.
This course provides an understanding of psychopathology from a social work perspective. Concepts of mental health and mental illness are viewed from a historical and holistic perspective incorporating the impact of socio-economic, gender, racial, ethnic, and cultural factors. The course discusses classification of mental illness, for example anxiety states, mood disorders, personality disorders, substance abuse, dementia and schizophrenia, as set forth in the Diagnostic and Statistical Manual (4th edition). Emphasis is placed on the explanatory power of theories to inform practice on behalf of people with mental illness.
SWK 758 Social Work Research II  
3 credits  
Prerequisite: SWK 557.  
This course focuses on using and evaluating the knowledge base of social work practice. It applies concepts learned in Research I to the empirical evaluation of one’s own practice, the analysis and evaluation of empirical-based knowledge, and its use in social work practice. The course stresses issues related to the conduct of research in a practice profession, including the relationship between research and practice, the application of principles of critical thinking to both research and practice, and the ethical considerations crucial in research development.

Social Work Practice Methods Sequence

SWK 520 Foundations of Social Work Practice I  
3 credits  
Corequisite: SWK 690 or 590.  
This first practice course provides foundation knowledge within the context of a generalist intervention model. Knowledge, values and skills for social work practice at the micro, mezzo, and macro levels will be taught from an integrative practice framework. Students will be introduced to social work values, theoretical concepts, and interventive activities common to all social work practice methods.

SWK 521 Foundations of Social Work Practice II  
3 credits  
Prerequisite: SWK 520.  
Corequisite: SWK 691 or 591.  
This course focuses on the theories and skills necessary for social work practice with individuals, families, groups, and communities as a means of enhancing role performance and social functioning. The development of skills in facilitating the interaction of client systems and environments is emphasized, using a systems perspective in relation to problem solving. Crisis intervention, ego support, linking clients to resources, and alleviation of environmental stressors are considered. The small group and groups as representative of communities are examined as vehicles of growth, goal attainment, and empowerment.

SWK 542 Oppression, Diversity, and the Struggle for Human Rights  
3 credits  
Prerequisite or corequisite: SWK 500.  
This course emphasizes the systematic nature of oppression and the responsibility of social workers to engage in the struggle for social justice and human rights. The meaning and implications of related concepts such as discrimination based on race, ethnicity, gender, sexual orientation, class, disability, and aging are discussed. In addition to professional literature, there is an emphasis on experiential learning, encouraging students to get in touch with their own oppression and the biases they have toward others. Students gain an understanding of the practice principles and skills needed to be effective as change agents with diverse populations at the micro, mezzo and macro level.

SWK 780 Advanced Social Work Practice with Individuals  
3 credits  
Prerequisites: SWK 521, 691.  
Corequisite: SWK 790.  
Building on the foundation year, this course will focus on development of the knowledge and skills needed for advanced clinical social work practice with individual clients. Relying on ecological systems theory, the course will present various models for advanced practice, as well as the integration of these models. Teaching of all models will rely on the strengths perspective and be case-based.

SWK 782 Advanced Social Work Practice with Groups  
3 credits  
Prerequisites: SWK 521, 691.  
Corequisite: SWK 790 or 791.  
Group work practice will be examined in depth with application to social work within an agency context. The course creates a link with the foundation practices courses taught in the first year, as well as content taught in the foundation human behavior and social environment courses. Emphasis will be on addressing conceptual understanding, analytical process and interactional skills necessary for group work practice.

SWK 786 Advanced Practice with Families and Couples  
3 credits  
Prerequisites: SWK 521, 691.  
Corequisite: SWK 790 or 791.  
This course focuses on clinical practice with families and couples. The family/couple system is seen as the arena and resource for change. The class explores how different family therapy approaches address issues of diversity and the needs of families at risk. It recognizes economic and social justice factors as a context for assessment and practice. Integration of major overarching concepts common to all approaches are stressed. Issues of gender, class, race, ethnicity, and sexual orientation are interwoven throughout the course in readings, case materials, and lecture content.

Field Instruction Sequence

SWK 690 Field Instruction I  
4 credits  
Corequisite: SWK 520.  
SWK 691 Field Instruction II  
4 credits  
Prerequisite: SWK 690.  
Corequisite: SWK 521.  
SWK 690 comprises the first half of a year-long 600 contact-hour field instruction internship completed during the first year of the M.S.W. program. The field instruction internship provides the experiential component of social work education in which students work directly with clients in a social agency under professional social work supervision.
There is an emphasis on developing foundation skills for work with individuals, families, groups, and communities. **SWK 691** comprises the second half of a year-long field instruction internship completed during the first year of the M.S.W. program.

**SWK 790 Field Instruction III**  
*4 credits*

*Prerequisite: SWK 691.*  
*Corequisite: SWK 780 or 782 or 786.*

**SWK 791 Field Instruction IV**  
*4 credits*

*Prerequisite: SWK 790.*  
*Corequisite: SWK 780 or 782 or 786.*

**SWK 790** comprises the first half of a year-long, 600–contact-hour field instruction internship completed during the second year of the M.S.W. program. Students are assigned to field agencies and engage in advanced, direct social work practice with individuals, families, couples, and small groups. Students are expected to complete a minimum of 600 hours of internship during SWK 790 and 791. **SWK 791** comprises the second half of a year-long field instruction internship completed during the second year of the M.S.W. program.

**Field Instruction Sequence — OYR**

**Program**

Students in the One Year Residency (OYR) program complete the OYR Professional Seminar (SWK 601) during the foundation year and then move on to complete 900 hours (12 credits) of field instruction during their year of residence. Students may elect to complete the field instruction requirements in two semesters (fall and spring) by taking SWK 796 and 797; or in three semesters (fall, spring, and summer) by taking SWK 790, 791, 792.

**SWK 601 OYR Professional Seminar**  
*4 credits*

*Corequisite: SWK 521.*

The OYR Professional Seminar is required for all OYR candidates and is taken concurrently with SWK 521. The course is designed to help students integrate prior and concurrent practice experience with the foundation practice curriculum and to promote the student’s capacity and engagement in developing professional practice skills. The focus throughout the seminar is on doing, reflecting, and knowing. Students identify and apply practice principles to their work with client systems and use these principles to critically assess their practice.

**SWK 790 Field Instruction III — OYR**  
*4 credits*

*Prerequisite: SWK 601.*  
*Corequisite: SWK 780 or 782 or 786.*

**SWK 791 Field Instruction IV — OYR**  
*4 credits*

*Prerequisite: SWK 790.*  
*Corequisite: SWK 780 or 782 or 786.*

**SWK 792 Field Instruction V — OYR**  
*4 credits*

*Prerequisite SWK 791.*

**Note:** SWK 790, 791, and 792 comprise a three semester, 900-hour field instruction internship for students in the OYR program. Students are assigned to a field agency or complete a work/study field placement under the auspices of their human service employment during which they engage in supervised advanced direct practice with individuals, couples, families and small groups.

**SWK 796 Field Instruction VI — OYR**  
*6 credits*

*Prerequisite: SWK 601.*  
*Corequisite: SWK 780 or 782 or 786.*

**SWK 797 Field Instruction VI — OYR**  
*6 credits*

*Prerequisite: SWK 796.*  
*Corequisite: SWK 780 or 782 or 786.*

SWK 796 and 797 comprise a two semester, 900-hour field instruction internship for students in the OYR program. Students are assigned to a field agency or complete a work/study field placement under the auspices of their human service employment during which they engage in supervised advanced direct practice with individuals, couples, families, and small groups.

**Capstone Experience**

**SWK 736 Contemporary Social Work: An Integrated Approach**  
*3 credits*

*To be taken in the final semester of study.*

This course is designed to integrate all aspects of the curriculum in order to prepare students to address practice concerns that are linked to social problems and policies in a knowledgeable, professional, and rational manner. Students learn to analyze and synthesize theory and research concerning a social problem experienced by their clients. They utilize both domestic and international information in order to develop relevant, informed solutions and interventions. This comprehensive process provides a template for students to address any social concern in the same manner, moving from “Case to Cause”, reflecting social work’s most salient mission.

**Elective Courses**

**SWK 706 Social Work in the Health Care Setting**  
*3 credits*

*Prerequisite: SWK 521.*

This course examines critical issues in social work practice in health care. Building on core knowledge common to all fields of practice, the course explores advanced practice skills and strategies for work with individuals, families, groups, interdisciplinary teams, and service providers in a variety of health care settings. Social work practice is examined in the context of psychosocial consequences of illness, current health care delivery systems, technological advances, and changing regulatory approaches and organizational structures.
### SWK 717 Social Work Practice and the Major Mental Disorders 3 credits
**Prerequisites:** SWK 521.
The focus of this course is on social work practice which empowers clients who manifest serious mental illness. Among the psychodiagnostic categories covered are psychoses (brief and long term), post traumatic stress disorder, and associative disorders as they relate to intervention. Knowledge about psychopharmacology and the psychoeducational approach will be taught. Community services available to individuals and families will be critically compared.

### SWK 721 Psychosocial Issues in Dealing with Death and Dying 3 credits
**Prerequisite:** SWK 521.
This course investigates the social, psychological and emotional issues of separation and loss and subsequent grieving. It examines the impact that cultural diversity and one's own values, attitudes, and fears have on the grieving process. Legal, political, medical and ethical issues will be analyzed to heighten ability to empower the clients.

### SWK 727 Social Work Practice and Chemical Dependency 3 credits
**Prerequisites:** SWK 521.
This course focuses on social work treatment of alcoholism, other substance abuse, and poly-drug use. Alcoholism is conceptualized as both an addiction and a disease. Biological, sociocultural, behavioral, analytical, and transactional approaches to treating addiction are studied. Advanced interventive skills and strategies are considered in working with individuals, groups, families, and the self-help network.

### SWK 728 Social Work with Children and Adolescents 3 credits
**Prerequisites:** SWK 521.
This course examines a variety of social work practice modalities in direct work with children, adolescents, and their families. Assessment and interventive skills are studied as they pertain to the special problems related to life conditions and events affecting children and adolescents. The societal and organizational context which frames the service delivery system for children and adolescents will be explored.

### SWK 729 Social Work with Older Adults 3 credits
**Prerequisite:** SWK 521.
This course examines critical issues related to social work practice with older adults and their families. It encompasses individual counseling and therapy, support group, psychoeducation, research models, service delivery systems and relevant state, federal and international policies. Topics include biological, psychological, sociological, economic and spiritual perspectives with emphasis on contemporary problems and issues experienced by older women and men. Attention is given to at-risk situations of oppressed populations as they age, such as older women, older lesbians and gays, and older people of color.

### SWK 737 Social Work Practice and Alternative Life Styles 1.5 credits
**Prerequisites:** SWK 521.
This course provides an overview of issues relevant to social work practice with gay men, lesbians, and significant people in their lives. Topics include societal context, discrimination and homophobia, the history of psychiatric diagnosis and homosexuality, the “coming out” process and its impact on the self and family members, gay and lesbian parenting, and working with people with AIDS and chemical dependency.

### SWK 738 Social Work and the Law 3 credits
**Prerequisite:** SWK 521.
This course will examine the practice of Social Work in the legal context. Law encompasses the fabric of our social relationship and as such the course we will explore the ways in which social work can impact the legal system. The course will provide familiarity with legal processes, legal research and analysis, and an understanding of how individuals and families are impacted by the legal system. This course is open to undergraduates with permission from their advisors.

### SWK 739 Social Work Practice and Family Violence 1.5 credits
**Prerequisites:** SWK 521.
This course examines the social problems of physical and sexual abuse of children, incest, woman-battering, and elder abuse. Current risk is addressed as well as long-term consequences for future life functioning. The interaction of substance abuse and violence is considered, as are the interplay of race, class, culture, and gender.

### SWK 799 Independent Study 1–3 credits
Topics for independent study are developed by the student in consultation with his or her faculty advisor. The student is responsible for securing a faculty member to supervise the independent study, the approval of the sequence chairperson in which the study is undertaken, and the permission of the Dean of the School of Social Work.

Selected SWK 800-level courses are open to MSW students as electives. Permission of the course instructor and director of the doctoral program are required.

### D.S.W. Courses

### SWK 810 The Epistemological Bases of Social Work Knowledge 3 credits
This course is aimed at encouraging students to think critically about the nature of social work, its knowledge base, its means of developing knowledge, its theories and practices, and its belief systems and value bases. The course begins with an exploration of some major themes in philosophy, logic, epistemology, and aesthetics. It is followed by an attempt to compare and contrast various ways of knowing and varied pathways to knowledge generation. Abstract ideas such as concepts, theories, models, metaphors, and para-
SWK 811 Social Work Education: Issues and Processes  
This course presents a theoretical and practice-oriented approach to contemporary educational issues in the profession. The development of curriculum and teaching methodology for social work education are taught. Scientific and humanistic concepts of learning drawn from various theoretical frames of reference are utilized for analysis of the process of curriculum construction and the learning-teaching transaction in professional education.

SWK 842 Analysis of Social Work Practice Models and Theories of Personal Development  
The purposes of this seminar course are to facilitate comprehension of the functions and characteristics of theory for social work practice and to develop a capacity to critically assess these theories and models. Relevant theoretical models of direct practice and human behavior will be comparatively analyzed, and historical contexts and contemporary issues explored.

SWK 843 Social Work Practice with Individuals: A Critical Integrative Perspective  
This course provides a critical overview and examination of the theoretical and research contributions of the four psychologies, that is, psychoanalytic theory; ego psychology; object relations; and self psychology. The integration of these theories, as well as the appreciation of their separate and unique qualities, will be an important focus of class discussions. Further, the course seeks to foster application and utilization of the theories in social work practice.

SWK 844 Program Development: Theory and Practice  
Critical examination of programming models drawn from a range of disciplines is intended to enhance students’ ability to identify social problems experienced by their clients and to design and implement effective solutions to these problems. In developing solutions or interventions, students are required to scrutinize the interventions they have employed in their practice, to consider a number of alternatives, and to choose solutions based on the best available knowledge of their effectiveness.

SWK 845 Comparative Perspectives on Social Provision  
This course examines the origins, development, and future of social provision and the welfare state in Europe and North America from a variety of perspectives—feminist, cross-national, political, and techno-economic. Students are introduced to a range of models and analytic tools for evaluating and planning social welfare policies. Further, students are encouraged to deepen their understanding of past and present issues in a specific area of social policy (e.g., health, housing, elderly, child welfare).

SWK 846 Social Work Practice with Families: Theory and Research  
This course seeks to broaden and deepen students’ knowledge and understanding of the theoretical and empirical bases of social work practice with families. The focus will be on a comparative analysis of conceptual frameworks for understanding family dynamics, the practice models derived from them, with special emphasis on cutting edge approaches as well as related research issues.

SWK 848 Group Work Practice: Theory and Research  
This course enables doctoral students to: 1) conceptualize their group work practice at an advanced theoretical level and 2) strengthen and update their group work assessment and intervention skills. Basic group work skills are assumed. The course begins with a survey of classic topics (e.g., groups’ interpersonal dynamics, role of the group leader). Then, contemporary issues (e.g., feminist views of group development, on-line groups, recent research) are addressed.

SWK 849 Mental Health and Women: International Policy and Practice Issues  
This seminar focuses on the psychological, social and economic conditions of women throughout the world that are associated with their disproportionate mental health at-risk status. Though the nuances of their experience vary, women are at highest risk regardless of country, region, culture, ethnicity, or class. Students will acquire comprehensive policy and practice analysis capabilities for the domestic prevention of mental illness and promotion of mental health, utilizing global knowledge transfer when applicable. All work will be founded on human rights principles applied to women across diverse cultures.

SWK 850 Comparative Approaches to Social Work Research: Quantitative  
Prerequisite: successful passing of prerequisite Research and Statistics Exam. This course focuses upon the research process, with emphasis upon problem formulation, hypothesis formation, sampling, instrumentation, and data collection. Various approaches and methodologies will be discussed.

SWK 851 Methods of Data Analysis  
Prerequisite: successful completion of SWK 850. This course focuses on the interaction between statistical concepts, research design, and the practice of data analysis. Topics will include levels of measurement, sampling distributions, research design, analysis of variance, multiple and partial correlation, and computer analysis of data. Students will use an existing data base to carry out computer analysis of data.

SWK 853 Research Seminar in Social Work  
Prerequisites: an approved dissertation research proposal, and successful completion of SWK 854. The focus of this seminar is on implementing the research proposal, including pretesting measuring instruments,
selecting and securing the cooperation of a sample, the preparation of a data collection package, the collection of data, analysis, presentation, interpretation of data, and the writing of a dissertation. Students will work on their own individual projects. Instructor will discuss general issues of proposal implementation and will provide feedback to students regarding their individual implementation efforts.

**SWK 854 Seminar on Proposal Development**  
*formerly SWK 852*  
*3 credits*  
*Prerequisite: successful completion of SWK 850.*  
This seminar is directed toward the development of an individual research proposal. Issues of justification of problem, conceptual rationale for hypothesis, measurement of variables, sample selection, instrument construction, and data collection are considered. The student will deal with these issues in the context of a concrete research proposal and the culmination of the semester’s work will be a tentative research proposal.

**SWK 860 Social Work and Social Sciences**  
*3 credits*  
This course is designed to broaden and deepen students’ knowledge of social science theory as it pertains to social work. Specific theories addressed reflect current faculty interest and expertise, and will be used as exemplars. Several members of the faculty will make presentations on their theoretical interests. The instructor will coordinate these presentations and interpret their relationship to each other and to professional practice.

**SWK 880 Writing for Publication**  
*3 credits*  
This course is focused on the development of cogent ideas and convincing arguments, leading up to the production of scholarly manuscripts for publications.

**SWK 882 Comparative Approaches to Social Work Research: Qualitative**  
*3 credits*  
This course focuses on developing fuller understanding of the qualitative paradigm and skills in using qualitative methodologies to conduct research. Research strategies will be discussed and illustrated.
Admissions

Admission to Graduate Study

General Requirements for Admission

Applicants must hold a baccalaureate degree from an accredited college or university. The following supporting documents should be submitted to the Office of University Graduate Admissions, Levermore Hall 114:
1. Completed and signed application for admission and $50 application fee.
2. An official transcript or transcripts for all previous college and university work.
3. Appropriate test scores (check with your school and/or department).
4. Completed recommendation forms.

Besides these general requirements, particular programs may specify additional requirements. Applicants should review the statement on admission that appears within the section of this Bulletin for each school.

For further information, call or write:
Office of University Admissions
Levermore Hall 114
Adelphi University
Garden City, NY 11530
(516) 877-3050

Admission to Graduate Standing

To be admitted to candidacy in any graduate program leading to a master's or doctoral degree, applicants must possess a baccalaureate degree from an accredited college or university and must present evidence of their qualifications for advanced study.

In addition to these general requirements, the specific prerequisites for admission to a particular graduate program should be carefully noted. Applicants who are otherwise acceptable for candidacy but who lack special course prerequisites may be admitted as nonmatriculants. When they have satisfactorily fulfilled such background requirements, they are automatically accorded the status of matriculated degree candidates. (See also the additional requirements of individual schools.)

Provisional Admission

Applicants for degree candidacy who show promise for advanced study but have some deficiencies in their scholarly credentials may be admitted on a provisional basis. Such status must be approved by the school in which the student seeks candidacy.

In qualifying for status as degree candidates, provisional students are required to obtain grades of B or better in each course or a 3.25 grade-point average during an initial 12-credit probationary period. Students who fail to achieve at this level are disallowed from pursuing further course work in the degree program.

Admission of Nondegree Students

Students who wish to undertake graduate study but who do not intend to become candidates for a higher degree are classified as nondegree special students. This classification includes those who wish to enter special certificate or professional diploma programs, those who take selected courses to earn credit, and those who enroll as summer visitors. In order to gain admission, such students must file a nondegree application form and present evidence of a baccalaureate degree. Entry to certificate and diploma programs may require evidence of additional credentials.

Students who are teachers and wish to meet state certification requirements but who do not plan to become degree candidates are also admitted with nondegree status.

Nondegree special students are permitted to enroll in only those courses that have been specifically designated by departments as being available to such students. Individual exceptions require special permission by the coordinator of the program in which the student wishes to enroll and by the appropriate dean.
Nondegree special students are limited to a maximum of 12 credits in courses regularly applicable to a graduate degree. Waiver of this limitation requires the appropriate dean’s approval.

Visiting Students
A student who is a degree candidate at a university other than Adelphi and who wishes to take courses at Adelphi for transfer to the university in which he or she is a degree candidate may do so by making regular application as a nondegree special student to the Office of Graduate Admissions. At the end of the semester in which he or she is enrolled, the student must file with the Registrar of Adelphi University a formal request that a record of grades be sent to the home university.

International Students
The following documents should be submitted by all international applicants:
1. International application for admission;
2. Certified English translations of all prior academic scores;
3. Statements describing prior academic institutions and information regarding its accrediting agencies;
4. Total of 550/213 or better (587/240 for Master’s in Social Work) on the Test of English as a Foreign Language (TOEFL), or the completion of ELS Language Center’s Level 213;
5. Translated descriptions or syllabi of courses taken;
6. Completed notarized affidavit of support and bank statement. (The I-20 form, which enables the student to apply for a student visa, will not be issued without these documents.)
EXPENSES AND FINANCIAL AID
Tuition and Fees

Tuition and Fee Policy

The Office of Student Financial Services must be consulted for the current tuition and fees schedule. Tuition and fees are payable either by mail or in person at the Office of Student Financial Services, or by phone with Mastercard or Visa. Checks and money orders should be made payable to Adelphi University. All payments will be applied to past-due balance first.

Charges billed by the University are outlined below. Students, however, should plan for expenditures associated with books, travel, and personal items.

Additional fees and charges for specific courses, as detailed in the class schedule, also may be assessed.

The following tuition and fee policy pertains to the 2001–2002 academic year. The Board of Trustees of Adelphi University reserves the right to change this tuition and fee schedule without prior notice.

Tuition and Fee Rates

2001–2002
Academic Year

Graduate, Full-Time
Social Work and Education STEP Program
(12 or more credits per semester)
  Tuition and University Fees
  ($500 nonrefundable) ..................$18,000
Communicative Disorders
(12 or more credits per semester)
  Tuition and Fees
  ($500 nonrefundable) .................$18,500
Gordon F. Derner Institute of Advanced Psychological Studies (IAPS) ..........$22,100

Graduate, All Other Programs
Tuition, per credit hour ............................................$540
  (Communicative Disorders
    1–11 credits per semester) ..................$560
Tuition, per credit hour
  (IAPS—1–11 credits per semester) ....$640

Medical Insurance (Annually) ......................TBA
Program change, each form ..................$25
Professional Liability Insurance ..........Variable
  (Specified after each course
  in the Directory of Classes)
Registration Reinstatement Fee ..............$150
Returned Check (in addition to charge for late payment of tuition) ..........$25
Social Work Orientation Fee
  (All Social Work full-time
  graduate students, fall semester only) ....$8
Transcripts .................................................$10
Administrative Withdrawal Fee ..............$100

Students who are converting undergraduate credit to graduate credit will pay the current graduate tuition rate at the time of conversion less the original amount paid. There is no deferred payment plan. There are no refunds.
Payment Policy

Tuition and fees are payable in full at the time of registration. Students preregistering for the fall and spring semesters will be billed in July and December, respectively. Students are responsible for all charges regardless of billing. Students are required to notify the Office of the Registrar of their appropriate billing address and to contact the Office of Student Financial Services if bills are not received. Payments must be made in accordance with University policies, whether or not bills are received.

Deferred Payment Plan—Students may elect a deferred payment plan for each semester whereby one-half of the balance plus a $50 deferred payment plan fee is due at registration. The final payment is due on October 15 or March 15.

Monthly Payment Plan—Many students have indicated a preference to pay on a monthly basis. Adelphi offers the Academic Management Services (AMS) Budget Plan which provides for payment in monthly installments as an alternative. Information on this plan is mailed to all students before each semester and can also be obtained in the Office of Student Financial Services.

Late Payment Fees—All tuition and fee charges are due at registration unless a two-payment plan or the AMS monthly payment plan is elected. Failure to make payments on time will result in the assessment of late penalties, as defined in the class schedule. Programs not following the traditional semester calendar are also subject to late payment fees.

Students having outstanding indebtedness to the University will not be permitted to register, receive a transcript or grade report, or have a degree conferred. No student may withdraw or graduate from the University in good standing unless all current obligations are paid in full. University policy precludes the use of any current financial aid for payment of past-due charges.

Tuition Refund Policy

Refunds are computed as of the date the Registrar is notified of the withdrawal. The date of the request will determine the tuition liability for the semester.

Nonattendance in a course does not constitute an official withdrawal. Students will be held responsible for payment of all tuition and fees until an official withdrawal is presented to the Registrar.

Refunds do not depend upon the number of class sessions held or attended. Failure to complete payment is not an official withdrawal. A student who is suspended or dismissed, or who withdraws when under investigation for misconduct, shall not have tuition refunded for the semester in which action is taken.

All refunds from credit balances must be requested in writing each term from the Office of Student Financial Services.

All students who withdraw from the University prior to the first day of classes will receive a credit for all tuition and fees less the mandatory administrative fee.

Students enrolled in courses that meet for fewer than 10 weeks will receive 100% credit for courses dropped prior to the first day of class. Students dropping courses during the first week of class will receive 75% credit. After the first week of classes there is no refund.

Students who have paid their bill with MasterCard/Visa will receive as their refund a charge back to their credit card.
Refund Schedules

Title IV Recipients

Effective Fall 2000, Adelphi University will adopt a new refund policy that conforms to the updated version (Section 668.22) of the Higher Education Amendments of 1998. In accordance with federal regulations, students who withdraw entirely from all classes at the University and have Federal Title IV financial assistance (Federal Stafford Loan, Federal Parent Loan for Undergraduate Students, Federal SEOG, Federal Perkins Loan, or Federal Pell Grant) that has been credited or could have been credited to their account, will be subject to both Federal Policy regarding the possible return of Title IV funds awarded and Adelphi University’s policy regarding the possible return of institutional aid awarded. Furthermore, the amount of refundable institutional charges (and/or possible reduction of outstanding balance) will be set by school policy.

The federal government and the School policy will be similar regarding the amount of Student Aid that may be retained (for related school expenses). Only that amount of the semester’s aid that has been earned (as a result of the pro-rated amount of time the student has been in school for that semester) will be eligible for retention on the student’s behalf. Any aid that is not earned must be returned to its source. (The amounts to be returned to federal programs will vary based upon the type of program, the total amount to be returned, and the government’s determination of the order in which aid is returned to the programs.) If there is a student account balance resulting from these adjustments, the student is responsible for payment.

The order of return of Title IV funds at Adelphi University is as follows:
- Unsubsidized Federal Stafford loans
- Subsidized Federal Stafford loans
- Federal Perkins loans
- Federal PLUS loans
- Federal Pell Grants
- Federal SEOG Grants
- Other Title IV programs

Sample worksheets for the calculation are available in the Office of Student Financial Services upon request.

Non-Title IV Recipients

All students who are ineligible for assistance under the Federal Title IV programs are subject to the following institutional refund schedule for a traditional 15-week semester:

- Full/partial drop/withdrawal prior to the first day of the semester ....100% refund
- Full/partial drop/withdrawal by the end of the first week ..........90% refund
- Full/partial drop/withdrawal by the end of the second week ........50% refund
- Full/partial drop/withdrawal by the end of the third week.........50% refund
- Full/partial drop/withdrawal by the end of the fourth week.......25% refund
- Thereafter ..........................................No refund

Withdrawal for Medical Reasons

Students requesting a medical withdrawal must submit the appropriate medical documentation and a letter requesting a medical withdrawal to the Office of Academic Services and Retention. This must be done during the semester for which the leave is requested. Students approved for medical withdrawal will have a credit posted to their account to be applied toward future semesters. All unused credits will be forfeited within one year of issuance and tuition and fee charges will not be refunded. Students wishing to return after a Medical Withdrawal must submit medical documentation clearing them for return to the Office of Academic Services and Retention.

The University reserves the right to change all tuition and fee amounts and policies without prior notice.
Financial Assistance

Adelphi University offers a wide variety of federal aid programs, state grants, and scholarship and fellowship programs.

Financial assistance is any grant, scholarship, loan, or employment opportunity that is offered to an enrolled or prospective student with the express purpose of helping the student meet educational expenses.

The amounts and types of financial assistance that a student receives are determined by the eligibility of the applicant for each program. The combination of these various awards is commonly referred to as the “financial aid package.”

The University expects each student to have knowledge of the information presented in the Undergraduate Bulletin and appropriate Directory of Classes.

Students are encouraged to file the appropriate application forms and to contact their graduate school/department for a listing of additional sources and assistantship information.

Responsibilities of Financial Assistance Recipients

Students receiving financial assistance have the following responsibilities:

1. To complete the Free Application for Federal Student Aid (FAFSA) each academic year by the deadline prescribed by the University.
2. To meet the requirements of good academic standing and maintain satisfactory academic progress toward their degree.
3. If you are transferring to Adelphi from another institution in the spring semester, you must have Financial Aid transcripts from all previously attended institutions forwarded to us, whether or not you received any financial assistance at those schools.
4. To report to the Office of Student Financial Services any changes in enrollment status, changes of name or address, receipt of any additional internal or external financial assistance.

The University reserves the right to make adjustments in financial assistance packages because of changes in the recipient’s enrollment, or residency, income discrepancies, or financial circumstances.

The University further reserves the right to make proportionate adjustments in campus-administered financial assistance if federal or state funding to the University changes.

Students who withdraw from the University before the end of an academic term may be required to repay a portion of their financial assistance.

Application Procedure

The completed FAFSA must be filed with the federal government as soon after January 1, but no later than February 15, of each academic year.

Students currently enrolled are required to reapply for financial assistance each academic year.

Financial Assistance Programs

Assistantships

A limited number of graduate assistantships are available to qualified graduate students. Assistantships are awarded on the basis of academic merit and some may take financial need into consideration. Most assistantships are awarded to full-time students, although the School of Nursing has a limited number of assistantships for part-time students.

Students receiving such appointments are required to devote a specified number of hours each week during the academic year to assist in teaching, research, or other technical services, as assigned by their department.
In return for such services, the student is granted a remission of tuition. In addition, some assistantships offer stipends.

Contact your graduate school/department to obtain applications and specific eligibility requirements.

**Adelphi University Scholarships**
Adelphi University offers scholarship opportunities to students pursuing graduate degrees in Business or Social Work. Contact the School of Business or the School of Social Work for more information.

**Graduate Nursing Loan**
This program provides low interest loans to students enrolled in a nursing program. The interest rate is 5% per year. Repayment begins nine months after a student leaves school or graduates and must be completed within a 10-year period. Annual amounts are determined by the Office of Student Financial Services, and depend on financial need.

**Federal Stafford Loan**
A Stafford loan is a low-interest loan available to students enrolled in a minimum of 6 credits per semester. These loans are made by a lender such as a bank, credit union, or savings and loan association and are guaranteed by the federal government. Depending on the need of the student as calculated by the Department of Education, these loans are either made on a subsidized basis, where the federal government pays the interest during the enrollment period, or an unsubsidized basis, where the student is responsible for such interest. The maximum loan amount for a graduate student is $18,500. The current interest rate (as of July 1, 2001) is 5.39%. Repayment of the loan begins six months after the student ceases to be enrolled at least half time.

**Federal Work Study Program (FWS)**
This program provides employment for students demonstrating financial need. Jobs are on campus. The maximum amount a recipient can earn is determined by financial need.

**New York State Aid Programs**

**Tuition Assistance Program (TAP)**
New York State awards grants to New York residents attending New York schools. Grants range from $75 to $550 and are based on the total family income. Students must be enrolled full time (12 or more credits per semester) to be eligible.

Application and renewal for TAP are made by completing the FAFSA. This form is available in the Office of Student Financial Services. For further information please contact: TAP Unit 518-474-5642. Adelphi University’s School Code is 5000.

**Vietnam Veterans Tuition Awards**
Vietnam Veterans Tuition Awards (VFTA) provide up to $1,000 per semester for full-time study or $500 per semester for part-time study to Vietnam veterans matriculated in a graduate degree-granting program.

**Persian Gulf Veterans Tuition Awards**
Persian Gulf Veterans Tuition Awards (PGVTA) provide up to $1000 per semester for full-time study or $500 per semester for part-time study to Persian Gulf veterans matriculated in a graduate degree-granting program.

Albany, NY 12255

Or visit HESC’s World Wide Web Site at:
Regents Professional Opportunity Scholarship

New York State residents attending, or planning to attend, a New York State college as an undergraduate or graduate student pursuing a career in certain licensed professions may be eligible for an award from the Regents Professional Opportunity Scholarship Program.

Selection priority is given to: (1) Those who are economically disadvantaged and who are members of a minority group that is historically underrepresented in the chosen profession; (2) Those who are members of a minority group that has been historically underrepresented in the chosen profession; (3) Graduates of the following opportunity programs: SEEK, College Discovery, EOP, or HEOP.

Awards range from $1,000–$5,000 per year.

Award recipients must agree to work one year for each annual payment received. Employment must be in the studied profession and must be in New York State.

Contact NYS Education Department in the fall prior to the academic year for which you are applying, for the application deadline.

Albany, NY 11230

Other Assistance

Several lenders offer credit based “alternative loans” for students who need to borrow above the Federal Stafford loan limits. For these alternative loans, students may borrow up to their total cost of education, less all other financial aid that they are receiving for the loan period. The features, eligibility, and repayment requirements for these alternative loans vary depending on the program. To find out more about them, contact the Office of Student Financial Services at (516) 877-3080. Following is a list of available alternative loan programs:

Financial Assistance Policies

All financial assistance awards are made based on the information available as of the date of the financial assistance award letter. If the student receives financial assistance from sources not specified in the award letter, whether from Adelphi or from outside sources, Adelphi reserves the right to adjust the award.

In addition, the Office of Student Financial Services should be notified of any change to the student’s financial situation after the completion of the FAFSA that the student believes could affect the student’s eligibility for assistance.

Adjustments to student’s financial assistance award may be made at the discretion of the Office of Student Financial Services. Some common reasons for adjustments are change in budgets (for example, if the student moves from University housing to private housing), documentation of incorrect income and asset information, change in student’s circumstances, awarding of outside or academic scholarships, or any other change in information that in the opinion of the Office of Student Financial Services justifies a change in the financial assistance awards.

Students receiving scholarships that exceed the cost of tuition may be subject to federal income tax on the amount by which the award exceeds tuition. We recommend students check with their tax consultant for further information.

Foreign Students

Federal and state financial aid programs are limited to U.S. citizens and resident aliens (persons with Form I-151, also called a “Green Card”).
Nondegree Students

Individuals registering for courses in the University without applying to the Admissions Office for degree status are considered nondegree students. The courses taken are considered to be for personal enrichment and the student is not eligible for any financial assistance.

Appeals

An appeals committee exists for students and parents who feel that individual circumstances warrant exceptions from published policies. Any written requests for appeals should be directed to the committee’s coordinator. The address is:

Kay McGuire
Adelphi University
South Avenue
Garden City, NY 11530
Rules and Regulations
University Regulations

The responsibility for knowing and meeting the applicable degree requirements, as well as the academic regulations of the University and its schools, rests with each student.

University regulations, protocols, and procedures govern all degree programs at the University. Beyond these fundamental regulations, protocols, and procedures, the University’s six graduate schools abide by additional specific regulations, protocols, and procedures consonant with their missions, and curricula.

The Graduate Bulletin is the chief source of information on the academic regulations, protocols, and procedures of both the University and its graduate schools. University academic regulations, protocols, and procedures pertaining to graduate study are set forth below. The specific regulations of the six individual graduate schools appear in the sections of this Bulletin devoted to the programs of the individual schools. Students wishing to seek clarification of such information, or exceptions from academic regulations, are invited to consult their department chairs, then the dean of their schools, and finally the Office of the Provost, the University agency charged with oversight of the entire academy.

Federal and state regulations are not subject to petition.

Student Code of Conduct and Judicial Policy

As members of an educational community, students are expected to behave responsibly, appropriately, and civilly toward all persons with whom they interact. In addition, students are expected to abide by all University rules, regulations, and policies. The Code of Conduct for Students describes the University’s standards and expectations for the behavior of its students. The Code requires that students comply promptly with the directives of Adelphi employees who are acting in accordance with their authority as officials of the University. Failure to comply could result in suspension from the University. All students are expected to read and adhere to the letter and spirit of the Code of Conduct.

Non-academic violations of the Code of Conduct are adjudicated under the Adelphi University Student Judicial Policy. All matters of academic misconduct are adjudicated by the dean of the school or college in which the offense occurred. Inquiries in regard to adjudication of academic misconduct should be referred to the appropriate dean. The Code of Conduct and Student Judicial Policy are published in the annual edition of the Guide to Student Life. For questions or more information, contact the Office of the Dean of Student Affairs, University Center 106, (516) 877-3660.

Academic Integrity

Adelphi University demands the highest standards of academic integrity. Proper conduct during examinations, the proper attribution of sources in preparation of written work, and complete honesty in all academic endeavors is required. Submission of false data, falsification of grades or records, misconduct during examinations, and plagiarism are among the violations of academic integrity. Students who do not meet these standards are subject to dismissal from the University.

Acceptance as a Degree Candidate

Acceptance as degree candidates in all programs is recommended by the school and department in which a student wishes to specialize. Status as a degree candidate depends upon a student’s qualifications and the policy of the degree program in which he or she wishes to enroll. Students who are provisionally accepted must apply for a change in status at the office of the dean of their chosen school.
Attendance

Only students who have been registered by the Office of the Registrar may attend courses at the University. Adelphi students make a commitment to be active participants in their educational program; class attendance is an integral part of this commitment. Attendance requirements for each course will be announced by the faculty member at the beginning of each term. Students are expected to be present promptly at the beginning of each class period, unless prevented by illness or by other compelling cause. Students are responsible for completing course work missed through absences. Students should wait a reasonable length of time for an instructor in the event that the instructor is delayed.

The Academic Calendar

The Academic Calendar consists of two semesters (fall and spring), approximately 15 weeks each, and two summer terms, five weeks each. Graduate students may register during the several registration periods. Adelphi University does not schedule classes on Labor Day; Rosh Hashanah; Yom Kippur; Thanksgiving; Christmas; New Year’s Day; Martin Luther King, Jr., Day; Memorial Day; and Independence Day. The University recognizes that there are other holidays, both secular and religious, which may be observed by individuals or groups on campus. Students who wish to observe such holidays must so inform their instructors within the first two weeks of each semester so that alternative arrangements convenient to both students and instructors can be made.

Deadlines

Every semester graduate students have sufficient opportunities to reconsider, for a period of time, their selection of courses. The Academic Calendar (which can be found in the front of this Bulletin) sets forth the specific deadlines for decisions about, and adjustments to, registration, adding and dropping courses, changing a grading option, and withdrawing from courses. Meeting academic deadlines are the student’s responsibility.

Registration

Registration is the process by which the Office of the Registrar certifies the enrollment of students in courses of study or their right to use the services available at the University. Registration instructions are published by the Registrar every semester in the Directory of Classes. Registration materials are mailed, by the Office of the Registrar, to eligible students. The Directory of Classes is available at the Registrar’s Office, Levermore Hall lower level or on-line at www.adelphi.edu.

All students intending to enroll in graduate courses for a given semester must register with the University Registrar during the official registration period preceding the opening of each semester, and announced in the Academic Calendar, which appears in this Bulletin.

To register, students must consult the current issue of the Directory of Classes, or on-line courSearCh, which lists the courses being offered and describes the procedures, terms, and conditions of registration.

During the registration period, students must report directly to their academic advisors for advice and endorsement of their programs. A pre-programming period is held toward the end of each semester, during which currently enrolled students may, by appointment with their academic advisors, select their programs in advance for the following semester.

There are several ways to register at Adelphi: Priority registration begins in late fall and spring and continues until the first day of classes. It is an opportunity for students to select the courses in which they wish to enroll the following semester.

Late Registration begins on the first day of the semester. Admission to a graduate course is not possible after the second meeting of any class. See the “Academic Calendar” section in this Bulletin.
Eligibility

Only eligible students may register for courses of study at Adelphi. Eligible students are those who:

- have been admitted to the University by the Office of Admissions (see section titled “University Admissions Policy”);
- have met all their financial obligations to the University;
- have enrolled the previous semester and have not been dismissed, suspended, expelled, or withdrawn from the University;
- have provided the University with proof of compliance with New York State immunization requirements (see section titled “Admission Credentials”).

Only students who have been cleared by the Office of Student Financial Services and who are officially registered for a course as of the end of the second week of the semester shall be eligible to receive a grade for that course. No grades will be issued to students who violate this policy.

Continuous Matriculation

Students wishing to maintain their status as graduate students and continue to have access to faculty and the resources of Adelphi University must register for continuous matriculation. Registration is required, for example, of students who have completed all course requirements except the thesis and dissertation and who want supervision or advice from faculty, use of laboratory facilities, or the use of the University Libraries. Payment of the registration fee entitles students to all the privileges of registered students. This fee need not be paid by a student whose only contact with the University during an academic semester is to take a comprehensive or similar examination for a graduate degree.

Certified candidates for a doctoral degree, if not registered for courses or thesis or dissertation research carrying academic credit, may register by mail for continuous matriculation during each semester of the academic year until they have completed degree requirements.

Changes in the Registration Program

After the registration periods end, students may make four kinds of changes to their registration: adding courses, dropping courses, changing the grading option, withdrawing from courses. Forms to initiate these changes (Action Request) are obtained from, and returned to, the Office of the Registrar. These options are described elsewhere in this Bulletin. Deadlines to effect these changes are clearly set forth in this Bulletin, in the Directory of Classes, and elsewhere.

Changes of program must meet with the approval of the advisor, chair, and dean of the pertinent degree program.

Records

Adelphi recognizes two kinds of student records. Directory information includes student’s name, school, class, major, participation in officially recognized sports, height and weight of athletes, dates of attendance, degrees, honors, and awards received. Academic records are maintained by the Registrar, and consist of credits, grades, and grade points earned. It is the obligation of students to notify the Registrar of any change of name or address.

Access to Records

Directory information may be released to anyone without the consent of the student unless the student has requested in writing to the Registrar that this information not be released. Forms for such requests are obtained from, and returned to, the Registrar. Academic records may not be released without the prior written consent of the student. Access to records is protected by the Family Education and Privacy Act. The Offices of Academic Services and Retention, Student Affairs, Student Financial Services, and the Registrar may, for cause, withhold the academic records of students or discontinue their course registration.
The Transcript

The transcript lists the complete academic record of students. Students may obtain a copy of their transcript from the Registrar by completing a request form. There is a charge per transcript. An official transcript is one that bears the seal of the University and the signature of the Registrar ($10). Unofficial transcripts are given to or sent directly to students and carry the notation UNOFFICIAL COPY. Transcripts will not be issued for students who have failed to meet their financial obligation to the University.

Academic Advising

Upon beginning study for a master’s or doctoral degree, students are assigned an academic advisor. The advisor approves the student’s program of studies, counsels and advises on academic regulations, protocols, and procedures. Students themselves are solely responsible for developing their programs of study and meeting all requirements for degrees. Students must therefore familiarize themselves thoroughly with the University regulations, protocols, and procedures set forth here, and with the specific regulations, protocols, and procedures set forth under each school and degree program.

Academic Residence

Candidates for the M.A., M.S., and M.B.A. degrees are expected to carry at least one course each semester, and to fulfill all degree requirements within five years (M.S. in accounting, M.B.A. in management, and M.S. in banking and money management, six years; M.S.W., four years) from the date of admission to graduate study. Under extraordinary circumstances and with the recommendation of a student’s department, the dean may grant an extension of the time limit.

Certification of Candidacy for the M.A., M.S., M.B.A., M.S.W., Ph.D., D.A., or D.S.W. Degree

When students have completed all requirements for the degree except the thesis or dissertation research, thesis seminar courses, and the final examination or the thesis or dissertation, the chairs of the students’ departments notify the offices of the deans. The deans then notify these students that they have been certified as candidates for the appropriate master’s or doctoral degree.

Standard Number of Credits

A full-time course load is ordinarily defined as 12 credits per semester. For purposes other than V.A. financial benefits, candidates for a degree who are carrying fewer than 12 credits but are engaged in thesis or dissertation research or field work, or are preparing for language, oral, preliminary, or comprehensive examinations, may be classified as full-time students at the discretion of the dean of the pertinent school. Under certain conditions, a research or teaching assistantship may be considered part of the minimum full-time load.

The maximum academic load per semester for part-time students engaged in full-time employment, or students enrolled in summer session courses, is 6 credits. Any exception to this policy must be approved in advance by the dean of the pertinent school. Exceptions may be made only when a student has given evidence of superior academic achievement.

Advanced Standing and the Transfer of Credits from Another University

The transfer of graduate credits earned at another university is allowed only for appropriate courses completed with a high level of achievement (B or higher) within five years preceding the date of admission as a graduate student at Adelphi University. The Derner Institute for Advanced Psychological Studies allows no
credit for advanced standing. Credit for courses with a grade of C or lower are not transferable.

Students must initiate requests for such transfer credit when they matriculate for a graduate degree. Requests should be filed with the offices of the deans. Evaluation of advanced standing is recommended to the deans by the department in which a student wishes to study.

**Information About Courses**

Courses are listed by prefix, number, and title in the sections of the Bulletin entitled “Courses of Instruction.” For a list of current course offerings, students should consult the Directory of Classes, or on-line courSEarch published by the Office of the Registrar each semester and for the summer terms.

**Cancellation of Courses**

The University reserves the right to cancel any course.

**Course Policies and Practices**

Course policies and practices are made explicit each term in the course syllabus. These are established by the course instructor and are never at variance with University policies and practices. The course syllabus describes attendance policy, course requirements, and grading criteria. The instructors are required to distribute course syllabi during the first week of classes. Course syllabi are also on file with the dean. Students planning to take advantage of advanced technology (e.g., recorders, lap tops) in the classroom must seek the consent of the instructor. At Adelphi, time spent in the classroom is only a part of the student’s course work. Courses require reading, research, and study to complete the classroom work assignments and may also require laboratory, tutorial, or field work.

**Course Prefixes and Numbering System**

Every course offered has a three-letter prefix. In Arts and Sciences and Business, the course prefixes are normally the first three letters of the name of the major or area (BIO for Biology, ACC for Accounting, for example), or the prefix may combine other significant letters (MGT for Management, for example). The other schools use single prefixes for all their courses. NUR for Nursing, SWK for Social Work.

Graduate courses are numbered 500 and higher. Graduate students may not take courses numbered lower than 500 for graduate credit. Graduate courses numbered 500 to 599 are open to Adelphi seniors under strictly controlled admission to graduate standing. However, at the discretion of a dean, a limited number of graduate credits so earned, and not used to fulfill baccalaureate requirements, may be applied toward a higher degree.

Graduate courses numbered 600 to 699 are normally taken during the first year, and those numbered 700 to 799 taken in the second year, of full-time graduate study. Courses numbered 800 and higher are reserved for third- and fourth-year graduate students in doctoral programs.

**Adding Courses**

Students who wish to add a course to their program after the registration periods must complete an Action/Add Request, including appropriate approval. Students are advised that there is a fee for courses added and that there may be additional tuition charges.

**Dropping Courses**

Students may drop a class within the first four weeks of the semester. Students who wish to drop a course from their program after the registration periods must complete an Action/Request. Students are advised that there is a fee for each course dropped. Dropped courses will not appear on the transcript.
**Withdrawing from Courses**

Withdrawals from courses are possible after the deadline to drop courses but no later than Friday of the 9th week of the semester, the third week of a summer term, or the second week of a one-month term. Students who wish to withdraw from a course must complete an Action Request including appropriate signatures of academic approval. Withdrawals from courses appear on the transcript as a W.

Nonattendance in a course does not constitute an official drop or withdrawal from a course. The student’s failure to drop or withdraw properly from a course does not preclude the instructor from submitting a grade for the student on the basis of the work previously submitted.

An instructor may request the dean of the appropriate academic unit to withdraw a student from a course because the student’s behavior disrupts the conduct of the course. Students have the right to appeal such withdrawals.

**Academic Assistance for Students with Disabilities**

Graduate students who have a documented disability may be eligible for reasonable accommodations, academic assistance, or academic adjustments. Students who need any form of academic assistance must contact the Office of Disability Support Services. Reasonable accommodations are determined individually by the Office according to documented need. Some of the more typical accommodations are: extended time testing, private room for testing, readers and/or scribes for exams, note-takers, books on tape, enlarged-print textbooks and class materials, sign language interpreters for students who are deaf or hard of hearing, and handicapped parking permits. In addition, assistive technology is available for students with disabilities (for example, the Kurzweil reading machine located in the library). The Office of Disability Support Services also arranges for such accommodations as: modified residence hall facilities, accessible classroom seating, and classroom relocation to accessible sites.

To apply for accommodations, the student must complete the Petition for Reasonable Accommodations and Academic Adjustment form, the Consent for Release of Information form, and provide recent, valid disability documentation from a qualified professional. Guidelines for disability documentation are available at the Office of Disability Support Services.

**Final Examinations**

Final examinations are an important part of the institutional program and a gauge of course achievement. Finals for fall and spring semesters are held at the close of the semester. Examination times are scheduled by the Registrar and announced in the Directory of Classes. Instructors indicate their final examination requirements on syllabi or announcements distributed during the first week of class. If a course does not require a final examination, appropriate course-related activity will be substituted at the scheduled time during finals week. Classes may not meet at other times during finals week without written consent of the appropriate academic dean.

Final examinations for summer courses are normally held during the last regularly scheduled class meeting.

Students are advised that:

- No final examinations will be administered to an individual or group before the last official class meeting;
- No instructor may increase the time allowed for a final examination beyond the scheduled two hours;
- No instructor may change the time or date of the final examination;
- No student may be required to take more than two final examinations during one calendar day. Students with more than two examinations on one calendar day should
go to the office of the appropriate academic dean;

- Postponed examinations may be requested only by students who are seriously ill or who have more than two examinations in one day;
- Postponed examinations will be held only during the first week of the following term;
- Instructors must offer a make-up examination to all students who were excused from the final examination because of illness or because of conflict with other examinations;
- All students must be allowed to see their graded finals;
- Access to graded finals should be ensured for a period of one semester after the examination was completed;
- Completed and graded finals may not be left in public places for retrieval by students.

**Grades**

Grades represent the instructor’s evaluation of student competencies and course performance. Grades assigned by Adelphi instructors conform with University standards, policies, and procedures. Each instructor will inform students of applicable grading standards for a course. Students may review the material submitted to the instructor for evaluation, such as that student's papers and examinations. At the end of each semester, grades are given in semester courses. Instructors submit grades to the University Registrar at the end of each term. Grades are mailed to students by the Registrar after the close of each term, provided they have no outstanding financial obligations with the University.

**Grading System**

Adelphi has a letter grading system. Passing grades for graduate students, in rank order, are A, B, C, and P (Pass). Failing grades are designated with F*. Other designations include:

**What Grades Signify**

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Quality Range</th>
<th>Grade Points (per credit hours)</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>Superior mastery of facts and principles; clear evidence that stated course objectives and requirements were met by the student.</td>
<td>4.0</td>
</tr>
<tr>
<td>A</td>
<td>3.7</td>
<td></td>
</tr>
<tr>
<td>A–</td>
<td>3.7</td>
<td></td>
</tr>
<tr>
<td>B+</td>
<td>Above average mastery of facts and principles; evidence that stated course objectives and requirements were met by the student.</td>
<td>3.3</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
<td></td>
</tr>
<tr>
<td>B–</td>
<td>2.7</td>
<td></td>
</tr>
<tr>
<td>C+</td>
<td>Average mastery of facts and principles; some evidence that stated course objectives and requirements were met by the student.</td>
<td>2.3</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
<td></td>
</tr>
<tr>
<td>C–</td>
<td>1.7</td>
<td></td>
</tr>
<tr>
<td>F</td>
<td>No mastery of facts and principles; little evidence that stated course objectives and requirements were met by the student.</td>
<td>0.0</td>
</tr>
</tbody>
</table>

* The School of Business does use a D designation.

**Computing the Grade-Point Average (G.P.A.)**

*Earned Hours* are credit hours awarded to the student for successful completion of academic course work or its equivalent. *Attempted Hours* are the number of credit hours actually registered for by a student, except for audited courses and those from which one has been officially dropped. *Quality Points* are computed by multiplying the grade points per hour by the credit hours of the course. For example, a B in a 3 credit undergraduate course would generate 9.90 quality points. *Quality Hours* are all graded credits taken at Adelphi University.
No points are given for the P grade, and the P is not computed in either the semester or the cumulative G.P.A. A failing grade is recorded and computed as an F. For each semester’s work, a semester’s G.P.A. is computed as follows:

The total number of quality points earned is divided by the total number of quality hours. For example,

\[
\begin{align*}
\text{45 Quality Points} & \div \\
\text{15 Quality Hours} & = 3.000 \text{ G.P.A.}
\end{align*}
\]

A student who has received advanced placement credit and/or transfer credit will have the cumulative G.P.A. computed on the basis of total quality hours at Adelphi.

**Grade Changes**

Students who believe their grades are incorrect or unfair should:

- Discuss their course work with the instructor;
- Review with the course instructor the grading policies for the course;
- If still dissatisfied, disputes concerning grades shall be addressed and initially resolved by the chair of the department offering the course;
- If still dissatisfied, students should bring their concerns to the dean of the school responsible for the course;
- Resolutions by the chair or the dean shall be subject to review by the Provost. In the absence of any prior resolution, the Provost may act to resolve grade disputes.

A grade may be changed only if there is unequivocal evidence that it was the direct result of arbitrary and capricious conduct on the part of the instructor, or because of mathematical or mechanical errors in scoring examinations.

**Other Transcript Designations**

**AU** (Audit) Students who are auditors register for the course, pay the regular tuition, but do not receive a grade.

**I** (Incomplete) The student has not completed the course requirements by the end of the semester and has obtained permission from the instructor to take additional time to complete the course work. *Conditions:* The designation of Incomplete (I) rather than a regular letter grade may be used by instructors only if a student has been excused from the completion of course requirements because of illness or other exceptional, compelling circumstances. *Students may have no more than one calendar year after the end of the semester in which the grade was given to resolve Incompletes.* Unresolved Incompletes convert to Fs after this time. This then becomes the final grade.

**IP** The IP grade shall only be used for completion of continuing graduate research and theses.

**W** (Withdrawal) is issued by the Office of the Registrar when the student has officially withdrawn from a course with the instructor’s written consent. This procedure is accomplished only on official University Action Request forms. W is not computed in the G.P.A. (See the section in this *Bulletin* titled “Withdrawing from Courses.”)

**Leaves of Absence**

Graduate degree candidates who find it necessary to interrupt their education for a period exceeding one year’s time must request in writing a leave of absence from their chair and dean. Without such notice, students will be dropped
from the official roster of degree candidates. Reinstatement to active degree candidacy after a year's absence requires the payment of a special fee. The Derner Institute of Advanced Psychological Studies rarely grants a second year.

Withdrawal from the University

In cases of withdrawal for other than medical reasons, students should notify the Office of Academic Services and Retention and the dean of the pertinent school in writing without delay. Medical withdrawal from the University should be sought in writing from the Office of Academic Services and Retention. The date of receipt of the written request determines the refunds or financial obligations.

The University reserves the right to request and enforce the withdrawal at any time of a student whose quality of academic performance or conduct is unsatisfactory.

Withdrawal for Medical Reasons

Students requesting a medical withdrawal must submit the appropriate medical documentation and a letter requesting a medical withdrawal to the Office of Academic Services and Retention. This must be done during the semester for which the leave is requested. Students approved for medical withdrawal will have a credit posted to their account to be applied toward future semesters. All unused credits will be forfeited within one year of issuance and tuition and fee charges will not be refunded. Students wishing to return after a Medical Withdrawal must submit medical documentation clearing them for return to the Office of Academic Services and Retention.

Readmission

Readmission to the University is sought in writing from the dean of the appropriate school or college and is subject to the particular readmission policies of that graduate program.

Conferring of Degrees

Degrees are conferred in May, August, or January. The formal conferring of degrees takes place annually at Commencement in May. Students who are awarded degrees in August or January may attend Commencement the following May.

All students must apply for graduation. For January graduates, applications must be filed with the Registrar on or before the last Friday in September; for May graduates, on or before the second Friday in October; for August graduates, on or before the first Friday in June.

Students who have completed degree requirements but who have not applied for graduation will not receive a diploma nor will the degree be conferred. Students who have applied for graduation but who have been assigned Incomplete grades for course work taken in the final semester may attend the commencement exercises but will not be awarded degrees nor receive diplomas at the commencement ceremonies. Students in this category may be awarded their degrees and receive their diplomas if the Registrar's Office receives written notification of the removal of the Incomplete grade or grades prior to:

- June 30 for May graduates;
- September 30 for August graduates;
- February 28/29 for January graduates.

Changes in grade, other than Incompletes, received after the official date for the awarding of degrees will be entered on the student's record with the date of receipt and will be computed in the student’s grade-point average.

Diplomas

Students who graduate are mailed diplomas certifying that all degree requirements have been met. Adelphi University will not issue diplomas to students who have outstanding financial obligations with the University.

VISITING FACULTY

BARBARA FISCHKIN, Visiting Professor of Journalism, B.A., SUNY at Albany.

MICHAEL HUME, Visiting Professor of Music, B.A., Georgetown University; M.M. (1989), Mannes College of Music

DENNIS PARSONS, Visiting Assistant Professor of Education, B.A., M.A., College of Staten Island; Ph.D. (1999), New York University

JERILYN ZULLI, Visiting Professor of English, B.A., College of William and Mary; M.F.A., Adelphi University; Ph.D. (2001), George Washington University

UNIVERSITY PROFESSORS

JOSEPH VIGILANTE, University Professor, A.B., Temple University; M.S., D.S.W. (1968), Columbia University

DISTINGUISHED RESEARCH PROFESSORS

FREDERICK A. BETTELHEIM, Professor Emeritus of Chemistry and Distinguished Research Professor in the Natural Sciences, B.S., Cornell University; M.S., Ph.D. (1956), University of California at Davis

GEORGE STRICKER, Distinguished Research Professor of Psychology, B.A., University of Chicago; Ph.D. (1986), University of Rochester

CURRENT FACULTY

JUDITH ACKERHALT, Associate Professor of Nursing, B.S.N., Rutgers University; M.S., Adelphi University; Ed.D. (1986), Columbia University

ANAGNOSTIS AGELARAKIS, Associate Professor of Anthropology, B.A., M.S., Lund’s University, Sweden; M.Phil., Ph.D. (1989), Columbia University

HENRY F. AHNER, Professor of Physics, B.S., Polytechnic Institute of Brooklyn; M.S., Ph.D. (1968), New York University

DERON ALBRIGHT, Assistant Professor of Communications, B.A., Oberlin College; M.F.A. (1998), Temple University

RAYSA AMADOR, Associate Professor of Languages and International Studies, B.A., M.A., Ph.D. (1978), New York University

JACK ANGEL, Associate Professor of Accounting, B.B.A., Baruch College; M.S. (1978), Long Island University, C.W. Post College

LEONISA ARDIZZONE, Assistant Professor of Education, B.A., Ithaca College; M.Ed., Western Washington University; Ed.M., Columbia University; Ed.D. (2001), Columbia University

ALLAN ASHLEY, Professor of Management and Operations, B.S.E.E., Rensselaer Polytechnic Institute; M.S., Ph.D. (1971), Polytechnic Institute of Brooklyn

FRANK AUGUSTYN, Assistant Professor of Dance, York and McMaster University, National Ballet School (Canada) (1970)

REGINA AXELROD, Professor of Political Science, B.A., City College of New York; M.A., Wayne State University; Ph.D. (1978), City University of New York
LESTER B. BALTIMORE, Associate Provost, Associate Professor of History, A.B., Hiram College; A.M., Ph.D. (1968), University of Missouri

ADITI BANDYOPADHYAY, Associate Professor; Science Librarian, B.S., B.L.S., M.S., Ph.D. (1992), University of Calcutta

JUDITH BAUMEL, Associate Professor of English, B.A., Radcliffe College, Harvard University; M.A. (1978), Johns Hopkins University

RICHARD BELSON, Associate Professor of Social Work, B.S., Tufts University; M.H.L., Jewish Theological Seminary; M.S.W., D.S.W. (1977), Adelphi University

RONI BERGER, Associate Professor of Social Work, B.S.W., M.S.W., Ph.D. (1993), Hebrew University of Jerusalem

STEPHEN BLOCH, Associate Professor of Mathematics and Computer Science, B.S., Virginia Technical University; M.S., Ph.D. (1992), University of California at San Diego

STEFNI BOGARD, Assistant Professor of Nursing, B.S.N., SUNY at Stony Brook; M.S.N. (1986), University of Pennsylvania

ELLEN BOGOLUB, Associate Professor of Social Work, B.A., University of Chicago; M.S.W., New York University; Ph.D. (1986), Rutgers University

KATHLEEN B. BOND, Professor of Nursing; Dean, School of Nursing; Special Advisor to the President for Health Programs, B.S.N., University of Alabama; M.S.N., Case Western Reserve University; Ed.D. (1978), University of Alabama

ROBERT EMMETT BRADLEY, Associate Professor of Mathematics and Computer Science, B.Sc., Concordia University; B.A., Oxford University; M.Sc., Ph.D. (1989), University of Toronto

YULY BRODSKY, Associate Professor of Mathematics and Computer Science, M.S., Moscow State University; Ph.D. (1982), Institute of Terrestrial Magnetism Ionosphere and Radio Wave Propagation (Moscow)

WILMA S. BUCCI, Professor of Psychology, B.A., Swarthmore College; M.A., University of Michigan; Ph.D. (1975), New York University

CARL BUXBAUM, Associate Professor of Social Work, A.B., Hunter College; M.S.W. (1969), Adelphi University

JOAN CALLAHAN, Associate Professor of Communication Sciences and Disorders, B.A., Adelphi University; M.S., Columbia University; D.A. (1982), Adelphi University

ANICE CAMPAGNA, Associate Professor of Nursing, B.S., M.S., Adelphi University; M.Ed., Ed.D. (1996), Columbia University

GARY E. CANTRELL, Associate Professor; Performing Arts Librarian, University Archives, B.A., Furman University; M.L.S., Florida State University

NICHOLAS CARBO, Associate Professor of Spanish, B.A., Queens College; M.A., Ph.D. (1976), New York University

MARGARET CASSIDY, Assistant Professor of Communications, B.A., St. John’s University; M.A., Fordham University; Ph.D. (1996), New York University

DOMINICK CAVALLO, Professor of History; B.A., Ph.D. (1976), SUNY at Stony Brook

STEPHEN A. CAVALLO, Associate Professor of Communication Sciences and Disorders, B.S., SUNY at Oneonta; M.S., Ph.D. (1982), Columbia University

A. COOLIDGE CHURCHILL, Professor of Biology, A.B., Harvard University; M.S., Ph.D. (1968), University of Oregon
MICHAEL CIVIN, Assistant Clinical Professor of Psychology, A.B., Harvard College; M.A., University of Oregon; M.A., Ph.D. (1988), Adelphi University

ALAN COHEN, Assistant Professor of Special Education, B.A., City College, City University of New York; Ph.D. (1973), Hofstra University

JUDITH H. COHEN, Professor of Education, B.S., Queens College; M.S., Syracuse University; Ph.D. (1975), Hofstra University; J.D. (1988), Hofstra University

ANTHONY E. COK, Professor of Earth Science, B.S., City College of New York; Ph.D. (1970), Dalhousie University

GRACE M. CONWAY, Associate Professor of Accounting and Law, B.A., Queens College; M.A. (1977), New School for Social Research

JULIE COOPER ALTMAN, Assistant Professor of Social Work, B.A., Muskingum College; M.S.W., University of Michigan; Ph.D. (1999), University of Chicago

DEBORAH F. COOPERSTEIN, Professor of Biology, B.S., Cornell University; Ph.D. (1974), City University of New York

PETER C. COSTELLO, Associate Professor of Communications, B.A., Swarthmore College; M.A., Ph.D. (1981), New York University

REBECCA C. CURTIS, Professor of Psychology, B.S., Tulane University; M.A., Ph.D. (1973), Columbia University

MARSHA TYSON DARLING, Director and Associate Professor of African-American and Ethnic Studies, B.A., Vassar College; M.A., Ph.D. (1982), Duke University

HARRY C. DAVIES, Professor of Art, B.S., M.A., Columbia University; M.A. (1966), Adelphi University

ALTHEA DAVIS, Associate Professor of Nursing, B.S.N., CUNY School of Nursing; M.A., M.E.D., Ed.D. (1987), Columbia University

CAROL DIACKOW, Professor of Biology, B.S., City College of New York; M.S., Ph.D. (1969), New York University

JOHN P. DOOHER, Professor of Physics, B.E., M.S., Ph.D. (1965), Stevens Institute of Technology

JAMES K. DOOLEY, Professor of Biology, B.S., University of Miami; M.A., University of South Florida; Ph.D. (1974), University of North Carolina

MORRIS EAGLE, Professor of Psychology, B.S., M.A., City College of N.Y.; Ph.D. (1958), New York University

ANDREW EIG, Assistant Professor of Psychology, B.A., Wesleyan University; M.A., Ph.D. (1997), Adelphi University

RONALD S. FEINGOLD, Professor of Physical Education and Human Performance Science, B.S., University of Illinois; M.Ed., University of Arizona; Ph.D. (1972), University of New Mexico

VALERIE FEINMAN, Associate Professor; Reference Librarian, B.A., McMaster University; M.L.S., Syracuse University; M.B.A. (1989), Adelphi University

JUDY FENSTER, Assistant Professor of Social Work, B.A., Northwestern University; M.S.W., New York University; Ph.D. (2000), New York University

JANET FICKE, Assistant Professor of Physical Education and Human Performance Science, B.S., Adelphi University; M.S. (1966), Smith College
LEAH HOLLAND FIORENTINO, Assistant Professor of Education, B.A., SUNY at Stony Brook; M.A., Adelphi University; Ed.D. (1991), Teachers College, Columbia University

LARAIN FLETCHER, Associate Professor of Anthropology, B.A., Adelphi University; M.A., Ph.D. (1973), SUNY at Stony Brook

THOMAS FORBES, Associate Professor of Biology, B.A., University of Connecticut; M.S., Ph.D. (1989), State University of New York at Stony Brook

DIANA FOSHA, Assistant Clinical Professor of Psychiatry, B.A., Barnard College, Columbia University; M.A., Ph.D. (1982), City University of New York

RICHARD KEITH GARNER, Professor of Languages; Dean, Honors College, B.A., Princeton University; M.A., Harvard University; M.A., Ph.D. (1983), University of Chicago

MARTIN H. GARRELL, Professor of Physics, B.A., Princeton University; M.S., Ph.D. (1966), University of Illinois

MICHAEL GIVANT, Associate Professor of Sociology, B.A., M.A., City College of New York; Ph.D. (1971), City University of New York

DAVID GLEICHER, Associate Professor of Economics, B.A., St. John’s College; M.A., Ph.D. (1984), Columbia University

JEROLD R. GOLD, Professor of Psychology and Chair of the Undergraduate Program in Psychology, B.A., Queens College, City University of New York; Ph.D. (1980), Adelphi University

GERTRUDE S. GOLDBERG, Professor of Social Work, B.A., Vassar College; M.S., D.S.W. (1975), Columbia University

STEPHEN Z. GOLDBERG, Professor of Chemistry, A.B., Cornell University; M.S., Ph.D. (1973), University of California at Berkeley

ROBERT L. GOLDFARB, Senior Adjunct Faculty in Management and Communications, University College, B.B.A., Pace University; M.A., Adelphi University; M.B.A. (1982), Hofstra University

JEFFREY GOLSTEIN, Associate Professor of Management, B.A., University of Pennsylvania; M.A., Ph.D. (1980), Temple University

JOSEPH GRAY, Senior Adjunct Faculty of Management and Communications, University College, B.B.A., M.B.A. (1977), St. John’s University

STEPHEN A. GREENFIELD, Professor of Philosophy, B.A., St. Olaf College; M.Div., Luther Theological Seminary; Ph.D. (1972), Fordham University

SUE GREENFIELD, Assistant Professor of Nursing, B.S.N., Catholic University; M.S.N., Boston University; Ph.D. (1998), Adelphi University

GEOFFREY GROGAN, Assistant Professor of Art, Artist in Residence, B.F.A., SUNY at Purchase; M.F.A., M.S. (1996), Pratt Institute

RAKESH C. GUPTA, Assistant Professor of Management Science and Business Policy; Associate Dean, School of Business, B.S., St. Stephen's College, Delhi University; B.E., City College of New York; M.B.A. (1975), Baruch College

GREGORY GUTMAN, Professor of Marketing and Management, B.A., University of Buffalo; M.B.A. (1966), University of Pennsylvania

MARTIN R. HAAS, Associate Professor of History, A.B., Brooklyn College; A.M., Ph.D. (1974), Rutgers University
EUGENE HECHT, Professor of Physics, B.S., New York University; M.S., Rutgers University; Ph.D. (1967), Adelphi University

THOMAS F. HEFFERNAN, Professor of English, A.B., A.M., Fordham University; Ph.D. (1970), Columbia University

PIERRE M. HEGY, Associate Professor of Sociology, Ph.D. (1972), University of Paris

HARVEY J. HEINOWITZ, Assistant Professor of Banking, Economics, and Finance, B.A., Franklin and Marshall College; M.B.A. (1975), Adelphi University

LEONORE HELLER, Assistant Professor of Psychology; Director of the Master’s Program in Psychology, B.A., Adelphi University; M.A., Ph.D. (1995), St. John’s University; Postgraduate Certificate in Psychotherapy, Adelphi University

CECIL ST. GEORGE HENRY, Professor of Social Work, B.A., Blackburn College; M.A., Hunter College; M.S.S.W., M.Ed., Ed.D. (1977), Columbia University

DENNIS HIDALGO, Assistant Professor of History, B.A., Universidad Adventista de las Antillas; M.A., Western Illinois University; Ph.D. (2001), Central Michigan University

DENISE HIEN, Associate Professor of Psychology, B.A., Cornell University; M.S., M.Phil., Columbia University; Ph.D. (1992), Teacher’s College, Columbia University

MARK J. HILSENROTH, Associate Professor of Psychology, B.A., University of Akron; Ph.D. (1996), University of Tennessee

LAWRENCE J. HOBBIE, Associate Professor of Biology, B.A., Yale University; Ph.D. (1989), Massachusetts Institute of Technology

IVORY H. HOLMES, Associate Professor of Social Work, B.A., M.S.W., Rutgers University; Ed.M., Ed.D. (1981), Columbia University

ZHIMIN HUANG, Associate Professor of Production Analysis and Operations Management, B.S., Beijing Institute of Aeronautics and Astronautics; M.S., People’s University of China; Ph.D. (1991), University of Texas

MARYANNE HYLAND, Assistant Professor of Human Resource Management, B.B.S., Loyola College; M.H.R.M., A.B.D. (1999), Rutgers University

GAYLE DRANCH INSLER, Professor of Biology; Dean, College of Arts and Sciences, B.S., SUNY at Stony Brook; M.S., Ph.D. (1977), University of Massachusetts

JONATHAN JACKSON, Clinical Professor of Psychology; Director of Psychological Services, B.A., Williams College; M.A., Ph.D. (1981), New York University

JUDITH JOHNSTON, Associate Professor of Anthropology, B.A., M.A., University of Wisconsin; Ph.D. (1973), Harvard University

R. DAVID JONES, Associate Professor of Biology, B.S., M.S., Idaho State University; Ph.D. (1972), University of Texas

LAWRENCE JOSEPHS, Professor of Psychology, B.A., Rutgers College; Ph.D. (1981), University of Tennessee

PATRICIA A. JOYCE, Assistant Professor of Social Work, B.A., St. John’s College; M.S.W., Hunter College, City University of New York; Ph.D. (2001), Hunter College, City University of New York

PATRICK J. KELLY, Associate Professor of History, B.S., Holy Cross College; Ph.D. (1970), Georgetown University
KATHLEEN KELSON, Assistant Professor of Art Education, B.S./M.A. (1974), Case Western Reserve/Cleveland Institute of Art

MORTON KISSEN, Professor of Psychology, B.A., Brooklyn College; M.A., Ph.D. (1968), New School for Social Research

Marilyn KLAINBERG, Assistant Professor of Nursing, B.S., M.S., Adelphi University; Ed.D. (1994), Columbia University Teachers College

STEPHEN I. KLASS, Professor of English, B.A., Harvard University; M.A., Ph.D. (1966), Yale University

MARLYN McGARY KLEE, Associate Professor of Political Science, B.A., Wooster College; M.A.T., Johns Hopkins University; M.A., Ph.D. (1975), New York University

ESTHER KOGAN-FRENK, Assistant Professor of Education, B.S., The National Autonomous University of Mexico; M.A., Ed.D. (1997), Columbia University Teachers College

ALAN KREITZMAN, Assistant Professor of Accounting, B.S., Brooklyn College; M.B.A. (1969), Adelphi University

KATIE LAATIKAINEN, Assistant Professor of Political Science/International Studies, B.A. Washburn University; M.A., Ph.D. (2001), University of South Carolina

JOSEPH LANDESBERG, Professor of Chemistry, B.S., Rutgers University; M.A., Ph.D. (1965), Harvard University

BEVERLY LAWN, Professor of English, B.A., M.A., Adelphi University; Ph.D. (1970), SUNY at Stony Brook

SUSAN HENDLER LEDERER, Assistant Professor of Communication Sciences and Disorders, B.S., M.A., Ph.D. (1996), New York University

ROGER LEVIN, Associate Professor of Social Work, B.S., University of Wisconsin; M.S.W., Fordham University; M.P.A., Ph.D. (1988), New York University

SUSAN XIAOTIAN LI, Assistant Professor of Information Technology, B.S., The People’s University of China; Ph.D. (1992), University of Texas

ANTHONY F. LIBERTELLA, Professor of Management and Law; Dean of the School of Business; Dean of University College; Special Assistant to the President for Business Development, B.A., Iona College; M.A., Ph.D. (1972), The Ohio State University; J.D. (1978), St. John’s University School of Law

ROBERT LINNE, Assistant Professor of Education, B.A., University of Texas at Austin; M.A., Texas A & M University at Corpus Christi; Ph.D. (1998), University of Texas at Austin

KAREN LOMBARDI, Professor of Psychology, B.A., Sarah Lawrence College; M.A., Ph.D. (1980), New York University

DAVID LUBELL, Professor of Mathematics, B.S., Columbia University; Ph.D. (1960), New York University

RICHARD LUND, Professor of Biology, B.S., M.S., University of Michigan; Ph.D. (1968), Columbia University

DAVID MACHLIS, Associate Professor of Economics, B.B.A., Baruch College; Ph.D. (1971), Rutgers University

PATRICIA A. MARCELLINO, Assistant Professor of Education, B.A., Hunter College, City University of New York; M.B.A. Adelphi University; Ed.D.(2001), Hofstra University
TERESA MASCITTI, Assistant Professor of Nursing, B.S., M.S. CANP, Molloy College

ELAINE MASSAS, Associate Professor of Theater, A.A.S., Fashion Institute of Technology; B.F.A., Pratt Institute; M.A. (1983), New York University

PAUL MATTICK, JR., Professor of Philosophy, B.A., Haverford College; M.A., Ph.D. (1981), Harvard University

THOMAS McANULTY, Professor of Art, B.F.A., Philadelphia College of Art; M.F.A. (1976), Indiana University

ROBERT MENDELSOHN, Professor of Psychology, B.A., Hofstra University; M.S., University of Massachusetts; Ph.D. (1969), University of Massachusetts

WALTER MEYER, Professor of Mathematics, B.A., Queens College; M.S., Ph.D. (1969), University of Wisconsin

SUNG MOON, Professor of Chemistry, B.S., University of Illinois; Ph.D. (1959), Massachusetts Institute of Technology

PAUL MORAVEC, Professor of Music, B.A., Harvard University; M.A., Columbia University; D.M.A. (1987), Columbia University

ANNE MUNGAI, Assistant Professor of Education, B.Ed., University of Nairobi; M.A., Ph.D. (1997), Michigan State University

JAMES B. MULLIN, Assistant Professor of Social Work, B.A. Siena College; M.S.W., Syracuse University; D.P.A., (1979), New York University

FLORENCE L. MYERS, Professor of Communication Sciences and Disorders, B.A., University of Maryland; M.S., Ph.D. (1976), Pennsylvania State University

SAMUEL M. NATALE, Professor of Management and Business Policy, B.A., La Salle College; M.A., University of Maryland; D.Phil. (1971), University of Oxford

EUGENE T. NEELY, Professor; Dean of University Libraries, A.B., Davidson College; M.S. (1964), University of North Carolina

JOSEPH W. NEWIRTH, Associate Professor of Psychology, B.A., City College of New York; M.S., Ph.D. (1970), University of Massachusetts

WILLIAM J. NILES, Assistant Professor of Education, B.A., M.S., St. John's University; Ph.D. (1982), Fordham University

VICTOR T. OLIVA, Assistant Professor; Government Documents-Reference Librarian, B.A., M.A. (1977), City College of New York; M.L.S., Pratt Institute

MICHAEL O'LOUGHLIN, Assistant Professor of Educational Psychology, B.A., University College, Dublin, Ireland; M.A., Columbia University; Ph.D. (1988), Columbia University

RICHARD OLSEN, Professor of Philosophy, B.S., Union College; M.A., Ph.D. (1971), Brown University

ROBERT OTTO, Professor of Physical Education and Human Performance Science, B.S., SUNY College at Cortland; M.A. T., University of North Carolina; Ph.D. (1977), Ohio State University

ELAINE PASQUALI, Professor of Nursing, B.S., M.S., Adelphi University; M.A., Ph.D. (1982), SUNY at Stony Brook

JAYEN PATEL, Assistant Professor of Finance, B.Com., University of Bombay; M.B.A., M.S.B.A., D.B.A. (1994), Mississippi State University
COLEMAN PAUL, Professor of Psychology, B.A., Western Maryland College; M.A., MacMurray College; Ph.D. (1962), Wayne State University

HELmut ROBERT PEREZ, Associate Professor of Physical Education and Human Performance Science, B.S., Brooklyn College; M.S., Ph.D. (1977), Florida State University

NICHOLAS PETRON, Professor of Theater, B.A., Kansas Wesleyan University; M.A. (1969), Adelphi University

SUSAN J. PETRY, Professor of Psychology, B.A., University of Maryland; Ph.D. (1974), Columbia University

LOUIS H. PRIMAVERA, Professor of Psychology; Dean of the Gordon F. Derner Institute of Advanced Psychological Studies, B.A., St. John’s University; M.A., Queens College; Ph.D. (1973), City University of New York

SALVATORE PRIMEGGIA, Professor of Sociology, B.A., M.A., Adelphi University; Ph.D. (1974), New School for Social Research

MOLLY QUINN, Assistant Professor of Education, B.A., Ph.D. (1997), Louisiana State University

WILLIAM QUIRIN, Professor of Mathematics, B.S., St. Peter’s College; M.S., Ph.D. (1969), Rutgers University

G. N. RAO, Professor of Physics, B.S., Andhra University; M.S.C., Ph.D. (1963), Aligarh University

LAWRENCE J. RAPHAEL, Associate Professor of Communication Sciences and Disorders, B.A., M.A., Queens College; Ph.D. (1970), City University of New York

ELAYNE A. RAPPING, Professor of Communications, B.A., University of California at Los Angeles; M.A., Ph.D. (1970), University of Pittsburgh.

CHARLES ROGER REES, Professor of Physical Education and Human Performance Science, B.Ed., University of London; M.A., Ph.D. (1977), University of Maryland

MARY E. REEVES, Assistant Professor of Education, B.S., M.A., Louisiana State University; Ph.D. (1993), Louisiana State University

CAROLE RHODES, Associate Professor of Education, B.A., M.A., Brooklyn College; Ph.D. (1990), New York University

SALLY RIDGEWAY, Associate Professor of Sociology, B.A., William Smith College; M.A., University of Connecticut; Ph.D. (1975), City University of New York

J. JULIAN RIVERA, Associate Professor of Social Work, B.A., Inter-American University of Puerto Rico; M.S.W. (1964), University of Puerto Rico

GLORIA GRANT ROBERSON, Associate Professor; Reference Librarian, B.S., Adelphi University; M.L.S., Long Island University, C.W. Post College; M.S. (1988), Adelphi University

BRIAN ROSE, Associate Professor of Theater, M.A., Queens College; Ph.D. (1993), Ohio State University

ELLEN ROSENBERG, Associate Professor of Social Work, B.A., Queens College; M.S.W., New York University; D.S.W. (1981), Columbia University

ALVIN ROSENSTEIN, Professor of Marketing, A.B., University of Michigan; M.A., Ph.D. (1958), University of Illinois
PATRICK L. ROSS, Professor of Psychology; Associate Dean, Gordon F. Derner Institute of Advanced Psychological Studies, B.A., University of Toronto; Ph.D. (1966), Johns Hopkins University

STEPHEN S. RUBIN, Assistant Professor of Special Education, B.S., State University of New York at Oswego; M.A., University of South Dakota; Ph.D. (1995), University of Illinois at Urbana-Champaign

DAVID RUBINSTEIN, Associate Professor of History, B.A., M.A., Ph.D. (1978), New York University

REUBEN RUDMAN, Professor of Chemistry, B.A., Yeshiva University; Ph.D. (1966), Polytechnic Institute of Brooklyn

GEORGE K. RUSSELL, Professor of Biology, B.A., Princeton University; Ph.D. (1963), Harvard University

MARYBETH RYAN, Associate Professor of Nursing, B.S., Hunter College; M.S., Adelphi University; Ph.D. (1985), Hofstra University

ELAINE S. SANDS, Associate Professor of Communication Sciences and Disorders; Dean of the School of Education, B.A., Brooklyn College; M.S., University of Michigan; Ph.D. (1977), New York University

ROBERT ALLYN SCOTT, University President and Professor of Sociology and Anthropology, B.A., Bucknell University; Ph.D. (1975), Cornell University

JANET R. SCHOEPFLIN, Assistant Professor of Communication Sciences and Disorders, B.A., Pennsylvania State University; M.A., Temple University; Ph.D. (1997), City University of New York

HERBERT SCHWARZ, Assistant Professor of Social Work, B.A., Brooklyn College; M.S.W. (1969), Yeshiva University

YULA CHERPELIS SERPANOS, Associate Professor of Communication Sciences and Disorders, B.A., St. John's University; M.S., Ph.D. (1994), Columbia University

CHARLES S. SHOPSIS, Associate Professor of Chemistry; Associate Dean, College of Arts and Sciences, B.A., Brooklyn College; M.A., Queens College; Ph.D. (1974), City University of New York

ROBERT SIEGFRIED, Associate Professor of Mathematics and Computer Science, A.B., M.S., Columbia University; M.A., Brooklyn College; Ph.D. (1983), University of Minnesota

MARGARET SILVER, Assistant Professor of Nursing, B.S., Adelphi University; M.Ed. (1972), Columbia University

LOUISE SKOLNIK, Associate Professor of Social Work; A.B., University of Michigan; M.S.W., D.S.W. (1989), Adelphi University

DARKO SKORIN-KAPOV, Associate Professor of Information Technology, B.S., M.S., University of Zagreb; Ph.D. (1989), University of British Columbia

DALE T. SNAUWAERT, Associate Professor of Education, A.B., University of Illinois at Chicago; Ph.D. (1990), University of Illinois at Urbana-Champaign

STANLEY SNEGROFF, Associate Professor of Health Studies, B.S., Long Island University, Brooklyn; M.S., Hunter College; Ed.D. (1974), Columbia University

BROOKE E. SPIRO, Associate Professor of Social Work; Acting Dean of the School of Social Work; B.A., Barnard College; M.S.W., Adelphi University; D.S.W. (1982), Columbia University
ARMSTRONG M. STARKEY, Professor of History; B.A., Hiram College; M.A., Ph.D. (1968), University of Illinois

JANICE M. STEIL, Professor of Psychology; B.A., University of Massachusetts; Ed.M., Boston University; Ph.D. (1979), Columbia University

RUTH STERNGLANTZ, Assistant Professor of English; B.A., Brooklyn College; M.A., Ph.D. (1998), New York University

HELEN STRITZLER, Associate Professor of Communications; B.A., Adelphi University; M.A. (1975), New York University

LAWRENCE R. SULLIVAN, Associate Professor of Political Science; B.S., University of Missouri; Ph.D. (1976), University of Michigan

CAROL SUSSAL, Associate Professor of Social Work; B.S., M.A., M.S.W., D.S.W. (1978), Adelphi University

R. BRUCE SWENSEN, Assistant Professor of Banking and Finance; B.S., University of Rochester; M.B.A., Ph.D. (1987), New York University

KATE SZYMANSKI, Associate Professor of Psychology; M.A., Warsaw University; M.A., Ph.D. (1988), Northeastern University

JERRY TARTAGLIA, Assistant Professor of Communications, Film and Video; B.A., Albright College; M.A. (1989), San Francisco State University

ELLEN MORRIS TIEGERMAN, Associate Professor of Psychology; B.A., M.S., Brooklyn College; Ph.D. (1979), City University of New York

MARIANO TORRAS, Assistant Professor of Economics; B.S., New York University; M.A., Fordham University; A.B.D. (1999), University of Massachusetts

ARLENE TROLMAN, Associate Professor of Nursing; B.S., M.S., Adelphi University; M.Ed., Ed.D. (1984), Columbia University

KIRKLAND VAUGHANS, Assistant Clinical Professor of Psychology; B.A., University of Illinois Chicago Circle; M.A., Ph.D. (1985), Adelphi University

RICHARD VAUX, Professor of Art; B.F.A., Miami University; M.F.A. (1969), Northern Illinois University

MARIE-LOUISE VAZQUEZ, Professor of French; A.B., Hunter College; M.A. (1962), Columbia University

DANIEL A. VERREANLT, Associate Professor of Accounting; B.A., University of Massachusetts; M.S.A., Northeastern University; Ph.D. (1984), Texas A&M

JOHN VETTER, Assistant Professor of Anthropology; B.A., University of Michigan; M.A. (1969), New York University

STEPHEN VIRGILIO, Associate Professor of Physical Education and Human Performance Science; B.S., University of Tampa; M.A., Adelphi University; Ph.D. (1979), Florida State University

NARAYAN VISWANATHAN, Professor of Social Work; B.A., Nagpur University; M.A., Delhi University; M.S., D.S.W. (1961), Columbia University

WINSTON WATERS, Associate Professor of Business Administration; B.A., Syracuse University; J.D. (1981), Seton Hall University
IGOR WEBB, Professor of English, B.A., Tufts University; M.A., Stanford University; Ph.D. (1971), Stanford University

BENJAMIN SAMUEL WEEKS, Assistant Professor of Biology, B.A., Skidmore College; Ph.D. (1988), University of Connecticut

LINDA WEINBERG, Assistant Professor; Catalog Librarian, B.A., Brooklyn College; M.L.S., Queens College; M.A. (1985), Adelphi University

JOEL WEINBERGER, Associate Professor of Psychology, B.A., SUNY at Stony Brook; M.A., SUNY at Brockport; Ph.D. (1983), New School for Social Research

SUSAN WEISSER, Professor of English, B.A., Brooklyn College; M.A., Northwestern University; Ph.D. (1987), Columbia University

JANICE WOOD WETZEL, Professor of Social Work, B.S., M.S.W., Ph.D. (1976), Washington University in St. Louis

SHANNON WHALEN, Assistant Professor of Health Studies, B.S., University of Delaware; M.A., New York University; M.S., Ed.D. (1999), Columbia University

JULIAN WILDER, Assistant Professor of Education, B.S., M.A. (1956), New York University

HUGH A. WILSON, Associate Professor of Political Science, B.A., Howard University; M.S.W., Fordham University; D.S.W. (1995), Adelphi University

W. CODY WILSON, Professor of Social Work, B.A., University of Arkansas; M.A., University of Denver; Ph.D. (1961), Harvard University

CATHERINE WINDWER, Professor of Nursing, B.S., College of Mt. Saint Vincent; M.A., Ph.D. (1976), New York University

STANLEY WINDWER, Professor of Chemistry, B.S., Brooklyn College; M.S., Stevens Institute; Ph.D. (1960), New York University

JEAN WINTER, Associate Dean of the School of Nursing; Assistant Professor of Nursing, B.S.N., Long Island University, C.W. Post College; M.S., Adelphi University; Ed.D. (1988), Columbia University

JACOB WISSE, Assistant Professor of Art History, B.A., McGill University; M.A., Ph.D. (1999) New York University

CARYLE G. WOLAHLAN, Professor of Nursing, B.S., Wagner College; Ed.M., Ed.D. (1979), Columbia University

LORI B. WOLF, Assistant Professor of Education, B.A., State University of New York at Albany; M.A., Columbia University; Ph.D. (2001), New York University

SIMON YANG, Assistant Professor of Accounting, B.S., National Taiwan University; M.S., Yang Ming Medical College; M.B.A., M.S., Ph.D. (1999), University of Houston

CRISTINA ZACCARINI, Assistant Professor of History, B.A., Queens College, M.A., Adelphi University; Ph.D. (1999) SUNY at Stony Brook

EMILIA P. ZARCO, Assistant Professor of Health Studies, A.B., West Visayas State University, Philippines; M.Ed., University of the Philippines; M.D. (1971), West Visayas State University
Emeriti

DISTINGUISHED EMERITUS

FREDERICK A. BETTELHEIM, Ph.D.
Professor of Chemistry; Distinguished University Research Professor of Natural Sciences

ADMINISTRATORS EMERITI

JOSEPH CRAFA, M.S.
Dean Emeritus

NORA GALLAGHER, B.L.S.
Professor Emeritus of the Library

RUTH S. HARLEY, M.A., L.H.D.
Dean of Women Emeritus

FACULTY EMERITI

DONALD B. ALBERT, Ph.D.
Professor of Physics

HAROLD J. ALLEN, Ph.D.
Professor of Philosophy

DAVID H. ARBEIT, Ph.D.
Professor of Business Administration

HELEN M. ARNOLD, Ph.D.
Professor of Nursing

SYLVIA ARON, M.S.W.
Professor of Social Work

NORMAN D. ASHCRAFT, Ph.D.
Professor of Anthropology

FRED BARBARO, Ed.D.
Professor of Social Work

GLORIA BECKERMAN, M.F.A.
Professor of English

GEORGE B. BENNER, M.A.
Professor of Education

HARRY BERNSTEIN, M.A.
Professor of Dance

EDMUND D. BRODIE, JR., Ph.D.
Professor of Biology

PATRICIA BROWN, Ph.D.
Professor of Education

JACQUES O. BURDICK, Ph.D.
Professor of Theater

WILLIAM CANFIELD, Ed.D.
Professor of Speech Arts

GRACE CANTONE, M.A.
Professor of Art

JOSEPH M. CASSIN, Ph.D.
Professor of Biology

NORMA CATTANACH, Ph.D.
Professor of Education

ABRAHAM COHEN, Ph.D.
Professor of Psychology

MARIE E. CONKLIN, Ph.D.
Professor of Biology

WILLIAM L. CURRY, Ph.D.
Professor of English

ROSALIE F. D'AMELIO, Ed.D.
Professor of Nursing

ERICA DOCTOROW, M.L.S.
Professor; Fine Arts Librarian

ALLEN DON, Ph.D.
Professor of Administrative Sciences

GERALD EDWARDS, Ed.D.
Professor of Health Studies
RITA EDWARDS, M.L.S.  
Professor of Library Science

ROBERT ENDELMEAN, Ph.D.  
Professor of Sociology

PETER PAUL FARLEY, Ph.D.  
Professor of English

HONORA K. FARRELL, M.A.  
Professor of Nursing

MARTIN N. FISHER, Ph.D.  
Professor of Psychology

EVA FRIEDMAN, Ph.D.  
Professor of Language

GUNTHER R. GEISS, Ph.D.  
Professor of Business

RICHARD GENBERG, Ph.D.  
Professor of Physics

SALLY E. GOCHEANAUR, Ph.D.  
Professor of Biology

RUTH F. GOLD, Ed.D.  
Professor of Education

MILTON GOLDSTEIN, M.A.  
Professor of Art and Art History

DAVID S. GORFEIN, Ph.D.  
Professor of Psychology

JEAN GRAUBERT, Ph.D.  
Professor of Psychology

MARTIN GREENE, D.S.W.  
Professor of Social Work

RAMON S. GRILLO, Ph.D.  
Professor of Biology

LAWRENCE GROSSMAN, D.S.W.  
Professor of Social Work

HELEN M. HACKER, Ph.D.  
Professor of Sociology

DONALD HAMMER, Ed.D.  
Professor of Mathematics

MORGAN Y. HIMELSTEIN, Ph.D.  
Professor of English

SALLY L. HOBSON, Ph.D.  
Professor of Psychology

JONATHAN P. E. HODGSON, Ph.D.  
Professor of Mathematics

SHEILA K. HOLLANDER, Ph.D.  
Professor of Education

GIDEON HOROWITZ, Ph.D.  
Professor of Social Work

JACQUELINE ROSE HOTT, Ph.D.  
Professor of Nursing

WARREN P. JENNERJAHN, M.A.  
Professor of Art

DORIS CAPRA JOHNSON, B.A.  
Professor of Library Science

ROBERT N. JOHNSON, Ph.D.  
Professor of Political Studies

BARBARA JOYCE, Ph.D.  
Professor of Nursing

BERT KAPLAN, Ed.D.  
Professor of Social Work

LENARD B. KATES, D.S.W.  
Professor of Social Work

ANNE R. KING, Ph.D.  
Professor of English

PHILIP M. KITAY, Ph.D.  
Professor of Psychology

How to Reach the Adelphi
Garden City Campus

By Airplane:
From John F. Kennedy Airport — Take the JFK Expressway to the Belt Parkway East. Take the Belt Parkway to the Southern State Parkway. Then follow the Southern State Parkway directions below.

From LaGuardia Airport — Take the Grand Central Parkway East; this becomes Northern State Parkway. From here follow the directions below for Northern State Parkway East.

By Train:
Travel time from NYC is approximately 45 minutes. Take the Hempstead line from Penn Station in Manhattan or the Flatbush Avenue Station in Brooklyn or the Jamaica Station in Queens to the Nassau Boulevard Station in Garden City. The campus is a short walk east on South Avenue.

By Car:
Via the Long Island Expressway (Route 495)
Traveling east — Take the L.I.E. to exit 34 south (New Hyde Park Road). At the first traffic light, turn right onto New Hyde Park Road. Continue south on New Hyde Park Road for 3.2 miles. Turn left onto Stewart Avenue. At the fourth light, turn right onto Nassau Boulevard. Turn left onto South Avenue (immediately after crossing the railroad tracks). The Adelphi campus is on the right.

Traveling west — Take the L.I.E. to exit 39 south (Glen Cove Road). Travel south for four miles (the road will change from Guinea Woods Road to Glen Cove Road to Clinton Road). Turn right onto Stewart Avenue go one mile and turn left onto Hilton Avenue. Turn right onto Sixth Street (immediately after crossing the railroad tracks). Continue onto South Avenue. The Adelphi campus is on the left.

Via the Northern State Parkway
Traveling east — Take the Northern Parkway to exit 26 south (New Hyde Park Road). Turn right onto New Hyde Park Road. Continue south on New Hyde Park Road for three miles. Turn left onto Stewart Avenue. At the fourth light, turn right onto Nassau Boulevard. Turn left onto South Avenue (immediately after crossing the railroad tracks). The Adelphi campus is on the right.

Traveling west — Take the Northern Parkway to exit 31 south (Glen Cove Road). Continue south on Glen Cove Road (which turns into Clinton Road) for 2.3 miles. Turn right onto Stewart Avenue. Go one mile and turn left onto Hilton Avenue. Turn right onto Sixth Street (immediately after crossing the railroad tracks). Continue onto South Avenue. The Adelphi campus is on the left.

Via the Southern State Parkway — Take the Southern Parkway to exit 17 north (Hempstead Avenue). Continue on Hempstead Avenue traveling north. Make a left at the second traffic light (Nassau Boulevard). Continue north for 2.5 miles to the ninth traffic light. Make a right turn onto South Avenue (immediately before crossing the railroad tracks). The Adelphi campus is on the right.
Directions to Adelphi University’s Manhattan Center

Adelphi University’s Manhattan Center is located in SoHo at 75 Varick Street, 2nd Floor, New York, NY 10013 at the corner of Varick and Canal streets.

By Subway:
Take the No. 1 or 9 (Seventh Avenue local) train to the Canal Street stop. The stop is right at the corner of Canal and Varick streets. Using the Eighth Avenue subway, take the A/C/E train to the Canal Street stop which is at the corner of 6th Avenue and Canal. Walk two blocks west to Varick Street and one block north to the main entrance. The L train also runs in Manhattan on 14th Street; take it to the 6th Avenue stop and transfer to the No. 1 or 9 trains heading downtown.

By Bus:
The M10 bus stops directly in front of the Center. Connections for the M10 can be made with any intersecting service on Seventh Avenue heading downtown, and Eighth Avenue heading uptown.

By LIRR or NJ Transit:
Take the train into Penn Station, New York, and follow the subway directions above.

By Car:
Adelphi University’s Manhattan Center is located in SoHo on the west side of Manhattan on Varick Street [one way heading downtown (South)] at Canal. Traveling west on Delancey or Houston Streets, make a left turn on Varick Street and head downtown. Traveling on Canal Street, make a right onto Sixth Avenue. Proceed two blocks until Watts Street. Make a left turn, go one block, and make next left onto Varick Street.

Directions to Adelphi University’s Huntington Center

Via Northern State Parkway:
Exit 41 (Wolf Hill Road) from the East turn right, from the West turn left. Continue to second light (five corner intersection) bear right onto Pidgeon Hill Road. Adelphi campus is at 165 Pidgeon Hill Road.

Via Long Island Expressway East:
Exit 49 North (Huntington) Route 110. Proceed four lights to Old Country Road. Make a right. Take Old Country Road for two lights then make a left onto Pidgeon Hill Road (St. Anthony’s H.S. is on your left). Proceed 1/2 mile on Pidgeon Hill Road to Adelphi.

Via Long Island Expressway West:
Exit 49 North (Huntington) continue to exit light (Pinelawn Road). Make a right. Go to the next light Route 110 and make another right. Proceed to next light (Old Country Road) and make a right turn. Take Old Country Road for two lights then make a left turn onto Pidgeon Hill Road (five corner intersection). St. Anthony’s H.S. should be on your left. Proceed 1/2 mile on Pidgeon Hill Road to Adelphi.
